CONTRACT FOR SERVICES

Between
The Wisconsin Department of Health Services
And
HMO

ARTICLE I: DEFINITIONS AND ACRONYMS

This contract is between the Wisconsin Department of Health Services (the Department) and the Health Maintenance Organization (HMO) participating in the State of Wisconsin BadgerCare Plus and/or Medicaid SSI programs. These programs are approved by the Secretary of the United States Department of Health and Human Services pursuant to the provisions of the Social Security Act. An HMO is an insurer offering comprehensive health care services delivered by providers. These providers may be both employees and partners of the HMO, or they may have entered into a referral or contractual agreement with the HMO for the purpose of providing contract-related services for enrolled members. HMOs should work with providers for the further specific purpose of promoting coordination and continuity of preventive health services and other medical care related to behavioral health, emergency care, and social determinants of health. In exchange for making contract-covered services available to enrolled members, the HMO will receive periodic fixed payments from the Department. The HMO is required to hold a certificate of authority to do business in Wisconsin; a separate certificate of authority must be submitted for each contract the HMO intends to enter into with the Medicaid program. This requirement applies to HMOs offering multiple product lines and doing business under another name. The HMO is not required to contract for both programs, and if they are not contracted for both, only the provisions applicable to their program apply. The HMO does herewith agree:

A. DEFINITIONS

Abuse: Provider practices that are inconsistent with sound fiscal, business, or medical practices, and result in an unnecessary cost to BadgerCare Plus and/or Medicaid SSI, in reimbursement for services that are not medically necessary, or services that fail to meet professionally recognized standards for health. Abuse also includes member practices that result in unnecessary costs to the BadgerCare Plus and/or Medicaid SSI program.

Access: Per 42 CFR §438.320, as it pertains to external quality review, “access” means the timely use of services to achieve optimal outcomes, as evidenced by the HMO successfully demonstrating and reporting on outcome information for

the availability and timeliness elements defined in 42 CFR §438.68 (Network adequacy standards) and 42 CFR §438.206 (Availability of services).

Actuarially Sound Capitation Rates: Actuarially sound capitation rates are projected to provide for all reasonable, appropriate, and attainable costs that are required under the terms of the contract and for the operation of the HMO for the time period and the population covered under the terms of the contract, and such capitation rates are developed in accordance with CMS requirements.

Actuary: An individual who meets the qualification standards established by the American Academy of Actuaries for an actuary and follows the practice standards established by the Actuarial Standards Board.

Administrative Service Organization (ASO): An organization that provides outsourced solutions to meet the administrative and HR needs of the client, with the client retaining all employment-related risks and liabilities.

Adverse Benefit Determination: Includes any of the following:

- a. The denial or limited authorization of a requested service, including determinations based on the type or level of service, requirements for medical necessity, appropriateness, setting, or effectiveness of a covered benefit.
- b. The reduction, suspension, or termination of a previously authorized service, unless the service was only authorized for a limited amount or duration and that amount or duration has been completed.
- c. The denial, in whole or in part, of payment for a service.
- d. The failure to provide services in a timely manner.
- e. The failure of the HMO to act within the standard resolution timeframes for grievances and appeals as detailed in the *Member Grievances and Appeals Guide*.
- f. For a resident of a rural area with only one HMO, the denial of a member's request to exercise his or her right to obtain services outside the network as detailed in Section VII C, 4 of this contract.
- g. The denial of a member's request to dispute a financial liability, including cost sharing, copayments, premiums, deductibles, coinsurance, and other member financial liabilities.

Affirmative Action Plan: A written document that details an affirmative action program.

Appeal: For member appeals, a review by the HMO of an adverse benefit determination. For provider appeals, an application or proceeding for review when a provider does not agree with the claim reconsideration decision. For

example: A claim is denied by the HMO for untimely claim filing. The Provider must appeal the denial action to the HMO; an internal review by the HMO is required.

Authorized Representative: An individual appointed by the member, including a power of attorney or estate representative, who may serve as an authorized representative with documented consent of the member. The role of the authorized representative primarily includes filing a grievance or appeal, and approving the member's care plan.

Auxiliary Aids & Services: Includes qualified interpreters, qualified readers, note takers, telephone handset amplifiers, telecommunications devices, audio recordings, large print or Braille materials, or other effective methods of making materials available to individuals with hearing or visual impairments.

BadgerCare Plus: BadgerCare Plus is Wisconsin's health care program for low income individuals that merged BadgerCare, the family portion of the current Wisconsin Medicaid population, with Healthy Start to form a single program that expands coverage to Wisconsin residents. Effective April 1, 2014, the following populations are eligible for BadgerCare Plus:

- a. Parents and caretakers with incomes at or below 100 percent of the Federal Poverty Level (FPL).
- b. Pregnant women with incomes at or below 300 percent of FPL.
- c. Children (ages 18 and younger) with household incomes at or below 300 percent of the FPL.
- d. Childless adults with incomes at or below 100 percent of the FPL.
- e. Transitional medical assistance individuals, also known as members on extensions, with incomes over 100 percent of the FPL.

Balanced Workforce: An equitable representation of persons with disabilities, minorities and women available for jobs at each job category from the relevant labor market from which the HMOs recruit job applicants.

Budget Neutral: Per 42 CFR §438.5(a), a standard for any risk sharing mechanism that recognizes both higher and lower expected costs among contracted HMOs under a managed care program and does not create a net aggregate gain or loss across all payments under that managed care program.

Business Associate: A person (or company) that provides a service to a covered program that requires their use of individually identifiable health information.

Business Continuity Plan: means a plan that provides for a quick and smooth restoration of the health plan's administrative services after a disruptive event.

The business continuity plan includes business impact analysis, plan development, testing, awareness, training, and maintenance and processes to ensure minimal member and provider disruption. This is a day-to-day plan.

Capitation Payment: A payment the State agency makes periodically to a contractor on behalf of each member enrolled under a contract and based on the actuarially sound capitation rate for the provision of services under the State Plan. The State agency makes the payment regardless of whether the particular member receives services during the period covered by the payment.

Care Coordination: The purposeful organization by care management staff to seamlessly deliver comprehensive services in response to a member's needs and work toward achieving desired health outcomes.

Care Management Model: A health care delivery process to arrange, deliver, monitor and evaluate the member's care, including all medical and social services, with the goal of helping members achieve their self-identified goals.

Care Management Staff: Staff that assists in patient-centered, evidence-based, coordinated care and services designed to effectively manage health conditions and help members meet their self-identified goals.

Care Plan: Written documentation of decisions made in advance of care provided, based on a comprehensive assessment of a person's needs, preferences and abilities, defining how services will be provided. This includes establishing objectives (desired outcomes) with the client and determining the most appropriate types, timing and supplier(s) of services. This is an ongoing cycle of activity as long as care is being provided.

Case Management: A collaborative process of assessing, planning, facilitating, coordinating, evaluating, and advocating for options and services to meet an individual's comprehensive health needs through communication and available resources to promote quality and cost-effective outcomes.

CESA (Cooperative Educational Service Agencies): The unit serving as a connection between the state and school districts within its borders. There are 12 CESAs in Wisconsin. Cooperative Educational Service Agencies coordinate and provide educational programs and services as requested by the school district.

Children with Special Health Care Needs: Children with or at increased risk for chronic physical, developmental, behavioral, or emotional conditions who also require health and related services of a type or amount beyond that required by children generally and who are enrolled in a Children with Special Health Care

Needs program operated by a Local Health Department or a local Title V funded Maternal and Child Health Program.

Childless Adults (CLAs): A person who is 19 to 64 years old, regardless of marital status, is not receiving Medicare and does not have any dependent children younger than 19 years who reside with him or her at least 40 percent of the time. As of April 1, 2014, childless adults are eligible for Standard Plan benefits.

Claim: Bill for services, a line item of service, or all services for one member.

CLA Health Needs Assessment (HNA) Screening: A survey tool to collect information on members' self-reported diagnosis history, patterns of health service utilization, and social determinants of health, allowing HMOs to stratify its CLA population based on urgent care and service needs. HNA screenings are conducted by appropriately qualified staff either online, through face-to-face, telephone or mail contact with the member and/or legal guardian.

Clean Claim: A truthful, complete, timely and accurate claim that does not have to be returned for additional information.

Clinical Decision Support Tools: Tools that support informed clinical decision-making by presenting information in an integrated, interactive manner.

Cold Call Marketing: Any unsolicited personal contact by the HMO with a potential member for the purpose of marketing.

Communication Materials: Communication materials designed to provide members or potential members with clear and concise information about the HMO's program, the HMO's network, and resources about the BadgerCare Plus and/or Medicaid SSI program.

Community Based Health Organizations: Non-profit agencies providing community based health services. These organizations provide important health care services such as HealthCheck screenings, nutritional support, and family planning, targeting such services to high-risk populations.

Comprehensive Assessment (for Medicaid SSI members only): A detailed evaluation where an appropriately qualified health care professional identifies a member's health care, cultural and socioeconomic needs. The assessment may entail conducting a review of the member's past medical history, analyzing member records, using diagnostic tools and patient interviews to form the basis

for the development of a multidisciplinary plan of care for the member. The evaluation must include an encounter of care with the member, either face-to-face or through telephonic contact. For the purposes of an assessment, qualified health care professionals may include non-physician providers such as an advanced practice nurse, physician assistant, registered nurse or social worker, or other staff as approved in the certification application.

Comprehensive Care Plan (for Medicaid SSI members only): Written documentation of a plan of action developed by the HMO and the member that identifies strengths, needs, goals, and necessary interventions to be addressed within a specific timeframe. The Care Plan is a living document that reflects an ongoing cycle of activity as long as care is being provided.

Conditional Provider Network Approval: Refers to the HMO provider network approval status for a county when network adequacy deficiencies are identified in current certification counties.

Confidential Information: All tangible and intangible information and materials accessed or disclosed in connection with this Contract, in any form or medium (and without regard to whether the information is owned by the State or by a third party), that satisfy at least one of the following criteria:

- a. Personally Identifiable Information;
- b. Individually Identifiable Health Information;
- c. Non-public information related to the State's employees, customers, technology (including databases, data processing, and communications networking systems), schematics, specifications, and all information or materials derived therefrom or based thereon; or
- d. Information designated as confidential in writing by the State.

Continuing Care Provider: A provider who has an agreement with the BadgerCare Plus and/or Medicaid SSI program to provide:

- a. Any reports that the Department may reasonably require, and
- b. At least the following services to eligible HealthCheck members formally enrolled with the provider as enumerated in 42 CFR §441.60(a)(1)-(5):
 - 1) Screening, diagnosis, treatment and referrals for follow-up services;
 - 2) Maintenance of the members consolidated health history, including information received from other providers;
 - 3) Physician's services as needed by the member for acute, episodic or chronic illness or conditions;
 - 4) Provision or referral for dental services; and
 - 5) Transportation and scheduling assistance.

Contract: The agreement executed between the HMO and the Department to accomplish the duties and functions, in accordance with the rules and arrangements specified in this document.

Contract Services: Services that the HMO is required to provide under this Contract.

Contractor: An HMO awarded a contract resulting from the HMO certification process to provide capitated managed care in accordance with this Contract.

Coordination of Benefits (COB): Industry term applied to agreements among payers to assign liability and to perform the end-to-end payment reconciliation process. This term applies mostly to the electronic data interchanges associated with Health Insurance Portability and Accountability Act (HIPAA) transactions.

Copayment: A fixed amount the HMO or provider is allowed to charge a member for part of the cost of medically necessary covered services. Allowable copayment amounts are listed in the ForwardHealth online handbook.

Core Reporting: HEDIS measures that HMOs must report to DHS. These measures are not included in the Pay-for-Performance (P4P) initiative, though are included in the Medicaid Core Sets for Adults, Children and Behavioral Health.

Corrective Action Plan: A written plan required by the Department for a HMO to address one of the below situations:

- a. Plan communicated by the State to the HMO for the HMO to follow in the event of any threatened or actual use or disclosure of any Confidential Information that is not specifically authorized by this Agreement, or in the event that any Confidential Information is lost or cannot be accounted for by the HMO.
- b. This also refers to the plan communicated to the State by the HMO to address a deficiency in contractual performance.

Covered Entity: A health plan (such as an HMO), a health care clearinghouse, or a health care provider that transmits any health information in electronic form in connection with a transaction covered by 45 CFR Parts 160 and 162.

Culturally Competent: A set of congruent behaviors, attitudes, practices and policies that are formed within an agency, and among professionals that enable the system, agency, and professionals to work respectfully, effectively and responsibly in diverse situations. Essential elements of cultural competence include understanding diversity issues at work, understanding the dynamic of

difference, institutionalizing cultural knowledge, and adapting to and encouraging organizational diversity.

Days: Unless stated otherwise, “days” means calendar days. Calendar days include weekends and holidays.

Department: The Wisconsin Department of Health Services.

Department Values: The Department’s shared values include:

- a. Serve people through culturally competent practices and policies.
- b. Foster supportive and trusting, team-oriented culture that recognizes excellence and provides opportunities for development
- c. Builds collaborative relationships with both internal and external stakeholders and partners.
- d. Encourage innovative, data-driven and collaborative decision making.
- e. Accountable for high value service delivery and customer service.

Disaster: any natural event or communicable disease outbreak in which a national or Wisconsin state of emergency is declared.

Drivers of Health: The condition in which people are born, grow, live, work and age which are “shaped by the distribution of money, power and resources” and maybe negative or positive. Examples include income, education, employment, housing, neighborhood conditions, transportation systems, social connections, etc.

Durable Medical Equipment: Items that are primarily and customarily used to serve a medical purpose; generally are not useful to an individual in absence of disability, illness, or injury, can withstand repeated used and can be reusable or removable.

Educational Materials: These are materials designed to provide members with information and resources regarding their health.

Electronic Visit Verification: An electronic system that uses technologies to verify that authorized services were provided. Workers are required to send information at the beginning and end of each visit to the EVV system including:

- Who receives the service
- Who provides the service
- What service is provided
- Where service is provided
- Date of service
- Time in and out

Emergency Medical Condition:

- a. A medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in:
 - 1) Placing the health of the individual (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy;
 - 2) Serious impairment of bodily functions; or
 - 3) Serious dysfunction of any bodily organ or part.
- b. With respect to a pregnant woman who is in active labor:
 - 1) Where there is inadequate time to effect a safe transfer to another hospital before delivery; or
 - 2) Where transfer may pose a threat to the health or safety of the woman or the unborn child.
- c. A psychiatric emergency involving a significant risk or serious harm to oneself or others.
- d. A substance abuse emergency exists if there is significant risk of serious harm to a member or others, or there is likelihood of return to substance abuse without immediate treatment.
- e. Emergency dental care is defined as an immediate service needed to relieve the patient from pain, an acute infection, swelling, trismus, fever or trauma. In all emergency situations, the HMO must document in the member's dental records the nature of the emergency.

Emergency Medical Transportation: Transportation by ambulance, specialized medical vehicle (SMV) or county-approved or tribe-approved common carrier as defined under Wis. Admin Code §DHS 107.23(1)(d) when immediate medical treatment or examination is needed to deal with or guard against a worsening of the recipient's condition. Wis. Admin Code §DHS 107.23.

Emergency Recovery Plan: is a plan developed by the health plan that outlines details for the restoration of the health plan's management information system in the event of an emergency or disaster. This is part of the business continuity plan.

Emergency Room Care: Any health care service given in an emergency room and provided to evaluate and/or treat any medical condition that a prudent layperson believes requires immediate unscheduled medical care.

Emergency Services: Covered inpatient and outpatient services that are furnished by a provider that is qualified to furnish these services under Title XIX of the Social Security Act, and needed to evaluate or stabilize an emergency medical condition.

Encounter:

- a. A service or item provided to a patient through the health care system. Examples include but are not limited to:
 - 1) Office visits
 - 2) Surgical procedures
 - 3) Radiology (including professional and/or technical components)
 - 4) Durable medical equipment
 - 5) Emergency transportation to a hospital
 - 6) Institutional stays (inpatient hospital, rehabilitation stays)
 - 7) HealthCheck screens
- b. A service or item not directly provided by the HMO, but for which the HMO is financially responsible. An example would include an emergency service provided by an out-of-network provider or facility.
- c. A service or item not directly provided by the HMO, and for which no claim is submitted but for which the HMO may supplement its encounter data set. Such services might include HealthCheck screens for which no claims have been received and if no claim is received, the HMO must have conducted a medical chart review. Examples of services or items the HMO may include are:
 - 1) HealthCheck Services
 - 2) Lead Screening and Testing
 - 3) ImmunizationsServices or items as used above include those services and items not covered by BadgerCare Plus and Medicaid SSI, but which the HMO chooses to provide as part of its managed care product. Examples include educational services, certain over-the-counter drugs, and delivered meals.

Encounter Priced Amount: The fee-for-service equivalent rate assigned to an encounter.

Encounter Record: An electronically formatted list of encounter data elements per encounter as specified in the current Encounter User Guide. An encounter record may be prepared from paper claims such as the CMS 1500, UB-04, or electronic transactions such as ASC XX12N 837.

Enrollee(see also definition of “Member”) : A BadgerCare Plus and/or Medicaid SSI member who has been certified by the State as eligible to enroll under this Contract, and whose name appears on the HMO Enrollment Rosters that the Department transmits to the HMO according to an established notification schedule. These terms are used interchangeably.

Enrollment Area: The geographic area within which members must reside in order to enroll in the HMO under this Contract.

Enrollment Specialist: An entity contracted by the Department to perform HMO choice counseling and HMO enrollment activities. Choice counseling refers to activities such as answering questions and providing unbiased information on available managed care organization delivery system options, and advising on what factors to consider when choosing among HMOs and in selecting a primary care provider. Enrollment activities refers to distributing, collecting, and processing enrollment materials and taking enrollments by phone, by mail, or in person.

Estimated Data Completeness: A measure used by the Department to evaluate HMO compliance with encounter submission requirements.

Excluded Services: Services that Medicaid does not pay for.

Expedited Grievance or Appeal: An emergency or urgent situation in which a member or their authorized representative requests a review of a situation where further delay could be a health risk to the member, as verified by a medical professional.

Experimental Surgery and Procedures: Experimental services that meet the definition of Wis. Adm. Code §DHS 107.035(1) and (2) as determined by the Department.

External Quality Review (EQR): Per 42 CFR §438.320, the analysis and evaluation by an External Quality Review Organization of aggregated information on quality, timeliness, and access to the health care services that an HMO or their contractors furnish to Medicaid beneficiaries.

External Quality Review Organization (EQRO): Per 42 CFR §438.320, an organization that meets the competence and independence requirements set forth in 42 CFR §438.354, and performs external quality review, other EQR-related activities as set forth in 42 CFR §438.358, or both.

Federally Qualified Health Center: Defined in Section 4161 of the Omnibus Budget Reconciliation Act of 1990. The purpose of FQHC Program is to enhance the provision of primary care services in underserved urban and rural communities. FQHCs are providers such as community health centers, outpatient

health programs funded by the Public or Indian Health Service, and programs serving migrants and the homeless.

Fee-for-Service: A method of payment in which a provider is paid a fee for each service rendered for a BadgerCare Plus or Medicaid member.

Fiscal Agent (as cited in 42 CFR §455.101): A contractor that processes or pays vendor claims on behalf of the Medicaid agency.

Formally Enrolled with a Continuing Care Provider (as cited in 42 CFR §441.60(d)): A member, member's guardian, or authorized representative agrees to use one continuing care provider as the regular source of a described set of services for a stated period of time.

ForwardHealth Handbook: This Portal also provides users with access to health care information available via the Online Handbook. The Online Handbook is an interactive tool containing current health care policy and procedural information for ForwardHealth programs.

ForwardHealth interChange: The ForwardHealth Portal serves as the interface to ForwardHealth interChange, the Medicaid Management Information System for the state of Wisconsin. Through this Portal, providers, managed care organizations, partners, and trading partners can electronically and securely submit, manage, and maintain health records for members under their care.

Fraud: An intentional deception or misrepresentation made by a person or entity with the knowledge that the deception could result in some unauthorized benefit to him/herself, itself or some other person or entity. It includes any act that constitutes fraud under applicable federal or state law.

Grievance: An expression of dissatisfaction about any matter other than an adverse benefit determination. Grievances may include, but are not limited to, the quality of care or services provided, and aspects of interpersonal relationships such as rudeness of a provider or employee, or failure to respect the member's rights regardless of whether remedial action is requested. Grievance includes a member's right to dispute an extension of time proposed by the HMO to make an authorization decision. The member or authorized representative may file a grievance either orally or in writing.

Grievance and Appeal System: The processes the Health Plan implements to handle appeals of an adverse benefit determination and grievances, as well as the processes to collect and track information about them.

Habilitation Services and Devices: Health care service and devices that help a person keep, learn, or improve skills and functioning for daily living

Health Care Professional: A person who is trained and licensed to give health care. Examples include: A physician, podiatrist, optometrist, chiropractor, psychologist, dentist, physician assistant, physical or occupational therapist, therapist assistant, speech-language pathologist, audiologist, registered or practical nurse (including nurse practitioner, clinical nurse specialist, certified registered nurse anesthetist, and certified nurse midwife), licensed certified social worker, registered respiratory therapist, licensed midwives, or certified respiratory therapy technician.

Health Care Services: All Medicaid services provided by an HMO under contract with the Department in any setting, including but not limited to medical care, behavioral health care, and long-term services and supports.

HealthCheck: HealthCheck is Wisconsin's name for the federally mandated Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) benefit for children under age 21. The EPSDT benefit is defined in federal law at §1905(r) of the Social Security Act. The benefit provides comprehensive and preventive health care services for all children under 21 years old. Federal and state regulations establish certain requirements for comprehensive HealthCheck screenings. A comprehensive HealthCheck screen includes all of the following components:

- a. A complete health and developmental history (including anticipatory guidance).
- b. A comprehensive unclothed physical examination.
- c. An age-appropriate vision screening exam.
- d. An age-appropriate hearing screening exam.
- e. An oral assessment plus referral to a dentist beginning at one year of age.
- f. The appropriate immunizations (according to age and health history).
- g. The appropriate laboratory tests (including blood lead level testing when appropriate for age).

HealthCheck "Other Services": HealthCheck "Other Services" is Wisconsin's term for the federal mandate (under EPSDT) that requires that states cover "other necessary health care, diagnostic services, treatment, and other measures" which a child (under age 21) may require to treat, correct or reduce illnesses and conditions regardless of whether the necessary service is covered in a state's Medicaid plan. The needed service must be allowable under federal Medicaid law (§1905(a) of the Social Security Act), and coverage is determined on a case-by-case basis.

Health Insurance: A contract with an individual that requires a health insurer to pay some or all of an individual's health care costs.

Health Needs Assessment (HNA): The HNA is a self-reported questionnaire designed to provide baseline health-status information for a population. The HNA is not intended to cover all medical conditions, but rather identify individuals considered to be at high risk of declining health status who would benefit from timely intervention.

Health Related Social Needs (HRSN): Individually identified needs related to a social risk factor. Examples include homelessness or domestic abuse.

HHS Transaction Standard Regulation: 45 CFR, Parts 160 and 162.

High Birth Weight: Defined as a birth weight greater than 4,500 grams.

High Risk Members: Beneficiaries with complex needs, multiple comorbidities, and a history of frequent emergency department visits or inpatient admissions during the previous 12 months.

Highest Needs Members: Members with complex needs, multiple comorbidities, and/or a history of frequent emergency department visits or inpatient admissions during the previous 12 months as identified by the HMO's needs-stratification process.

HIPAA: The Health Insurance Portability and Accountability Act of 1996, federal legislation that is designed to improve the portability and continuity of health insurance.

HMO: The Health Maintenance Organization or its parent corporation with a Certificate of Authority to do business in Wisconsin as an HMO, that is obligated under this Contract. A separate Certificate of Authority and HMO Certification Application must be submitted for each contract the HMO intends to enter into with the Wisconsin Medicaid program (if, for example, an HMO offers multiple product lines, does business under another name, etc.).

HMO Administrative Services: The health plan's performance of services or functions, other than the direct delivery of Covered Services, necessary for the management of the delivery of and payment for Covered Services, including: network adequacy, service utilization, clinical or quality management, service authorization, claims processing, management information systems operation, and reporting. This term also includes the infrastructure development for, preparation

of, and delivery of, all required Deliverables under the Contract, outside of the Covered Services.

HMO Technical Workgroup: A workgroup composed of HMO technical staff, contract administrators, claims processing, eligibility, and/or other HMO staff, who meet as necessary; with Department staff from the Division of Medicaid Services (DMS), and staff from the Department's Fiscal Agent.

Homeless: An individual who lacks a fixed and regular nighttime residence or an individual whose primary nighttime residence is:

- a. A supervised shelter designed to provide temporary accommodations;
- b. A halfway house or similar institution that provides temporary residence for individuals; or
- c. A place not designed for, or ordinarily used as a regular sleeping accommodation for human beings (e.g., a hallway, bus station, or a lobby).

Home Health Care: Home health skilled nursing and therapy services, including medication management, are provided to a recipient who, due to his/her medical condition, is unable to leave home to obtain necessary medical care and treatment and therefore, must receive this care at home.

Hospice Services: Services necessary for the palliation and management of terminal illness and related conditions. These services include supportive care provided to the family and other individuals caring for the terminally ill recipient. Wis. Admin Code DHS 107.31(2)

Hospitalization: An inpatient stay at a certified hospital as defined in Wis. Admin Code DHS 101.03(76).

Hospital Outpatient Care: The provision of services by an outpatient department located within an inpatient hospital licensed facility which does not include or lead to an inpatient admission to the facility.

Income Maintenance Agencies: Agencies include tribes, consortia or counties that determine BadgerCare Plus and Medicaid SSI enrollment and ongoing case management. Members can apply for benefits online, by phone, by mail or in person with their local agency.

Indian: Pursuant to 42 CFR § 438.14(a), any individual defined at 25 U.S.C. 1603(13), 1603(28), or 1679(a), or who has been determined eligible as an Indian, under 42 CFR §136.12. The individual:

- a. Is a member of a Federally recognized Indian tribe;
- b. Resides in an urban center and meets one or more of the four criteria:

- 1) Is a member of a tribe, band, or other organized group of Indians, including those tribes, bands, or groups terminated since 1940 and those recognized now or in the future by the State in which they reside, or who is a descendant, in the first or second degree, of any such member;
 - 2) Is an Eskimo or Aleut or other Alaska Native;
 - 3) Is considered by the Secretary of the Interior to be an Indian for any purpose; or
 - 4) Is determined to be an Indian under regulations issued by the Secretary;
- c. Is considered by the Secretary of the Interior to be an Indian for any purpose; or
 - d. Is considered by the Secretary of Health and Human Services to be an Indian for purposes of eligibility for Indian health care services, including as a California Indian, Eskimo, Aleut, or other Alaska Native.

Indian Health Care Provider (IHCP): Pursuant to 42 CFR § 438.14(a), a health care program operated by the Indian Health Service (IHS) or by an Indian Tribe, Tribal Organization, or Urban Indian Organization (otherwise known as an I/T/U) as those terms are defined in section 4 of the Indian Health Care Improvement Act (25 U.S.C. 1603).

Individually Identifiable Health Information (IIHI): Patient demographic information, claims data, insurance information, diagnosis information, and any other information that relates to the past, present, or future physical or mental health or condition, provision of health care, payment for health care and that identifies the individual (or that could reasonably be expected to identify the individual).

Information: Any “health information” provided and/or made available by the Department to a Trading Partner, and has the same meaning as the term “health information” as defined by 45 CFR § 160.103.

Information Gathering and Assessment (for Medicaid SSI members only): A detailed evaluation where the care management staff collects all relevant information about the member’s health care, and cultural and socioeconomic needs to conduct needs-stratification and to develop the Comprehensive Care Plan.

Language Access Services: Services that promote effective communication between HMOs and providers with members or potential members who have Limited English Proficiency (LEP).

Limited English Proficiency (LEP): Potential members and members who do not speak English as their primary language and who have a limited ability to read, write, speak, or understand English.

Low Birth Weight: Defined as a birth weight of less than 2,500 grams.

Mandatory: For the purpose of this contract, mandatory refers to a service area where the Department may, under Title 42 of the CFR and the State Plan Amendment, require members to enroll in a HMO.

Marketing: Any unsolicited contact by the HMO, its employees, affiliated providers, subcontractors, or agents to a potential member for the purpose of persuading such persons to enroll with the HMO or to disenroll from another HMO. Marketing does not include communication to a potential member from the issuer of a qualified health plan as defined in 45 CFR 155.200, about the qualified health plan.

Marketing Materials: Materials that are produced in any medium, by or on behalf of an HMO that can be reasonably interpreted as intended to market to potential Medicaid members.

Material Adjustment: An adjustment that, using reasonable actuarial judgment, has a significant impact on the development of the capitation payment such that its omission or misstatement could impact a determination whether the development of the capitation rate is consistent with generally accepted actuarial principles and practices.

Medicaid: The BadgerCare Plus and Medicaid SSI Program operated by the Wisconsin Department of Health Services under Title XIX of the Federal Social Security Act, Wis. Stats., Ch. 49, and related state and federal rules and regulations.

Medicaid SSI (Supplemental Security Income): Wisconsin's Medicaid plans for the elderly, blind or disabled provide health care for members who are:

- a. Age 65 or older, blind or disabled,
- b. With family income at or below the monthly program limit, and
- c. Who are United States citizens or legal immigrants.

Plan eligibility depends on member income, assets, and the type of care needed. Individuals who receive SSI payments automatically qualify for Medicaid and are eligible for additional social services through their income maintenance agency.

Medical Status Code: The two-digit (alphanumeric) code in the Department's computer system that defines the type of BadgerCare Plus and/or Medicaid SSI eligibility a member has. The code identifies the basis of eligibility, whether cash assistance is being provided, and other aspects of BadgerCare Plus and/or Medicaid SSI. The medical status code is listed on the HMO enrollment reports.

Medically Necessary: A medical service, device or item that meets the definition of Wis. Adm. Code §DHS 101.03(96m).

Member (see also definition of "Enrollee") : A BadgerCare Plus and/or Medicaid SSI member who has been certified by the State as eligible to enroll under this Contract, and whose name appears on the HMO Enrollment Rosters that the Department transmits to the HMO according to an established notification schedule. These terms are used interchangeably.

Member-Centric Care: Member-centric care is care that explicitly considers the member's perspective and point of view. For example, a member-centric care plan will include treatment goals and expected outcomes identified by the member, often expressed in the member's own words. A member-centric needs assessment includes the needs expressed by the member whether or not those needs fit neatly into medical or health nomenclatures. Member-centric care actively engages the patient throughout the care process.

Member Communication: Materials designed to provide an HMO's members with clear and concise information about the HMO's program, the HMO's network, and the BadgerCare Plus and/or Medicaid SSI program.

Members with Special Needs: Pursuant to 42 CFR § 438.208(c)(1), the terminology used in clinical diagnostic and functional development to describe individuals who require additional assistance for conditions that may be medical, mental, developmental, physical or psychological (this includes, but is not limited to, SSI members, members as determined by the HMO to need or benefit from intensive medical or behavioral case management, members experiencing homelessness, members enrolled in the Obstetrical Medical Home (OBMH), or Birth to 3 members).

¹**National Culturally and Linguistically Appropriate Services (CLAS) Standards:** The National CLAS Standards are a set of 15 action steps intended to advance health equity, improve quality, and help eliminate health care disparities by providing a blueprint for individuals and health and health care organizations to implement culturally and linguistically appropriate services.

¹ <https://www.thinkculturalhealth.hhs.gov/clas>

Needs-stratification: The assignment of individual members to specific levels of care management, based on individual member's overall medical and social needs that could affect the health care outcomes for that member. Needs-stratification helps align an individual member's overall medical and social needs with the most appropriate level of care management for that member.

Newborn: A member less than 100 days old.

Non-Participating Provider: Facility or provider that the HMO does not have a contract with to provide services to a member of the plan.

Outcomes: Per 42 CFR §438.320, changes in patient health, functional status, satisfaction or goal achievement that result from health care or supportive services.

Outpatient Drug: Outpatient Drug: any drug the meets that definition of covered outpatient drug as defined in Social Security Act s. 1927(k).

Outreach Materials: Materials used by the HMO to help bring awareness of services to members.

Participating Provider: Facility or provider the HMO has a contract with to provide covered services to a member of the plan.

Pay-for-Performance (P4P): DHS initiative to measurably improve quality of care provided to Medicaid members in focused areas. Includes HMO capitation withhold that can be earned back by HMOs based on their performance relative to quality targets for measures applicable to them

Performance Improvement Projects (PIPs): Annual projects that HMOs are required to undertake as part of Quality Assessment Performance Improvement (QAPI).

Personally Identifiable Information: An individual's last name and the individual's first name or first initial, in combination with and linked to any of the following elements, if the element is not publicly available information and is not encrypted, redacted, or altered in any manner that renders the element unreadable:

- a. The individual's Social Security number;
- b. The individual's driver's license number or state identification number;
- c. The individual's date of birth;
- d. The number of the individual's financial account, including a credit or debit card account number, or any security code, access code, or

password that would permit access to the individual's financial account;

- e. The individual's DNA profile; or
- f. The individual's unique biometric data, including fingerprint, voice print, retina or iris image, or any other unique physical characteristic.

