- Discussion:
 - Androgenic Agents: Kelsey Brundage noted that there will be an upcoming change in the way androgenic agents drug classes are structured and listed on the Preferred Drug List. Currently, there are two classes: Androgenic Agents and Androgenic Agents, Injectable. Given oral androgenic agents were added to the drugs reviewed this cycle, rather than having separate androgenic agents classes, there will be one overarching androgenic agents drug class (including injectable, oral, and topical products).
 - Antivirals, Oral: Kelsey Brundage stated that in the closed session, the Committee discussed Dr. Yun's testimony in the morning session regarding Xofluza. Given clinical considerations and efficacy of other products, it was determined that it is appropriate to continue with the current status of Xofluza.
 - Beta Blockers: Kelsey Brundage stated that during the closed session, the Committee discussed Dr. Arkin's testimony in the morning session regarding Hemangeol. Specifically, the prior authorization process and other system and administrative issues

outside of Medicaid were discussed, including administrative time to submit a prior authorization, working with one specialty pharmacy that is out of state that was referenced in Dr. Arkin's testimony, and the potential impact to a member's health if there is a delay in treatment. The Committee discussed how best to address these concerns and challenges, and Kelsey Brundage requested Committee member Robert Rohloff to provide further background on a possible course of action.

Robert Rohloff made a motion to make Hemangeol a preferred product in the Beta Blockers class, and not require prior authorization for children under one year of age.

Kelsey Brundage suggested that Hemangeol could remain a non-preferred product in the class, but have an exception that prior authorization not be required for children under one year of age. Robert Rohloff stated he agreed with this strategy and withdrew the motion.

Robert Rohloff requested pediatric dermatologists in the Madison and Milwaukee areas be informed of this change. Kelsey Brundage stated that a provider update will be published detailing all of the changes in this cycle, and provider service representatives could also specifically reach out to dermatologists in the Madison and Milwaukee areas.

Kevin Izard requested clarification on if Hemangeol is non-preferred and a member is under one year old, that prior authorization would not be required. Kelsey Brundage confirmed this would be the case, and this recommendation would be presented to the Secretary of the Department for final approval.

- Robert Rohloff made a motion to accept staff recommendations as presented
 - Second – William Raduege
 - All members were in favor of the motion
 - Motion passed
