May 2008

Dear Wisconsin Chronic Disease Program Provider:

All Wisconsin Chronic Disease Program (WCDP)-certified health care providers are required to obtain a National Provider Identifier (NPI) and report it to WCDP immediately in preparation for federal implementation of NPI on May 19, 2008. Failure to report NPI information now may result in claim denials and delays in processing future transactions and payments once WCDP implements NPI.

This letter provides background information on NPI, instructions on where to obtain an NPI, WCDP-specific guidelines on how to report NPI to WCDP, and information on current identifier requirements. Additionally, information on the WCDP transition to NPI implementation accompanies this letter, including data requirements, processing modifications, billing changes, and business functions that will continue to require WCDP provider numbers.

#### **Background**

The federal Department of Health and Human Services has adopted NPI as the standard national identifier to replace current payer-specific identification numbers for all health care providers who conduct electronic transactions. The NPI is a facet of the Health Insurance Portability and Accountability Act of 1996 which mandated national identification standards. Additional information may be obtained on the Centers for Medicare and Medicaid Services Web site at [www.cms.hhs.gov/](http://www.cms.hhs.gov/).

#### **Obtaining A National Provider Identifier**

Providers who have not yet obtained an NPI are required to do so at the National Plan and Provider Enumeration System Web site at <https://nppes.cms.hhs.gov/NPPES/Welcome.do/>.

#### **Reporting Guidelines**

Please adhere to the following guidelines to report NPI to WCDP as they apply:

- If a provider is certified with WCDP and Medicaid, WCDP will presume the provider's NPI as previously reported to Wisconsin Medicaid by the provider also applies to their WCDP certification. In this instance, providers are not required to separately report their NPI to WCDP.
- If a provider is certified with WCDP and Medicaid and the provider's NPI is not the same for both certifications, providers are required to separately report their WCDP NPI to WCDP.
- If a provider is certified with WCDP only, the provider is required to report his or her NPI to WCDP.

Providers should report their NPI information to WCDP by completing the National Provider Identifier Collection form, HCF 13505W (03/08), accompanying this letter and submit it by fax to (608) 221-2163 or by mail to the address listed on the form. The form may be photocopied.

**Inquiries**

For NPI questions, contact Provider Services at (800) 947-9627. For questions regarding WCDP policy and procedures, contact WCDP at (608) 221-3701.

Sincerely,

Wisconsin Chronic Disease Program

Enclosure

**WISCONSIN CHRONIC DISEASE PROGRAM  
NATIONAL PROVIDER IDENTIFIER COLLECTION**

Wisconsin Chronic Disease Program (WCDP) requires certain information to certify providers and to authorize and pay for medical services provided to eligible members. Personally identifiable information about providers is used for purposes directly related to program administration, such as determining the certification of providers or processing provider claims for reimbursement. Failure to supply the information requested by the form may result in denial of payment for the services.

**Instructions:** Type or print clearly. Submit a separate form for each Provider Number. Submit by fax to (608) 221-2163 or by mail to the following address:

Wisconsin Chronic Disease Program  
Provider Maintenance  
6406 Bridge Rd  
Madison WI 53784-0006

**SECTION II — PROVIDER NUMBER AND NPI INFORMATION**

Complete this form only if one of the following applies:

- If a provider is certified with WCDP and Medicaid and the provider's NPI is not the same for both certifications.
- If a provider is certified with WCDP only.

Indicate the eight-digit WCDP Provider Number and corresponding 10-digit National Provider Identifier (NPI) for the provider indicated in Section I. The NPI designated in Element 5 is the NPI to be used when conducting business with WCDP.

---

**SECTION I — PROVIDER INFORMATION**

1. Name — Provider

2. Name — Contact Person

3. Telephone Number — Contact Person

---

**SECTION II — PROVIDER NUMBER AND NPI INFORMATION**

4. WCDP Provider Number (Eight Digit)

5. NPI

**SIGNATURE** — Authorized Representative

Date Signed

---

# Wisconsin Chronic Disease Program Implementation of National Provider Identifier

To facilitate continuity of business for health care providers during Wisconsin Chronic Disease Program's (WCDP) transition to National Provider Identifier (NPI) implementation, WCDP will accept an NPI and/or a WCDP provider number on Health Insurance Portability and Accountability Act of 1996 (HIPAA) standard electronic transactions received on and after May 19, 2008. Only HIPAA standard electronic transactions submitted by health care providers will accept NPI and/or WCDP provider numbers. Other business functions will continue to require WCDP provider numbers until ForwardHealth interChange implementation in October 2008.

For more information about ForwardHealth interChange, refer to the March 2008 *ForwardHealth Update* (2008-24), titled "Introducing ForwardHealth interChange, a New Web-Based Information System for State Health Care Programs."