Pharmacy Services Lock-in Program: A program implemented by the Department to coordinate the provision of health care services for HMO members who abuse or misuse pharmacy benefits by seeking duplicate or medically unnecessary services, for restricted medications. Members enrolled in the program will have one pharmacy provider and one primary prescriber for restricted medications.

Physician Services: Any medically necessary diagnostic, preventive, therapeutic, rehabilitative or palliative services provided in a physician's office, in a hospital, in a nursing home, in a recipient's residence or elsewhere, and performed by or under the direct, on-premises supervision of a physician within the scope of the practice of medicine and surgery as defined in Wis. Stats. 448.01 (9).

Plan: A plan is an individual or group plan that provides, or pays the cost of, medical care.

Post Stabilization Services: Medically necessary non-emergency services furnished to a member after he or she is stabilized following an emergency medical condition.

Potential member: A BadgerCare Plus or SSI member who is subject to mandatory managed care enrollment or may voluntarily elect to enroll in a given managed care program, but is not yet a member of a specific HMO.

Potentially Preventable Readmissions (PPR) initiative: DHS initiative requiring HMOs to collaborate with their providers to reduce preventable hospital readmissions within 30 days of discharge from inpatient care.

Preauthorization: The written authorization issued by the Department or the HMO to a provider prior to the provision of a service. Also known as 'prior authorization.' Wis. Admin Code DHS 101.03(134).

Premium: The amount a member may pay each month for Medicaid coverage.

Prescription Drug Coverage: Drugs and drug products covered by Medicaid include legend and non-legend drugs and supplies listed in the Wisconsin Medicaid drug index which are prescribed by a physician, by a dentist licensed,

by a podiatrist, by an optometrist, by an advanced practice nurse prescriber, or when a physician delegates the prescribing of drugs to a nurse practitioner or to a physician's assistant.

Pricing Percentage: Refers to percent priced for a defined time period such as a calendar or fiscal year. This measure is calculated by the HMO and is reported to the Department as a component of the Estimated Data Completeness measure.

Primary Care Physician: licensed physician who provides both the first contact for a person with an undiagnosed health concern as well as continuing care of varied medical conditions with specialties in general practice, family practice, internal medicine, obstetrics, gynecology, and pediatrics. A Primary Care Physician may be a Primary Care Provider.

Primary Care Provider (PCP): Primary Care Physician or other licensed provider who provides both the first contact for a person with an undiagnosed health concern as well as continuing care of varied medical conditions. Including, but not limited to Federally Qualified Health Centers (FQHCs), Rural Health Centers (RHCs), tribal health centers, and physicians, nurse practitioners, nurse midwives, physician assistants and physician clinics with specialties in general practice, family practice, internal medicine, obstetrics, gynecology, and pediatrics. Pursuant to 42 CFR §438.208(b)(1), the primary care provider is a person formally designated as primarily responsible for coordinating the services accessed by the member.

Program Integrity: As defined by CMS, it is the commitment to combating Medicaid provider fraud, waste, and abuse which diverts dollars that could otherwise be spent to safeguard the health and welfare of Medicaid enrollees. This includes, but is not limited to, the responsibility to review Medicaid provider activities, audit claims, identify and recover overpayments, and provider and public education.

Prospective Risk Adjustment: Per 42 CFR §438.5(a), a methodology to account for anticipated variation in risk levels with the contracted HMO that is derived from historical experience of the contracted HMO and applied to rates for the rating period for which the certification is submitted.

Protected Health Information (PHI): Health information, including demographic, that relates to the past, present, or future physical or mental health or condition of an individual, the provision of health care to an individual, or the payment for the provision of health care to an individual, that identifies the individual or provides

a reasonable basis to believe that it can be used to identify an individual. PHI is a subset of IIIH.

Provider: A person who has been enrolled by the Department to provide health care services to members and to be reimbursed by BadgerCare Plus and/or Medicaid SSI for those services.

Provider Network: A list of physicians, hospitals, urgent care centers, and other health care providers that an HMO has contracted with to provide medical care to its members. These providers are “network providers,” “in-network providers” or “participating providers.” A provider that has not contracted with the plan is called an “out-of-network provider” or “non-participating provider.”

Public Institution: An institution that is the responsibility of a governmental unit or over which a governmental unit exercises administrative control as defined by federal regulations, including but not limited to prisons and jails.

Quality: Per 42 CFR §438.320, as it pertains to external quality review, the degree to which a HMO increases the likelihood of desired outcomes of its enrollees through:

- a. Its structural and operational characteristics.
- b. The provision of services that are consistent with current professional, evidenced-based-knowledge.
- c. Interventions for performance improvement.

Rate Cell: A set of mutually exclusive categories of enrollees that is defined by one or more characteristics for the purpose of determining the capitation rate and making a capitation payment; such characteristics may include age, gender, eligibility category, and region or geographic area. Each enrollee should be categorized in one of the rate cells for each unique set of mutually exclusive benefits under the contract.

Rate Region: A grouping of counties with similar rate-setting attributes such as geography, member cost, and provider networks.

Rating Period: A period of 12 months selected by the Department for which the actuarially sound capitation rates are developed and documented in the rate certification submitted to CMS as required by 42 CFR §438.7(a).

Readily Accessible: Electronic information and services which comply with modern accessibility standards such as section 508 guidelines, section 504 of the

Rehabilitation Act, and W3C's Web Content Accessibility Guidelines (WCAG) 2.0 AA and successor versions.

Reconsideration of a Claim: A request to review a claim or a portion of a claim that a provider feels was incorrectly paid or denied because of processing errors.

Recovery: Refers to an approach to care which has its goals as a decrease in dysfunctional symptoms and an increase in maintaining the person's highest level of wealth, wellness stability, self-determination and self-sufficiency. Care that is consistent with recovery emphasizes the member's strengths, recognizes their ability to cope under difficult circumstances, and actively engages as partners in the provision of health care.

Rehabilitation Services and Devices: Services and devices designed for recovery or improvement of function and to restore to previous level of function if possible.

Resubmission of a Claim: A claim or a portion of a claim that was denied is resubmitted through the claims process with changed or added information.

Retrospective Risk Adjustment: Per 42 CFR §438.5(a), a methodology to account for variation in risk levels with the contracted HMO that is derived from experience concurrent with the rating period of the contracted HMO subject to the adjustment and calculated at the expiration of the rating period.

Risk Adjustment (Previously known as Chronic Illness & Disability Payment System (CDPS)): Per 42 CFR §438.5(a), a methodology to account for the health status of enrollees via relative risk factors when predicting or explaining costs of services covered under the contract for defined populations or for evaluating retrospectively the experience of HMOs contracted with the State.

Rural Exception: The provision under 42 CFR §438.52 allowing states to require members in rural areas to enroll into a single HMO.

Screening: The use of data-gathering techniques, tests, or tools to identify or quantify the health and/or cultural needs of a member. Screening methods may include telephonic contact, mailings, interactive web tools, or encounters in person with screeners or health care providers. For Medicaid SSI members, the screening must be an in-person or telephonic interview where an HMO identifies the member's medical, dental, behavioral health and social needs.

Secretary: The Secretary of HHS and any other officer or employee of the Department of HHS to whom the authority involved has been delegated.

Service Area: An area of the State where the HMO has agreed to provide BadgerCare Plus and/or Medicaid SSI services to members. The Department monitors enrollment levels of the HMO by the HMO's service area(s). The HMO indicates whether they will provide dental or chiropractic services by service area. A service area may be a county, a number of counties, or the entire State.

Service Authorization: Approval of a member's request for the provision of a service.

Significant Change: Any change within a HMO's ability to fulfill the major components of the contract requirements, including but not limited to a change in provider network, service area, organizational structure or staff, or benefit package.

Skilled Nursing Care: Medically necessary skilled nursing services ordered by and to be administered under the direction of a physician that may only be provided by an advanced practice nurse, a registered nurse (RN), or a licensed practical nurse (LPN) working under the supervision of an RN.

Social Determinants of Health: Social, economic, environmental, and material factors surrounding people's lives, traumatic life events, access to stable housing, education, health care, nutritional food, employment and workforce development.

Social Risk Factors (SNF): Individual-level adverse drivers of health. Examples include social isolation or housing instability.

Specialist: A physician whose practice is limited to a particular branch of medicine or surgery, especially one who is professionally certified by a board of physicians.

Standard Plan: Effective April 1, 2014, all members eligible for BadgerCare Plus will be enrolled in the BadgerCare Plus Standard Plan. Standard Plan is the benefit package for BadgerCare Plus and Medicaid SSI defined in the ForwardHealth online handbooks and through State Plan Authority.

State: The State of Wisconsin.

State Fair Hearing: The process used by the Wisconsin Division of Hearing and Appeals to adjudicate member appeals of HMO adverse benefit determinations.

Subcontract: Any written agreement between the HMO and another party to fulfill the requirements of this Contract. However, such terms do not include insurance purchased by the HMO to limit its loss with respect to an individual member, provided the HMO assumes some portion of the underwriting risk for providing health care services to that member.

Substantial Failure to Perform: Includes any violation of any requirement of this Contract that is repeated or ongoing, that goes to the essentials or purpose of the Contract, or that injures, jeopardizes or threatens the health, safety, welfare, rights or other interests of members.

Third Party Liability (TPL): The legal obligation of a third party (other than Medicaid) to pay for part or all of a claim. Since Medicaid is legally the “payer of last resort,” the identification of other payer obligations is a major requirement in the adjudication of claims (see Addendum IV, A for additional definitions pertaining to TPL).

Trade Secret: Per Wis. Stat. §134.90(1), trade secrets are information, including a formula, pattern, compilation, program, device, method, technique or process to which all of the following apply:

- a. s.134.90(1)(c)1. The information derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use.
- b. s.134.90(1)(c)2. The information is the subject of efforts to maintain its secrecy that are reasonable under the circumstances.

Trading Partner: Refers to a provider or HMO that transmits any health information in electronic form in connection with a transaction covered by 45 CFR Parts 160 and 162, or a business associate authorized to submit health information on the Trading Partner’s behalf.

Transaction: The exchange of information between two parties to carry out financial or administrative activities related to health care as defined by 45 CFR §160.103.

Transitional Care: Processes to ensure continuity of care that include, but are not limited to, medication reconciliation, ensuring members have a comprehensive understanding of their treatment plan, and assisting members with scheduling follow-up appointments with their primary care provider or specialists as needed after a member is discharged from an emergency department, hospital, nursing home, or rehabilitation facility. Per 42 CFR § 438.208(b)(2), processes to

coordinate services the HMO furnishes to the member between settings of care, including appropriate discharge planning for short term and long-term hospital and institutional stays.

Trauma-informed Care: An approach to engaging people with histories of trauma that recognizes the presence of trauma symptoms and acknowledges the role that trauma has played in their lives.

Urgent care/service needs: Services provided to treat a non-emergency, unforeseen medical illness, injury, or condition that requires immediate medical care. Urgently needed services are often but not always those that if not fulfilled could result in an emergency room visit or inpatient admission.

Usual sources of care: Doctor, clinic, health center, or other place that an individual reports visiting when sick. Persons who report the emergency department as the place of their usual source of care are defined as having no usual source of care.

Validation: Per 42 CFR §438.320, the review of information, data, and procedures to determine the extent to which they are accurate, reliable, free from bias, and in accord with standards for data collection and analysis.

Voluntary: Refers to any service area where the Department cannot require members to enroll in a HMO.

Waste: The unnecessary incurrence of costs as a result of inefficient or inaccurate practices, systems or controls.

Wisconsin Interdisciplinary Care Team (WICT): A group of health care professionals, including HMO partners, and other ancillary staff representing diverse disciplines who work together to share expertise, knowledge, and skills to help members meet their self-identified goals. An effective WICT requires interdependent collaboration, open communication, and shared decision-making working toward a common goal.

Wisconsin Statewide Health Information Network (WISHIN): Wisconsin's health information network that shares electronic health information securely between participating physicians, clinics, hospitals, pharmacies, clinical laboratories, and HMOs across the state.

Wisconsin Tribal Health Directors Association (WTHDA): The coalition of all Wisconsin American Indian Tribal Health Departments.

Per 42 CFR § 438.10, HMOs must use the definitions for managed care terminology found above when communicating with members to ensure consistency in the information provided to members. Terms that are not defined above shall have their primary meaning identified in Wis. Adm. Code chs. DHS 101-108.

ARTICLE II: ENROLLMENT AND DISENROLLMENT

A. Enrollment

1. Enrollment Authority

The current State Plan Amendment and 1115(a) waiver require mandatory enrollment into an HMO for those service areas in which there are two or more HMOs. Enrollment is voluntary for individuals who identify as American Indian or Alaskan Native.

Medicaid SSI

The current State Plan Amendment requires mandatory enrollment into an HMO for those service areas in which there are two or more HMOs.

Enrollment for an HMO is voluntary for Medicaid members who are enrolled in Medicare and members who are enrolled in Medicaid Purchase Plan (MAPP).

2. Enrollment Determination

The Department will identify BadgerCare Plus, Medicaid SSI and SSI-Related Medicaid members who are eligible for enrollment in the HMO as the result of eligibility under the medical eligibility status codes listed in the chart at the following link:

Medical Status Codes Eligible for BadgerCare Plus and Medicaid SSI HMO Enrollment

3. Enrollment Section

a) Members may generally choose an HMO upon eligibility.

b) If the member does not choose an HMO and is required to enroll in an HMO, the Department will enroll the member in an HMO. The HMO will be selected based on a round robin selection, except for the following:

i. Newborn Enrollment: If the mother is enrolled in a BadgerCare Plus HMO at the time of birth, and the child is reported to the certifying agency within 100 days of birth, the newborn will be enrolled in the same HMO as the mother back to the infant's date of birth.

If the newborn is not reported to the certifying agency within 100 days, then the newborn will be enrolled in the same HMO as the mother the next available enrollment month. If the mother is not enrolled in a BadgerCare Plus HMO on the

date of birth, the newborn will be auto assigned to an HMO unless otherwise exempt.”

Infants weighing less than 1200 grams will be exempt from enrollment if the data submitted to the fiscal agent by the HMO or the provider supports the infant’s low birth weight. If an infant weighs less than 1200 grams, the HMO or provider should check the box on the BadgerCare Plus Newborn Report.

ii. Automatic Reenrollment: A member may be automatically reenrolled into the HMO if they were disenrolled solely because she/he loses BadgerCare Plus and/or Medicaid SSI eligibility for a period of two months or less.

iii. Prior HMO: The Department will assign a member to his/her prior HMO if the member was enrolled in an HMO within the past 12 months and does not make a selection of HMO.

4. Enrollment Rosters

The Department will promptly notify the HMO of all BadgerCare Plus and/or Medicaid SSI members enrolled in the HMO under this Contract. Notification will be effected through the HMO Enrollment Rosters. These rosters shall be available through electronic file transfer capability and will include medical status codes.

For each month of coverage through the term of the Contract, the Department will transmit “HMO Enrollment Rosters” to the HMO. These rosters will provide the HMO with ongoing information about its BadgerCare Plus and/or Medicaid SSI enrollees and disenrollees and will be used as the basis for the monthly capitation claim payments to the HMO. The HMO Enrollment Rosters will be generated in the following sequence:

a. BadgerCare Plus and Medicaid SSI

- 1) The Initial HMO Enrollment Roster will list all of the HMO’s members and disenrollees for the enrollment month that are known on the date of roster generation. The Initial HMO Enrollment Roster will be available to the HMO on or about the twenty-first of each month. A capitation claim shall be generated for each member listed as an ADD or CONTINUE on this roster. Members who appear as PENDING on the Initial Roster and are reinstated into the HMO by the last business day of the month will appear as a CONTINUE on the Final Roster and a capitation claim will be generated at that time.
- 2) The final HMO Enrollment Roster will list all of the HMO’s members for the enrollment month, who were not included in the Initial HMO Enrollment Roster. The Final HMO Enrollment Roster will be available to the HMO by the first day of the capitation month. A capitation claim will be generated for every member listed as an ADD

or CONTINUE on this roster. Members in PENDING status will not be included on the final roster.

- b. The Department will provide the HMO with effective dates for medical status code changes, county changes and other address changes in each enrollment roster to the extent that the income maintenance agency reports these to the Department.

5. Enrollment Levels

The HMO, for BadgerCare Plus or Medicaid SSI, must designate a maximum enrollment level for each service area. The Department may take up to 60 days from the date of written notification to implement maximum enrollment level changes. The HMO must accept as enrolled all persons who appear as members on the HMO Enrollment Rosters up to the HMO specified enrollment level for its service area. The number of members may exceed the maximum enrollment level by 5% on a temporary basis. The maximum enrollment level for a service area may be increased or decreased during the course of the Contract period based on mutual acceptance of a different maximum enrollment level. The HMO must not obtain enrollment through the offer of any compensation, reward, or benefit to the member except for additional health-related services that have been approved by the Department.

The Department does not guarantee and minimum enrollment level.

Effective January 1, 2023 maximum enrollment levels will be eliminated and the HMO will be required to serve all eligible members who choose to enroll, or who are automatically enrolled, with the HMO.

6. Enrollment Errors

The Department must investigate enrollment errors brought to its attention by the HMO. The Department must correct systems errors and human errors and ensure that the HMO is not financially responsible for members that the Department determines have been enrolled in error. Capitation payments made in error will be recouped.

7. Open Enrollment

The HMO shall accept members eligible for coverage under this Contract, in the order in which they are enrolled. The HMO will not discriminate against individuals eligible to enroll on the basis of race, color, national origin, health status, sex, sexual orientation, gender identity or disability and will not use any policy or practice that

has the effect of discriminating on the basis of race, color, national origin, health status, sex, sexual orientation, gender identity or disability.

8. Member Lock-In Period

a. BadgerCare Plus

A mandatory member may disenroll from an HMO without cause during the first 90 days of an initial HMO enrollment. After 90 days, the member will be locked into the HMO for 9 months and may only disenroll for cause.

b. Mandatory SSI and SSI-Related Medicaid

Mandatory Medicaid SSI and SSI-related Medicaid may disenroll from an HMO without cause during the first 90 days of an initial enrollment. After 90 days, the member will be locked into the HMO for 9 months and may only disenroll for cause.

c. Voluntary Medicaid SSI and SSI-Related Medicaid

Voluntary Medicaid SSI and SSI-related Medicaid members will be locked into the HMO for 9 months. The member may disenroll from an HMO or choose FFS without cause during the first 90 days of an initial enrollment.

B. Disenrollment

The HMO must direct all members with disenrollment requests to the Department's Enrollment Specialist for assistance and/or for choice counseling.

1. Process

Disenrollment requests will be processed as soon as possible and will generally be effective the first day of the next month of the request, unless otherwise specified. If the Department fails to make a disenrollment or exemption determination within 30 days of receipt of all necessary information, the disenrollment or exemption is considered approved.

Disenrollment requests will not be backdated, unless an exception is granted by the Department. The HMO will not be liable for services, as of the effective date of the disenrollment.

The disenrollment charts located in Subsection 6 of this article indicate whether the disenrollment is applicable to BadgerCare Plus or SSI HMO.

2. Voluntary Disenrollment

a. A member may voluntarily disenroll from an HMO for any reason when the member is not in the lock-in period. Voluntary disenrollment requests must come from the member, the member's family, or legal guardian. Voluntary disenrollment shall be effective no later than the first day of the second month following the month in which the member requests disenrollment.

i. Upon automatic reenrollment under 42 CFR § 438.56(c) the temporary loss of BadgerCare Plus and/or Medicaid SSI enrollment has caused the member to miss the annual enrollment period.

ii. If an HMO does not, because of moral or religious objections, cover the service the member seeks. The HMO must notify the Department, at the time of certification, of any services that they would not provide due to moral or religious objections.

iii. If the member needs related services (e.g., a cesarean section and a tubal ligation) to be performed at the same time; not all related services are available within the provider network; and the member's primary care provider or another provider determines that receiving the services separately would subject the member to unnecessary risk.

iv. The SSI HMO fails to complete the assessment and care plan during the first 90 days of enrollment, and is able to demonstrate a good faith process to complete the assessment, the voluntary disenrollment period will be extended an additional 30 days.

v. Other reasons, including poor quality of care, lack of access to services covered under the contract, or lack of access to providers experienced in dealing with the member's care needs.

2. System Based Disenrollments

Disenrollments happen automatically in the system based on changes to the member's eligibility. If eligibility changes are not updated timely, by the enrollment system, the HMO may request disenrollment through the Department's HMO Enrollment Specialists.

a. Loss of BadgerCare Plus and/or Medicaid SSI Eligibility

If a member loses BadgerCare Plus or Medicaid SSI eligibility or dies, the member shall be disenrolled. The date of disenrollment shall be the date of BadgerCare Plus or Medicaid SSI eligibility termination or the date of death.

No recoupments will be made to the capitation payment to reflect a mid-month disenrollment, but any capitation payment(s) made for months subsequent to the disenrollment month will be recouped.

b. Out-of-Service Area Disenrollment

The member moved to a location that is outside of the HMO's service area(s). The date of the disenrollment shall be the date the move occurred, even if this requires retroactive disenrollment. No recoupments will be made to the capitation payment to reflect a mid-month disenrollment, but any capitation payment(s) made for months subsequent to the disenrollment month will be recouped.

c. Medicare Beneficiaries (BadgerCare Plus Only)

Members who become eligible for Medicare will be disenrolled effective the first of the month of notification to the BadgerCare Plus program from the Social Security Administration (SSA). Even if SSA awards Medicare eligibility retroactively, the effective date of HMO disenrollment will be the first of the month of notification.

d. Inmates of a Public Institution (All Plans)

The HMO is not liable for providing care to members who are inmates in a public institution as defined in DHS 101.03(85) for more than a full calendar month. The HMO must provide documentation that shows the member's placement. The disenrollment will be effective the first of the month following the first full month of placement or the date of BadgerCare Plus and/or Medicaid SSI ineligibility, whichever comes first.

e. Waiver Programs (All Plans)

The member is or will be participating in CLTS, FamilyCare, IRIS, Pace, or Partnership, other home and community waiver programs. The HMO must inform the Enrollment Specialist of the effective dates that the member is/was participating in the waiver program to accommodate a timely disenrollment. Disenrollment shall be effective the first month in which the member entered the other program. Disenrollments are not backdated more than four months from the date the request is received. Any capitation payments made for months subsequent to disenrollment will be recouped.

2. Involuntary Disenrollment Requests

The Department may approve an involuntary disenrollment with an effective date that will be the next available benefit month based on enrollment system logic, except for specific cases or persons where there is a situation where enrollment would be harmful to the interests of the member or in which the HMO cannot provide the member with appropriate medically necessary contract services for reasons beyond its control. For any request for involuntary disenrollment, the HMO must submit a disenrollment request to the Department and include evidence attesting to cause. The HMO must direct all members with involuntary disenrollment requests to the Department's Enrollment Specialist for assistance and/or for choice counseling. This might include, but is not limited to:

a. Just Cause

The HMO may request and the Department will approve disenrollment requests for specific cases or persons where there is just cause. Just cause is defined as a situation where enrollment would be harmful to the interests of the member or in which the HMO cannot provide the member with appropriate medically necessary contract services for reasons beyond its control. The HMO may not request just cause disenrollment because of an adverse change in the member's health status, or because of the member's utilization of medical services, diminished mental capacity, or uncooperative disruptive behavior resulting from his or her special needs (except when his or her continued enrollment in the HMO seriously impairs the entity's ability to furnish services to either this particular member or other members) (42 CFR 438.56).

b. Nursing Home

For BadgerCare Plus and Medicaid SSI members in a nursing home at the time of HMO enrollment, the member, the nursing home, or the HMO may contact the HMO Enrollment Specialist for an exemption. The nursing home services would be billed to fee-for-service, and upon discharge, the exemption will end and the member may be eligible for HMO enrollment.

1) BadgerCare Plus (non-CLA)

A BadgerCare Plus (non-CLA) member who has been in a nursing home for longer than 30 days will have their medical status code changed to an institutional code, which will automatically disenroll them from the HMO. The HMO does not need to report this population to the Enrollment Specialist as the disenrollment is

automatic. The HMO is responsible for nursing home costs until the disenrollment is effective.

Automatic disenrollment does not occur for the following populations and HMOs must notify the Enrollment Specialist for disenrollment:

2) Medicaid SSI

After a SSI member has been in a nursing home 90 days or longer and is expected to remain in the facility, the HMO must notify the HMO Enrollment Specialist to request disenrollment. In the event the member transfers from the nursing home to a hospital and back to the nursing home, the applicable 90 day period shall run continuously from the first admission to the nursing home and shall include any days in the hospital. The HMO must wait until 90 days have occurred before requesting an exemption, which will occur the first of the next month. The HMO is responsible for nursing home costs until the disenrollment is effective.

3) BadgerCare Plus - CLA

If a member enters a nursing while enrolled in the HMO and is in the nursing home longer than 30 days and is expected to remain in the facility, the member shall be disenrolled from the HMO. The HMO must wait until the 30 days have occurred before requesting an exemption, which will occur the first of the next month. The HMO is responsible for nursing home costs until the disenrollment is effective.

3. Change in Member Circumstance

When a member's change in circumstance has been identified and verified by the HMO, the HMO must provide prompt written notification and proof of the change to DHS or the appropriate entity as designated by DHS. Changes in circumstance include:

- a. Change in the enrollee's residence when the enrollee is no longer in the HMO's service area.
- b. The death of an enrollee.

C. Exemptions

Exemption requests will be processed as soon as possible and will generally be effective the first day of the next month of the request, unless otherwise specified. The HMO must

direct all members with exemption requests to the Department's Enrollment Specialist for assistance and/or choice counseling.

Exemption requests will not be backdated, unless an exception is granted by the Department. The HMO will not be liable for services, as of the effective date of the exemption.

Exemption requests from HMO enrollment must come from the member, the member's family, or legal guardian. Below are listed the exemption criteria that the Department uses to grant exemptions. The exemption chart (Subsection 6 of this article) indicates whether the exemption is applicable to BadgerCare Plus or SSI HMO. Even if a member meets the exemption criteria, the Department may, in its sole discretion, deny an exemption. Members who are denied an exemption may request a State Fair Hearing to appeal the denial.

1. Commercial HMO Insurance

Members who have commercial HMO insurance may be eligible for an exemption from a BadgerCare Plus or Medicaid SSI HMO if the commercial HMO does not participate in BadgerCare Plus or Medicaid SSI. In addition, members who have commercial insurance that limits them to a restricted provider network (e.g., PPOs, PHOs, etc.) may be eligible for an exemption from enrollment in a BadgerCare Plus or Medicaid SSI HMO.

The HMO may request assistance from the Department's contracted Enrollment Specialist in situations where the member has commercial insurance that limits the members to providers outside the HMO's network.

When the Department's member eligibility file indicates commercial HMO coverage limiting a member to providers outside the BadgerCare Plus and/or Medicaid SSI HMO network and the member seeks services from the BadgerCare Plus and/or Medicaid SSI HMO network providers, the BadgerCare Plus and/or Medicaid SSI HMO network providers may refuse to provide services to that member and refer him/her to their commercial network, except in the case of an emergency.

2. Transplant (BadgerCare Plus and SSI Medicaid Plans)

Members who have had a transplant that is considered experimental such as a liver, heart, lung, heart-lung, pancreas, pancreas-kidney, stem cell or bone marrow transplant are eligible for an exemption.

- a. Members who have had a transplant that is considered experimental will be permanently exempted from HMO enrollment the first of the month in which surgery is performed.
- b. In the case of autologous bone marrow transplants, the person will be permanently exempted from HMO enrollment the date the bone marrow was extracted.
- c. Members who have had one or more of the transplant surgeries referenced above prior to enrollment in an HMO will be permanently exempted. The effective date will be either the first of the month not more than six months prior to the date of the request, or the first of the month of the HMO enrollment, whichever is later.
- d. Transplant exemption requests may be made by the HMO and be directed to the Department's fiscal agent Nurse Consultant. The exemption request must include the date of the transplant, the procedure, and transplant facility.

3. Admission to a Birth-to-3 Exemption (BadgerCare Plus Only)

A child from birth through two years of age (including two year olds), who is severely developmentally disabled or suspected of a severe developmental delay, or who is admitted to a Birth-to-3 program is eligible for an exemption. Exemption request must be made by the case head of the member or the County Birth-to-3 programs, on behalf of a member. Exemption requests should be directed to the Department's Enrollment Specialist. Exemptions are backdated no more than two months from the date the request is received.

4. Indian (All Plans)

Members who are Indian and members of a federally recognized tribe are eligible for disenrollment.

5. Continuity of Care

Continuity of Care exemptions may be granted when a person is newly enrolled or about to be enrolled in an HMO and is receiving care from a provider that is not part of the HMO the person was assigned to or chose or is not part of any HMO's network available to the member. Continuity of Care exemptions are generally short term, granted for 6 months or less.

6. System Based Disenrollments and Exemptions

- a. Listed below are the reasons for system based disenrollment as defined in Subsection 2:

System Disenrollment reason	BadgerCare Plus	Medicaid SSI/SSI Related
Loss of BadgerCare Plus and/or Medicaid SSI eligibility	Yes	Yes
Out-of-State or Out-of-Service Area Move	Yes	Yes
CIP, COP, or Other Home and Community Based Waivers, Family Care and Pace/Partnership	Yes	Yes
Medicare Beneficiaries	Yes	No
Med stat code changes	Yes	Yes
Living in a public institution	Yes	Yes

- b. Listed below are the exemption requests which may be requested by the member and approved by the Department:

Exemption Type	BadgerCare Plus	Medicaid SSI/SSI Related
High Risk Pregnancy	Yes	Yes
Commercial HMO	Yes	Yes
Indian	Yes	Yes
Birth-to-3	Yes	No
Continuity of Care	Yes	Yes

- c. Listed below are disenrollments requests which may be requested by the HMO and approved by the Department:

Disenrollment Reason	BadgerCare Plus	Medicaid SSI/SSI Related
Just Cause	Yes	Yes
Infants with Low Birth Weight	Yes	No
Transplants	Yes	Yes
Nursing Homes	Yes	Yes

ARTICLE III: CARE MANAGEMENT

The HMO will provide care coordination and case management services as defined in Article I. As part of the Care Management model, the HMO will employ care coordinators and case managers to arrange, deliver, and monitor Medicaid-covered services to meet the member's needs.

The HMO shall use care management staff (i.e., care coordinators, case managers, behavioral health professionals, and/or nurses) trained in the cultural, health and socioeconomic needs of the BadgerCare Plus and Medicaid SSI population in order to conduct care coordination activities.

The care coordinators and case managers will work together with the member and the primary care provider to provide appropriate services for HMO members.

The HMO must develop care management guidelines to operationalize their care management model which must receive Department approval prior to its implementation; any subsequent changes to the guidelines are also subject to Department approval.

A. Care Management Requirements for All Members

1. Information Sharing for New Members

HMOs must have policies and procedures to utilize member-specific information provided by DHS to prevent duplication of activities and as input into any needs stratification or care plan development activities. This may include results of any screens completed by the member, claims/encounter history, FFS prior authorization data, high-risk pregnancy indicators, and upcoming non-emergency medical transportation trips. (Pursuant to [42 CFR § 438.208\(b\)\(4\)](#))

HMOs must also follow information sharing as written under Art. VII, F, 7.

2. Screening Requirements

Pursuant to [42 CFR § 438.208\(b\)\(3\)](#), the HMO must make a best effort to conduct an initial screening of each member's needs, within 90 days of HMO enrollment for all new members, including subsequent attempts if the initial attempt to contact the member is unsuccessful. New members include those that were previously enrolled in the HMO but re-enroll in the HMO at least six months after their last disenrollment.

See Sections B and C of this Article for BadgerCare Plus and SSI specific screening requirements.

3. Primary Care Provider Assignment

Per Art. VII, C, HMOs are encouraged to assist members in identifying a primary care provider. This identification should be a part of the initial member screening process.

4. Care Coordination Requirements for all Members

The HMO must coordinate and provide Medicaid-covered, medically necessary services to members in accordance with the needs identified in the initial screen. The HMO care coordinator or other professional staff shall follow-up regularly with the member to determine if services provided best address their needs.

Per [42 CFR § 438.208\(b\)\(2\)](#), the HMO must coordinate the services it provides to members:

- a. Between settings of care, including appropriate discharge planning for hospital or institutional stays. Upon notification of a change in setting of care, the HMO is responsible for coordination with the hospital or institution staff.
- b. With services provided by another HMO.
- c. With services a member receives through Medicaid Fee-for-Service.
- d. With services a member receives through community and social support providers.

More information and requirements on care coordination can be found in Art. VII, F.

