ForwardHealth

Diagnosis Code-Restricted Pharmacy-Dispensed Drugs

The table below lists drugs that are subject to diagnosis restrictions for both compound and non-compound pharmacy claims. ForwardHealth allowed diagnoses are provided for each drug. The prescriber-identified diagnosis for the member must be included on the claim. Providers should refer to the Drug Search Tool for additional drug coverage requirements, such as prior authorization (PA), Brand Medically Necessary (BMN), or Brand Before Generic (BBG).

If the prescriber writes a prescription with a diagnosis outside the ForwardHealth-allowed diagnoses for a drug, the prescriber is required to submit peer-reviewed medical literature to support the proven efficacy and safety of the requested use of the drug. Documentation of previous treatments and detailed reasons why other covered drug treatments were discontinued or not utilized are required. Medical records should be provided as necessary to support the PA request. This information should be documented on the Prior Authorization/Drug Attachment (PA/DGA), F- 11049 (10/13), in Section V (Clinical Information for Diagnosis-Restricted Drug Requests).

When completing the PA/DGA, prescribers should provide the diagnosis code and description, complete Section V, and use Section VIII (Additional Information), if needed. Prescribers are reminded to provide a handwritten signature and date on the form before submitting it to the pharmacy provider where the prescription will be filled. The pharmacy provider is required to complete a Prior Authorization Request Form (PA/RF), F- 11018 (05/13), before submitting the forms and supporting documentation to ForwardHealth. Prescribers should not submit PA forms to ForwardHealth.

As a reminder, prescribers and pharmacy providers are required to retain a completed copy of the PA form(s).