## **Provider Exceptions**

Analysis of federal law has identified blood banks as exempt from the NPI requirement. Blood banks are required to continue indicating their WCDP provider number on standard electronic transactions.

Transactions submitted by these providers with an NPI will be denied.

## **Business Functions Continuing to Utilize Wisconsin Chronic Disease Program Provider Numbers**

Certain business functions will not be affected by NPI implementation and will continue to require and send WCDP provider numbers only until ForwardHealth interChange implementation in October 2008.

## ***Paper Claims***

All paper claim forms will require WCDP provider numbers. Paper claims submitted with NPI and related data only will be denied.

## ***Paper Remittance and Status Reports***

All paper Remittance and Status (R/S) Reports will reflect WCDP provider numbers only and not NPI.

## **Required Data for National Provider Identifier**

Many WCDP-certified health care providers obtained one NPI corresponding to one WCDP provider number, whereas others have one NPI corresponding to multiple WCDP provider numbers. To determine the correct provider file to be used when processing standard electronic transactions with NPI, other data will be required to be submitted by providers on standard electronic transactions. Therefore, health care providers who indicate only their NPI on standard electronic transactions will be required to indicate the NPI that was reported to WCDP and also the following data:

- Taxonomy code that is required by WCDP.
- ZIP+4 code that corresponds to the physical address on file with WCDP.

*Note:* Failure to indicate taxonomy code and ZIP+4 code may result in claim denials or incorrect payments.

## ***Taxonomy Code***

Taxonomy codes are standard code sets used to provide information about the provider type and specialty. A taxonomy code is designated for provider types by WCDP. The designated taxonomy code may not be the one providers originally submitted to the National Plan and Provider Enumeration System (NPPES) when obtaining

their NPI. It is important for providers to indicate the taxonomy code required by WCDP.

The Attachment to this document is a table of required taxonomy codes for WCDP.

The taxonomy code required by WCDP does not change provider certification or reimbursement terms.

### **ZIP+4 Code**

The ZIP+4 code is the ZIP code and four-digit extension of a provider's physical address on file with WCDP. Providers should ensure that their physical address is kept current with WCDP so the appropriate ZIP+4 code is utilized. Providers may verify the ZIP+4 code for their address via the United States Postal Service Web site at [www.usps.com/](http://www.usps.com/). ZIP+4 codes must be used on standard electronic transactions.

### **Electronic Claim Modifications**

On and after May 19, 2008, standard electronic transactions, including National Council for Prescription Drug Programs Telecommunications Standard Format Version 5.1 (NCPDP 5.1), will accept NPI and/or WCDP provider numbers.

### **837 Health Care Claims: Institutional**

On 837 Health Care Claim: Institutional (837I) transactions submitted to WCDP, an NPI and/or a WCDP provider number will be accepted for the billing provider and for other providers, including referring, attending, and admitting providers. The following conditions must apply for health care providers to successfully submit their NPI on 837I transactions:

- Billing provider's NPI must be on file with WCDP.
- Required taxonomy code and current ZIP+4 code must be indicated.

### **837 Health Care Claims: Professional**

On Health Care Claim: Professional (837P) transactions submitted to WCDP, an NPI and/or a WCDP provider

number will be accepted for billing, rendering, and referring providers. The following conditions must apply for health care providers to successfully submit their NPI on 837P transactions:

- Billing provider's NPI must be on file with WCDP.
- Rendering provider's NPI must be on file with WCDP.
- Required taxonomy code and current ZIP+4 code must be indicated.

### **National Council for Prescription Drug Programs Version 5.1**

On and after May 19, 2008, the billing provider's NPI or WCDP provider number will be accepted on National Council for Prescription Drug Programs Version 5.1 (NCPDP 5.1) transactions. The Workgroup for Electronic Data Interchange (WEDI) recommends in the WEDI National Provider Identifier White Papers that pharmacies obtain a unique NPI per licensed store and/or certification. If there is not a unique NPI for each certification, claims will default to the first active certified pharmacy on file with WCDP. In these instances, the provider will be responsible to post claims with the appropriate identifier.

*Note:* Indicating an NPI for the billing provider on NCPDP 5.1 transactions requires the billing provider's NPI be on file with WCDP for successful processing.

### **Prescriber ID Modification**

On and after May 19, 2008, either the Drug Enforcement Agency (DEA) number or an NPI will be accepted in the Prescriber ID field of NCPDP Version 5.1 transactions.

### **Companion Documents**

Revised companion documents incorporating NPI and related data will be available at [dhs.wisconsin.gov/wcdp/](http://dhs.wisconsin.gov/wcdp/). Providers should work with their trading partners, clearinghouses, billing services, and other vendors to ensure they are prepared for NPI modifications to standard electronic transactions.