5. Members with Special Needs

A more specific model for all SSI members can be found in Art. III, C. However, for other individuals deemed to be a member with special needs, the following is required:

a. Identification

Members with Special Needs are defined by the Department under Art. I, A.

b. Assessment

Per [42 CFR § 438.208\(c\)\(2\)](#), the HMO must implement mechanisms to comprehensively assess each member with special health care needs to identify any ongoing special conditions of the member that require a course of treatment or regular care monitoring. The assessment mechanisms shall be conducted by appropriately qualified staff.

c. Treatment Service Plans

Per [42 CFR § 438.208\(c\)\(3\)](#), the HMO must produce a treatment or service plan for members with special health care needs that are determined through assessment to need a course of treatment or regular care monitoring. The treatment or service plan must be:

- 1) Developed by appropriately qualified staff, and in consultation with any providers caring for the member;
- 2) Developed by a person trained in person-centered planning using a person-centered process and plan as defined in § 441.301(c)(1);
- 3) Approved by the HMO in a timely manner, if this approval is required by the HMO;

- 4) In accordance with any applicable State quality assurance and utilization review standards; and
- 5) Reviewed and revised upon reassessment of functional need, at least every 12 months, or when the member's circumstances or needs change significantly, or at the request of the member per § 441.301(c)(3) of this chapter.

d. Access to Specialists

Per [42 CFR § 438.208\(c\)\(4\)](#), Members with special health care needs determined through an assessment to need a course of treatment or regular care monitoring, the HMO must have policies and procedures in place to allow members to directly access a specialist (for example, through a standing referral or an approved number of visits) as appropriate for the member's condition and identified needs.

B. Care Management Requirements for BadgerCare Plus Members

1. Care Management Elements

As part of care management, the following must be provided for each member:

a. Member Needs Screening

- 1) The initial screen shall be conducted by appropriately qualified staff via methods that may include telephonic contact, mailings, interactive web tools (live chat, online screen), or encounters in person with screeners or health care providers.
- 2) Initial Screen Elements – When screening for a member's needs, review the following elements to gather necessary information for care management, as appropriate for the population:
 - a) Urgent medical and behavioral symptoms;
 - b) Members' perception of their general well-being;
 - c) Identify usual sources of care (e.g. primary care provider, clinic, specialist and dental provider);
 - d) Frequency in use of emergency and inpatient services;
 - e) History of chronic physical and mental health illness and/or SUD;
 - f) Number of prescription medications used monthly;
 - g) Socioeconomic barriers to care;
 - h) Behavioral and medical risk factors;
 - i) Weight and blood pressure indicators.

j) Existing supports and services paid or unpaid

3) Drivers of Health Screening and Referral

a. HMOs shall include drivers of health in their screening process for adult members. HMOs are required to develop a screening plan to include written policy and procedure and screening questions to capture the following categories of drivers of health: housing, utilities, transportation, and food to identify social risk factors and health related social needs.

b. The policy and procedure shall include the following:

- Obtain member consent prior to screening;
- Ensure staff members have the appropriate background, education, and training including motivational interviewing and trauma informed care; Members will be screened within 90 days of enrollment and annually thereafter;
- Referral to appropriate resources as identified and in consultation with the member and
- Provide data analysis to determine needs across the HMO's membership including examining prevalence of social risk factors/HRSNs and disparities stratified on gender, race, ethnicity, disability, age, and language.

c. HMOs are required to electronically store the driver of health screening results.

- HMOs are required to submit their driver of health screening plans and questions to DHS for approval no later than 3/1/2022. A plan template will be provided by DHS.

d. HMOs shall begin screening no later than 6/1/2022.

e. HMOs are required to submit an annual report, developed by the Department that includes the following information

- Number of members screened, within 90 days and post 90 days;
- Number of members domain needs, stratified by the four domains;
- Number of members with more than one driver of health domain need;
- Number of referrals made, aggregate and stratified by the four domains; and

- Demographic data for members screened, aggregate and stratified by the four domains.

C. Care Management Model for the Medicaid SSI Population

The goal of the Department's Medicaid SSI program is to improve the health of its members and enhance quality of care while reducing health care costs. The Department's vision is to collaborate with HMOs to develop a comprehensive, integrated care model; incorporating social, behavioral health, and medical needs for members. The Department excludes those SSI Medicaid members who have Medicare coverage (dual eligible) from the SSI Care Management requirements.

The HMO is responsible for establishing a team-based care management model. The care structure and care management model must assure coordination and integration of all aspects of all SSI members' health care needs. The HMO must also promote effective communication and shared decision-making between care management team and the member regarding the member's care. Based on health conditions and social determinants of health, the HMO must stratify members into different care management needs groups which will include a Wisconsin Interdisciplinary Care Team (WICT) structure (Article III(C)) for members with the highest needs.

1. Care Management Model Characteristics

The HMO will have flexibility in developing its own care model(s) but it must have the following characteristics:

a. Effective Member Outreach and Engagement

HMOs must develop effective outreach strategies to connect with and engage SSI members using a member-centric, culturally competent, collaborative approach to care. The HMO must encourage member self-determination and self-care.

b. A Coordinated, Team-based, Patient-centered Approach to Care

The HMO's care management model must take into consideration the importance of shared decision-making between the care management team and members; the need for scheduling flexibility; and the need for team-based, care coordination services.

c. Social Determinants Approach to Care

Addressing member social determinants is a critical consideration for SSI members. While the HMO is not required to provide “wrap around” social services, the HMO must establish partnerships and maintain effective working relationships with key social service and community-based agencies to ensure the social determinants of health (e.g., housing instability, low health literacy, chronic stress, traumatic life events, and other social factors) are identified and addressed.

d. Use of Information Technology Integral to Care Management Model

The HMO must use information technology to improve communication within and across health care settings and to reduce fragmentation in the delivery of services to the member.

The HMO must encourage use of the Office of the National Coordinator’s (ONC) Interoperability Standards Advisory best available standards to share information electronically across the continuum of care.

e. Evidence Based Approach to Care

The HMO must provide high quality of care and will be held accountable by the standards of care defined in Article X of this contract. The HMO must monitor health care outcomes regularly and promote the use of evidence-based care. In addition, through effective member engagement and outreach strategies the HMO must assist members in navigating the health care system.

2. Care Management Infrastructure

The HMO must have an appropriate care management infrastructure to serve the SSI Managed Care population. The HMO must have a sufficient number of adequately trained care management staff to meet individual member needs. As part of the care management infrastructure, the HMO must also have a WICT that is capable of rapidly mounting an intensive intervention and share a caseload for members identified by the HMO with the highest needs and to serve as a consultative resource for other Care Management staff.

At a minimum, the care management infrastructure must include the following:

a. Care Management Staff and WICT

1) Qualifications

In order to respond to the unique needs of SSI members, the HMO must employ, or contract for the employment of, licensed healthcare professionals and other qualified care management staff with the following skills and knowledge needed to coordinate care for members (upon hiring or incorporated into their annual training plan):

- a) Motivational interviewing skills
- b) Patient engagement strategies
- c) Knowledge of the target population
- d) Knowledge and experience with trauma informed care and the stages of change approach
- e) An understanding of the impact of social determinants (e.g., poverty, lack of food or social supports) on health.

2) Care Management Staff Training Plan

HMOs must submit to the Department for review and approval a Care Management Staff Training Plan. This Staff Training Plan shall be submitted to the Department as part of the certification application review process and upon the Department's request.

3) Caseloads

HMOs must allow care management staff and the WICT adequate time to effectively coordinate the delivery of integrated care. In order to do so, HMOs must have strategies in place to monitor care management team workloads and to assure that each team member is assigned a manageable caseload based on their roles and responsibilities within the team. HMOs must develop and maintain written caseload standards in consideration of the following:

- a) The complexity of the cases.
- b) The need for licensed health care professionals and other care management staff to coordinate with other providers and community resources.
- c) The need for face-to-face contacts with the member, providers, and others instrumental to meeting the needs of the member.
- d) Management duties, including providing direction to care management team members and ensuring adequate documentation of care management activities.

b. Wisconsin Interdisciplinary Care Team (WICT)

In addition to the care management requirements above, the HMO Care Management Model must include a Wisconsin Interdisciplinary Care Team (WICT) which will be the vehicle for providing member-centered care management services for members with the highest needs. The WICT must engage the member, his or her caregivers/family supports and other resources instrumental to the member's care.

1) WICT Structure

The WICT will have a Core Team which must include a minimum of two licensed health care professionals with adequate expertise across medical, mental and behavioral health, and social determinants of health. The WICT Core Team must have ready access to dedicated resources such as pharmacists, physicians, psychiatrists, dieticians, rehabilitation therapists, and substance abuse specialists. These resources should be engaged as part of the WICT Core Team depending on member needs.

The WICT Core Team will also coordinate with the member's PCP, medical specialists, behavioral health specialists, dental providers, and other community resources as driven by the member's care plan.

2) WICT Functions

The WICT must work collaboratively with members, their providers, and their caregivers to accomplish shared goals across medical, mental and behavioral health, and other settings to achieve coordinated, high-quality care.

At a minimum, the WICT Core Team must meet weekly, preferably face-to-face, to discuss their entire shared case load. While the WICT Core Team must meet weekly the level of discussion on each member may vary. The WICT Core Team must have regular opportunities to staff difficult cases with a larger, multidisciplinary WICT Team.

At a minimum, a team member of the WICT Core Team must meet once a month face-to-face with the member to discuss the member's care. The face-to-face meeting with the WICT member may be completed by a community-based case manager if the case manager has a close, collaborative relationship with the WICT Core Team that is demonstrated in the member's care plan and includes reciprocal

communication between the WICT Core Team and the community-based case manager.

It is expected that members will transition from the WICT to a lower intensity of ongoing care management as they become more stable; members may need to return to the WICT in the future if their needs change.

The WICT is intended to be a short-term, intensive intervention. The Department will conduct a chart review for any member enrolled in the WICT for more than 12 months.

3. Care Management Process

The HMO Care Management Model must perform all the activities described below:

a. Screening

1) Purpose

The purpose of the screening is for the HMO to identify medical, dental, mental and behavioral health or social needs of members. The screening must be used by the HMO's care management team to:

- a) Conduct additional assessments (e.g. for specific conditions) as needed,
- b) Perform needs-stratification,
- c) Refer members with the highest needs to the WICT.

2) Timeframe

a. New Members - The screening must be completed by the HMO within 60 days of the member's HMO enrollment.

b. Re-Enrolled Members - Members that were previously enrolled in the HMO but had a disenrollment period of six months or more from their last disenrollment must also have a screening within 60 days of the member's re-enrollment in the HMO.

c. Current Members – The screening must be completed by the HMO annually.

3) Modes of Contact

The screening must be conducted between the HMO and the member, face-to-face, via interactive video technology (synchronous telehealth), or over the phone depending on member preference. The screening cannot be conducted via mail or electronic questionnaire or email. The screening does not need to be conducted by a licensed healthcare professional.

4) Required Components

At a minimum, the screening must include questions that enable the HMO to identify the following:

- a) The member's chronic physical, mental and behavioral health illness(es) (e.g. respiratory disease, cardiac disease, stroke, diabetes/pre-diabetes, renal disease, back pain and musculoskeletal disorders, cancer, overweight/obesity, all mental health and substance abuse disorders).
- b) The member's perception of their strengths, their general well-being (including chronic conditions and access to prescription medications).
- c) If the member has a usual source of care.
- d) Any indirect supports the member may have (family and social supports).
- e) Any relationships the member may have with community resources.
- f) Any immediate and/or long-term concerns a member may have about their overall well-being (e.g. social determinants of health).
- g) If the member needs assistance to conduct activities of daily living (including but not limited to bathing, dressing and eating) as well as instrumental activities of daily living (including but not limited to medication management, money management and transportation).

b. Information Gathering and Assessment

The care management team must collect, maintain, and update all relevant information to conduct needs-stratification and to develop the Comprehensive Care Plan including:

- 1) Reviewing the results of the member's screening and conducting other assessments for specific conditions as needed.
- 2) Collecting and analyzing a comprehensive set of available data regarding the member's medical and behavioral health history including data provided by the Department.
- 3) Collecting additional information about the member's social determinants of health.

c. Needs-Stratification

Needs stratification aims to align the member's overall medical and social needs with the most appropriate level of care management for that member, including WICT for highest needs members. In order to achieve this alignment, HMOs must use individual member-level needs stratification as an input for developing individual care management plans, and for using those plans to provide care management for the members. The HMO's care management team will be responsible for conducting and validating the needs stratification results. The HMO must have established processes, systems, tools, models, and administrative and clinical staff to conduct the following tasks related to needs stratification:

- 1) Proactively stratify individual members upon enrollment, using clinical, social, administrative and other relevant data collected during Information Gathering of the care management process.
- 2) Use the stratification information for each member to assign individual members to the most appropriate care management strata, including the WICT for the highest-needs members. Prior to assigning a member to the WICT, HMOs must confirm that the member is able to participate in the intensive short-term intervention and the HMO is able to meet the WICT functional requirements for that member.
- 3) Use stratification information as an input to develop individualized comprehensive care plans.

- 4) Use the care plans to provide the most appropriate care management for individual members based on their needs.
- 5) Periodically reassess whether the members are assigned to the most appropriate strata, based on changes in their overall medical and social needs.
- 6) Continuously monitor and enhance HMO's stratification methods for improving the health outcomes for members.
- 7) If a HMO's needs stratification process results in over 5% of its monthly SSI caseload being identified as high needs and enrolled in a WICT, the HMO must notify DHS within 15 calendar days of the next calendar month. The Department will discuss with the HMO any approved continued high-WICT enrollment or any changes the HMO makes to the needs stratification process and/or care management model.

d. Comprehensive Care Plan

1) Purpose

The purpose of the Comprehensive Care Plan is to ensure that appropriate care is delivered to the member by following an evidence-based, member-centric treatment plan that addresses his or her unique needs. The Plan is developed by the care management team or the WICT and the member, incorporating the elements identified in the Screening, Information Gathering, and the Needs-stratification processes. Per 42 CFR 438.208(c)(3)(iv) of the Managed Care Rule, the Comprehensive Care Plan must be in accordance with Utilization Management requirements outlined in Article X (G) of this contract.

2) Timeframe

a. New and Re-enrolled Members - The Comprehensive Care Plan must be completed within 30 days of completion of the Screening or 90 days after enrollment in the HMO, whichever comes first.

b. Current Members – All currently enrolled members must have a Comprehensive Care Plan completed by the HMO within 30 days of completion of the annual Screening.

3) Modes of Contact

The care management team or the WICT must develop the Comprehensive Care Plan in coordination with the member face-to-face, via interactive video (synchronous telehealth), or over the phone.

4) Care Plan Characteristics

After completing the initial Screening and the Information Gathering processes, the care management team or the WICT must develop and implement a Comprehensive Care Plan in coordination with the member that prioritizes interventions based on the member's medical, mental, behavioral, dental health and other social needs.

The Comprehensive Care Plan must have the following characteristics:

- a) Be member-centric, incorporating the member's short and long-term health and well-being goals.
- b) Incorporate health literacy and cultural competency attributes based on the individual member needs.
- c) Reflect understanding between the member and the care management team or WICT.
- d) Identify all formal and informal supports, by name or position, that are instrumental to the member's care plan goals (e.g. family, friends, caregivers, providers, community agencies). Include their role in executing the care plan, and if/how they will receive care plan updates.
- e) Identify the member's current medical and non-medical needs to be addressed by the care management team or WICT including:
 - 1. Chronic conditions and acute illnesses;
 - 2. Mental and behavioral health conditions and history of abuse, violence, or traumatic life events;

3. Dental care needs;
4. Medications taken by the member;
5. Additional supports to conduct activities of daily living (including but not limited to bathing, dressing, and eating) and instrumental activities of daily living (including but not limited to medication management, money management, and transportation);
6. Social determinants of health;
7. Other factors that will impact the member's ability to achieve goals.

- f) Identify and address any gaps in care ensuring that the member has a primary care provider, and behavioral health specialist, dentist, or other health specialists as needed.

5) Care Plan Development

As part of the Comprehensive Care Plan development, the care management team or the WICT, in coordination with the member, must create an evidence-based plan of care that includes:

- a) Specific goals appropriate for the member's needs,
- b) The member's readiness to self-manage their care and their willingness to adopt healthy behaviors,
- c) A description of the interventions that will be implemented to address the member's needs and their sequence.

The care management team or the WICT must:

- a) Develop the Comprehensive Care Plan with the member (either face-to-face, via interactive video (synchronous telehealth) or over the phone) and obtain member's agreement prior to its implementation.
- b) Upon completion, share the Comprehensive Care Plan with the member, the member's primary care provider and others as identified, as appropriate, in the care plan and discussed with member.
- c) Document the Comprehensive Care Plan, preferably according to the specifications for Care Plans in the ONC Interoperability Standards Advisory.

e. Review and Updates to the Comprehensive Care Plan

The care management team or the WICT must monitor available sources (e.g. data received from the Department, claims data, discharge information) for changes in the member's condition. The team should contact the member and update the Comprehensive Care Plan to ensure the member is receiving the appropriate services and care.

At a minimum, all SSI Managed Care members must be contacted once every 12 months (by either the care management team or the WICT) to review the Comprehensive Care Plan, or more frequently based on the member's needs.

The Comprehensive Care Plan must be updated as necessary to reflect changes in the member's condition and new information collected during the review.

1) Review of the Comprehensive Care Plan

As part of the review of the Comprehensive Care Plan, the care management team or the WICT must:

- a) Have documentation of care and services provided to the member.
- b) Determine if the member received care and services according to the Comprehensive Care Plan and the member's preferences.
- c) Determine if the interventions that were conducted helped the member achieve the goals identified in the Comprehensive Care Plan.
- d) Reassess the member's health and psychosocial status to identify necessary care plan updates.
- e) Assess the member's satisfaction with the care received.
- f) Conduct additional screening, information gathering, and/or needs stratification as appropriate.

2) Updating the Comprehensive Care Plan

The Comprehensive Care Plan must be updated, in any of the following scenarios:

- a) Whenever there are significant changes to the member's medical and behavioral health conditions. For example, when a member is diagnosed with a new chronic condition or

experiences severe complications from an existing condition that results in a hospitalization.

- b) The member is not responsive to the treatment plan outlined in the Care Plan.
- c) The member frequently transitions between care settings, e.g. members that have an Emergency Room visit or are admitted to the hospital and then are discharged to home, or members that are discharged from a hospital to a Skilled Nursing Home facility.
- d) At the member's request or whenever the care management team or the WICT identifies a problem or a gap in the member's care. This would include social determinants such as becoming homeless or experiencing food instability.

The member, or the member's authorized representative must approve all updates made to the Comprehensive Care Plan and member consent must be captured in the updated Comprehensive Care Plan.

f. Appropriate Transitional Care

The HMO is responsible for having appropriate transitional care processes and procedures in place to assist members after a discharge from emergency departments, hospitals and nursing homes or rehabilitation facilities. This includes coordinating with providers to share a summary care record, as specified in the ONC Interoperability Standards Advisory. As part of appropriate transitional care processes, the care management team or the WICT must assist with and ensure the member understands his or her discharge plan and medication regimen.

At a minimum, the following transitional care management activities (billed using G9012) must occur after every discharge from an inpatient hospitalization:

- 1) The care management team or WICT must have follow-up contact with the member and his/her family supports within five business days of discharge from an inpatient hospital facility.
 - a) The follow-up contact must be done in-person, via interactive video (synchronous telehealth), or over the phone.
 - b) The follow-up must include reviewing the discharge information prepared by the hospital with the member, conducting medication list review and reconciliation, including

a comparison of medications prescribed vs taken by member, an evaluation of the member's ability to set up, administer, and monitor their own medication and helping the member understand:

1. Their treatment plan.
 2. Their medications and medication schedule.
 3. How to best manage their conditions.
- 2) The care management team or the WICT must assess if the member should have a follow-up visit and assist with scheduling appointments, as necessary, with their primary care provider and/or appropriate specialists.
- 3) The care management team or the WICT must have adequate documentation in the Comprehensive Care Plan of the meeting with the member, their feedback, and any follow-up appointments the member had with their primary care provider and/or appropriate specialists.

4. Care Management Billing Rules

The Department has developed a special care management benefit for the SSI managed care population. The benefit is defined above in Article III. B., (Care Management Model for the Medicaid SSI Population). The Department will reimburse HMOs for the care management services (outlined in Article III. B.) outside of the regular capitation payment. The Department will continue to cover other care management activities as an administrative component of the capitation rate or as an integral and inseparable component of another Medicaid covered benefit, as appropriate.

The Department has identified specific procedure codes to represent the Medicaid SSI care management benefit. HMOs will be required to use these procedure codes to identify SSI care management activities provided by the WICT and / or SSI care management staff. HMOs will be required to submit member-specific claims via encounter records for the SSI care management benefit. The HMO must maintain documentation for each member that supports the claimed services in their care management system.

The HMO must submit member-specific claims via encounters no later than 365 days after the date of service of the claim. If an HMO encounter is denied within the Department's Medicaid Management Information System (MMIS), the HMO has 90 days to resolve the encounter to priced status within the system.

5. Non-Duplication of Care Management Services

The Department developed the care management services defined in Article III. B., as a separate and distinct benefit for the Medicaid SSI managed care population. As a distinct benefit, the care management requirements defined in Article III. B., must be reported as such using encounter records. HMOs must not report these care management activities using the financial template typically used to report the HMO's administrative activities.

HMOs must have a process to ensure that care management activities provided to the SSI managed care population are identified and accurately reported as either a benefit or as an administrative activity. A specific care management activity must never be deemed both a benefit and an administrative activity. For example, a general reminder call to SSI members about the availability of seasonal influenza vaccines cannot be reported both as an encounter and as an administrative activity. The HMO is responsible for ensuring that these activities are clearly defined and categorized. Services outside the allowed Medicaid-covered services and the billing codes, as documented in the SSI Care Management Billing Guide, are defined as an administrative service.

All care coordination activities reported as an encounter must be provided in accordance with the identified member's care plan. Care management activities that are not provided to an identified member and not provided in accordance with the requirements of Article III. B., are not covered as a separate benefit and must not be submitted as an encounter. HMOs must continue to report other care management costs under "administration" in the financial template.

The Department will provide detailed billing instructions, including procedure codes, reimbursement levels, and other claim submission requirements, in the SSI Care Management Billing Guide. HMOs must use the billing guide in addition to the HMO Contract to ensure that care management activities that are intrinsic to the SSI Care Management benefit are properly documented, billed and reported.

6. Evaluation of Care Management Requirements (Medicaid SSI)

The Department and the EQRO will develop a methodology to review the HMO's member records to determine compliance with the performance targets and other requirements of the Care Management Model. The Department's EQRO will perform a chart review annually to determine if the HMO has met the performance targets and other Care Management requirements. In addition, the Department will analyze the encounter data with G codes submitted by the HMOs to evaluate how well the care management services delivered by the HMOs meet the program objectives. The

Department reserves the right to request additional data and reports from HMOs as needed to monitor compliance with the Care Management requirements.

The HMO Quality Guide for the appropriate contract year provides additional information about the targets, measures and other operational aspects related to the evaluation of care management requirements for Medicaid SSI.

7. Submission of Care Management Information to WISHIN (Medicaid SSI)

The HMO must submit care management information for SSI members to the Wisconsin Statewide Health Information Network (WISHIN). The HMO shall adhere to the technical specifications, formatting, and submission standards required by DHS and WISHIN when submitting care management information to WISHIN.

ARTICLE IV: SERVICES

A. BadgerCare Plus and/or Medicaid SSI Services

The HMO must provide BadgerCare Plus and/or Medicaid SSI covered services to the extent outlined below, but is not restricted to only providing BadgerCare Plus and/or Medicaid SSI covered services. Sometimes the HMO may find that other treatment methods may be more appropriate than BadgerCare Plus and/or Medicaid SSI covered services, or result in better outcomes. An HMO may cover services for a member that are in addition to those services covered under the state plan per 42 CFR §438.3(e). In lieu of services can be covered by HMOs on a voluntary basis as follows: the Department determines that the alternative service or setting is a medically appropriate and cost effective substitute for the covered service or setting under the state plan; the member is not required by the HMO to use the alternative service or setting; the approved in lieu of services are identified in the HMO contract and will be provided at the option of the HMO; and the utilization and cost of in lieu of services is taken into account in developing the component of the capitation rates that represent the covered state plan services.

None of the provisions of this Contract that are applicable to BadgerCare Plus and/or Medicaid SSI covered services apply to other services that the HMO may choose to provide, except that abortions, hysterectomies and sterilizations must comply with 42 CFR 441 Subpart E and 42 CFR 441 Subpart F.

Whether the service provided is a BadgerCare Plus and/or Medicaid SSI covered service or an alternative or replacement to a BadgerCare Plus and/or Medicaid SSI covered service, the HMO or HMO provider is not allowed to bill the member for the service, other than an allowable copayment.

1. Provision of Contract Services

The HMO must promptly provide or arrange for the provision of all services required under Wis. Stats., s. 49.46(2), s. 49.471(11), s. 49.45(23) and Wis. Adm. Code ch. DHS 107 as applicable to the particular member and as further clarified in all Wisconsin Health Care Programs Online Handbook and HMO Contract Interpretation Bulletins, Provider Updates, through the interChange Portals, and as otherwise specified in this Contract except:

- a. Non-emergency Medical Transportation (NEMT) as listed in Article IV Section A(6).

- b. Dental, unless the HMO elects to provide dental services. BadgerCare Plus HMOs serving Milwaukee, Waukesha, Racine, Kenosha, Ozaukee and Washington counties must provide dental services. SSI HMOs serving Milwaukee, Waukesha, Racine Kenosha, Ozaukee and Washington counties must provide dental services.
- c. Prenatal Care Coordination (PNCC), except the HMO must sign a Memorandum of Understanding (MOU) with the PNCC.
- d. Targeted Case Management (TCM), except the HMO must work with the TCM case manager as indicated in Addendum III.
- e. School-Based Services (SBS), except the HMO must use its best efforts to sign a Memorandum of Understanding (MOU). SBS are those services identified in a student's Individualized Education Plan (IEP) and provided by a school district or CESA.
- f. Child Care Coordination.
- g. Certain Tuberculosis-related services, including directly observed therapy (DOT), patient education and anticipatory guidance, symptom and treatment monitoring.
- h. Crisis Intervention Benefit.
- i. Community Support Program (CSP) services.
- j. Comprehensive Community Services (CCS).
- k. Community Recovery Services (CRS).
- l. Chiropractic services, unless the HMO elects to provide chiropractic services.
- m. Lead investigations, as defined in s. 254.11(8s), of persons having lead poisoning or lead exposure, as defined in s. 254.11(9).
- n. Medication therapy management.
- o. Prescription, over-the-counter drugs, and diabetic and other drug related supplies (as defined by the Department dispensed by a provider licensed to

dispense by the Wisconsin Department of Safety and Professional Services (DSPS)).

- p. Provider administered drugs, as discussed in the following handbook topics:

Provider-Administered Drugs (Topic #5697), of the Covered and Non-covered Services chapter of the ForwardHealth Online Handbook.

- q. Behavioral Treatment Services (Autism Services) as defined in ForwardHealth Online Handbook
- r. Residential Substance Use Disorder Treatment

The HMO must provide services in an amount, duration, and scope that is no less than the amount, duration, and scope for the same services furnished to the member under fee for service Medicaid, as set forth in 42 CFR § 438.210(a)(2), 42 CFR § 440.230, and 42 CFR part 441, subpart B.

Pursuant to 42 CFR §438.210(a)(3), the HMO:

- a. Must ensure that the services furnished to the member are sufficient in amount, duration, or scope to reasonably achieve the purpose for which the services are furnished.
- b. May not arbitrarily deny or reduce the amount, duration, or scope of a required service solely because of diagnosis, type of illness, or condition of the member.

In addition, the HMO must comply with the care coordination requirements defined in Art. III, section C. Addendum V contains a link to additional summary information on BadgerCare Plus and Medicaid SSI covered services. Please refer to the ForwardHealth Provider Updates for the most current information regarding BadgerCare Plus and/or Medicaid SSI covered services.

The HMO Contract Administrator, or their designee, is responsible for subscribing to ForwardHealth Updates and Alerts, and disseminating them as applicable to HMO staff for analysis and implementation.

2. Medical Necessity

The actual provision of any service is subject to the professional judgment of the HMO providers as to the medical necessity of the service, except that the HMO must provide assessment, evaluation, and treatment services ordered by a court.

Per 42 CFR §438.210(a)(4), the HMO can make decisions to provide or deny medical services on the basis of medical necessity and appropriateness as defined in the State Plan and DHS 101.03(96m) or place appropriate limits on a service for the purpose of utilization control provided that:

- a. The services furnished can reasonably achieve their purpose, as required in 42 CFR §438.210(a)(3)(i);
- b. The services supporting individuals with ongoing or chronic conditions are authorized in a manner that reflects the member's ongoing need for such services and supports; and
- c. Family planning services are provided in a manner that protects and enables the member's freedom to choose the method of family planning to be used consistent with 42 CFR §441.20.

The HMO must specify what constitutes "medically necessary" in a manner that:

- a. Is no more restrictive than that used in the Medicaid program as indicated in DHS 101.03(96m), the State Plan, Wis. Stats., s. 49.46(2), s. 49.471(11), s. 49.45(23) and Wis. Adm. Code DHS 107, Wisconsin Health Care Programs Online Handbook and HMO Contract Interpretation Bulletins, and the ForwardHealth Provider Updates; and
- b. The HMO is responsible for covering services related to:
 - 1) The prevention, diagnosis, and treatment of a member's disease, condition, and/or disorder that result in health impairments and/or disability.
 - 2) The ability for a member to achieve age-appropriate growth and development.
 - 3) The ability for a member to attain, maintain or regain functional capacity.

Regarding physical therapy, occupational therapy, and speech and language therapy and audiology, the HMO must provide these services sufficient for a member to attain, maintain, or regain functional capacity.

Per Wis. Admin code § DHS 107.16(3)(c), 107.17(3)(d), and 107.18(3)(d), maintenance therapy services provided by a skilled therapist or audiologist are considered medically necessary and therefore must be provided by the HMO in any of the following situations:

- a. The skills and training of a therapist or audiologist are required to execute the entire preventive and maintenance program;
- b. The specialized knowledge and judgment of the therapist are required to establish and monitor the maintenance therapy program including the

initial evaluation, the design of the program appropriate to the member, the instruction of nursing or other support personnel, family or member, and the re-evaluations required; or

- c. When, due to the severity or complexity of the member's condition, nursing or other support personnel cannot handle the member safely and effectively.

Furthermore, the HMO must not consider physical, occupational, and speech and language therapy services supplied in school settings automatically duplicative when it is considering the medical necessity of a requested community based therapy.

Disputes between the HMO and members about medical necessity can be appealed through the process described in Article IX. The Department will consider whether BadgerCare Plus and/or Medicaid SSI would have covered the service on a FFS basis (except for certain experimental procedures).

3. Physician and Other Health Services

Services required under Wis. Stats. s. 49.46(2), and Wis. Adm. Code DHS ch. 107, include (without limitation due to enumeration) private duty nursing services, nurse-midwife services and independent nurse practitioner services; physician assistant services and physician services, including primary care services, are not only services performed by physicians, but services under the direct, on-premises supervision of a physician performed by other providers such as nurses of various levels of certification.

4. Pre-existing Medical Conditions

The HMO must assume responsibility for all covered pre-existing medical conditions for each member as of the effective date of coverage under the Contract. The aforementioned responsibility does not apply in the case of persons hospitalized at the time of initial enrollment.

5. Emergency Ambulance Services

The HMO may require submission of a trip ticket with ambulance claims before paying the claim. Claims submitted without a trip ticket need only be paid at the service charge rate. The HMO must:

- a. Pay a service fee for an ambulance response to a call in order to determine whether an emergency exists, regardless of the HMO's determination to pay for the call.
 - b. Pay for emergency ambulance services based on established BadgerCare Plus and/or Medicaid SSI criteria for claims payment of these services.
 - c. Either pay or deny payment of a clean claim from an ambulance service within 45 days of receipt of the clean claim.
 - d. Respond to appeals from ambulance providers within the time frame described. Failure will constitute the HMO's agreement to pay the appealed claim to the extent FFS Medicaid would pay.
6. Non-Emergency Medical Transportation (NEMT) (BadgerCare Plus and Medicaid SSI)

Most non-emergency Medical Transportation (NEMT) is coordinated by the Department of Health Services' NEMT manager. The NEMT manager arranges and pays for rides to covered Medicaid services for members who have no other way to receive a ride. Rides can include public transportation such as a city bus, non-emergency ground ambulance, rides in specialized medical vehicles (SMV), or rides in other types of vehicles depending on a member's medical transportation needs, as well as compensated use of private motor vehicles for transportation to and from BadgerCare Plus and Medicaid SSI covered services. Non-emergency medical transportation also includes coverage of meals and lodging in accordance with the ForwardHealth policy.

Members needing non-emergency medical transportation services should be directed to the DHS NEMT manager. Members may visit the Wisconsin Medicaid and BadgerCare Plus Non-emergency Medical Transportation webpage for more information.

The HMO must promptly provide or arrange for the provision of all NEMT ambulance services not reimbursed by the DHS NEMT manager listed in the ForwardHealth Online Handbook Topic #11898.

7. Transplants

Transplant coverage is as follows:

- a. Cornea and kidney transplants. These services are no longer considered experimental. Therefore, the HMO must also cover these services.
- b. The HMO is not required to cover procedures that are approved only at particular institutions, including bone marrow transplants, liver, heart, heart-lung, lung, pancreas-kidney, and pancreas transplants. There are no funds in the HMO capitation rates for these services.
- c. As a general principle, the BadgerCare Plus and/or Medicaid SSI program does not pay for transplants that it determines to be experimental in nature.

The State Plan prohibits HMOs from paying for organ transplants unless the HMO follows written standards that provide for similarly situated individuals to be treated alike and for any restriction on facilities or practitioners to be consistent with the accessibility of high quality care to enrollees.

Members who have had one or more of the transplant surgeries referenced in 7b above will be permanently exempted from HMO enrollment. Refer to Article II, C for the exemption criteria.

8. Dental Services

- a. Dental services covered by HMOs who are not contracted to provide comprehensive dental services for BadgerCare Plus and Medicaid SSI Plans:

1) Emergency Dental Care

The HMO must cover emergency dental care. The only exceptions are the charges for professional services billed using CDT codes and the charges for professional services rendered by a dentist and billed using CPT codes.

2) Dental Surgeries Performed in a Hospital

The HMO must pay all ancillary charges relating to dental surgeries when a hospital or freestanding ambulatory care setting is medically indicated. Ancillary charges include, but are not limited to physician, anesthesia, and facility charges. The only exceptions are the charge for professional services billed using CDT codes and the charges for professional services rendered by a dentist and billed using CPT codes. If the HMO is unable to arrange for the dental surgery to be performed within their own provider network

then the HMO must authorize the service(s) to be performed out of plan.

3) Prescription Drugs Prescribed by a Dental Provider

Fee-for-Service is liable for the cost of all medically necessary prescription drugs when ordered by an enrolled BadgerCare Plus and/or Medicaid SSI dental provider.

4) Coordination with Fee-for-Service

As defined in Art. III, section C, the HMO must coordinate the services it provides to members with services a member receives through Medicaid Fee-for-Service.

b. Dental services covered by the HMO contracted to provide dental care for BadgerCare Plus and Medicaid SSI:

- 1) All BadgerCare Plus and/or Medicaid SSI covered dental services are required under § DHS 107.07 and Wisconsin Health Care Programs Online Handbooks and Updates.
- 2) HMOs providing dental coverage in service areas of Racine, Marathon, Brown, and Polk Counties will be required to participate in a dental pilot program authorized in the 2015-17 biennial budget.
- 3) Diagnostic, preventive, and medically necessary follow-up care to treat a dental disease, illness, injury or disability of members while they are enrolled in the HMO.
- 4) Completion of orthodontic or prosthodontic treatment begun while a member was enrolled in the HMO if the member became ineligible for BadgerCare Plus and/or Medicaid SSI or disenrolled from the HMO, no matter how long the treatment takes. The HMO will not be required to complete orthodontic or prosthodontic treatment on a member who began treatment as a FFS member and who subsequently was enrolled in the HMO.

[Refer to the chart following this page of the Contract for the specific details of completion of orthodontic or prosthodontic treatment in these situations.]

c. Right to Audit

The Department will conduct validity and completeness audits of dental claims. Upon request, the HMO must submit paid claims to the Department along with any other records the Department deems necessary for the completion of the audit. Payment of incomplete or inaccurate claims will subject the HMO to administrative sanctions outlined in Article XIV, Section C.

d. Requirements to Dental Service Providers

If a HMO subcontracts with a dental benefits administrator, the participating dentist has the right to appeal to both the HMO and Department, according to the Department's provider appeal requirements. This right to appeal is in addition to that of the provider's right to appeal.

HMOs must pay at a minimum the Medicaid fee-for-service rates for dental services. Providers rendering services must be paid at a minimum the Medicaid fee-for-service rates.

Responsibility for Payment of Orthodontic and Prosthodontic Treatment When There is an Eligibility Status Change During the Course of Treatment

	Who pays for completion of orthodontic and prosthodontic treatment* when there is an enrollment status change		
	First HMO	Second HMO	FFS
Person converts from one status to another:			
1. FFS to the HMO covering dental.		N/A	X
2a. HMO covering dental to the HMO not covering dental, and person's residence remains within 50 miles of the person's residence when in the first HMO.	X		
2b. HMO covering dental to the HMO not covering dental, and person's residence changes to greater than 50 miles of the person's residence when in the first HMO.			X
3a. HMO covering dental to the same or another HMO covering dental and the person's residence remains within 50 miles of the residence when in the first HMO.	X		
3b. HMO covering dental to the same or another HMO covering dental and the person's residence changes to greater than 50 miles of the residence when in the first HMO.			X
4. HMO with dental coverage to FFS because:			
a. Person moves out of the HMO service area but the person's residence remains within 50 miles of the residence when in the HMO.	X		
b. Person moves out of the HMO service area, but the person's residence changes to greater than 50 miles of the residence when in the HMO.		N/A	X
c. Person exempted from HMO enrollment.		N/A	X
d. Person's medical status changes to an ineligible HMO code and the person's residence remains within 50 miles of the residence when in that HMO.	X	N/A	
e. Person's medical status changes to an ineligible HMO code and the person's residence changes to greater than 50 miles of the residence when in that HMO.		N/A	X
5a. HMO with dental to ineligible for BadgerCare Plus and/or Medicaid SSI and the person's residence remains within 50 miles of the residence when in that HMO.	X	N/A	
5b. HMO with dental to ineligible for BadgerCare Plus and/or Medicaid SSI and the person's residence changes to greater than 50 miles of the residence when in that HMO.		N/A	X
6. HMO without dental to ineligible for BadgerCare Plus and/or Medicaid SSI.		N/A	X

9. Emergency and Post-Stabilization Services

*

Orthodontia treatment is available only to members under age 21 to address concerns identified during a wellness visit such as an interperiodic or HealthCheck screen.

a. 24-Hour Coverage

The HMO must provide all emergency contract services and post-stabilization services as defined in this Contract 24 hours a day, seven days a week, either by the HMO's own facilities or through arrangements approved by the Department with other providers.

The HMO must:

- 1) Have one toll-free telephone number that members or individuals acting on behalf of a member can call at any time to obtain assistance in determining if emergency services are needed, to obtain authorization for urgent care and to obtain authorization for transportation. This telephone number must provide access to individuals with authority to authorize treatment as appropriate. Responses to these calls must be provided within 30 minutes. If the HMO fails to respond timely, the HMO will be liable for the cost of subsequent care related to that illness or injury incident whether the treatment is rendered by in or out-of-plan providers and whether the condition is emergency, urgent or routine.

Authorization here refers to the requirements defined in the Standard Member Handbook Language, regarding the conditions under which a member must receive permission from the HMO prior to receiving services from a non-HMO affiliated provider in order for the HMO to reimburse the provider.

- 2) Be able to communicate with the caller in the language spoken by the caller or the HMO will be liable for the cost of subsequent care related to that illness or injury incident whether the treatment is in or out-of-plan and whether the condition is emergent, urgent, or routine. These calls must be logged with the time, date and any pertinent information regarding the persons involved, resolution and follow-up instructions.
- 3) Notify the Department and county human services department with which the HMO has a MOU or in which the HMO has enrollment of any changes to this toll-free telephone number for emergency calls within seven business days of the change.

- 4) Per Art. III, section C, the HMO must coordinate the services it provides to members between settings of care.

b. Coverage of Payment of Emergency Services

The HMO must promptly provide or pay for needed contract services for emergency medical conditions and post-stabilization services, regardless of whether the provider that furnishes the service has a contract with the entity. The HMO may not refuse to cover emergency services based on the emergency room provider, hospital, or fiscal agent not notifying the member's primary care provider, or HMO of the member's screening and treatment within ten (10) days of presentation for emergency services. The HMO in coordination with the attending emergency physician, or the provider actually treating the member, is responsible for determining when the member is sufficiently stabilized for transfer or discharge, and that determination is binding on the HMO as identified in 42 CFR § 438.114(b) and 42 CFR § 438.114(d) as responsible for coverage and payment. Nothing in this requirement mandates the HMO to reimburse for non-authorized post-stabilization services.

- 1) The HMO shall provide emergency services consistent with 42 CFR § 438.114. It is financially responsible for emergency services whether obtained within or outside the HMO's network. This includes paying for an appropriate medical screening examination to determine whether or not an emergency medical condition exists.
- 2) The HMO may not limit what constitutes an emergency medical condition on the basis of lists of diagnoses or symptoms.
- 3) The HMO may not deny payment for emergency services for a member with an emergency medical condition (even if the absence of immediate medical attention would not have had the outcomes specified in paragraphs 1., 2. and 3. of part a. of the definition of Emergency Medical Condition) or for a member who had HMO approval to seek emergency services.
- 4) The member may not be held liable for payment of screening and treatment needed to diagnose the specific condition or stabilize the patient.

- 5) The treating provider is responsible for determining when the member is sufficiently stabilized for transfer or discharge, and that determination is binding on the HMO.

c. Coverage and Treatment of Post-Stabilization Care Services

1) The HMO is financially responsible for:

- a) Emergency and post-stabilization services obtained within or outside the HMO's network that are pre-approved by the HMO. The HMO is financially responsible for post-stabilization care services consistent with the provision of 42 CFR § 438.114(C).
- b) Post-stabilization services obtained within or outside the HMO's network that are not pre-approved by the HMO, but administered to maintain, improve or resolve the member's stabilized condition if:
 1. The HMO does not respond to a request for pre-approval of further post-stabilization care services within one (1) hour;
 2. The HMO cannot be contacted; or
 3. The HMO and the treating physician cannot reach an agreement concerning the member's care and a network physician is not available for consultation. In this situation, the HMO must give the treating physician the opportunity to consult with the HMO care team or medical director. The treating physician may continue with care of the member until the HMO care team or medical director is reached or one of the following occurs:
 - a. A network physician assumes responsibility for the member's care at the treating hospital or through transfer;
 - b. The treating physician and HMO reach agreement; or,
 - c. The member is discharged.

- 2) The HMO's financial responsibility for post-stabilization care services it did not pre-approve ends when a network provider assumes responsibility for care, at the treating hospital or through transfer, when the treating physician and HMO reach agreement or when the member is discharged.
- 3) The HMO must limit charges to members for post-stabilization care services to an amount no greater than what the organization would charge the member if he/she had obtained the services through the HMO. A member who has an emergency medical condition may not be held liable for payment of subsequent screening and treatment needed to diagnose the specific condition or stabilize the patient.

d. Additional Provisions

- 1) Payments for qualifying emergencies (including services at hospitals or urgent care centers within the HMO service area) are to be based on the medical signs and symptoms of the condition upon initial presentation. The retrospective findings of a medical work-up may legitimately be the basis for determining how much additional care may be authorized, but not for payment for dealing with the initial emergency. Liability for emergency services continues until the patient is stabilized and can be safely discharged or transferred.
- 2) When emergency services are provided by non-affiliated providers, the HMO is liable for payment only to the extent that BadgerCare Plus and/or Medicaid SSI pays, including Medicare deductibles, or would pay, FFS providers for services to BadgerCare Plus and/or Medicaid SSI populations. For more information on payment to non-affiliated providers, see Article XV, Section D, part 4. The HMO must not make any payments to providers with a financial institution outside the United States. In no case will the HMO be required to pay more than billed charges. This condition does not apply to:
 - a) Cases where prior payment arrangements were established; and
 - b) Specific subcontract agreements.

- e. Memoranda of Understanding (MOU) or Contract with Hospitals/Urgent Care Centers for the Provision of Emergency Services

The HMO may have a contract or a MOU with hospital or urgent care centers within the HMO's service area to ensure prompt and appropriate payment for emergency services. Unless a contract or MOU specifies otherwise, the HMO is liable to the extent that FFS would have been liable for a situation that meets the definition of emergency. The Department reserves the right to resolve disputes between the HMO, hospitals and urgent care centers regarding emergency situations based on the emergency definition. For situations where a contract or MOU is not possible, the HMO must identify for hospitals and urgent care centers procedures that ensure prompt and appropriate payment for emergency services. Refer to Article VIII, Provider Appeals.

10. Family Planning Services and Confidentiality of Family Planning Information

BadgerCare Plus and Medicaid SSI Plan members:

- a. The HMO must give members the opportunity to have a different primary physician for the provision of family planning services. This physician does not replace the primary care provider chosen by or assigned to the member.
- b. The member may choose to receive family planning services at any Medicaid-enrolled family planning clinic. Family planning services provided at non-network Medicaid-enrolled family planning clinics are paid FFS for HMO members including pharmacy items ordered by the family planning provider.
- c. All information and medical records relating to family planning shall be kept confidential including those of a minor.

11. Pharmacy Coverage

- a. Pharmacy Coverage

HMOs must carve out all SSA §1927 covered outpatient drugs to fee-for-service (covered outpatient drugs include drugs dispensed in a pharmacy, administered in a doctor's office, or clinic; drugs reimbursed at bundled rate are not considered outpatient drugs).

Per Article III, section C, the HMO must coordinate the services it provides to members with services a member receives through Medicaid Fee-for-Service.

b. Pharmacy Services Lock-In Program

DMS will manage a Pharmacy Services Lock-In Program to coordinate the provision of health care services for HMO members who abuse or misuse pharmacy benefits by seeking duplicate or medically unnecessary services, for restricted medications.

Abuse or misuse is defined under Recipient Duties in DHS 104.02, Wisconsin Administrative Code. Restricted medications are most controlled substances and tramadol.

HMO members enrolled in the Pharmacy Services Lock-In Program will be locked into one pharmacy where prescriptions for restricted medications must be filled and one primary prescriber who will prescribe restricted medications.

HMO members will remain enrolled in the Pharmacy Services Lock-In Program for two years. At the end of the two-year enrollment period, DMS or the HMO will assess if the member should continue enrollment in the Pharmacy Services Lock-In Program.

Policy on the Pharmacy Services Lock-In Program can be found in the BadgerCare Plus and Medicaid Pharmacy Provider Handbook.

1) DHS Responsibilities:

- a) The DMS or its designated representative shall manage the Pharmacy Services Lock-In Program and communicate directly with the HMOs regarding their members.
- b) The DMS or its designated representative will monitor prescription drug usage for members enrolled in the Pharmacy Services Lock-In Program.
- c) The DMS or its designated representative will accept select review requests from the HMO for potential Pharmacy Services Lock-In Program members. Not all select reviews may result in intervention letters or lock-in for the member.

- d) The DMS or its designated representative will accept referrals from the HMO for the Pharmacy Services Lock-In Program. DMS or its designated representative will proceed with Pharmacy Services lock-in for referred members.
- e) The DMS or its designated representative may request additional information from the HMO for referrals. The HMO must provide requested information to DMS or its designated representative.
- f) The DMS or its designated representative will identify the lock-in pharmacy and the HMO will identify the lock-in primary prescriber for each member. In addition, the HMO will identify any alternate prescribers for restricted medications, as appropriate.
- g) The DMS or its designated representative will send letters of notification to the lock-in member and HMO for the lock-in pharmacy.
- h) The DMS or its designated representative will provide an electronic monthly report to the HMO that identifies any members in the Pharmacy Services Lock-In Program for the specific HMO.
- i) The DMS or its designated representative will coordinate with the HMO for the Pharmacy Services Lock-In Program policies and procedures.

2) HMO Responsibilities:

- a) HMOs may request select reviews based on prescription drug utilization for potential Pharmacy Services Lock-In Program members. Not all select review requests may result in intervention letters or lock-in for the member.
- b) HMOs may provide Pharmacy Services Lock-In Program referrals to the DMS or its designated representative. The DMS or its designated representative will proceed with Pharmacy Services lock-in for all HMO-referred members.

- c) The HMO should evaluate referred Pharmacy Services Lock-In Program members at the end of the two-year enrollment period, to determine if the member should continue enrollment in the Pharmacy Services Lock-In Program and notify the DMS or its designated representative.
- d) The HMO will be responsible for preparing all documentation and acting as the DMS representative for member appeals to the Division of Hearings and Appeals related to the Pharmacy Services Lock-In Program referrals.
- e) The DMS may request additional information from the HMO for referrals. The HMO must provide requested information to the DMS or its designated representative.
- f) HMOs lock-in primary prescribers may designate alternate prescribers for restricted medications, as appropriate.
- g) HMOs will send letters of notification to the lock-in member and the DMS or its designated representative. HMOs are required to notify primary prescribing provider and alternate prescribers when assigned for a lock-in member.
- h) HMOs must communicate with the DMS or its designated representative.
- i) The DMS or its designated representative will identify the lock-in pharmacy and the HMO will identify the lock-in primary prescriber for each member. In addition, the HMO will identify any alternate prescribers for restricted medications, as appropriate.
- j) HMOs may refer members to the DMS or its designated representative for the Pharmacy Services Lock-In Program if any of the following are documented by the HMO:
 - 1. Evidence of a member intentionally providing incorrect information such as ForwardHealth

eligibility status or medical history to a provider to obtain restricted medications.

2. Evidence of a member being convicted within one year of a crime related to restricted medications. Crimes include: forgery, theft, distribution, etc.
3. Two or more occurrences of violating a pain management contract within six months from the same or different prescribers. A prescriber must agree to continue managing the member after the Lock-In Program has been initiated.
4. Any combination of four or more medical appointments/urgent care visits/emergency department visits within a 14 day time period at which the member is seeking a restricted medication as the primary reason for the visits.
5. A member required an ER visit or hospitalization due to suicide attempt, poisoning, or overdose from the use of restricted medication(s) in the last ninety days.

12. Electronic Visit Verification

The HMO shall implement Electronic Visit Verification (EVV) for designated service codes by the deadlines established by the Department. The HMO will use data collected from the EVV system to validate claims pertaining to affected service codes against approved authorizations during the HMO's claims adjudication process. Encounters without a valid EVV record may be excluded in future rate-setting development. Prior to implementation, the HMO shall outline expectations for contracted providers regarding the use of the EVV data collection system within subcontracts and/or provider manuals. The HMO shall also provide assistance and support to both DHS and the contracted EVV vendor for training, outreach, and utilization of the data collection system, as requested. As part of EVV implementation, the HMO is required to submit accurate, complete, and timely data. Failure to comply with EVV implementation, as part of the federal 21st Century CURES Act may result in a corrective action plan and/or the application of remedies for violation, breach, or non-performance of the contract under Article XIV, C.

13. Nursing Home Services

Nursing facility services shall be covered if they meet the requirements of DHS 107.09(2) and 107.09(4)(e). Nursing facility care need not be rehabilitative in order to be covered. Custodial care and care intended to manage assistance with activities of daily living that is medically necessary shall also be covered. If a nursing facility stay results in the disenrollment of a member due to the length of the member's stay in the nursing facility, and Medicaid Fee For Service subsequently finds the nursing facility stay to be medically necessary, the HMO is responsible for payment of the stay up to the point the member's disenrollment is effective.

14. Telehealth Services:

The HMO must develop policies and procedures that are consistent with ForwardHealth policies and Wisconsin Statute Wis. Stat. § 49.45(61). The HMO may not impose additional restrictions for telehealth services that are not similarly required for in person services and must offer members like services in physical locations in addition to telehealth services.

B. Mental Health and Substance Abuse Coverage Requirements/Coordination of Services with Community Agencies

The HMO must provide BadgerCare Plus and/or Medicaid SSI covered services, but the HMO is not restricted to providing only those services. The HMO may provide additional or alternative treatments if the other treatment modalities are more appropriate and result in better outcomes than BadgerCare Plus and/or Medicaid SSI covered services.

1. Conditions on Coverage of Mental Health/Substance Abuse Treatment:

- a. On the effective date of this Contract, the HMO must be certified to provide or have contracted with facilities and/or providers enrolled to provide the mental health and substance abuse treatment services identified in Wis. Admin. Code s. DHS 107.13(1)-(4), s.107.22(4), and certain sections of the ForwardHealth Online Handbook:
 - 1) s. DHS 107.13(1) – Inpatient care in a hospital IMD (Online Handbook – Hospital, Inpatient)
 - 2) s. DHS 107.13(2) – Outpatient Psychotherapy Services (Online Handbook – Outpatient Mental Health, Outpatient Mental Health in the Home and Community for Adults)

- 3) s. DHS 107.13(3) – Alcohol and Other Drug Abuse Outpatient Treatment Services (Online Handbook – Outpatient Substance Abuse)
- 4) s. DHS 107.13(3m) – Alcohol and Other Drug Abuse Day Treatment Services (Online Handbook – Substance Abuse Day Treatment)
- 5) s. DHS 107.13(4) – Mental Health Day Treatment or Day Hospital Services (Online Handbook – Adult Mental Health Day Treatment)
- 6) Narcotic Treatment Services (Online Handbook – Narcotic Treatment)
- 7) s. DHS 107.22(4) HealthCheck “Other Services” (Online Handbook – Child/Adolescent Day Treatment, In-Home Mental Health/Substance Abuse Treatment Services for Children)

Certification requirements for mental health and substance abuse treatment providers eligible to provide the above services are found in Wis. Adm. Code §§ DHS 105.21 – 105.25.

The HMO may request variances of certain certification requirements for mental health providers. The Department will approve the variances to the extent allowed under federal or state law.

Department decisions to waive the requirement to cover these services shall be based solely on whether there is an enrolled provider that is geographically or culturally accessible to members, and whether the use of psychiatrists, or psychologists alone improves the quality and/or the cost-effectiveness of care.

In compliance with said provisions, the HMO must further guarantee all enrolled BadgerCare Plus and/or Medicaid SSI members access to all covered, medically necessary mental health and substance abuse treatment.

In providing substance abuse treatment to members, the HMO is encouraged to utilize, as well as encourage its provider network to utilize, the National Quality Forum’s “National Voluntary Consensus Standards for the Treatment of Substance Use Conditions: Evidence-Based Treatment Practices” and The Washington Circle’s “Adopted Measures.”

2. Mental Health Parity Compliance (BadgerCare Plus and Medicaid SSI)

The BadgerCare Plus and Medicaid SSI HMO must comply with the Mental Health Parity Rule requirements of 42 CFR § 438.930. The Mental Health Parity Rule, in 42 CFR § 438.910(b)(2), requires the HMO to provide mental health or substance abuse benefits to members in every classification in which medical benefits are provided (e.g., inpatient, outpatient, emergency care, prescription drugs).

The HMO must not establish any of the following when it has been determined that mental health or substance abuse treatment is medically necessary for the member:

- a. Any aggregate lifetime or annual dollar limits on mental health or substance abuse benefits;
- b. Any financial requirement or treatment limitation to mental health or substance abuse benefits;
- c. Any limit on the number of hours of outpatient treatment that the HMO must provide or reimburse; and
- d. Any monetary limit or limit on the number of days of inpatient hospital treatment.

The HMO prior authorization requirements must comply with the requirements for parity in mental health and substance abuse benefits in 42 CFR § 438.910 (d). The same section of the Mental Health Parity Rule also specifies that the HMO may not impose non-quantitative treatment limits (NQTL) for mental health or substance abuse benefits in any classification unless, the HMO has processes, strategies evidentiary standards, or other factors used in applying the NQTL to mental health or substance abuse benefits that are comparable to, and are applied no more stringently than, the processes, strategies, evidentiary standards, or other factors used in applying the limitation for medical benefits.

Pursuant to 42 CFR Part 438, subpart K, the HMO will be required to submit to the Department a parity analysis of its benefit plans as part of the HMO certification application process and upon request. Clarifying instructions will be included in the certification application.

Additional information on covered services is available in Addendum V, as well as in Provider Updates and through interChange.

3. Mental Health/Substance Abuse Assessment Requirements (BadgerCare Plus and Medicaid SSI):

The HMO must adjudicate mental health or substance abuse treatment service determinations following member requests or referrals from a primary care provider or physician in the HMO's network. Any denials of service or selection of particular treatment modalities must be governed by an assessment conducted by qualified staff

in a certified program who are experienced in mental health/substance abuse treatment, a review of the effectiveness of the treatment for the condition (including best practice, evidence based practice), and the medical necessity of treatment. A member's motivation to participate in treatment shall not be considered a factor in determining medical necessity and may not be used as a rationale for withholding or limiting treatment of a client/member. The HMO will use the Wisconsin Uniform Placement Criteria (WI-UPC), or the placement criteria developed by the American Society of Addiction Medicine (ASAM) as mandated for substance abuse care providers in DHS 75. The requirement in no way obligates the HMO to provide care options included in the placement criteria that are not covered services under FFS.

The HMO must involve and engage the member in the process used to select a provider and treatment option. The purpose of the participation is to ensure members have culturally competent providers and culturally appropriate treatment and that their medical needs are met. This section does not require the HMO to use providers who are not qualified to treat the individual member or who are not contracted providers.

4. SUPPORT Act Compliance (BadgerCare Plus Only)

The Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treatment (SUPPORT) Act, requires that behavioral health services, including mental health treatment, substance use disorder treatment, and interventions for developmental delays be made available to Children's Health Insurance Program (CHIP) populations, which are included in the BadgerCare Plus program.

In accordance with section 5022(d) of the Act, the HMO must assure that age appropriate, validated screening tools are used to identify behavioral health needs for individuals ages 0-18 in primary care settings. Validated screening tools for children can be found at <https://screeningtime.org/star-center/#!/screening-tools> and <https://www.uspreventiveservicestaskforce.org/BrowseRec/Index>.

The HMO must assure that screenings are conducted according to the most recently published AAP/Bright Futures periodicity schedule:
https://downloads.aap.org/AAP/PDF/periodicity_schedule.pdf.

On an annual basis, the HMO must report to the Department the specific tools and/or protocols used by their primary care providers when screening children for the following behavioral health areas:

- a. General development;
- b. Autism spectrum disorder;
- c. Tobacco, alcohol or drug use;
- d. Depression;
- e. Any additional areas/tools.

This report must be submitted to DHSDMSBBPAdmin@dhs.wisconsin.gov , Attn: Behavioral Health Policy Section in Excel format by July 1st of each calendar year.

5. Assurance of Expertise for Child Abuse, Child Neglect and Domestic Violence:

The HMO must consult with human service agencies on appropriate providers in their community. The HMO must arrange for examination and treatment services by providers with expertise in dealing with medical and psychiatric aspects of caring for victims and perpetrators of child abuse and neglect, treating post-traumatic stress syndrome, and domestic violence. Providers also must be aware of statutory reporting requirements and local community resources for the prevention and treatment of child abuse and neglect and domestic violence.

The HMO must notify all persons employed by or under contract to the HMO who are required by law to report suspected child abuse and neglect and ensure they are knowledgeable about the law and about the identification requirements and procedures. Services provided must include and are not limited to court-ordered physical, psychological and mental or developmental examinations and medical and psychiatric treatment appropriate for victims and perpetrators of child abuse and neglect.

The HMO must further assure that providers with appropriate expertise and experience in dealing with perpetrators and victims of domestic abuse and incest are utilized in service provision.

6. Court-Related Children's Services (BadgerCare Plus Only)

The HMO is liable for the cost of providing assessments under the Children's Code, Wis. Stats. s. 48.295, and is responsible for reimbursing for the provision of medically necessary treatment if unable to itself provide for such treatment ordered by a juvenile court. The medical necessity of court-ordered evaluation and treatment is assumed to be established and the HMO is allowed to provide the care through its network, if at all possible. The HMO may not withhold or limit services unless or until the court has agreed.

7. Court-Related Substance Abuse Services (BadgerCare Plus and Medicaid SSI)

The HMO is liable for the cost of providing medically necessary substance abuse treatment, as long as the treatment occurs in the HMO-approved facility or by the HMO-approved provider ordered in the subject's Driver Safety Plan, pursuant to Wis. Stats., Ch. 343, and Wis. Adm. Code DHS 62. The medical necessity of services

specified in this plan is assumed to be established, and the HMO shall provide those services unless the assessment agency agrees to amend the member's Driver Safety Plan. This is not meant to require HMO coverage of substance abuse educational programs, or the initial assessment used to develop the Driver Safety Plan. Necessary HMO referrals or treatment authorizations by providers must be furnished promptly. It is expected that no more than five days will elapse between receipt of a written request by the HMO and the issuance of a referral or authorization for treatment. Such referral or authorization, once determined to be medically necessary, will be retroactive to the date of the request. After the fifth day, an assumption will exist that an authorization has been made until such time as the HMO responds in writing.

There are mental health and substance abuse coverage limitations specified in the ForwardHealth Provider Updates.

8. Emergency Detention and Court-Related Mental Health Services (BadgerCare Plus and Medicaid SSI)

The HMO is liable for the cost of all emergency detention and court-related mental health/substance abuse treatment, including stipulated and involuntary commitment provided by non-HMO providers to HMO members where the time required to obtain such treatment at the HMO's facilities, or the facilities of a provider with which the HMO has arrangements, would have risked permanent damage to the member's health or safety, or the health or safety of others. The extent of the HMO's liability for appropriate emergency treatment is the current FFS rate for such treatment.

- a. Care provided in the first three business days (72 hours), plus any intervening weekend days and/or holidays, is deemed medically necessary and the HMO is responsible for payment.
- b. The HMO is responsible for payment for additional care beyond the time period in paragraph a. above only if notified of the emergency treatment within 72 hours, excluding weekends and holidays, and if given the opportunity to provide such care within its own provider network. The opportunity for the HMO to provide care to a member admitted to a non-HMO facility is accomplished if the county or treating facility notifies and advises the HMO of the admission within 72 hours, excluding weekends and/or holidays. The HMO may provide an alternative treatment plan for the county to submit at the probable cause hearing. The HMO must submit the name of an in-plan facility willing to treat the member if the court rejects the alternative treatment plan and the court orders the member to receive an inpatient evaluation.

- c. If the county attempts to notify the person identified as the primary contact by the HMO to receive authorization for care, and does not succeed in reaching the HMO within 72 hours of admission excluding weekends and holidays, the HMO is responsible for court-ordered care beyond the initial 72 hours. The county must document the attempts to notify with dates, times, names and numbers attempted to contact, and outcomes. The care provided to the HMO member by the non-HMO provider is deemed medically necessary, and coverage by the HMO is retroactive to the date of admission.
- d. The HMO is financially liable for the member's court ordered evaluation and/or treatment when the HMO member is defending him/herself against a mental illness or substance abuse commitment:
 - 1) If services are provided in the HMO facility; or
 - 2) If the HMO approves provision in a non-contracted facility; or
 - 3) If the HMO was given the opportunity but failed to provide the county with the name of an inpatient facility and, as a result, the member is sent for court ordered evaluation to an out-of-plan provider; or
 - 4) If the HMO gives the county the name of an in-plan facility and the facility refuses to accept the member.
- e. The HMO is not liable for the member's court ordered evaluation and treatment if the HMO provided the name of an in-plan facility and the court ordered the evaluation at an out-of-plan facility.

9. Institutionalized Individuals (BadgerCare Plus and Medicaid SSI)

a. Institutionalized Children

If inpatient or institutional services are provided in the HMO facility, or approved by the HMO for provision in a non-contracted facility, the HMO shall be financially liable for all children enrolled under this Contract for the entire period for which capitation is paid. The HMO remains financially liable for the entire period a capitation is paid even if the child's medical status code changes, or the child's relationship to the original BadgerCare Plus case changes.

b. Institutionalized Adults

The HMO is not liable for expenditures for any service to a person 22 to 64 years of age who is a resident of an institution for mental disease (IMD), except to the extent that expenditures for a service to an individual on convalescent leave from an IMD are reimbursed by FFS. If a person 22 to 64 years of age is in need of hospitalization for mental health or substance abuse issues, the HMO must make arrangements with a general acute care hospital to provide coverage.

An HMO may provide inpatient services in an IMD for a person 22-64 years of age for no more than 15 days during the period of monthly capitation payment in lieu of traditional psychiatric intervention services.

10. Transportation Following Emergency Detention (BadgerCare Plus and Medicaid SSI)

The HMO shall be liable for the provision of medical transportation to the HMO-affiliated provider when the member is under emergency detention or commitment and the HMO requires the member to be moved to a participating provider, provided the transfer can be made safely. If a transfer requires a secured environment by local law enforcement officials, (i.e., Sheriff Department, Police Department, etc.), the HMO shall not be liable for the cost of the transfer. The county agency or law enforcement agency makes the decision whether the transfer requires a secured environment. The HMO is not prohibited from entering into an MOU or agreement with local law enforcement agencies or with county agencies for such transfer.

11. Out-of-Network Benefit Coordination (BadgerCare Plus and Medicaid SSI)

Per Article III, (A)(4), the HMO must coordinate the services it provides to members with services a member receives through Medicaid Fee-for-Services or through community and social support providers. The HMO must assign a representative to coordinate services with public health agencies or treatment programs within the HMO's service area that are not included in the HMO's network. These might include but are not limited to county health agencies, crisis intervention agencies, community support programs, comprehensive community service programs, or inpatient programs. The HMO must work with the agency/program to coordinate a member's transition to or from covered mental health and substance abuse care within the HMO's network. Any member transitioning from crisis intervention services must be able to access an appropriate level of ongoing care within 30 days of the crisis. The HMO is not required to pay for ongoing services outside the HMO network, unless the HMO has authorized those services.

12. Memoranda of Understanding (MOU)/Contract Requirement and Relations with other Human Service Agencies

Per Art. III, section C, the HMO must coordinate the services it provides to members with services a member receives through Medicaid Fee-for-Services or through community and social support providers. The HMO shall develop a working relationship with community agencies involved in the provision of mental health and/or substance abuse services to members. The HMO must work cooperatively with other community agencies, to treat mental health and/or substance abuse conditions as legitimate health care problems.

The HMO must make a good faith attempt to negotiate either an MOU or a contract with the county(ies) in its service area. The MOU(s), contract(s) or written documentation of a good faith attempt must be available during the certification process and when requested by the Department. Failure of the HMO to have an MOU, contract or demonstrate a good faith effort, as specified by the Department, may result in the application by the Department of remedies as indicated in this Contract.

MOUs must be signed every two years as part of certification. If no changes have occurred, then both the county and the HMO must sign off that no changes have occurred and documentation to this effect must be submitted to DHS upon request. HMOs must conduct outreach to agencies that do not have a MOU with the health plan, at a minimum, every two years. The HMO must submit evidence that it attempted to obtain a MOU or contract in good faith.

13. Sub-Acute Psychiatric Community-Based Psychiatric and Recovery Center Services

a. Services

This benefit will be limited to behavioral health: short term residential (non-hospital residential treatment program) per diem (over midnight census) using code: H0018 under the CBRF provider ID. Sub-acute community based clinical treatment may be used in lieu of inpatient psychiatric hospitalization.

This benefit will be reimbursed at \$450 per diem.

Included in this per diem cost are services such as:

- 1) Comprehensive interdisciplinary biopsychosocial mental health assessment;
- 2) Crisis assessment, intervention and stabilization;
- 3) Psychiatrist and Advanced Practice Nurse Prescriber to include medication assessment, review, consultation and prescribing;

- 4) Psychosocial group education;
- 5) Individual counseling;
- 6) Peer support;
- 7) Family consultation, as needed;
- 8) Individualized community linkage to ongoing services and supports within the community.

Post-discharge services will be provided on an individual outpatient basis in cooperation and consent with the members' HMO. These outpatient mental health services will be included as part of the HMO capitation.

b. Provider Qualifications

- 1) The provider must be a licensed Community Based Residential Facility (CBRF).
- 2) The provider must be experienced with at least 5 years as a community based provider of non-institutional sub-acute psychiatric services.
- 3) DQA certification as an Outpatient Mental Health clinic is required.
- 4) The staffing plan shall include the following positions:
 - a) Director
 - b) Clinical Coordinator
 - c) Community Recovery Specialist
 - d) Peer Recovery Specialist
 - e) Mental Health Professional
 - f) Registered Nurse
 - g) Advanced Practice Nurse Prescriber
 - h) Medical Director
 - i) Other professional and/or para-professional staff as required to meet the needs of the members.

14. Certified Peer Specialist Services

The HMO may elect to provide an enhanced behavioral health benefit to eligible members through the use of Certified Peer Specialist providers. This benefit is available for BadgerCare Plus and/or Medicaid SSI HMO enrolled adults (18 years and older) with a mental health and/or substance abuse diagnosis, especially members with a co-morbid diagnosis, who are at risk of hospitalization or who may have been hospitalized.

Peer Specialists will be supervised by the HMO rendering provider, who must be a qualified mental health professional. Peer Specialists will be certified and trained by

the Department's Division of Care and Treatment Services (DCTS). DCTS maintains oversight of the training, certification and supervision requirements for peer specialist providers eligible for providing this benefit to HMO members.

Peer specialist services will be billed under their supervising clinician's NPI, using HCPCS code H0038 – Self-help/peer services. Up to 16 units may be billed per week. A unit is 15 minutes.

Travel time to and from the member visits may not be billed separately, this time considered covered within the direct time reimbursement.

15. Narcotic Treatment Services

Within a reasonable distance from a member's residence, the HMO must provide access to narcotic treatment services (NTS) or medication-assisted treatment (MAT) for opioid dependence via eligible facilities and/or providers. HMOs must regularly monitor their NTS and MAT provider networks to ensure that members have access to these services. Narcotic treatment services include member assessment, screening for drugs of abuse, screening for certain infectious diseases, prescription and administration of narcotic medication, and substance abuse counseling. The ForwardHealth Online Handbook section for 'Narcotic Treatment' outlines policy for services provided by narcotic treatment programs certified under Wis. Adm. Code § DHS 75.15. For members who require narcotic treatment, HMOs must ensure access to providers authorized to prescribe opioid dependency agents. Authorized providers include Wis. Adm. Code § DHS 75.15 facilities or physicians who have obtained a Drug Addiction Treatment Act (DATA) 2000 waiver allowing him or her to prescribe buprenorphine-based agents. The requirement to provide narcotic treatment services does not include coverage of opioid dependency agents themselves, which are covered by ForwardHealth. HMO providers must adhere to all policy and prior authorization requirements for coverage of opioid dependency agents.

C. HealthCheck

The section below describes the HealthCheck requirements and responsibilities for MY2022.

1. HMO Responsibilities for MY2022

- a. Provide comprehensive HealthCheck services as a continuing care provider and according to policies and procedures in Wisconsin Health Care Programs Online Handbook related to covered services.

- b. Provide comprehensive HealthCheck screens upon request. The HMO must provide a HealthCheck screen within 60 days (if a screen is due according to the periodicity schedule) for members over one year of age for which a parent or guardian of a member requests a comprehensive HealthCheck screen. If the screen is not due within 30 days, then the HMO must schedule the appointment in accordance with the periodicity schedule.

The HMO must provide a comprehensive HealthCheck screen within 30 days (if a screen is due according to the periodicity schedule) for members up to one year of age for which a parent or guardian of a member requests a comprehensive HealthCheck screen. If the screen is not due within 30 days, then the HMO must schedule the appointment in accordance with the periodicity schedule.

Comprehensive HealthCheck screens for children through two years of age generally include both blood lead toxicity testing and age appropriate immunizations.

Note: Federal regulations require lead toxicity screening for all children at ages 12 months and again at 24 months. In addition, children between 24 and 72 months must be screened if there is no record of a previous blood lead screening test.

- c. Provide comprehensive HealthCheck screens at a rate equal to or greater than 80% of the expected number of screens.
- d. Provide treatment referrals result from the HealthCheck physical exam when findings indicate the need for further evaluation, diagnosis, and treatment. All appointments for further diagnosis or treatment as a result of the screening should be scheduled within 60 days of the date of the HealthCheck screening. All BadgerCare plus and Medicaid services on a HealthCheck referral should be provided within six months of the screening date.
- e. Provide other necessary health care services, as medically-necessary, even if those services are not otherwise covered or, exceed coverage limitations (i.e., HealthCheck “Other Services”). The HMO is responsible for all HealthCheck “Other Services” with the exception of services specified in Article IV(A)(1) in the Contract. Refer to Topic #2391 In the ForwardHealth Online Handbook for examples of HealthCheck “Other Services.”

2. Department Responsibilities

- a. MY2022 calculations for each HMO's performance on the HealthCheck measure will be made using the methodology described in the MY HMO Quality Guide. There will be a flat assessment of \$10,000 for any HMO missing the 80% target, regardless if the HMO serves BadgerCare Plus members, SSI members, or both populations. This penalty is not part of the other HMO P4P measures and withhold. Operational details for this modification, including opportunities for HMOs to provide additional information, will be discussed in the HMO Quality Guide.

DHS will explore replacing the current HealthCheck measure with Bright FuturesTM health supervision guidelines in the future. Operational details for this modification will be discussed in future HMO Quality Guides.

D. Obstetric Medical Home Initiative (OB MH) for High-Risk Pregnant Women

The OB Medical Home for high-risk pregnant women is a care delivery model that is patient-centered, comprehensive, team-based, coordinated, accessible and focused on quality. The initiative is available in the following counties: Dane, Kenosha, Milwaukee, Ozaukee, Racine, Rock, Washington, and Waukesha. The care team is responsible for meeting the patient's physical, behavioral health and psychosocial needs. A key component of the OBMH is enhanced care coordination provided early in the prenatal period through the postpartum period (60 days after delivery). Care coordination is defined as the deliberate organization of patient activities between two or more individuals involved with the patient's care to facilitate the delivery of appropriate services.

The HMO, in partnership with the medical home sites, shall be guided by four core principles:

- Having a designated obstetric (OB) care provider who serves as the team leader and a point of entry for new problems. The OB care provider is defined as a physician, nurse midwife, nurse practitioner or physician assistant with specialty in obstetrics, who provides prenatal care and performs deliveries;
- Providing ongoing care over the duration of the pregnancy and postpartum period;
- Providing comprehensive care (e.g., care that meets the member's range of health and psychosocial needs); and
- Coordination of care across a person's conditions, providers and settings.

Additional information regarding the OB Medical Home Initiative may be found on the ForwardHealth Portal (click the link to be directed to the website):
OB Medical Home Initiative

1. Requirements

a. Target Population

The target population for the OB Medical Home Initiative is pregnant BadgerCare Plus and Medicaid SSI members who are at high-risk for a poor birth outcome. A poor birth outcome is defined as:

- 1) Preterm birth – gestational age less than 37 weeks
- 2) Low birth weight – birth weight less than 2,500 grams (5 lbs. 8 oz.)
- 3) Neonatal/early neonatal death – death of a live-born infant within the first 28 days of life
- 4) Stillbirth – a fetal demise after 20 weeks gestation

b. Members eligible to participate in the OBMH Initiative

Documentation must confirm that the member is within the first 16 weeks of pregnancy to be enrolled in the medical home and must meet one or more of the following criteria:

- 1) Listed on the Department's Birth Outcome Registry Network (BORN) of high-risk women
- 2) Less than 18 years of age
- 3) African American
- 4) Homeless
- 5) Have a chronic medical or behavioral health condition which the obstetric care provider determines would negatively impact the outcome of the pregnancy whether the symptoms be current or historical.

The reason(s) for the member's medical home eligibility must be documented in the medical record.

c. Payment Structure

Enhanced payments are available for clinics for pregnant women that meet the defined eligibility criteria above and the criteria for delivery of services articulated below. The Department currently issues payments to the HMOs and the HMOs subsequently issue the enhanced payment on to the OB medical home site.

Medical record reviews by the Department's External Quality Review Organization (EQRO) will be used to verify eligibility. If the EQRO is unable to verify any of the criteria as required by the OB Medical Home Initiative, the clinic is ineligible for the enhanced payment for those women. To receive the initial \$1,000, at minimum, the clinic must clearly document that all the following criteria are met. The member:

- 1) Has had a pregnancy-related appointment with a health care provider within the first 16 weeks of her pregnancy.

She must also be enrolled in the OB Medical Home within 20 weeks of her pregnancy (the clinic is responsible for obtaining all medical records for documentation). Enrollment in the OB Medical Home means being entered into the OBMH registry.

- 2) Has attended a minimum of 10 medical prenatal care appointments with the OB care provider,
- 3) Has a member centric, comprehensive care plan that has been reviewed by the member and, at minimum, the OB provider,
- 4) Has been continuously enrolled in the OB medical home and receiving services during her pregnancy, and
- 5) Has continued enrollment through 60 days postpartum, including the date of the scheduled 60 day medical postpartum visit, and any documentation of no shows or appointment refusals.

The Department will issue an additional \$1,000 (for a total of \$2,000) if the mother has a healthy birth outcome as defined by the Department.

Pregnancy loss prior to 20 weeks will not be eligible for the OBMH incentive, as limited care coordination and delivery of other services has occurred. Providers will still receive payment for the medical prenatal care through the usual claim submission process.

d. External Quality Review

The Department has established a process for verifying that members enrolled in the OB Medical Home Initiative meet the requirements.

The Department's EQRO will conduct chart reviews that:

- 1) Verify enrolled members meet the defined contract requirements;
- 2) Collect data to support potential future program refinements; and
- 3) Collect data to support program evaluation.

The HMO is responsible for working with the medical home sites, external PNCC providers, hospitals and any other care provider that may or should have documentation of OB medical home services to ensure required documentation is submitted to the Department's EQRO in a timely manner. For medical home sites that provide remote access to records, the EQRO will access records that have been specified as OBMH members. If the patient is not on the record review list, the EQRO will not access those records.

The Department does not provide additional reimbursement to HMOs or clinics for submission of medical records. HMOs are encouraged to define responsibilities of each party, which may include reimbursement policies and reporting requirements, in their subcontracts or agreements with medical home providers.

e. HMO Responsibilities

- 1) HMO representative

The HMO must designate a staff person to oversee the execution of the OB Medical Home Initiative. The HMO designee will be responsible for representing the HMO regarding inquiries pertaining to the initiative and will be available during normal business hours. The HMO representative will be responsible for ensuring the medical home is implemented in accordance with the contract.

- 2) HMO Outreach and Member Engagement

HMOs must actively seek to identify and engage eligible members for participation in the OBMH. At a minimum, this should include a variety of strategies, e.g., working with existing organizations having similar goals, increasing public awareness about the OB Medical Home Initiative and its services, screening new members for eligibility, reviewing the BORN report periodically and working with colleagues to develop and implement creative strategies such as health fairs or street teams.

- 3) OB Medical Home Sites

HMOs must distribute communications from DHS to its participating clinics and are accountable for ensuring contracted OB medical home sites meet the requirements below.

The OB Medical Home must be a single clinic or network of clinics that is accountable for the total care of the member and must:

- a) Include an OB care provider that serves as the care team leader and a point of entry for new problems during the member's pregnancy. The OB care provider, the care coordinator, and the member's primary care physician (who may or may not be the OB care provider) will work together to identify the prenatal and psychosocial needs of the member to ensure that she will have a healthy birth outcome.
- b) Adopt written standards for patient access and communication to the member as determined by the HMO and approved by the Department. These written standards must, at a minimum, meet appointment and wait times according to Art. V of the contract. In addition, treatment and/or medical advice must be available 24 hours a day, seven days a week.
- c) Use an electronic health record system to manage patient data to:
 - 1. Document medical home enrollment date,
 - 2. Organize clinical information,
 - 3. Identify diagnoses and conditions among the provider's patients that have a chronic condition that will impact the pregnancy,
 - 4. Track patient test results,
 - 5. Identify abnormal patient test results,
 - 6. Systematically track referrals and follow up, and
 - 7. Document birth outcomes.
- d) Provide appropriate best practice medical care for high-risk pregnant women, which may include:
 - 1. Consultation from a maternal fetal specialist and close monitoring and surveillance;
 - 2. To the extent it is covered by ForwardHealth (such as through in person consultation per ForwardHealth Topic 510), HMOs may encourage OBMH providers to use telehealth services to

identify problems early in the pregnancy and provide treatment to avoid further complications and preterm labor.

3. Progesterone therapy, as appropriate;
 4. Plan for interconception care, including educating members on options for long-acting reversible contraception post-delivery as part of "LARC First practice." This is the practice of a prescriber who promotes awareness and use of long-acting reversible contraception as the first-line contraceptive option for women, including teens.
- e) Adopt and implement evidence-based guidelines that are based on, but not limited to, screening, treatment and management of the following chronic medical conditions:
1. Asthma
 2. HIV/AIDS
 3. Cardiac disease
 4. Diabetes mellitus
 5. Hypertension
 6. Pulmonary disease
 7. Behavioral health, including
 - A. Depression
 - B. Smoking
 - C. Substance Abuse
 8. Morbid Obesity

The HMO and medical home sites must have clear procedures for addressing the complex needs of women with these conditions, including, but not limited to, referrals to appropriate specialists and community resources.

- f) Develop guidelines to ensure that screening for social factors (that could have a negative impact on pregnancy outcome and newborn health) is a routine part of care to the pregnant and postpartum member. The guidelines should address the following:
1. Integrating initial and periodic screening into information gathering,

2. Incorporating identified social needs (and strengths) into the comprehensive care plan,
3. Effective strategies for addressing social factors, including the following:
 - Identifying pertinent community resources, including personal supports;
 - Referral to community health worker services;
 - Developing effective working/referral relationships with these resources;
 - Communication and information sharing (e.g., obtaining written authorization from the member where necessary);
 - Obtaining periodic feedback from members and community resources to ensure identified resources continue to be relevant and appropriate.

4. Systematic electronic tracking and follow-up on community and social determinants of health referrals to ensure referral completion.

g) Actively support and promote patient self-management.

h) Demonstrate cultural competency among provider and office staff.

4) Documentation Requirements

The medical home should retain electronic documentation to support the provision of the medical home services outlined in this section of the contract.

f. Care Coordination – General Requirements

A key component of the OB Medical Home Initiative is the coordination of care for the member. Each medical home site must have a designated care coordinator on-site (located where the member's OB care provider is located) to do the following:

- 1) Establish a relationship with the member and maintain regular face-to-face contact throughout the pregnancy;

- 2) Communicate with the member and other care providers to identify needs and assist in developing a member-centric care plan and keeping the plan up-to-date;
- 3) Make referrals to appropriate services (e.g., physical, dental, behavioral health and psychosocial) and provide follow up.

The care coordinator may be an employee of the medical home site or of the HMO, under contract, or under a Memorandum of Understanding/Agreement. All care coordinators must be easily accessible on a regularly established schedule for members participating in the OB medical home.

To ensure continuity of care, the care coordinator shall work with the member to obtain the appropriate release forms, and contact the office(s) of any PCP, with whom the participating member had/has an ongoing relationship, to gather information about the member's medical history, current health conditions and any concerns that the PCP may have regarding the member.

HMOs and medical home sites must use the OB Medical Home Registry, provided by the Department and hosted by the Department's External Quality Review Organization, to track enrollment in the OB Medical Home.

a. Information Gathering and Comprehensive Assessment of Need

Prior to the development of a comprehensive care management plan, the OB care provider must communicate with pertinent health care providers, the member and others as appropriate, to identify the member's strengths and care coordination needs. Information gathering activities include:

- 1) Obtaining pertinent information from the initial prenatal clinic visit, the OB care provider, the member's PCP, HMO or other source;
- 2) Taking the member's history to identify social factors that could have a negative impact on the health and well-being of the mother and baby;
- 3) Identifying the member's strengths and social support.

b. Comprehensive Care Plan

The care coordinator must ensure that each medical home member has a comprehensive care plan. The OB care provider must be central to the development of the care plan. To the maximum extent possible, the member

and the member's PCP (if different from the OB care provider) must also be included in the development of the care plan.

The care plan must address the medical and non-medical needs identified during the information gathering process and must include:

- 1) A listing of key health and community resources specific to the member's needs;
- 2) A prioritized plan of action that reflects the member's preferences and goals;
- 3) Timeframes for addressing (and following-up on) each identified need;
- 4) Strategies to encourage patient self-care and adherence to treatment recommendations (e.g., assisting the member in identifying self-management goals and in communicating with her obstetric care provider, offering home visits, checking in with the member between visits, referring members to group classes, and sharing culturally sensitive and appropriate materials).

The care coordinator should offer home visits. Best practice suggests that the home visit occur within 30 days of enrollment in the medical home. Members, who decline the initial offer, should be asked again throughout the pregnancy. The offer attempts and refusals must be documented in the medical record.

The care coordinator must establish regular communication with the member, OB care provider and PCP, if any, and any home visiting agency/provider the member may be working with, to track progress on the care plan and ensure coordinated care.

The care plan must be developed by the OB care provider, the care coordinator, and the member. The provider must attest to the agreement and understanding of the care plan by the respective parties and document, including the date, within the EHR. The plan must be reviewed and updated as the member's health and circumstances change.

c. Ongoing Monitoring and Follow-up

Ongoing monitoring and follow-up include activities and contacts that are necessary to implement and maintain the care plan. These activities include:

- 1) Ensuring services are being furnished in accordance with the member's care plan;
- 2) Making referrals, which includes related activities such as assisting with scheduling follow-up appointments;
- 3) Tracking and following up on all referrals, including referrals to community resources;
- 4) Flagging critical referrals to ensure immediate follow-up on overdue reports (e.g., following up on laboratory and imaging results to determine the need for additional services).
 - a) Referrals are not complete without timely follow up with the member and/or with the service provider to track the results of the referral.
- 5) Communicating with the member, the OB care provider and other individuals instrumental to the member's care and support, to assess the usefulness of key community resources and to ensure the care plan is meeting the member's needs.
- 6) Reviewing and updating the care plan, as necessary, following each health care encounter or home visit.
- 7) Assisting in removing barriers to care, e.g., offering flexible scheduling and assessing and addressing communication gap between the health care provider and the member.

d. Transition Plan (Transfer of Care)

All members shall remain enrolled and receiving services as needed within the OB medical home for 60 days postpartum. Regardless of birth outcome, the medical home provider should do the following to minimize disruption during the transfer of care:

- 1) Engage the member in the transfer of care, to the maximum extent possible.
- 2) Collaborate with the HMO to ensure continuity of care for the mother and newborn following medical home discharge. For example, the medical home could summarize and share issues related to the need for

ongoing support, outstanding test results, community referrals, upcoming appointments, and any unmet needs or concerns from the member's care plan.

3) Ensure that each member has a transition plan, as described below.

a) Healthy Birth Outcome

If the member has a healthy birth outcome, the following activities shall take place within the member's 60 day postpartum period:

1. The member shall have at least one postpartum follow-up appointment with the OB care provider that meets all American Congress of Obstetricians and Gynecologists (ACOG) or other applicable postpartum guidelines.
2. Ensure that the member is connected to a PCP and has an appointment as appropriate with a PCP.
3. Ensure that the member has identified a PCP for the newborn and has made an initial appointment.
4. The care coordinator shall contact the member's PCP to inform her/him of the birth outcome and any concerns that the OB care provider has regarding the member's and/or child's health postpartum.
5. The care coordinator shall educate the member on interconception care specific to her needs.

b) Poor Birth Outcome

In addition to items listed under healthy birth outcome above, for members who have a poor birth outcome, as defined by the Department, the HMO is responsible for the following:

1. Working with the OB medical home site to develop a care plan for the infant and the mother that incorporates input from the mother, the OB care provider, and the PCP and/or pediatrician. The plan shall include the

coordination of care with other providers (which may be within the medical home) who are appropriate to provide ongoing services for the mother's and infant's specific needs.

2. Conduct follow up with the mother to ensure that the initial referral appointments with other providers are kept.
3. To the extent feasible, maintain ongoing contact with the mother following the birth to ensure the mother and child are receiving appropriate care. HMO responsibility for follow up ends when the member is no longer enrolled in the HMO.

g. Reporting

The HMO must submit a report (using the template provided) to the Department annually evaluating its OB Medical Home initiative. The report is due the first business Monday of June (reporting from April of the previous year through March of the current year).

Additional reporting of program compliance by the HMO and/or medical home sites may be requested by the Department outside of the annual report, as needed.

h. Learning Collaborative

In addition to providing comprehensive, quality care, a second goal of the OB Medical Home Initiative is to provide care that meets the unique needs of each member. Prior experience in implementing the Initiative demonstrates the efficacy of OB medical home sites learning from each other. To facilitate this process, the HMOs and clinic sites must identify and/or develop and participate in at least one collaborative learning opportunity per year. Such opportunities must address identified needs of the clinics serving as OB medical homes and the members they serve.

These forums shall be described and reported in the required HMO annual report.

E. Immunization Program

As a condition of certification as a BadgerCare Plus and/or Medicaid SSI provider, the HMO must share member immunization status with the local health

departments and other non-profit HealthCheck providers upon their request without the necessity of member authorization. The Department also requires that the local health departments and other non-profit HealthCheck providers share the same information with the HMO upon request. This provision ensures proper coordination of immunization services and prevents duplication of services.

The HMO must have a signed user agreement with the Wisconsin Immunization Registry (WIR) or must be able to demonstrate that its major providers have signed WIR user agreements.

F. Abortions, Hysterectomies and Sterilizations

The HMO shall comply with the following state and federal compliance requirements for the services listed below:

1. Abortions must comply with the requirements of Wis. Stats., s. 20.927, Wis. Stats., s. 253.107 and with 42 CFR Part 441, Subpart E-Abortions.
2. Hysterectomies and sterilizations must comply with 42 CFR Part 441, Subpart F—Sterilizations.

Sanctions in the amount of \$10,000.00 may be imposed for non-compliance with the above compliance requirements.

The HMO must abide by Wis. Stats., s. 609.30.

G. Health Homes

1. The Affordable Care Act of 2010, Section 2703, created an optional Medicaid benefit that allows states to establish health homes to coordinate care for people who have chronic conditions. The goals of health homes are to improve health outcomes while lowering Medicaid costs, and to reduce preventable hospitalizations, emergency room visits, and unnecessary care for Medicaid members. HMO must coordinate services with all members enrolled in a specialized (a) HIV/AIDS Health Home or (b) Hub and Spoke (H&S) Integrated Recovery Support Services Health Home for SUD treatment.
 - a. HIV/AIDS Health Home. All members diagnosed with HIV or AIDS must have access to appropriate specialists and Medicaid-covered services through the HMO. This includes those members not enrolled in the below HIV/AIDS health home.
 - b. Hub and Spoke Integrated Recovery Support Services Health Home for SUD Treatment Pilot Program. Members diagnosed with or identified as being at risk of having Substance Use Disorder (SUD) or who have been identified as being at

risk of developing conditions frequently associated with SUD, may be referred with the member's consent for specialized Hub and Spoke services..

2. Program Evaluation and Ongoing Monitoring, Review, and Audit

The Affordable Care Act includes a national evaluation requirement. In response, CMS has identified a core set of quality measures to inform the evaluation and to assess the impact of health home services on health outcomes. The Department will be responsible for obtaining data and reporting on these quality measures.

The Department will conduct ongoing health home site visits for the purposes of program monitoring, review, and audit. The Department may use information obtained from site visits, encounter and paid claims data to respond to federal reporting and evaluation requirements. Health home providers are required to respond to data requests as a condition of continued health home participation.

3. Health Home Services

Health home providers coordinate care across all settings, including medical, behavioral, dental, pharmaceutical, institutional, and community care settings.

Covered health home activities include the following:

- a. Comprehensive care management
- b. Care coordination
- c. Health promotion
- d. Comprehensive transitional care from inpatient to other settings, including appropriate follow-up
- e. Patient and family support, including authorized representatives
- f. Referral to community and social support services

Health home providers must be required to provide patient-centered health home services in accordance with the requirements detailed in the ForwardHealth online handbook.

When arranging direct care services, the health home provider must follow the HMO's requirements regarding prior authorization for HMO-covered services, referrals to in-network providers, and claim submission.

Health homes are strongly encouraged to use health information technology to link services and to facilitate communication.

4. Target Population

- a. HIV/AIDS Health Home. Members must have a diagnosis of HIV and at least one other chronic condition, or be at risk of developing another chronic condition. The risk factors include diabetes, hypertension and high cholesterol, among others. Member participation in the health home is

voluntary. The ForwardHealth online handbook includes detailed policies related to member eligibility for health home services.

- b. Hub & Spoke Integrated Recovery Support Services. Members must have a diagnosis of SUD and at least one other chronic condition, or be at risk of developing another chronic condition. The risk factors include but are not limited to: mood disorder, anxiety disorders, diabetes, heart disease, COPD, hypertension, asthma, HIV/AIDS, hepatitis A, B, and C, liver/kidney disease, PTSD, psychotic disorders, Traumatic Brain Injury and cognitive disorders, ADHD, and chronic pain. Pilot Hub sites will determine eligibility and enroll members in the Hub and Spoke services. Hubs may also clinically assess the member's needs for the health home service on a case by case basis, to determine eligibility for the Hub and Spoke benefit.

5. Designated Health Home Provider

Wisconsin used the flexibility allowed by federal law to designate AIDS Service Organizations (funded by the DHS under s. 252.12(2)(a)8, Wis. Stats., for purposes of providing life care services to members diagnosed with HIV infection) as health home providers. Vivent Health is the only organization that meets this requirement. The designated health home provider has clinic locations in Dane, Kenosha, Brown, and Milwaukee counties.

Hub and Spoke pilot program sites were selected by the Department via a Grant Funding Opportunity Application (GFOA). Three authorized hub sites were selected to provide health home services and to contract for those services with authorized spoke sites. HMOs are expected to enter into MOUs with the DHS contracted hub and spoke pilot sites to coordinate services in the pilot program service areas.

6. Requirements

HMOs serving members with HIV/AIDS must provide access to Vivent Health health home services. HMOs serving members with an SUD who have access to a Hub and Spoke pilot site may refer the member to the pilot site, with the member's consent. HMOs may not limit a member's participation in a health home.

HMOs must continue to provide services in the HMOs benefit package regardless of the member's participation in a health home.

Health home services include coordination beyond the health care community. A significant component is focused around the engagement of community partners to ensure successful linkages to community and social supports.

Eligible members may be identified by the HMO or its providers and informed of the option to receive services through Vivent Health health home (or assisted with access to HIV/AIDS specialists outside the health home areas) or the Hub and Spoke pilot sites. Members may also be identified by the Vivent Health health home or Hub and Spoke pilot sites, who must then inform the HMO to ensure care is coordinated.

Members may not be obligated to receive health home services and must consent in writing to health home enrollment.

Non-Duplication of Services

To avoid duplication of care coordination activities, HMOs are encouraged to work with the health home to develop a MOU or contract that clearly delineates the respective roles. At a minimum, the HMO should address the following with the health home provider:

- a. Communication
 - 1) Single points of contact within the health home and the HMO
 - 2) Response to critical events (emergency room visit, hospitalization, detox/mental health crisis)
 - 3) Expanded access to health care, where appropriate
 - 4) HMO notification and engagement if member opts out of health home
 - 5) Mode
 - 6) Frequency
- b. Member engagement (in accordance with state and federal confidentiality requirements)
 - 1) Identification
 - 2) Outreach
 - 3) Obtaining member consent (to participate and for information sharing)
 - 4) Re-engagement if lost to follow-up (for example, member identified in an emergency room)
- c. HMO engagement in the member development and implementation of the member's care plan, especially in the following areas,
 - 1) Identification and engagement of member's PCP and other health care providers
 - 2) Access to needed health care
 - 3) Identifying gaps in care, needed referrals, and referral follow-up
 - 4) Addressing missed appointments
 - 5) HMO resources
- d. Reporting and data sharing. The HMO and health home should determine the level of reporting and data sharing necessary to ensure that the goals of health home services are accomplished. Examples of these activities include,
 - 1) Health home utilization (for example, member count, average number of contacts per month)
 - 2) ER use
 - 3) Hospitalization
 - 4) Referrals
 - 5) Adherence to prescribed therapy
 - 6) Results of member satisfaction surveys (conducted by the health home)

- e. Use of Information Technology where feasible (for example, sharing clinical and care plan information, communication and referrals and follow-up).

H. HMO Moral or Religious Objection

The HMO is not required to provide counseling or referral service if the HMO objects to the service on moral or religious grounds. If the HMO elects not to provide, reimburse for, or provide coverage of, counseling or referral service because of an objection on moral or religious grounds, it must furnish information about the services it does not cover as follows:

1. To the Department and Enrollment Specialist so the Department can notify members of the HMO's non-coverage of service;
2. With the HMO's certification application for a BadgerCare Plus and/or Medicaid SSI contract;
3. Whenever the HMO adopts the policy during the term of the contract;
4. It must be consistent with the provisions of 42 CFR 438.10;
5. It must be provided to potential members before and during enrollment;
6. It must be provided to members within ninety (90) days after adopting the policy with respect to any particular service; and
7. In written and prominent manner, the HMO shall inform members via their website and member handbook of any benefits to which the member may be entitled under BadgerCare Plus and Medicaid SSI but which are not available through the HMO because of an objection on moral or religious grounds. The HMO must inform members about how to access those services through the State.

ARTICLE V: PROVIDER NETWORK AND ACCESS REQUIREMENTS

The HMO must provide medical care to its BadgerCare Plus and/or Medicaid SSI members that are accessible to them, in terms of timeliness, amount, duration, and scope, as those services to non-enrolled BadgerCare Plus and/or Medicaid SSI members within the area served by the HMO.

A. Use of BadgerCare Plus and/or Medicaid SSI Enrolled Providers

Except in emergency situations, the HMO must use only Medicaid enrolled providers for the provision of covered services. The Department reserves the right to withhold from the capitation development the costs related to services provided by non-enrolled providers, at the FFS rate for those services, unless the HMO can demonstrate that it reasonably believed, based on the information provided by the Department, that the provider was Medicaid enrolled at the time the HMO reimbursed the provider for service provision. The Wis. Adm. Code, Ch. DHS 105 and the ForwardHealth Handbook, contains information regarding provider certification requirements. The HMO must require every physician providing services to members to have a Provider Number or National Provider Identifier (NPI). The Department requires that Medicaid-enrolled providers undergo periodic revalidation. During revalidation, providers update their enrollment information with ForwardHealth, and sign the Wisconsin Medicaid Provider Agreement and Acknowledgement of Terms of Participation. Providers who fail to revalidate are terminated from Wisconsin Medicaid.

B. Protocols/Standards to Ensure Access

The HMO must have written protocols to ensure that members have access to screening, diagnosis and referral and appropriate treatment for those conditions and services covered under BadgerCare Plus and Medicaid SSI programs.

The HMO's protocols must include training and information for providers in their network, in order to promote and develop provider skills in responding to the needs of persons with limited English proficiency, mental, physical and developmental disabilities. Training should include clinical and communication issues and the role of care coordinators.

For members with special health care needs, where a course of treatment or regular case monitoring is needed, the HMO must have mechanisms in place to allow members to directly access a specialist, as appropriate, for the member's condition and identified needs.

C. Written Standards for Accessibility of Care

1. The HMO must have written standards for the accessibility of care and services. These standards must be communicated to providers and monitored by the HMO. The standards must include the following:
 - a. Waiting times for care at facilities;
 - b. Waiting times for appointments;
 - c. Statement that providers' hours of operation do not discriminate against BadgerCare Plus and/or Medicaid SSI members; and
 - d. Whether or not provider(s) speak the member's language.
2. The HMO may not prohibit, or otherwise restrict, a health care professional acting within the lawful scope of practice, from advising or advocating on behalf of an enrollee who is his or her patient, for the following:
 - a. The enrollee's health status, medical care, or treatment options, including any alternative treatment that may be self-administered.
 - b. Any information the enrollee needs in order to decide among all relevant treatment options.
 - c. The risks, benefits, and consequences of treatment or non-treatment.
 - d. The enrollee's right to participate in decisions regarding his or her health care, including the right to refuse treatment, and to express preferences about future treatment decisions.

These minimum requirements shall not release the HMO from the requirement to provide or arrange for the provision of any medically necessary covered service required by its members.

The HMO must take corrective action if its standards are not met.

D. Monitoring Compliance

The HMO must develop policies and procedures regarding wait times for appointments and care. The HMO shall conduct surveys and site visits to monitor compliance with these standards and shall make them available to DHS upon request. If issues are identified, either by the HMO or by the Department, the HMO must take corrective action so that providers meet the HMO's standards and improve access for members. The Department will investigate complaints received of HMOs that exceed standards for waiting times for care and waiting time for appointments.

E. Access to Selected BadgerCare Plus and/or Medicaid SSI Providers and Covered Services

Per 42 CFR § 438.207, HMOs must provide assurances to the State that demonstrates that the HMO has the capacity to serve the expected enrollment in its service area per the State standards for access to care provided below. All HMO network reviews are based on the number of providers accepting new patients.

1. Primary Care Provider Network Adequacy Standards

Primary Care Providers

Population	Provider Specialty Codes/Descriptions	Counties Served	Distance	Provider to Member Ratio	Appointment Wait Time	Drive Time
Adult	092 – Certified Family Nurse Practitioners 093 – Other Nurse Practitioners 100 – Physician Assistants 316 – Family Practice 318 – General Practice 322 – Internal Medicine	Brown Dane Kenosha Milwaukee Racine Ozaukee Washington Waukesha	The HMO must have a PCP within 20 miles of any member residing in the county. At least one PCP must be in each HMO certified county, unless there is no such provider in the county. In that case, the travel distance shall be no more than for a non-enrolled member.	1:100	Wait times for an appointment shall be no more than 30 days. Women’s Health Specialist In addition to a primary care provider, a female member may have a women’s health specialist. The HMO must provide female members with direct access to a women’s health specialist within the network for covered women’s routine and preventive health care services.	A PCP must be within a 30 minute drive time of any member residing in these counties.
Pediatric	090 – Certified Pediatric Nurse Practitioners 092 – Certified Family Nurse Practitioners 093 – Other Nurse Practitioners 100 – Physician Assistants 316 – Family Practice 318 – General Practice 322 – Internal Medicine 345 – Pediatricians 080 – Federally Qualified Health Center (HealthCheck related) 734 – Screener (HealthCheck) 735 – Screener/Case Management (HealthCheck)					
Adult	092 – Certified Family Nurse Practitioners 093 – Other Nurse Practitioners 100 – Physician Assistants 316 – Family Practice 318 – General Practice 322 – Internal Medicine	All other remaining counties	The HMO must have a PCP within 30 miles of any member residing in all other counties. At least one PCP must be in each HMO certified county, unless there is no such provider in the county. In that case, the travel distance shall be no more than for a non-enrolled member.	No standard	Wait times for an appointment shall be no more than 30 days. Women’s Health Specialist In addition to a primary care provider, a female member may have a women’s health specialist. The HMO must provide female members with direct access to a women’s health specialist within the network for covered women’s routine and preventive health care services.	A PCP must be within a 60 minute drive time of any member residing in all other counties.
Pediatric	090 – Certified Pediatric Nurse Practitioners 092 – Certified Family Nurse Practitioners 093 – Other Nurse Practitioners 100 – Physician Assistants 316 – Family Practice 318 – General Practice 322 – Internal Medicine 345 – Pediatricians 080 – Federally Qualified Health Center (HealthCheck related) 734 – Screener (HealthCheck) 735 – Screener/Case Management (HealthCheck)					

These access standards do not prevent a member from choosing a HMO when the member resides in a county that does not meet the distance standard. However, the member will not be automatically assigned to that HMO. If the member has been assigned to the HMO or has chosen the HMO and becomes dissatisfied with the access to medical care, the member may disenroll for cause from the HMO because of distance.

2. Mental Health or Substance Abuse Provider Network Adequacy Standards

Mental Health and Substance Abuse Providers						
Population	Provider Specialty Codes/Descriptions	Counties Served	Distance	Provider to Member Ratio	Appointment Wait Time(s)	Drive Time
Adult & Pediatric	112 – Licensed Psychologist (PhD) 117 – Psychiatric Nurse 120 – Licensed Psychotherapist 121 – Licensed Psychotherapist with SAC 122 – Alcohol & Other Drug Abuse Counselor 123 – Certified Psychotherapist with SAC 124 – Certified Psychotherapist 126 – Qualified Treatment Trainee (QTT) 339 – Psychiatry 532 – Registered Alcohol & Drug Counselor 740 – Mental Health	Brown Dane Kenosha Milwaukee Racine Ozaukee Washington Waukesha	The HMO must have a mental health and substance abuse provider (including access to qualified treatment trainees) within a 35 mile travel distance from any member residing in the HMO service area. At least one mental health and substance abuse provider must be in each HMO certified county, unless there is no such provider in the county. In that case, the travel distance shall be no more than for a non-enrolled member.	Psychiatrist 1:900 Psychologist 1:900	No longer than 30 days for an appointment with a Mental Health provider for follow-up after an inpatient mental health stay. No more than 30 days for a non-psychiatric appointment. No more than 90 days for a psychiatric appointment.	A mental health and substance abuse provider must be within a 60 minute drive time of any member residing in the county.
		All other remaining counties		No standard	Medication-Assisted Treatment (MAT) Services: No more than 72 hours (including weekends and holidays) for appointment with prescribing and dispensing provider for medication-assisted treatment (MAT) for members presenting with opioid use disorder (OUD); including providers authorized to prescribe and dispense methadone, buprenorphine, and naltrexone for OUD. Type of medication must be based on an assessment of the individual member and choice of clinically-indicated medication (i.e. 72-hour requirement cannot be met by directing all members to naltrexone providers). To ensure adherence to MAT wait time standards, HMOs must collect and monitor data for MAT providers in their network. This monitoring should include identifying providers with legal authority to prescribe and dispense each FDA-approved medication for substance use disorders, whether these providers are actively providing MAT for members in the HMO, and the MAT capacity for each of these providers. Detailed data regarding MAT provider networks must be available upon request from the Department.	

3. OB/GYN Network Adequacy Standards

OB/GYN Providers

Population	Provider Specialty Codes/Descriptions	Counties Served	Distance	Provider to Member Ratio	Appointment Wait Time(s)	Drive Time
Adult & Pediatric	095 – Nurse Practitioner/Nurse Midwife 212 – Nurse Midwife 316 – Family Practice 318 – General Practice 328 – OB/Gynecologists 350 – Licensed Midwife	Brown Dane Kenosha Milwaukee Racine Ozaukee Washington Waukesha	<p>The HMO must have an OB/GYN provider within 20 miles of any member residing in these counties.</p> <p>At least one OB/GYN provider must be in each HMO certified county must be in each HMO certified county, unless there is no such provider in the county. In that case, the travel distance shall be no more than for a non-enrolled member.</p>	No standard	<p>Wait times for an appointment shall be no more than 30 days.</p> <p>High Risk Prenatal Care Services The HMO must provide medically necessary high risk prenatal care within two weeks of the member's request for an appointment, or within three weeks if the request is for a specific HMO provider, who is accepting new patients.</p> <p>Family Planning Services The HMO must ensure its network includes sufficient family planning providers to ensure timely access to covered services.</p>	An OB/GYN provider must be within a 30 minute drive time of any member residing in these counties.
		All other remaining counties	<p>The HMO must have an OB/GYN provider within 30 miles of any member residing in all other counties.</p> <p>At least one OB/GYN provider must be in each HMO certified county must be in each HMO certified county, unless there is no such provider in the county. In that case, the travel distance shall be no more than for a non-enrolled member.</p>			An OB/GYN provider must be within a 60 minute drive time of any member residing in all other counties.

4. Hospitals

The HMO must include a sufficient supply of non-specialized hospitals in its network so that the following requirements are met:

Hospitals

Population	Provider Specialty Codes/Descriptions	Counties Served	Distance	Provider to Member Ratio	Appointment Wait Time(s)	Drive Time
Adult & Pediatric	010 – Inpatient/Outpatient Hospital	Brown Dane Kenosha Milwaukee Racine Ozaukee Washington Waukesha	<p>The HMO must have a hospital within 20 miles of any member residing in these counties.</p> <p>At least one hospital must be in each HMO certified county, unless there is no hospital in the county. In that case, the travel distance shall be no more than for a non-enrolled member.</p>	No standard	No standard	A hospital must be within a 30 minute drive time of any member residing in these counties.
		All other remaining counties	<p>The HMO must have a hospital within 35 miles of any member residing in all other counties.</p> <p>At least one hospital must be in each HMO certified county, unless there is no hospital in the county. In that case, the travel distance shall be no more than for a non-enrolled member.</p>			A hospital must be within a 60 minute drive time of any member residing in all other counties.

As it applies to this requirement, the Department defines a hospital specializing in Pediatrics as a non-specialized hospital. In all other instances, the Department defines a non-specialized hospital as one which is not exclusive to a single category of service or specialty including, but not limited to, behavioral health, cardiology or orthopedics.

5. Urgent Care Centers or Walk-in Clinics

The HMO must have policies and procedures to provide members access to urgent care centers or walk-in clinics. The HMO must include in its network urgent care centers, walk-in clinics, or other medical facilities that are available to members for after-hours care from 5 p.m. to 7 p.m. during weekdays or open to members during weekends. A hospital emergency department may not serve to meet this requirement.

All urgent care centers, walk-in clinics, and physician office open extended hours must accept and advertise that walk-in appointments are accepted. HMOs are encouraged to contract with urgent care providers that meet these criteria:

- a. X-ray on site.
- b. Phlebotomy services on site.
- c. Appropriately licensed providers on site with the resources to obtain and read an EKG and X-ray on site; administer PC, IM and IV medication/fluids on site; and perform minor procedures (ex. sutures, splinting) on site.
- d. Have the following equipment and staff trained in its use:
 - Automated external defibrillator (AED)
 - Oxygen, ambu-bag/oral airway
- e. At least two exam rooms.

The HMO must have a process to communicate urgent care access information to members via the Provider Directory (either mailed or online) and submit the urgent care and walk-in clinics list to the Department in the provider and facility files.

Urgent Care Centers

Population	Provider Specialty Codes/Descriptions	Counties Served	Distance	Provider to Member Ratio	Appointment Wait Time(s)	Drive Time
Adult & Pediatric	No provider specialty code	Brown Dane Kenosha Milwaukee Racine Ozaukee Washington Waukesha	<p>The HMO must have an urgent care center within 20 miles of any member residing in these counties.</p> <p>At least one urgent care center with extended hours available must be in each HMO certified county, unless there is no urgent care center with extended hours in the county. In that case, the travel distance shall be no more than for a non-enrolled member.</p> <p>In the event where there are no urgent care centers with extended hours in the county, DHS will also consider telehealth services if the HMO can provide evidence that e-prescribing, diagnosis, and referral services are being provided. .</p>	No standard	No standard	An urgent care center must be within a 30 minute drive time of any member residing in these counties.
		All other remaining counties	<p>The HMO must have an urgent care center within 35 miles of any member residing in all remaining counties.</p> <p>At least one urgent care center with extended hours available must be in each HMO certified county, unless there is no urgent care center with extended hours in the county. In that case, the travel distance shall be no more than for a non-enrolled member.</p> <p>In the event where there are no urgent care centers with extended hours in the county, DHS will also consider telehealth services if the HMO can</p>			An urgent care center must be within a 60 minute drive time of any member residing in all other counties.

			provide evidence that e-prescribing, diagnosis, and referral services are being provided.

6. Dental Provider Network Adequacy Standards

Dental Providers

Population	Provider Specialty Codes/Descriptions	Counties Served	Distance	Provider to Member Ratio	Appointment Wait Time	Drive Time
Adult	271 – General Dentistry Practitioner 289 – Dental Hygienist	Kenosha Milwaukee Racine	For HMOs serving BadgerCare Plus and Medicaid SSI members in regions 5 and 6, dental service coverage is required.	1:1600	No more than 90 days for a routine dental appointment.	A dental provider must be within a 30 minute drive time of any member residing in the county.
Pediatric	271 – General Dentistry Practitioner 274 – Pediatric Dentist 289 – Dental Hygienist	Ozaukee Washington Waukesha (Regions 5-6)	<p>The HMO must have a dental provider within a 25 mile distance of any member residing in the HMO service area.</p> <p>At least one dental provider must be in each HMO certified county, unless there is no Medicaid enrolled provider in that county. In that case, the travel distance shall be no more than for a non-enrolled member. The HMO must also consider whether the dentist accepts new patients, and whether full or part-time coverage is available.</p>		Treatment must be provided within 24 hours for dental emergencies per the policy outlined in Article IV, A.8 (b).	
Adult	271 – General Dentistry Practitioner 289 – Dental Hygienist	All other remaining counties	For the HMO that covers dental services in regions 1-4, a dental provider must be available within a 35 mile distance of any member residing in the HMO service area.	No standard	If the HMO provides dental in these regions, no more than 90 days for a routine dental appointment.	A dental provider must be within a 60 minute drive time of any member residing in the county.
Pediatric	271 – General Dentistry Practitioner 274 – Pediatric Dentist 289 – Dental Hygienist	(Regions 1-4)	<p>At least one dental provider must be in each HMO certified county, unless there is no Medicaid enrolled provider in that county. In that case, the travel distance shall be no more than for a non-enrolled member. The HMO must also consider whether the dentist accepts new patients, and whether full or part-time coverage is available.</p>		Treatment must be provided within 24 hours for dental emergencies per the policy outlined in Article IV, A.8 (a).	

7. HMO Referrals to Out-of-Network Providers for Services

The HMO must provide adequate and timely coverage of services provided out-of-network, when the required medical service is not available within the HMO network. The HMO must coordinate with out-of-network providers with respect to payment and ensure that cost to the member is no greater than it would be if the services were furnished within the network [42 CFR 438.206(b)(v)(5) and S.S.A 1932(b)(2)(D)].

The HMO must use processes, strategies, evidentiary standards, or other factors in determining access to out-of-network providers for mental health or substance abuse disorder benefits that are comparable to, and applied no more stringently than, the process, strategies, evidentiary standards, or other factors in determining access to out-of-network providers for medical benefits in the same classification.

Emergency services provided out-of-network must also not have a cost to the member greater than if the emergency services were provided in-network. The HMO must reimburse for emergency services provided to members in Canada or Mexico; however, payment for such services must be made to a financial institution or entity located within the United States. No claims to any person or entity outside of the U.S. (including, but not limited to, a network provider, out-of-network provider, subcontractor or financial institution) U.S. will be considered in the development of actuarially sound capitation rates. Non-emergency services in Canada or Mexico may be covered by the HMO per the HMO's prior authorization policies, provided the financial institution receiving payment is located within the United States.

8. Second Medical Opinions

The HMO must have written policies for procedures guaranteeing each member's right to receive information on available treatment options and alternatives, presented in a manner appropriate to the member's condition and ability to understand for providing members the opportunity to have a second opinion from a qualified network provider subject to referral procedures approved by the Department. If an appropriately qualified provider is not available within the network, the HMO must authorize and reimburse for a second opinion outside the network at no charge to the member, excluding allowable copayments.

9. Access to Indian Health Providers

For Indian members enrolled in the HMO, the HMO must ensure access to an Indian Health Care Provider (IHCP), when available. Pursuant to 42 CFR § 438.14(b)(1), the HMO must have sufficient IHCPs participating in its provider network to ensure

timely access to services available under the contract from such providers for Indians members.

Indian members of the HMO are allowed to receive primary care services from an IHCP provider, as long as such provider agrees to serve in the HMO network as a PCP and has capacity for additional patients. If no such provider is contracted, the HMO must allow the member to see the IHCP out-of-network as defined in 42 CFR § 438.14(b)(4). If an Indian member receives services through an out-of-network IHCP, the HMO must allow the out-of-network IHCP to refer the Indian member to a provider within the HMO network for additional care.

If timely access to an IHCP cannot be ensured, the HMO may allow Indian members to access out-of-state IHCPs or the member may choose to disenroll from the HMO per the process outlined in Art. III, section C.

The HMO must pay all IHCPs, whether participating in the network or not, at a minimum, the full Medicaid fee-for-service payment rate for provision of services or items to Indian members. The HMO must make payments to all IHCPs in its network in a timely manner as required for payments to practitioners in individual or group practices under 42 CFR § 447.45 and § 447.46.

Indian members are exempt from payment of fees, copayments, or premiums for services provided by an IHCP.

Indian members can be identified through the following:

- a. ForwardHealth medical status code
- b. Letter from Indian Health Services identifying the individual as a tribal member
- c. Tribal enrollment/membership card
- d. Written verification or a document issued by the Tribe indicating tribal affiliation
- e. Certificate of degree of Indian blood issued by the Bureau of Indian Affairs
- f. A Tribal census document
- g. A medical record card or similar documentation that is issued by an Indian health care provider that specifies an individual is an Indian, or
- h. A statement of Tribal Affiliation (F-00685).

10. Telehealth Services

HMOs must develop policies and procedures for internal monitoring and telehealth utilization. HMOs will submit these policies and any applicable monitoring information to the Department as requested. Telehealth services will be considered during the annual network adequacy review only secondary to physical provider location requirement.

F. Network Adequacy Requirements

The HMO must ensure that its delivery network is sufficient to provide adequate access to all services covered under this Contract. In establishing the network, the HMO must consider:

1. The anticipated BadgerCare Plus and/or Medicaid SSI enrollment.
2. The expected utilization of services, considering member characteristics and health care needs.
3. The number and types of providers (in terms of training experience and specialization) required to furnish the Contracted services.
4. The number of network providers not accepting new patients.
5. The geographic location of providers and members, distance, travel time, normal means of transportation used by members.
6. Whether network providers provide physical access, reasonable accommodations, and accessible equipment for Medicaid members with physical or mental disabilities.
7. Whether network providers have the ability to communicate with limited English proficient members in their preferred language.
8. As part of the certification application process to review network adequacy and access, each HMO will be required to document any use of telemedicine (beyond what is covered by ForwardHealth), e-visits, and/or other evolving and innovative technological solutions as part of its covered services, administrative infrastructure, and/or care management model.

The HMO must provide documentation and assurance of the above network adequacy criteria as required by the Department for pre-contract certification, annual provider network recertification, or upon request of the Department.

The HMO must submit its provider network and facility file electronically to the State's SFTP weekly and when there are significant service area changes. The file must be submitted in the format designated by the Department in the HMO Provider Network File Submission Specification Guide. The HMO must also notify the appropriate Managed Care Analyst of changes related to network adequacy. Changes that could affect network adequacy have been defined by the Department as changes in the HMO's operations that

would affect adequate capacity and services, including modifications to HMO benefits, geographic service areas, provider networks, payments, or enrollment of a new population into the HMO. (42 CFR § 438.207(c)(2)(i-ii))

The HMO must notify the Department of any geographical service area reductions 120 days before the intended decertification date unless DHS agrees to a shorter time period based on extraordinary circumstances beyond the control of the HMO. The HMO must submit a member communication/transition plan for all service area reductions.

G. Provider Network Adequacy Standard Exceptions and Conditional Approvals

1. Exceptions Process

Occasionally, HMOs are certified or request to expand in a county with limited numbers of providers that may lead to gaps in the standards described in Article V, E. In these instances, the HMO may be granted an exception to the network adequacy standard, at the Department's discretion. The HMO must provide documentation and justification for an adequate network, despite network adequacy deficiencies.

2. Conditional Provider Network Approval

If the Department's annual network adequacy review of currently certified counties identifies deficiencies per the standards articulated in Article V, E, the HMO may be placed on a conditional provider network approval. It is the Department's expectation that the HMO will work to address the access issue. The Department will review conditional provider network approvals every six months to ensure adequate access to services for BadgerCare Plus and Medicaid SSI members. The Department has the authority to place the HMO on a corrective action plan or to decertify the HMO in the county if deficiencies persist.

H. Online Provider Directory

The HMO must post a provider directory on their website for members, network providers, and the Department to access. The file must be updated at least monthly with hard copies available upon request from a member. The file must include the following information:

1. Provider full name and phone number
2. Provider gender
3. Clinic or facility address
4. Clinic or facility website (if available)
5. Accommodations for members with disabilities
6. Specialty
7. Languages spoken, including American Sign Language, and
8. If they are accepting new patients.

ARTICLE VI: MARKETING AND MEMBER MATERIALS

HMOs are required to implement and enforce all of the requirements regarding member outreach and marketing processes, including Title 42 Code of Federal Regulations Part 438.10 and 42 CFR 438.104, as contained in the *Communication Outreach and Marketing Guide*, Dated January 1, 2020, which is fully incorporated herein by reference.

HMOs are required to implement and enforce all of the requirements regarding member outreach and marketing processes, including Title 42 Code of Federal Regulations Part 438.10 and 42 CFR 438.104, as contained in the *Communication Outreach and Marketing Guide*, Dated January 1, 2020.

ARTICLE VII: MEMBER RIGHTS AND RESPONSIBILITIES

The HMO must have written policies guaranteeing each member's rights, and share those written policies with staff and affiliated providers to be considered when providing services to members. The HMO must comply with any applicable Federal and State laws, including those identified in 42 CFR 438.100, that pertain to member rights. The HMO must have written restraint policies guaranteeing each member's right to be free from any form of restraint or seclusion used as a means of coercion, discipline, convenience or retaliation. As cited in 42 CFR 438.100, enrollees of HMOs have the following rights:

- Receive information in accordance with 42 CFR § 438.10.
- Be treated with respect and with due consideration for his or her dignity and privacy.
- Receive information on available treatment options and alternatives, presented in a manner appropriate to the enrollee's condition and ability to understand.
- Participate in decisions regarding his or her health care, including the right to refuse treatment.
- Be free from any form of restraint or seclusion used as a means of coercion, discipline, convenience or retaliation, as specified in other Federal regulations on the use of restraints and seclusion.
- If the privacy rule, as set forth in 45 CFR parts 160 and 164 subparts A and E, applies, request and receive a copy of his or her medical records, and request that they be amended or corrected, as specified in 45 CFR § 164.524 and § 164.526.
- Be furnished health care services in accordance with 42 CFR § 438.206 through § 438.210.
- Be free to exercise his or her rights, and that the exercise of those rights does not adversely affect the way the HMO and its network providers treat the enrollee.

A. Advocate Requirements

The HMO must employ a BadgerCare Plus and/or Medicaid SSI HMO Advocate(s) during the entire contract term. The HMO Advocate(s) must work with both members and providers to facilitate the provision of benefits to members. The advocate is responsible for making recommendations to management on any changes needed to improve either the care provided or the way care is delivered. The advocate position must be in an organizational location within the HMO that provides the authority needed to carry out these tasks. The detailed requirements of the HMO Advocate are listed below:

1. Functions of the BadgerCare Plus and/or Medicaid SSI HMO Advocate(s)

- a. Investigate and resolve access and cultural sensitivity issues identified by HMO staff, State staff, providers, advocate organizations, and members.
- b. Monitor grievances and appeals, along with the grievance and appeal personnel, for the purposes of identification of trends or specific problem areas of access and care delivery. The monitoring function includes ongoing participation in the HMO grievance and appeal committee.
- c. Attempt to resolve grievances and appeals without formal hearings or reviews whenever possible. Resolution of issues and concerns should happen through internal review, negotiation, or mediation, when possible.
- d. Recommend policy and procedural changes to HMO management including those needed to ensure and/or improve member access to and quality of care. The recommended changes can be for both internal administrative policies and subcontracted providers.
- e. Act as the primary contact for member advocacy groups. Work with member advocacy groups on an ongoing basis to identify and correct member access barriers.
- f. Act as the primary contact for local community based organizations (local governmental units, non-profit agencies, etc.). Work with local community based organizations on an ongoing basis to acquire knowledge and insight regarding the special health care needs of members.
- g. Participate in working with DMS Managed Care staff assigned to the HMO on issues of access to medical care, quality of medical care, and working with the enrollment specialist, ombudsmen, and the Department's approved external advocate on issues of access to medical care, quality of medical care, and enrollment and disenrollment.
- h. Analyze on an ongoing basis internal HMO system functions that affect member access to medical care and quality of medical care.
 - i. Attend, organize and provide ongoing training and educational materials for the HMO staff and providers to enhance their understanding of the values and practices of all cultures with which the HMO interacts.
 - j. Provide ongoing input to HMO management on how changes in the HMO provider network will affect member access to medical care and member quality and continuity of care. Initiate and participate in the development

and coordination of plans to minimize any potential problems that could be caused by provider network changes.

- k. Review and approve the HMO's informing materials to be distributed to members to assess clarity and accuracy.
- l. Assist members and their authorized representatives for the purpose of obtaining their medical records.
- m. The lead advocate position is responsible for overall evaluation of the HMO's internal advocacy plan and is required to monitor any contracts the HMO may enter into for external advocacy with culturally diverse associations or agencies. The lead advocate is responsible for training the associations or agencies and ensuring their input into the HMO's advocacy plan.
- n. Be willing to travel, as needed, to be accessible to meet the needs of members in different areas of the state.

Upon request from the Department, the HMO must provide evidence of compliance with the job duties mentioned above, such as proof of complaint investigations and participation in cultural competency training.

2. Staff Requirements and Authority of the BadgerCare Plus and/or Medicaid SSI HMO Advocate

At a minimum, the HMO must have one HMO Advocate for BadgerCare Plus and at least two for Medicaid SSI depending on HMO certification. The advocate(s) must be located in the organizational structure so that they have the authority to perform the functions and duties listed in Section A, 1, a-n above.

The HMO certification application requires the HMO to state the staffing levels to perform the functions and duties listed in Subsection A, 1, a-n above in terms of number of full and part time staff and total full time equivalents (FTEs) assigned to these tasks. The Department assumes that an HMO acting as an Administrative Service Organization (ASO) for another HMO will have at least one advocate or FTE position for each ASO contract as well as maintain their own internal advocate(s). The HMO must consider and monitor current enrollment levels when evaluating the number of advocates necessary to meet the needs of members. The HMO may employ less than the required FTE advocate position(s), but must justify to the satisfaction of the Department why less than one FTE position(s) will suffice for the HMO's member population. The HMO must also regularly

evaluate the advocate position(s), work plan(s), and job duties and allocate an additional FTE advocate position or positions to meet the duties listed in Subsection A, 1, a-n above if there is significant increase in the HMO's member population or in the HMO service area. The Department reserves the right to require the HMO to employ an FTE advocate position if the HMO does not demonstrate the adequacy of a part-time advocate position.

In order to meet the requirement for the advocate position statewide, the Department encourages the HMO to contract or have a formal memorandum of understanding for advocacy and/or translation services with associations or organizations that have culturally diverse populations within the HMO service area. However, the overall or lead responsibility for the advocate position must be within each HMO. The HMO must monitor the effectiveness of the associations and agencies under contract and may alter the Contract(s) with written notification to the Department.

The Medicaid SSI advocate must be knowledgeable and have experience working with people with disabilities and shall have adequate time to advocate for the target Medicaid SSI populations.

B. Advance Directives

The HMO must maintain written policies and procedures related to advance directives. (Written information provided must reflect changes in state law as soon as possible, but no later than 90 days after the effective date of the change.) An advance directive is a written instruction, such as a living will or durable power of attorney for health care, recognized under Wisconsin law (whether statutory or recognized by the courts of Wisconsin) and relating to the provision of such care when the individual is incapacitated. The HMO must:

1. Provide written information at the time of HMO enrollment to all adults receiving medical care through the HMO. Per 42 CFR § 438.3(j), if a member is incapacitated at the time of initial enrollment and is unable to receive information or articulate whether or not he or she has executed an advance directive, the HMO may give advance directive information to the member's family or authorized representative. The written information should be regarding:
 - a. The individual's rights under Wisconsin law (whether statutory or recognized by the courts of Wisconsin) to make decisions concerning such medical care, including the right to accept or refuse medical or surgical treatment and the right to formulate advance directives; and

- b. The individual's right to file a grievance with the Department of Health Services, Division of Quality Assurance, regarding noncompliance with advance directive requirements. If requested, assist the member in filing a grievance with the Division of Quality Assurance regarding noncompliance with advance directive requirements; and
 - c. The HMO's written policies respecting the implementation of such rights.
- 2. Per 42 CFR § 438.3(j), maintain written policies and procedures concerning advance directives which must, at a minimum, do the following:
 - a. Clarify any differences between any HMO conscientious objection and those that may be raised by individual physicians and identify the state legal authority permitting those objectives.
 - b. Describe the range of medical conditions or procedures affected by the conscience objection.
 - c. Document in the individual's medical record whether or not the individual has executed an advance directive.
 - d. Not discriminate in the provision of care or otherwise discriminate against an individual based on whether or not the individual has executed an advance directive. This provision shall not be construed as requiring the provision of care which conflicts with an advance directive.
 - e. Ensure compliance with the requirements of Wisconsin law (whether statutory or recognized by the courts of Wisconsin) respecting advance directives.
 - f. Provide education for staff and the community on issues concerning advance directives.
 - g. Providing staff training about HMO specific policies and procedures related to advance directives.

The above provisions shall not be construed to prohibit the application of any Wisconsin law which allows for an objection on the basis of conscience for any health care provider or any agent of such provider which as a matter of conscience cannot implement an advance directive.

C. Primary Care Provider Selection and Designation

Per 42 CFR § 438.208(b)(1), the HMO must ensure that every member has a primary care provider or a primary care clinic responsible for coordinating the services accessed by the member. The HMO must have a process in place to link each BadgerCare Plus and Medicaid SSI member with a primary care provider, a primary care clinic, or a specialist when appropriate based on the preferences and health care needs of the member. The process shall include a defined method to notify the member of their primary care provider and how to contact the provider. The HMO shall allow members an initial choice of primary care provider or primary care clinic prior to designation.

1. HMO primary care provider or primary care clinic selection and designation strategy

The strategy the HMO uses to link members to a primary care provider or primary care clinic must take into account the preferences and health care needs of the member. In particular, for those members with chronic conditions including but not limited to those listed below, HMOs are to take additional steps to ensure these members are linked to a primary care provider or primary care clinic that can appropriately address their condition, as well as ensure the member receives coordinated care to help manage the condition. Depending on the condition, the primary care provider may be a specialist. The specific chronic conditions include, but are not limited to:

- a. Diabetes
- b. Asthma
- c. COPD
- d. Congestive heart failure
- e. Behavioral health
- f. Prenatal and post-partum care

HMOs must ensure members are linked to a primary care provider or primary care clinic that provides culturally appropriate care. Specifically, the provider must be able to relate to the member and provide care with sensitivity, understanding, and respect for the member's culture.

As part of the primary care provider or primary care clinic selection and designation strategy, HMOs must include the following:

- a. A process for linking all members to an appropriate primary care provider or primary care clinic (or specialist for members identified with chronic conditions), including a step in which members are given the opportunity to choose their PCP. HMOs shall ensure care is coordinated between the primary care provider, primary care clinic and/or specialists, which includes the development of a patient-centered and comprehensive treatment plan.

- b. Communication methods that notify members of their primary care provider, primary care clinic or specialist to ensure the member utilizes primary care and encourages members to keep their scheduled appointments.
- c. The HMO will evaluate the effectiveness of their primary care provider selection and designation strategy to ensure quality of care.

2. Changing and lock-in PCP Selection

The HMO must permit members to change primary providers at least twice in any year, and to change primary care providers more often than that for just cause. Just cause includes a lack of access to quality, culturally appropriate health care. The HMO must treat a request for change in primary care provider due to just cause as a grievance, and adhere to the notification and timeframe requirements detailed in the *Member Grievances and Appeals Guide*.

3. Data sharing with PCP

The HMO must have a process to share information on members to their primary care provider on a regular basis. The information must include, but is not limited to, utilization data and prescription drug data such as from the pharmacy extract provided by the Department.

4. Rural area resident with only one HMO

- a. For a rural area resident with only one HMO, the HMO must notify the member of the member's ability to obtain services outside the network:
 - 1) From any other provider (in terms of training, experience and specialization) not available within the network.
 - 2) From a provider not part of the network who is the main source of a service to the member – provided that the provider is given the same opportunity to become a participating provider as other similar providers. If the provider does not choose to join the network or does not meet the qualifications, the member is given a choice of participating providers and is transitioned to a participating provider within 60 days.
- b. The member may also receive services outside of the network for the following reasons:

- 1) Because the only plan or provider available does not provide the service because of moral or religious objections.
- 2) Because the member's provider determines that the member needs related services that would subject the member to unnecessary risk if received separately and not all related services are available within the network.
- 3) The State determines the other circumstances warrant out-of-network treatment

The member has the right to request an appeal if they are denied their rights as detailed under this Subsection C, 4. The HMO must comply with the notice and timing requirements detailed in the *Member Grievances and Appeals Guide*.

D. Member Appointment Compliance

The HMO must have a strategy in place to reduce the number of members who do not show up for scheduled appointments. This strategy must include outreach and education components for both members and providers. DHS may request additional information from HMOs on member appointment compliance during the contract period.

E. Choice of Network Provider

The HMO must offer each member covered under this Contract the opportunity to choose a primary care provider affiliated with the HMO, to the extent possible and appropriate. If the HMO designates a PCP to members, then the HMO must notify members of the designation. If the HMO has reason to lock in a member to one primary provider in cases of difficult case management, the HMO must submit a written request in advance of such lock-in to the HMO's managed care analyst. Culturally appropriate care in this section means care by a provider who can relate to the member and who can provide care with sensitivity, understanding, and respect for the member's culture.

F. Coordination and Continuation of Care

The HMO must have a system in place to ensure well-managed patient care, including at a minimum:

1. Management and integration of health care through primary provider/gatekeeper/other means.

2. Systems to ensure referrals for medically necessary, specialty, secondary and tertiary care.
3. Systems to ensure provision of care in emergency situations, including an education process to ensure that members know where and how to obtain medically necessary care in emergency situations.
4. Systems that clearly specify referral requirements to providers and subcontractors. The HMO must keep copies of referrals (approved and denied) in a central file or the patient's medical records.
5. Systems to ensure the provision of a clinical determination of the medical necessity and appropriateness of the member to continue with mental health and substance abuse providers who are not subcontracted with the HMO. The determination must be made within 10 business days of the member's request. If the HMO determines that the member does not need to continue with the non-contracted provider, it must ensure an orderly transition of care.
6. Per Art. III (A)(4), coordinate the services the HMO provides to the member:
 - a. Between settings of care, including appropriate discharge planning for hospital or institutional stays.
 - b. With services provided by another HMO.
 - c. With services a member receives through Medicaid Fee-for-Service.
 - d. With services a member receives through community and social support providers.
7. Share with other HMOs (which may include Medicare or commercial plans, or members transitioning to a new BadgerCare Plus or Medicaid HMO) serving the member the results of its identification and assessment of any member with special health care needs (see Art. I for definition of special health care needs) so that those activities need not be duplicated as described in 42 CFR § 438.208(b)(4).
8. The HMO must ensure that the care of new members is not disrupted or interrupted. Per 42 CFR § 438.62(a), the HMO must ensure continuity of care for members receiving health care under FFS prior to their enrollment in the HMO, and for newly enrolled members switching HMO enrollment. The HMO must:
 - a. Ensure members receive continued access to previous services when the absence of continued services would pose serious health or hospitalization risks per 42 CFR § 438.62 (b).
 - b. Provide continued access to services consistent with previous access levels.

- 1) Authorize coverage of state plan approved services with the member's current providers for the first 90 days of enrollment.
 - 2) Authorize approved prior authorizations at the utilization level previously authorized for 90 days. Exceptions to the 90 day requirement will be allowed in situations where the member agrees to change providers, the member agrees to a lower level of care, or if the HMO can document that continuing the care would result in abuse, safety or quality concerns. This does not extend authorizations beyond the time or visits previously approved.
 - 3) The 90 day continued access requirement only applies to services and authorizations covered under the state plan. In-lieu of services and authorizations are exempt.
- c. The HMO must have a detailed automated system for collecting all information on member contacts by care coordinators, case managers and any other staff that has a direct impact on the member's access to services.
 - d. The HMO shall assist members who wish to receive care through another HMO or return to the FFS system by making appropriate referrals and by assisting in the transfer of medical records to new providers.

G. Culturally and Linguistically Appropriate Services (CLAS) Standards

1. Mission, vision, and goals

It is DHS' vision that all members who receive health care in Wisconsin will routinely and systematically receive respectful, culturally competent and confidential services. Such services will be those that are known to be critical in promoting health equity and reducing health disparities as advocated for in the Institute of Medicine Report (2002) and enhanced in the Affordable Care Act (2010). The Division of Medicaid Services is working to include cultural competence strategies and goals in major projects and in the daily activities of the Division.

2. National Culturally and Linguistically Appropriate Services (CLAS) Standards

The National CLAS Standards are intended to advance health equity, improve quality, and help eliminate health care disparities by establishing a blueprint for health and health care organizations to implement culturally and linguistically appropriate services. The National CLAS Standards include:

- a. Principal Standard
 - 1) Provide effective, equitable, understandable, and respectful quality care and services that are responsive to diverse cultural health beliefs and practices, preferred languages, health literacy, and other communication needs.
- b. Governance, Leadership and Workforce
 - 1) Advance and sustain organizational governance and leadership that promotes CLAS and health equity through policy, practices, and allocated resources.
 - 2) Recruit, promote, and support a culturally and linguistically diverse governance, leadership, and workforce that are responsive to the population in the service area.
 - 3) Educate and train governance, leadership, and workforce in culturally and linguistically appropriate policies and practices on an ongoing basis.
- c. Communication and Language Assistance
 - 1) Offer language assistance to individuals who have limited English proficiency and/or other communication needs, at no cost to them, to facilitate timely access to all health care and services.
 - 2) Inform all individuals of the availability of language assistance services clearly and in their preferred language, verbally and in writing.
 - 3) Ensure the competence of individuals providing language assistance, recognizing that the use of untrained individuals and/or minors as interpreters should be avoided.
 - 4) Provide easy-to-understand print and multimedia and signage in the languages commonly used by the populations in the service area.
- d. Engagement, Continuous Improvement, and Accountability
 - 1) Establish culturally and linguistically appropriate goals, policies, and management accountability, and infuse them throughout the organization's planning and operations.
 - 2) Conduct ongoing assessments of the organization's CLAS-related activities and integrate CLAS-related measures into measurement and continuous quality improvement activities.

- 3) Collect and maintain accurate and reliable demographic data to monitor and evaluate the impact of CLAS on health equity and outcomes and to inform service delivery.
 - 4) Conduct regular assessments of community health assets and needs and use the results to plan and implement services that respond to the cultural and linguistic diversity of populations in the service area.
 - 5) Partner with the community to design, implement, and evaluate policies, practices, and services to ensure cultural and linguistic appropriateness.
 - 6) Create conflict and grievance resolution processes that are culturally and linguistically appropriate to identify, prevent, and resolve conflicts or complaints.
 - 7) Communicate the organization's progress in implementing and sustaining CLAS to all stakeholders, constituents, and the general public.
3. In support of DMS's efforts to promote the delivery of services in a culturally appropriate manner to all members, the HMO must incorporate the National CLAS standards into organizational practices and the delivery of services with a particular focus on care management services for BadgerCare Plus and Medicaid SSI members. As part of HMO certification and recertification, the HMO must:
- a. Develop and submit policies and procedures demonstrating how all National CLAS standards have been incorporated into organizational practices and delivery of services as part of certification.
 - b. Describe and submit CLAS-related self-assessments and/or trainings, implementation plan(s), and evaluation plan(s) the HMO has previously done or plans to complete in the upcoming calendar year at an organizational level.
 - c. This should include evaluation of CLAS implementation's impact on outcomes and improvement plans based on members' feedback.
- 4.
- HMOs are required to conduct Performance Improvement Project (PIP) to measure and improve disparities in designated topics as defined in Article X, section J.2 of this contract and the annual HMO Quality Guide. The projects include components to improve member access to culturally and linguistically appropriate services.
- .

5. The HMO must address the special health needs of members who are low income or members of population groups needing specific culturally and linguistically appropriate services. The HMO must incorporate in its policies, administration and service practice elements such as:
 - a. Recognizing members' beliefs,
 - b. Screening members for social risk factors and/or health related social needs,
 - c. Partnering with community based organizations to address members' unmet health related social needs
 - d. Addressing cultural and linguistic differences in a responsive manner, and
 - e. Fostering in its staff and providers behaviors that effectively address interpersonal communication styles that respect members' cultural backgrounds.
 - f. Permitting members to change provider's based on the provider's ability to provide culturally and linguistically appropriate services.
 - g. Requiring culturally and linguistically appropriate grievance and appeal protocols.

The HMO must evaluate the effectiveness of how it has incorporated the above elements in policies, administration, and services practices, including member feedback. If the HMO has identified areas of process or policy that have not proven to be effective, the HMO must describe how it will revise the approach.

The HMO must have specific policy statements on these topics and communicate them to subcontractors as well as provide a strategic plan upon request by the Department. In its strategic plan, the HMO should include its plan for ongoing provider education for providers within the HMO's network, HR processes for onboarding and retaining staff within its organization.

The HMO must encourage and foster CLAS Standards among providers and increase diversity in the HMO's network to respond appropriately to member's linguistic and cultural needs. When appropriate the HMO must permit members to choose providers from among the HMO's network based on linguistic and/or cultural needs. The HMO must permit members to change primary care providers based on the provider's ability to provide services in a culturally and linguistically responsive manner. HMOs must have a member informing materials that explain how a member may submit grievances to the HMO and/or the Department regarding their inability to obtain culturally and linguistically appropriate services and responsive care. Consequently, the Department may, pursuant to such a grievance, permit a member to disenroll from that HMO and enroll into another HMO, or into FFS in a county where HMOs do not enroll all BadgerCare Plus or Medicaid SSI eligible members.

H. Health Education and Disease Prevention

The HMO must inform all members of ways they can maintain their own health and properly use health care services.

The HMO must have a health education and disease prevention program that is readily accessible to its members. The program must be offered within the normal course of office visits, as well as by discrete programming. The programming must include:

1. An individual responsible for the coordination and delivery of services.
2. Information on how to obtain these services (locations, hours, telephone numbers, etc.).
3. Health-related education materials in the form of printed, audiovisual and/or personal communication.

Health-related educational materials produced by the HMO must be at a sixth grade reading comprehension level and reflect sensitivity to the diverse cultures served. Also, if the HMO uses material produced by other entities, the HMO must review these materials for grade level comprehension and sensitivity to the diverse cultures served. Finally, the HMO must make all reasonable efforts to locate and use culturally appropriate health-related material.

4. Information on recommended checkups and screenings, and prevention and management of disease states that affect the general population. This includes specific information for persons who have or who are at risk of developing such health problems as hypertension, diabetes, STD, asthma, breast and cervical cancer, osteoporosis and postpartum depression.
5. Health education and disease prevention programs, including injury control, family planning, teen pregnancy, sexually transmitted disease prevention, prenatal care, nutrition, childhood immunization, substance abuse prevention, child abuse prevention, parenting skills, stress control, postpartum depression, exercise, smoking cessation, weight gain and healthy birth, postpartum weight loss, and breast feeding promotion and support. (Note: Any education and prevention programs for family planning and substance abuse would supplement the required family planning and substance abuse health care services covered by BadgerCare Plus and/or Medicaid SSI.)
6. The HMO should offer a discrete substance abuse screening and prevention program for members at risk of substance abuse disorder. Wisconsin Medicaid and

BadgerCare Plus covers a screening, brief intervention, and referral to treatment benefit (SBIRT) for all members (see ForwardHealth online handbook, Topic #8297) and a similar benefit for pregnant women (see Topic #4442).

7. Promotion of the health education and disease prevention programs, including use of languages understood by the population served, and use of facilities accessible to the population served.
8. Information on and promotion of other available prevention services offered outside of the HMO, including child nutrition programs, parenting classes, programs offered by local health departments and other programs.
9. Systematic referrals of potentially eligible women, infants, and children to the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) and relevant medical information to the WIC program. More information about the WIC program as well as list of the local WIC agencies can be found on the WIC website (<http://www.dhs.wi.gov/wic/>).

ARTICLE VIII: PROVIDER APPEALS

Providers, who have attempted unsuccessfully to resolve payment disputes directly with the HMO through the HMO's established appeal process, may choose to pursue resolution directly with the Department through the provider appeal process. The provider has 60 calendar days from the HMO's final appeal decision to submit all required information pertaining to the case(s) in question. If, based on the preliminary information provided by the provider, the Department determines that there is insufficient evidence to overturn the original denial, the Department will not pursue additional contact with the HMO or the provider and uphold the denial. If, however, the Department determines that the provider's appeal necessitates further review, it will seek rebuttal from the HMO.

The Department may send an official Request for Additional Information notice, as appropriate, to the HMO or the provider. The Additional Information notice and requested documents must be returned to the Department, within 14 calendar days (unless 21 calendar days is granted by DHS due to volume of appeals), via US mail, fax or electronically if sent over a secure network. If the HMO fails to submit the requested information by the date required by the Department, the Department will overturn the original denial and compel the HMO to pay the claim. The Department will uphold the original denial if the provider fails to provide the requested information as outlined in the BadgerCare Plus Handbook.

The Department has 45 days from the date of receipt of all written comments to inform the provider and the HMO of the final decision. If the Department's decision is in favor of the provider, the HMO will pay provider(s) within 45 days of receipt of the Department's final determination. The HMO and the provider must accept the Department's final decision regarding appeals of disputed claims. A reconsideration of a final decision will only be made if an error has been made or there was a misrepresentation of facts. The Department will review the appeal documents and make a Final Decision based on the contract (both the DHS-HMO contract and the HMO-provider contract, if submitted, will be used to make the decision). The Department does not adjudicate appeals for clinical level of care (e.g. observation vs. inpatient) provided to the member, nor does the Department review the results of contractually agreed upon HMO reviews of claims or medical records. As these actions are a contractual requirement, the HMO review decisions are not appealable to DHS.

The following items outline the various responsibilities of the HMO and the provider when an appeal is made to the Department:

A. HMO Responsibility

1. The HMO must have adequate staff available to train and support providers on resources available in order to prevent claim processing issues and denials. Refer to Article XI, C.7.

- a. The HMO must provide information to network providers of any HMO-facilitated training opportunities which may reduce denied claims and provider appeals.
 - b. Ensure that providers know, understand and comply with all business standards regarding completion and submission of accurate, correct and timely claims. This includes correct coding and maintenance of medical record.
 - c. Grant providers access to all online technology and communication offered by the HMO (i.e. not limited to claim and appeal submission, policy resources, HMO website). Electronic notification from the HMO constitutes receipt of information or claim action; it is not necessary to wait for paper notification of claim action.
 - d. Encourage providers to access and use the ForwardHealth Portal, including online Handbooks and Provider Updates.
2. The HMO must perform ongoing monitoring of provider appeal numbers and perform provider outreach and education/training on trends to prevent future denials/partial payments, thus reducing future provider appeals to the HMO and to the Department.
3. The HMO must inform providers and subcontractors, in writing at the time they enter into a contract, of the toll-free number for members to file appeals as well as the provider's and subcontractor's right to appeal a denied/reduced payment or payment recoupment.
4. HMOs must provide a clear process for claim dispute escalation which must include the below elements in their contract or MOU with providers, in their provider manual, on the HMO website, or through written notification for non-contracted providers. In cases of denial of payment, written (or HIPAA 835 transaction) notification must occur on the date the payment was denied.
 - a. Language distinguishing "resubmission of a claim" or, "reconsideration of a claim" and "appeal of a claim" as defined in Article I with a clear indication of level of action being taken. A "resubmission of a claim" or "reconsideration of a claim" is not a formal appeal.
 - b. Each page of the payment remittance document must include the date the denial action was taken and specific explanation of the payment amount or a specific reason for nonpayment.
 - c. A statement regarding the provider's rights to appeal to the HMO, including the timeline.

- d. The name of the person and/or function at the HMO to whom the provider appeal should be submitted
 - e. The appeal response must clearly state why the claim will not be paid, and include all contract language that supports the denial/recoupment of payment.
5. The HMO must adhere to the following timelines:
- a. The HMO must accept written appeals, including appeals submitted via HMO automated programming from providers submitted, at minimum, within 60 calendar days of the HMO's initial payment and/or nonpayment notice, or notice of recoupment. In exceptional cases, the Department may override the HMO's time limit for submission of claims and appeals. The Department will not exercise its authority in this regard unreasonably.
 - b. The HMO must respond in writing within 45 calendar days from the receipt of the appeal letter. If the HMO fails to respond within 45 calendar days, or if the provider is not satisfied with the HMO's response, the provider may seek a final determination from the Department.
 - c. The HMO must provide an explanation of the process the provider should follow to appeal the HMO's decision to the HMO once all claim reconsideration action has been exhausted, which includes the following steps:
 - 1) Submit a completed HMO designated Appeal form or a separate letter clearly marked "appeal". The HMO Appeal form must include a date field to indicate the date the appeal was submitted.
 - 2) Include the provider's name, date of service, date of billing, date of payment and/or nonpayment, member's name and BadgerCare Plus and/or Medicaid SSI ID number.
 - d. Clearly state the reason(s) the claim is being appealed, including all documentation necessary to support the reason.
 - e. Clearly indicate if medical records are required and need to be submitted with the appeal.
 - f. Address the letter or form to the person and/or function at the HMO that handles provider appeals.
 - g. Send the appeal to the HMO by the contracted timely filing deadline, or at minimum, within 60 calendar days of the initial denial or payment notice.

- h. The HMO must provide a statement advising the provider of their right to appeal to the Department if the provider is not satisfied with the HMO's decision on the appeal or the HMO fails to respond to the appeal within 45 calendar days from the date of the receipt of the appeal.
- 6. The HMO must submit to the Department, on a quarterly basis, a provider appeal log and data summary containing the following:
 - a. Name of the provider
 - b. Type of service;
 - c. Date of services;
 - d. Amount of claim;
 - e. Date claim was denied;
 - f. Date of receipt of the appeal;
 - g. Date of the Decision;
 - h. Appeal decision by the MCO;
 - i. Reason for the decision;
 - j. Total number of appeals denied for the reporting period;
 - k. Total number of appeals upheld for the reporting period;
 - l. Total number of appeals received year start to date of report;
 - m. Percent of appeals denied year start to date of report as percent of total appeals received; and
 - n. Percent of appeals upheld year start to date of report as percent of total appeals received.

The provider appeal log and data summary must be submitted to the Department within 45 days of the end of each quarter.

B. Provider Responsibility

The HMO should educate providers of their responsibilities:

- 1. Receive access to and use the ForwardHealth Portal, including online handbooks and Provider Updates in order to understand and correctly bill a covered service.
- 2. Access online technology and communication/trainings offered by the HMO (i.e. not limited to claim and appeal submission, policy resources, HMO website). Electronic notification from the HMO constitutes receipt of information or claim action; it is not necessary to wait for paper notification of claim action.
- 3. Understand and comply with all business standards regarding completion and submission

of accurate, correct and timely claims. This includes correct coding, maintenance of medical record and correct coordination with other insurance plans.

4. To reserve the right to appeal to the Department, the BadgerCare Plus and Medicaid SSI provider must exhaust all appeal rights with the HMO if they disagree with the HMO's appeal response. Failure to follow the provider appeal process with the HMO will result in the appeal denial being upheld.
5. Appeals to the Department must be submitted in writing within 60 calendar days of the date on the HMO's final decision notice or, in the case of no response, within 60 calendar days from the 45 calendar day timeline allotted the HMO to respond.
6. A decision to uphold the HMO's original payment denial or to overturn the denial will be made based on the documentation submitted for Departmental review. Failure to submit the required documentation or submitting incomplete/insufficient/illegible documentation will lead to an upholding of the original denial. The decision to overturn an HMO's denial must be clearly supported by the documentation submitted for review.
7. Providers may use the Department's form when submitting an appeal for State review. All elements of the form must be completed or listed in the letter if the form is not used. The form with instructions is available at the following website:
<https://www.dhs.wisconsin.gov/library/F-12022.htm>
8. Providers are required to submit legible copies of all of the following documentation, regardless of whether the Managed Care Program Provider Appeal form or their own appeal letter is used. Incomplete appeals will not receive Departmental review and the denial will be upheld. The appeal packet must contain:

- a. A copy of the original claim submitted to the HMO. If applicable, include a copy of all corrected claims submitted to the HMO.
- b. A copy of all of the HMO's payment denial remittance(s) showing the date(s) of denial and reason code with a description of the exact reason(s) for the claim denial.
- c. A copy of the provider's written appeal to the HMO.
- d. A copy of the HMO response to the appeal.
- e. A copy of the medical record for appeals regarding coding issues, or emergency determination. Providers should only send relevant medical documentation that supports the appeal. Large records submitted with no indication of where supporting information is found, will not be reviewed. Large documents should be submitted on a CD.
- f. A copy of any contract language that supports the appeal. If contract language is submitted, indicate the exact language that supports overturning the payment denial. Contract language submitted with no indication will not be reviewed and the appeal denial upheld. Contract language will be used to determine compliance.
- g. Any other documentation that supports the appeal (e.g., commercial insurance Explanation of Benefits/Explanation of Payment to support Wisconsin Medicaid as the payer of last resort).

Appeals to the Department can be faxed or mailed to:

BadgerCare Plus and Medicaid SSI
Managed Care Unit – Provider Appeal
P.O. Box 6470
Madison, WI 53716-0470
Fax Number: 608-224-6318

Providers should notify ForwardHealth if the HMO subsequently overturns their original denial and reprocesses and pays the claim for which an appeal has been submitted. Notification should be faxed to ForwardHealth at 608-224-6318. This documentation will be added to the original appeal documentation to complete the record and the appeal withdrawn.

Providers can also call Managed Care Unit at (800) 760-0001, option 1, to check on the status of a submitted appeal.

ARTICLE IX: MEMBER GRIEVANCES AND APPEALS

HMOs are required to implement and enforce all of the requirements regarding member grievance and appeals processes, including Title 42 Code of Federal Regulations Part 438 Subpart F, as contained in the *Member Grievances and Appeals Guide*, dated January 1, 2020, which is fully incorporated herein by reference.

ARTICLE X: QUALITY ASSESSMENT PERFORMANCE IMPROVEMENT (QAPI)

The HMO Quality Assessment Performance Improvement (QAPI) program must conform to the requirements of 42 CFR Part 438, Medicaid Managed Care Requirements, Subpart E, Quality Measurement and Improvement. At a minimum, the program must comply with 42 CFR § 438.330 (b) which states that the HMO must:

- Conduct performance improvement projects designed to achieve, through ongoing measurements and interventions, significant improvement, sustained over time in clinical care areas.
- Collect and submit performance measurement data.
- Have in effect mechanisms to detect both underutilization and overutilization of services.
- Have in effect mechanisms to assess the quality and appropriateness of care furnished to enrollees with special health care needs.

A. QAPI Program

The HMO must have a comprehensive QAPI program that protects, maintains and improves the quality of care provided to BadgerCare Plus and Medicaid SSI program members.

1. The HMO must evaluate the overall effectiveness of its QAPI program annually to determine whether the program has demonstrated improvement, where needed, in the quality of care and service provided to its BadgerCare Plus and Medicaid SSI population.
2. The HMO must document all aspects of the QAPI program and make it available to the Department for review upon request. The Department may perform off-site and on-site QAPI audits to ensure that the HMO is in compliance with contract requirements. The review and audit may include:
 - a. On-site visits;
 - b. Staff and member interviews;
 - c. Medical record reviews;
 - d. Review of all QAPI procedures, reports, committee activities, including credentialing and re-credentialing activities;
 - e. Corrective actions and follow-up plans;
 - f. Peer review process;
 - g. Review of the results of the member satisfactions surveys; and
 - h. Review of staff and provider qualifications.
3. The HMO must have a written QAPI work plan that is ratified by the board of directors and outlines the scope of activity and the goals, objectives, and time lines

for the QAPI program. New goals and objectives must be set at least annually based on findings from quality improvement activities and studies and results from member satisfaction surveys and performance measures. The QAPI work plan must include:

- a. Annual plan to meet its Pay-for-Performance (P4P) goals and submit NCQA audited P4P results to the Department on time;
 - b. Annual Performance Improvement Projects (PIPs) topic selection, implementation, monitoring, and final report submission to the Department and to the Department's External Quality Review Organization (EQRO).
4. The HMO governing body is ultimately accountable to the Department for the quality of care provided to HMO members. Oversight responsibilities of the governing body include, at a minimum:
 - a. Approval of the overall QAPI program;
 - b. An annual QAPI plan, designating an accountable entity or entities within the organization to provide oversight of QAPI;
 - c. Review of written reports from the designated entity on a periodic basis, which include a description of QAPI activities;
 - d. Progress on objectives, and improvements made;
 - e. Formal review on an annual basis of a written report on the QAPI program; and
 - f. Directing modifications to the QAPI program on an ongoing basis to accommodate review findings and issues of concern within the HMO.
5. The QAPI committee must be in an organizational location within the HMO such that it can be responsible for all aspects of the QAPI program. The committee membership must be interdisciplinary and be made up of both providers and administrative staff of the HMO, including:
 - a. A variety of health professions (e.g., physical therapy, nursing, etc.)
 - b. Qualified professionals specializing in mental health and substance abuse on a consulting basis.
 - c. Qualified professionals specializing in dental care on a consulting basis when an issue related to this area arises.
 - d. A variety of medical disciplines (e.g., medicine, surgery, radiology, etc.)
 - e. An individual with specialized knowledge and experience with persons with disabilities.
 - f. HMO management or governing body.
6. Members of the HMO must be able to contribute input to the QAPI Committee. The HMO must have a system to receive member input on quality improvement, document the input received, document the HMO's response to the input, including a

description of any changes or studies it implemented as the result of the input and document feedback to members in response to input received. The HMO response must be timely.

7. The committee must meet on a regular basis, but not less frequently than quarterly. The activities of the QAPI Committee must be documented in the form of minutes and reports. The QAPI Committee must be accountable to the governing body. Documentation of Committee minutes and activities must be available to the Department upon request.
8. QAPI activities of the HMO's providers and subcontractors, if separate from HMO QAPI activities, must be integrated into the overall HMO/QAPI program. Requirements to participate in QAPI activities, including submission of complete encounter data, are incorporated into all provider and subcontractor contracts and employment agreements. The HMO QAPI program shall provide feedback to the providers and subcontractors regarding the integration of, operation of, and corrective actions necessary in provider/subcontractor QAPI efforts. Other management activities (utilization management, risk management, customer service, grievances and appeals, etc.) must be integrated with QAPI program. Physicians and other health care practitioners and institutional providers must actively cooperate and participate in the HMO's quality activities.

The HMO remains accountable for all QAPI functions, even if certain functions are delegated to other entities. If the HMO delegates any activities to contractors, the conditions listed in Article XIV, Section A "Delegations of Authority" must be met.

9. There is evidence that HMO management representative and providers participate in the development and implementation of the QAPI plan of the HMO. This provision shall not be construed to require that HMO management representatives and providers participate in every committee or subcommittee of the QAPI program.
10. The HMO must designate a senior executive to be responsible for the operation and success of the QAPI program. If this individual is not the HMO Medical Director, the Medical Director must have substantial involvement in the QAPI program. The designated individual shall be accountable for the QAPI activities of the HMO's own providers, as well as the HMO's subcontracted providers.
11. The qualifications, staffing level and available resources must be sufficient to meet the goals and objectives of the QAPI program and related QAPI activities. Such activities include, but are not limited to, monitoring and evaluation of important aspects of care and services, utilization monitoring, facilitating appropriate use of preventive services, monitoring provider performance, provider credentialing,

involving members in QAPI initiatives and conducting performance improvement projects.

Written documentation listing the staffing resources that are directly under the organizational control of the person who is responsible for QAPI (including total FTEs, percent of time dedicated to QAPI, background and experience, and role) must be available to the Department upon request.

B. Monitoring and Evaluation

1. The QAPI program must monitor and evaluate the quality of clinical care on an ongoing basis. Important aspects of care (i.e., acute, chronic conditions, high volume, high-risk preventive care and services) must be studied and prioritized for performance improvement and updating guidelines. Standardized quality indicators must be used to assess improvement, ensure achievement of minimum performance levels, monitor adherence to guidelines, and identify patterns of over and underutilization. The Department will use the latest available HEDIS specifications for measurement year (MY) and measures will be defined in annual HMO Quality Guide.
2. The HMO must use appropriate clinicians to evaluate clinical data and serve on multi-disciplinary teams tasked with analyzing and addressing data issues.
3. HMOs must mandate provider identification of provider preventable conditions as a condition of payment, as well as the prohibition against payment for provider-preventable conditions as set forth in 42 CFR s. 434.6(a)(12) and 42 CFR s. 447.26. HMOs must report all identified provider-preventable conditions through its encounter data.

Health care acquired conditions for non-payment include hospital-acquired conditions as identified by Medicaid other than Deep Vein Thrombosis (DVT)/Pulmonary Embolism (PE) with total knee replacement surgery in pediatric and obstetric patients.

Other provider-preventable conditions for non-payment are identified as:

- a. Wrong surgical or other invasive procedure performed on a patient;
 - b. Surgical or other invasive procedure performed on the wrong body part;
 - c. Surgical or other invasive procedure performed on the wrong patient.
4. The HMO must also monitor and evaluate care and services in certain priority clinical and non-clinical areas. Non-clinical areas of monitoring and evaluation must include member satisfaction.

5. The HMO must make documentation available to the Department upon request regarding quality improvement and assessment studies on plan performance, which relate to the enrolled population. See reporting requirements in “Performance Improvement Priority Areas and Projects.”
6. The HMO must develop or adopt best practice guidelines in accordance with 42 CFR 438.236 (b) and meet the following requirements:
 - a. Are based on valid and reliable clinical evidence or a consensus of providers in the particular field.
 - b. Consider the needs of the HMO members.
 - c. Are adopted in consultation with network providers.
 - d. Are reviewed and updated periodically as appropriate.

The HMO must disseminate the guidelines to all providers and, upon request, to members and potential members.

Decisions for utilization management, member education, coverage of services and other areas to which the guidelines apply must be consistent with the guidelines.

7. The State will arrange for an independent, external review of the quality of services delivered under each HMO’s contract with the State. The review will be conducted for each HMO contractor on an annual basis in accordance with Federal requirements described in 42 CFR Part 438, Subpart D, Quality Measurement and Improvement; External Quality Review. The entity which will provide the annual external quality reviews shall not be a part of the State government, HMOs, or an association of any HMOs.

C. Health Promotion and Disease Prevention Services

1. The HMO must identify at-risk populations for preventive services and develop strategies for reaching BadgerCare Plus and/or Medicaid SSI members included in this population. Public health resources can be used to enhance the HMO’s health promotion and preventive care programs.
2. The HMO must have mechanisms for facilitating appropriate use of preventive services and educating members on health promotion. At a minimum, an effective health promotion and prevention program includes HMO outreach to and education of its members, tracking preventive services, practice guidelines for preventive services, yearly measurement of performance in the delivery of such services, and communication of this information to providers and members.

3. The Department encourages the HMO to develop and implement disease management programs and systems to enhance quality of care for individuals identified as having chronic or special health care needs known to be responsive to application of clinical practice guidelines and other techniques.
4. The HMO agrees to implement systems to independently identify members with special health care needs to utilize data generated by the systems or data that may be provided by the Department to facilitate outreach, assessment and care for individuals with special health care needs.

D. Provider Selection (Credentialing) and Periodic Evaluation (Recredentialing)

1. The HMO must have written policies and procedures for provider selection and qualifications. For each practitioner, including each member of a contracting group that provides services to the HMO's members, initial credentialing must be based on a written application, primary source verification of licensure, disciplinary status, eligibility for payment under BadgerCare Plus and/or Medicaid SSI. The HMO's written policies and procedures must identify the circumstances in which site visits are appropriate in the credentialing process.

The HMO must complete the credentialing process within 90 days after receipt of all necessary documents required by providers.

HMOs shall not credential or recredential individual providers employed by a Narcotic Treatment Service (NTS) certified under DHS 75.15. These providers must be enrolled in the Wisconsin Medicaid Program in order to be reimbursed for services provided to Wisconsin Medicaid members per DHS 105. HMOs can rely upon NTS providers' status as Medicaid-enrolled in lieu of credentialing at the provider level. HMOs may have credentialing and recredentialing policies for facilities certified under DHS 75.15.

The HMO may not employ or contract with providers debarred or excluded in federal health care programs under either Section 1128 or Section 1128A of the Social Security Act.

2. The HMO must periodically monitor (no less than every three years) the provider's documented qualifications to ensure that the provider still meets the HMO's specific professional requirements.
3. The HMO must also have a mechanism for considering the provider's performance. The recredentialing method must include updating all the information (except medical education) utilized in the initial credentialing process. Performance evaluation must

include information from the QAPI system, reviewing member complaints, and the utilization management system.

4. The selection process must not discriminate against providers such as those serving high-risk populations, or specialize in conditions that require costly treatment. The HMO must have a process for receiving advice on the selection criteria for credentialing and recredentialing practitioners in the HMO's network.

If the HMO declines to include groups of providers in its network, the HMO must give the affected providers written notice of the reason for its decision.

5. If the HMO delegates selection of providers to another entity, the organization retains the right to approve, suspend, or terminate any provider selected by that entity.
6. The HMO must have a formal process of peer review of care delivered by providers and active participation of the HMO's contracted providers in the peer review process. This process may include internal medical audits, medical evaluation studies, peer review committees, evaluation of outcomes of care, and systems for correcting deficiencies. The HMO must supply documentation of its peer review process upon request.
7. The HMO must have written policies that allow it to suspend or terminate any provider for quality deficiencies. There must also be an appeals process available to the provider that conforms to the requirements of the HealthCare Quality Improvement Act of 1986 (42 USC 11101 etc. Seq.).
8. The names of individual practitioners and institutional providers who have been terminated from the HMO provider network as a result of quality issues must be immediately forwarded to the Department and reported to other entities as required by law (42 USC 11101 et. Seq.).
9. The HMO must determine and verify at specified intervals that:
 - a. Each provider, other than an individual practitioner is licensed to operate in the state, if licensure is required, and in compliance with any other applicable state or federal requirements; and
 - b. The HMO verifies if the provider claims accreditation, or is determined by the HMO to meet standards established by the HMO itself.
10. These standards do not apply to:

- a. Providers who practice only under the direct supervision of a physician or other provider, and
- b. Hospital-based providers such as emergency room physicians, anesthesiologists, and other providers who provide services only incident to hospital services.

These exceptions do not apply if the provider contracts independently with the HMO.

E. Member Feedback on Quality Improvement

1. The HMO must have a process to maintain a relationship with its members that promotes two way communications and contributes to quality of care and service. The HMO must treat members with respect and dignity.
2. The HMO must demonstrate monitoring of member satisfaction as an input to improving quality of care and service.
3. The HMO is encouraged to find additional ways to involve members in quality improvement initiatives and in soliciting member feedback in quality of care and services the HMO provides. Other ways to bring members into the HMO's efforts to improve the health care delivery system include but are not limited to focus groups, member advisory councils, member participation on the governing board, the QAPI committees or other committees, or task forces related to evaluating services. All efforts to solicit feedback from members must be approved by the Department.

F. Medical Records

1. Per 42 CFR § 438.208(b)(5), the HMO must have written policies and procedures for participating provider health records content and documentation that have been communicated to providers and a process for evaluating its providers' medical records based on the HMO's policies. The HMO should encourage use of Certified Electronic Health Record Technology (CEHRT) by clinicians for documenting and sharing clinical information as well as use of the Office of National Coordinator's (ONC) Interoperability Standards Advisory best available standards to share information electronically across the continuum of care. These policies must also address patient confidentiality, data organization and completeness, tracking, and important aspects of documentation such as accuracy, legibility, and safeguards against loss, destruction, or unauthorized use. The HMO must also have confidentiality policies and procedures that are applicable to administrative functions that are concerned with confidential patient information. Those policies must include

information with respect to disclosure of member-identifiable medical record and/or enrollment information and specifically provide:

- a. That members may review and obtain copies of medical records information that pertains to them.
 - b. That members have the right to request and receive a copy of his or her medical records, and to request that they be amended or corrected.
 - c. That policies above must be made available to members upon request.
2. Patient medical records must be maintained in an organized manner (by the HMO, and/or by the HMO's subcontractors) that permits effective patient care, reflect all aspects of patient care and be readily available for patient encounters, administrative purposes, and Department review.
3. Because the HMO is considered a contractor of the state and therefore (only for the limited purpose of obtaining medical records of its members) entitled to obtain medical records according to Wis. Adm. Code, DHS 104.01(3), the Department requires BadgerCare Plus and/or Medicaid SSI enrolled providers to release relevant records to the HMO to assist in compliance with this section. The HMO that has not specifically addressed photocopying expenses in their provider contracts or other arrangements, are liable for charges for copying records only to the extent that the Department would reimburse on a FFS basis.
4. The HMO must have written confidentiality policies and procedures in regard to individually-identifiable patient information. Policies and procedures must be communicated to HMO staff, members, and providers. The transfer of medical records to out-of-plan providers or other agencies not affiliated with the HMO(except for the Department) are contingent upon the receipt by the HMO of written authorization to release such records signed by the member or, in the case of a minor, by the member's parent, guardian or authorized representative.
5. The HMO must have written quality standards and performance goals for participating provider medical record documentation and be able to demonstrate, upon request of the Department, that the standards and goals have been communicated to providers. The HMO must actively monitor compliance with established standards and provide documentation of monitoring for compliance with the standards and goals upon request of the Department.

6. Health records must be readily available for HMO-wide Quality Assessment/Performance Improvement (QAPI) and Utilization Management (UM) activities.
7. The HMO must have adequate policies in regard to transfer of medical records to ensure continuity of care. When a member switches HMOs or providers, it is the responsibility of the HMO to facilitate and/or broker the transfer of medical records between a member's previous and current providers upon provider request.

The HMO policy regarding transfer of medical records to ensure continuity of care policies must include:

- a. When members are treated by more than one provider.
- b. The provider-to-provider transfer may be facilitated and/or brokered between HMOs on behalf of providers.
- c. How provider requests for records are received and processed.
- d. The process for transmitting and receiving provider records to both other HMOs and providers.
- e. This may also include transfer to local health departments subject to the receipt of a signed authorization form as specified in Subsection 4 (with the exception of immunization status information which does not require member authorization).

Direct provider-to-provider exchanges are permitted if both providers are in agreement. It is then the responsibility of the agreeing providers to administrate the member medical record transfer, including HMO notification of the transfer.

The Department requires HMO participation in Wisconsin Statewide Health Information Network (WISHIN), the state-designated entity for health information exchange, to facilitate exchange of medical records between health plans and providers. The Department considers HMOs compliant with the medical record requirements in Article X(F)(7)(a)-(e) by participating in WISHIN. All HMOs must participate in WISHIN, specifically including subscribing to the WISHIN Pulse community health record, submitting a member roster as specified by WISHIN, and subscribing to the WISHIN Patient Activity Report (PAR) or other event-notification service offered by or through WISHIN. SSI HMOs must submit member care plans as detailed in Article III(C)(7).

8. Requests for completion of residual functional capacity evaluation forms and other impairment assessments, such as queries as to the presence of a listed impairment,

must be provided within 10 business days of the request (at the discretion of the individual provider and subject to the provider's medical opinion of its appropriateness) and according to the other requirements listed above.

9. Minimum medical record documentation per chart entry or encounter must conform to the Wis. Adm. Code, Chapter DHS 106.02(9)(b) medical record content.

G. Utilization Management (UM)

1. The HMO and its subcontractors must have documented policies and procedures for all UM activities that involve determining medical necessity and processing requests for initial and continuing authorization of services (42 CFR § 438.210(b)(1)).

The HMO must communicate to providers the criteria used to determine medical necessity and appropriateness. The criteria for determining medical necessity may not be more stringent than what is used in the State Medicaid program, as set forth in Wis. Adm. Code § DHS 101.03(96m), including any quantitative and non-quantitative treatment limits, as indicated in State statutes and regulations, the State Plan, and other published State policy and procedures. Documentation of denial of services must be available to the Department upon request.

Pursuant to 42 CFR § 438.210(b)(2), the HMO must:

- a. Have in effect mechanisms to ensure consistent application of review criteria for authorization decisions.
- b. Consult with the requesting provider for medical services when appropriate.

When reviewing requests for authorization of services, qualified medical professionals must be involved in any decision-making that requires clinical judgment. The decision to deny, reduce or authorize a service that is less than requested must be made by a health professional with appropriate clinical expertise in treating the affected member's condition(s). The HMO may not deny coverage, penalize providers, or give incentives or payments to providers or members that are intended to reward inappropriate restrictions on care or results in the under-utilization of services.

2. If the HMO delegates any part of the UM program to a third party, the delegation must meet the requirements in this Contract.
3. If the HMO utilizes telephone triage, nurse lines or other demand management systems, the HMO must document review and approval of qualification criteria of staff and of clinical protocols or guidelines used in the system. The system's performance will be evaluated annually in terms of clinical appropriateness.

4. The HMO's policies must specify time frames for responding to requests for initial and continued service authorizations, specify information required for authorization decisions, provide for consultation with the requesting provider when appropriate, and provide for expedited responses to requests for authorization of urgently needed services. In addition, the HMO must have in effect mechanisms to ensure consistent application of review criteria for authorization decisions (interrater reliability).

- a. Within the time frames specified, the HMO must give the member and the requesting provider written notice of:

- 1) The decision to deny, limit, reduce, delay or terminate a service along with the reasons for the decision.
- 2) The member's grievance and appeal rights, as detailed in the *Member Grievances and Appeals Guide*.
- 3) Denial of payment, at the time of any action affecting the claim.

The notice(s) must adhere to the timing and content requirements detailed in the *Member Grievances and Appeals Guide*

- b. Authorization decisions must be made within the following time frames and in all cases as expeditiously as the member's condition requires:

- 1) Within 14 days of the receipt of the request, or
- 2) Within 72 hours if the provider indicates, or the HMO determines, that following the ordinary time frame could jeopardize the member's health or ability to attain, maintain, or regain maximum function.

One extension of up to 14 days may be allowed if the member requests it or if the HMO justifies the need for more information.

On the date that the time frames expire, the HMO gives notice that service authorization decisions are not reached. Untimely service authorizations constitute a denial and are thus adverse benefit determinations.

5. Criteria for decisions on coverage and medical necessity are clearly documented, are based on reasonable medical evidence, current standards of medical practice, or a consensus of relevant health care professionals, and are regularly updated. This includes HMO utilization management practice for emergency and post-stabilization services.

6. The HMO oversees and is accountable for any functions and responsibilities that it delegates to any subcontractor.
7. Postpartum discharge policy for mothers and infants must be based on medical necessity determinations. This policy must include all follow-up tests and treatments consistent with currently accepted medical practice and applicable federal law. The policy must allow at least a 48-hour hospital stay for normal spontaneous vaginal delivery, and 96 hours for a cesarean section delivery, unless a shorter stay is agreed to by both the physician and the member. The HMO may not deny coverage, penalize providers, or give incentives or payments to providers or members. Post hospitalization follow-up care must be based on the medical needs and circumstances of the mother and infant. The Department may request documentation demonstrating compliance with this requirement.

H. Dental Services Quality Improvement (Applies only to an HMO Covering Dental Services)

The HMO QAPI Committee and QAPI coordinator will review subcontracted dental programs quarterly to ensure that quality dental care is provided and that the HMO and the contractor comply with the following:

1. The HMO or HMO affiliated dental provider must advise the member within 30 days of effective enrollment of the name of the dental provider and the address of the dental provider's site. The HMO or HMO affiliated dental provider must also inform the member in writing how to contact his/her dentist (or dental office), what dental services are covered, when the coverage is effective, and how to appeal denied services.
2. The HMO or HMO affiliated dental provider who designates all or some BadgerCare Plus and/or Medicaid SSI HMO members to specific participating dentists must give members at least 30 days after designation to choose another dentist. Thereafter, the HMO and/or affiliated provider must permit members to change dentists at least twice in any calendar year and more often than that for just cause.
3. HMO-affiliated dentists must provide a routine dental appointment to an assigned member within 90 days after the request. Member requests for emergency treatment must be addressed within 24 hours after the request is received.
4. Dental providers must maintain adequate records of services provided. Records must fully disclose the nature and extent of each procedure performed and should be maintained in a manner consistent with standard dental practice.

5. The HMO affirms by execution of this Contract that the HMO's peer review systems are consistently applied to all dental subcontractors and providers.
6. The HMO must document, evaluate, resolve, and follow up on all verbal and written complaints they receive from BadgerCare Plus and/or Medicaid SSI members related to dental services.

The HMO must submit annual progress reports due July 1 documenting the outcomes or current status of activities intended to increase utilization among members and recruit and retain providers (including pediatric dental providers, orthodontists, and oral surgeons), specifically commenting on the requirements listed above. These reports must include an assessment of the effectiveness of previous activities and any corrective action taken based on the assessment.

I. Accreditation

1. BC+ and Medicaid SSI HMOs must be accredited by the National Committee for Quality Assurance (NCQA) in their Medicaid lines of business by December 31st, 2023.
2. BC+ and Medicaid SSI HMOs must achieve the NCQA Multicultural Healthcare Distinction or Health Equity Accreditation by December 31st, 2023.
3. Beginning July 1, 2021, BC+ and Medicaid SSI HMOs are required to demonstrate progress towards the deadlines outlined in Article X(I)1 and Article X(I)2 through the submission of quarterly reports. Quarterly reports must contain, at a minimum, all information requested by the Department. Requesting information in the quarterly reports may change as needed. Any changes to quarterly reporting requirements will be communicated by the Department.
4. HMOs not making satisfactory progress towards achieving the implementation deadlines outlined in Article X(I)1 and Article X(I)2 subject to corrective actions, as defined in Article I of the Contract. Instances where corrective actions may be applied include, but are not limited to: consistently failing to meet workplan deadlines, project status being indicated as off-track, and failure to schedule NCQA reviews within acceptable timeframes.
5. HMOs that are not expected to meet the implementation deadlines outlined in Article X(I)1 and Article X(I)2 will not be offered a new contract due to a failure to meet contractual obligations.
6. Per 42 CFR § 438.332, the HMO must report to the Department if it is accredited by a private independent accrediting agency. HMOs that have received accreditation by a

private independent accrediting agency (AAAHC, NCQA, and URAC) must provide the state with a copy of its most recent accreditation review, as part of the HMO certification application process. This copy must contain:

- a. HMO accreditation status;
- b. Name of the CMS-recognized accreditation entity;
- c. The effective start and end dates of accreditation;
- d. The lines of business / specific member population for which the accreditation was achieved (e.g., commercial and/or Medicaid, etc.);
- e. The specific accreditation status of the HMO, including survey type and level (as applicable); and
- f. Accreditation results from the accreditation entity, including recommended actions or improvements, correction action plans and summaries of findings.

The Department will post the accreditation status of all HMOs on its website including the accreditation entity, accreditation program, and the accreditation level. The Department will update this accreditation status annually

J. Performance Improvement Priority Areas and Projects

Per 42 CFR § 438.330, the HMO must have an ongoing program of performance improvement projects (PIPs) to address the specific needs of the HMO's enrolled population served under this Contract. The PIPs may include clinical and non-clinical performance areas that are expected to have a favorable effect on health outcomes and enrollee satisfaction.

The Department will permit the development of collaborative relationships among the HMOs, local health departments, community-based behavioral health treatment agencies (both public and private), and other community health organizations to achieve improved services in priority areas. The Department and the HMO will collaborate to develop and share "best practices" on the Performance Improvement Projects. The Measurement Year (MY) starts on January 1 and ends on December 31 of the applicable contract year.

1. All HMOs are required to submit two PIPs each year.
 - a. HMOs that serve only the BC+ population or only the SSI population are required to submit 2 PIP proposals on two different topics for their respective populations.
 - b. HMOs that serve both BC+ and SSI populations are required to submit one PIP for each population.

2. The State has the authority to select a particular topic for the PIPs. Additionally, CMS, in consultation with the State and stakeholders, may specify performance measures and topics for performance improvement projects. HMOs that fail to meet their Pay-for-Performance (P4P) or other performance measure goals are encouraged to select those areas as PIP topics, in consultation with DHS. All HMOs are required to develop and implement a PIP focused on improving a clinical priority measure by identifying and reducing disparities. Specific interventions are to be implemented at the HMO and the provider/clinic levels. Additional details regarding measure selection and PIP components are included in the Annual HMO Quality Guide.
3. If an HMO met all the performance goals in the prior calendar year, it can choose other study topics relevant to its population. The HMO may propose alternative performance improvement topics during the preliminary topic selection summary process; approval is at the Department's discretion. Suggested topics are:
 - a. Clinical
 - 1) Adolescent immunizations
 - 2) Antidepressant medication management
 - 3) Asthma management
 - 4) Blood lead testing
 - 5) Breast cancer screening
 - 6) Cardiovascular care
 - 7) Care coordination
 - 8) Childhood immunizations
 - 9) Childhood obesity interventions
 - 10) Dental care
 - 11) Diabetes management
 - 12) Emergency Department utilization
 - 13) HealthCheck
 - 14) Medication reconciliation upon discharge
 - 15) Mental Health and Substance Abuse screenings and management
 - 16) Tobacco Cessation
 - 17) Hypertension management
 - 18) Preventable hospital readmissions
 - 19) SSI Care Management
 - b. Non-clinical
 - 1) Access and availability of services
 - 2) Member satisfaction
 - 3) Social Determinants of Health

4) Implementation of Culturally and Linguistically Appropriate Services (CLAS Standards)

4. Health plans should submit PIPs which use objective quality indicators to measure the effectiveness of the interventions. Per 42 CFR § 438.330(d)(2), HMOs should submit PIPs which include the planning and initiation of activities for sustaining or continuing PIP improvement over time. Plans should not submit baseline studies which are designed to evaluate whether a problem exists.
5. The HMO must submit a preliminary PIP proposal summary that meets the PIP guidelines issued by the EQRO as described in the HMO Quality Guide for the applicable MY, and state the proposed topic, the study question/project aims with a measurable goal, study indicators, study population, sampling methods if applicable, data collection procedures, improvement strategies, sustained improvement plan, and the prospective data analysis plan. The preliminary PIP proposal must be submitted to the Department or the EQRO as directed by the Department by December 1st of each calendar year.

The Department and the EQRO will review the preliminary PIP proposals and meet with the HMO to give feedback to the HMO on the PIP proposal. The Department will determine if the PIP proposals are approved. Suggestions arising from the EQRO and HMO dialogue should be given consideration as the HMO proceeds with the PIP implementation.

If the proposal is rejected by the Department, the HMO must re-submit a new or revised PIP proposal within the timeframe specified by the Department. Re-submission will be reviewed again by the Department and the EQRO.

6. After receiving the State's approval, the HMO may communicate with the EQRO throughout the implementation of the project if questions arise.
7. The HMO should perform ongoing monitoring of the project throughout the year to evaluate the effectiveness of its interventions.
8. After implementing the PIP over one calendar year, the HMO must submit to their Managed Care Contract Monitor, or the EQRO as directed by the Department, their completed PIP reports utilizing the format recommended by the Department by the first business day of July of the following year.
9. The EQRO will schedule a conference call with the HMO to review the EQRO feedback on the final PIP report.

10. Per 438.330(e)(1), if an HMO submits a multi-year PIP, then the EQRO will review and report on results trended over multiple years.
11. The EQRO may recommend an HMO's PIP for inclusion in Wisconsin's Best Practices Seminars in which all the HMOs will participate.
12. The Department will consider that the plan failed to comply with PIP requirements if:
 - a. The plan submits a final PIP on a topic that was not approved by the Department and the EQRO.
 - b. The EQRO finds that the PIP does not meet federal requirements:
 - 1) The PIP does not define a measurable goal using clear and objective quality indicators.
 - 2) The PIP does not include the implementation of systemic interventions to improve quality of care.
 - 3) The PIP does not evaluate systematically the effectiveness of the interventions.
 - 4) The PIP does not reflect the adoption of continuous cycles of improvement through which the HMO can sustain quality improvement.
 - c. The HMO does not submit the final PIP by its due date of the first business day of July of the year in which it's due. The Department may grant extensions of this deadline, if requested prior to the due date.

Failure to comply with PIP requirements may result in the application of sanctions described in Article XIV, Section C.

13. Ten Steps to A Successful PIP

Step 1: Describe the project/study topic.

Step 2: Describe the study questions/project measurable goals.

Step 3: Describe the selected study indicators/project measures and baseline data.

Step 4: Describe the identified population for which the study or project is aimed at.

Step 5: Describe the sampling methods used (if any).

Step 6: Describe the organization's data collection procedures.

Step 7: Describe the organization's interventions and improvement strategies.

Step 8: Describe the organization's data analysis plan and the interpretation of results from data collection.

Step 9: Describe the likelihood that the reported improvement is real improvement.

Step 10: Identify lessons learned and assess the sustainability of its documented improvement.

K. Additional Services for Pregnant Women

1. Tobacco Cessation

The HMO shall encourage providers to screen every pregnant woman for tobacco use during their initial prenatal visit, regardless of when this visit occurs. This information should be documented in the medical record, the member should be advised to quit and a referral made to a smoking cessation program, e.g., First Breath, Wisconsin Quit Line or other appropriate cessation assistance program. The member's cessation efforts should be assessed at every prenatal visit and at the post-partum visit.

2. Mental Health and Substance Abuse Screening

Wisconsin Medicaid and BadgerCare Plus covers a separate mental health and substance abuse screening benefit for all pregnant women (see ForwardHealth online handbook Topic #4442). The purpose of this benefit is to identify and assist pregnant women at risk for mental health or substance abuse problems during pregnancy. The benefit has two components:

- a. Screening for mental health (e.g., depression and/or trauma) and/or substance abuse problems.
- b. Brief preventive mental health counseling and/or substance abuse intervention for pregnant women identified as being at risk for experiencing mental health or substance abuse disorders.

3. Vaccines for Pregnant and Postpartum Women

The HMO shall encourage providers to screen every pregnant and postpartum woman to determine whether she needs an influenza or Tdap vaccine and to strongly recommend all vaccines needed.

L. Improving Birth Outcomes

HMOs must meet the following requirements with regard to women at high risk of a poor birth outcome. For this purpose, these women include:

- Women with a previous poor birth outcome (e.g., preterm infant, low birth weight, high birth weight, or infant death)
 - Women with a chronic condition that could negatively affect their pregnancy (e.g., diabetes, severe hypertension)
 - Women under 18 years of age
1. The BadgerCare Plus HMO must implement the OB Medical Home initiative as detailed in Article IV, D of the contract, in the following counties: Dane, Rock, Milwaukee, Kenosha, Racine, Ozaukee, Washington, Waukesha. Medicaid SSI HMOs may choose to enroll Medicaid SSI pregnant women in participating clinics in these counties.
 2. The HMO's Medical Director, or Department-approved representative, must participate in DHS' sponsored quality efforts during the period of the contract (e.g., best practices seminars).
 3. The HMO must have a plan in place to identify women at high risk of a poor birth outcome. The plan must specifically address options for identifying high-risk women previously unknown to the BadgerCare Plus and Medicaid SSI program, (e.g., use of pregnancy notification form). The HMO may use the Department's Birth Outcome Registry Network (BORN) to identify women who are at risk of having a poor birth outcome or had a previous poor birth outcome.
 4. The HMO must ensure that these members receive early and continuous care throughout the pregnancy and post-partum period. The HMO must ensure that appropriate referrals and timely follow-up are made for all identified needs (e.g. nutrition counseling, smoking cessation, or behavioral health).
 5. The HMO must have strategies in place for post-partum care, including depression screening and family planning services. Contraception options should be explored and the initial appointment for post-partum care should be made prior to discharge.

6. The HMO must have a plan in place for interconception care to ensure that the member is healthy prior to a subsequent pregnancy. At a minimum, the plan must address the needs of high-risk women with chronic conditions such as diabetes and hypertension.

M. HMO Pay-for-Performance (P4P) program and Core Reporting:

1. Goal

The HMO P4P program and Core Reporting aim to improve the quality of care received by BadgerCare Plus and Medicaid SSI members, related to preventive, chronic, mental health and substance abuse, birth-related and other healthcare services.

2. Geographic Coverage

The HMO P4P program and Core Reporting are applicable across the State of Wisconsin, i.e., all Medicaid HMO rate regions.

3. Timeframe

The Measurement Year (MY) starts on January 1 and ends on December 31 of the applicable contract year.

4. Benefit Plans in Scope

The scope includes BadgerCare Plus (this includes the Childless Adult population) and Medicaid SSI Plan, as described in the “HMO Quality Guide” (the Guide) for the MY. The Department will publish the first version of this Guide by the end of 2020, and will update it during the MY, as appropriate. The Department will share all updates electronically and in a timely manner with all HMOs.

5. HMO P4P Withhold (*excludes BadgerCare Plus Adults*)

The Department will withhold 2.5 percent of each HMO’s monthly capitation payments (including administrative payments) for the P4P program, which includes HEDIS measures and Performance Improvement Projects for MY2021. HMOs will be able to earn this withhold back by meeting quality performance targets for a specific set of measures, as described in the Guide. Depending on the relative performance of each HMO, highest-performing HMOs may be eligible for a bonus of up to 2.5 percent of their capitation payments in addition to earning back their withhold. Please see the Guide for details.

6. HMO P4P Measures and Targets

The program will use HEDIS measures as finalized by the Department and as described in the Guide. Targets for each measure will be defined by the Department

using NCQA's Quality Compass results as defined in the Guide. This provision includes both public and private contractors and does not require participation in any intergovernmental transfer agreements. Further details of the methodology for setting targets, including definitions, are specified in the Guide.

7. Core Reporting

Core Reporting focuses on providing the Department healthcare quality data for a broad set of conditions and related measures. It does not include a withhold, though requires HMOs to report data on specific quality measures listed in the Guide. If HMOs do not report this data to the Department, they could be subject to a \$10,000 penalty per measure not reported.

8. P4P and Core Reporting Data Submission

HMOs will be asked to submit their HEDIS data and results, after authentication by their HEDIS auditor and NCQA's IDSS, to the Department by dates listed in the Guide.

9. P4P Performance Measurement Methodology

Detailed methodology used to measure the performance of each HMO is described in the Guide.

N. Potentially Preventable Readmissions (PPR)

1. Goal

The Department's PPR program aims to improve the health outcomes for all Wisconsin Medicaid HMO members and reduce unnecessary care, through reduction in PPRs.

2. Definition of PPR

When an HMO member is discharged from inpatient care, and is readmitted within 30 days of discharge, the readmission could be classified as a Potentially Preventable Readmission (PPR), based on 3M's PPR software logic and exclusions.

PPR rates will be calculated for each HMO using only the HMO data and not Fee-for-Service data, by aggregating results for all members of an HMO who received inpatient care.

Additional information re: the calculation of PPRs is provided in the "Annual Quality Guide" (the Guide).

3. Geographic Coverage

PPRs are applicable across the State of Wisconsin, i.e., all Medicaid HMO rate regions.

4. Timeframe

The 2022 Measurement Year (MY2021) will begin on January 1, 2022 and end on December 31, 2022.

5. Benefit Plans in Scope

For MY2022, the scope of PPRs for HMOs includes only BadgerCare Plus (this includes the Childless Adult population).

6. Incentives

HMOs are expected to work very closely with their public and private hospital and non-hospital providers (e.g., community based providers, home health providers, among others) to reduce their PPR rates. In MY2022, the Department will continue the PPR program as value-based payments with an “up-side” only incentive for HMOs that meet their PPR targets. There will be no penalties for not meeting the targets during MY2022. In future years, the initiative may include an up-side (bonus) and a down-side (penalties) arrangements, in alignment with the Fee-for-Service PPR initiative for hospitals.

HMOs may keep a maximum of 15% of incentive earned for administrative expenses; the rest are expected to be shared with their hospital and non-hospital providers.

7. PPR Target

The Department will calculate the baselines PPR rates for each HMO and set PPR target rates applicable to each HMO, as specified in the Guide.

8. PPR Calculations

The Department will calculate and share PPR results and associated information with HMOs, as specified in the Guide.

O. Vaccine Equity Program (VEP)

1. Goal

To incentivize BadgerCare Plus and SSI Managed Care HMOs to enhance their existing strategies for ensuring equitable vaccine access and vaccination to target populations for which COVID-19 vaccination equity disparities exist.

2. Geographic Coverage

The Vaccine Equity Program is applicable across the State of Wisconsin, all Medicaid HMO rate regions.

3. Benefit Plans in Scope

The scope includes all non-pregnant BadgerCare Plus and Medicaid SSI Plan members ages 18 and older.

4. Incentives

A total of \$5 million incentive bonus funding is available for HMOs to earn. To be eligible to earn an incentive payment, an HMO must submit a completed Covid-19 Vaccination Equity Incentive Application and Community-Based Letter of Support to the Department no later than 4:00 pm CST on September 24, 2021. HMOs determined eligible for an incentive payment will receive the payment in November 2021. The Department will issue the funds to each HMO as a payment outside of the capitation payment.

5. Performance Criteria

HMO applications will be evaluated based on the Department's assessment of the effectiveness of:

- a. The HMO's existing strategy to ensure equitable vaccine access and vaccination to an identified target population for which a COVID-19 vaccination equity disparity exists; and
- b. The HMO's proposed plan to scale-up its existing strategy to increase equitable vaccine access and vaccination to the identified target population.

See detailed description of application requirements in the 2021 HMO Quality Guide

6. Performance Measurement

An HMO that receives the VEP incentive must:

- a. Begin the identified initiative within one month of notification of approval and complete the initiative before December 31, 2021; and
- b. Present outcomes of the initiative at an HMO Quality Forum or HMO Contract Administrators meeting in 2022.

P. Public Reporting

The Department will publicly report various quality and other performance metrics for HMOs via a website and other media, per 42 CFR § 438.608 Requirement 42 CFR § 438.340.

Q. Health Disparity Plan

Per 42 CFR § 438.340(b)(6) of the Managed Care Rule, the State is required to create and implement a “plan to identify, evaluate, and reduce, to the extent practicable, health disparities based on age, race, ethnicity, sex, primary language, and disability status. States must identify this demographic information for each Medicaid enrollee and provide available information to the MCO, PIHP or PAHP at the time of enrollment. For purposes of this paragraph (b)(6), “disability status” means whether the individual qualified for Medicaid on the basis of a disability.”

The Department will employ a phased approach. HMO PIP projects, as detailed in the HMO Quality Guide, must continue to focus on reducing health disparities. As part of the ongoing PIP efforts, the HMO has developed a health disparities reduction plan and must continue to make progress in identifying and addressing disparities within its membership.

ARTICLE XI: HMO ADMINISTRATION

A. Statutory Requirement

In consideration of the functions and duties of the Department contained in this Contract the HMO shall retain at all times during the period of this Contract a valid Certificate of Authority issued by the State of Wisconsin Office of the Commissioner of Insurance. A separate Certificate of Authority must be submitted for each contract the HMO intends to enter into with the Medicaid program (if, for example, an HMO offers multiple product lines, does business under another name, etc.).

B. Compliance with Applicable Law

In the provision of services under this Contract, the Contractor and its subcontractors shall comply with all applicable federal and state statutes and rules and regulations that are in effect when the Contract is signed, or that come into effect during the term of the Contract. This includes, but is not limited to Title XIX of the Social Security Act, Title XXI, SCHIP, Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, The Age Discrimination Act of 1975, The Rehabilitation Act of 1973, The American with Disabilities Act, Section 1557 of the Patient Protection and Affordable Care Act of 2010, and Title 42 of the CFR.

Changes to BadgerCare Plus and/or Medicaid SSI covered services mandated by federal or state law subsequent to the signing of this Contract will not affect the Contract services for the term of this Contract, unless agreed to by mutual consent, or the change is necessary to continue to receive federal funds or due to action of a court of law.

The Department may incorporate into the Contract any change in covered services mandated by federal or state law effective the date the law goes into effect, if it adjusts the capitation rate accordingly. The Department will give the HMO at least 30 days' notice before the intended effective date of any such change that reflects service increases, and the HMO may elect to accept or reject the service increases for the remainder of that contract year. The Department will give the HMO 60 days' notice of any such change that reflects service decreases, with a right of the HMO to dispute the amount of the decrease within 60 days. The HMO has the right to accept or reject service decreases for the remainder of the Contract year. The date of implementation of the change in coverage will coincide with the effective date of the increased or decreased funding. This section does not limit the Department's ability to modify this Contract due to changes in the state budget.

The HMO is not endorsed by the federal or state government, CMS, or similar entity.

Federal funds must not be used for lobbying. Specifically and as applicable, the Contractor agrees to abide by the Copeland-Anti Kickback Act, the Davis-Bacon Act, federal contract work hours and safety standards requirements, the federal Clean Air Act and the federal Water Pollution Control Act.

C. Organizational Responsibilities and Duties

1. Ineligible Organizations

Upon obtaining information or receiving information from the Department or from another verifiable source, the HMO must exclude from participation in the HMO all organizations that could be included in any of the categories defined in a, 1) of this section (references to the Act in this section refer to the Social Security Act).

- a. Entities that could be excluded under Section 1128(b)(8) of the Social Security Act are entities in which a person who is an officer, director, agent or managing employee of the entity, or a person who has direct or indirect ownerships or control interest of 5% or more in the entity has:

- 1) Been convicted of the following crimes:

- a) Program related crimes (i.e., any criminal offense related to the delivery of an item or service under Medicare or Medicaid). (Section 1128(a)(1) of the Act.)
- b) Patient abuse (i.e., criminal offense relating to abuse or neglect of patients in connection with the delivery of health care). (Section 1128(a)(2) of the Act.)
- c) Fraud (i.e., a state or federal crime involving fraud, theft, embezzlement, breach of fiduciary responsibility, or other financial misconduct in connection with the delivery of health care or involving an act or omission in a program operated by or financed in whole or part by federal, state or local government). (Section 1128(b)(1) of the Act.)
- d) Obstruction of an investigation (i.e., conviction under state or federal law of interference or obstruction of any investigation into any criminal offense described in Subsections a), b), or c). (Section 1128(b)(2) of the Act.)
- e) Offenses relating to controlled substances (i.e., conviction of a state or federal crime relating to the manufacture, distribution,

prescription or dispensing of a controlled substance. (Section 1128(b)(3) of the Act.)

- 2) Been excluded, debarred, suspended, otherwise excluded, or is an affiliate (as defined in such Act) of a person described in C, 1, a, above from participating in procurement activities under the Federal Acquisition Regulation or from participating in non-procurement activities under regulations issued pursuant to Executive Order No. 12549 or under guidelines implementing such order.
 - 3) Been assessed a civil monetary penalty under Section 1128A of the Act. Civil monetary penalties can be imposed on individual providers, as well as on provider organizations, agencies, or other entities by the DHHS Office of Inspector General. Section 1128A authorizes their use in case of false or fraudulent submittal of claims for payment, and certain other violations of payment practice standards. (Section 1128(b)(8)(B)(ii) of the Act.)
- b. Entities that have a direct or indirect substantial contractual relationship with an individual or entity listed in Subsection 1. A substantial contractual relationship is defined as any contractual relationship which provides for one or more of the following services:
- 1) The administration, management, or provision of medical services.
 - 2) The establishment of policies pertaining to the administration, management, or provision of medical services.
 - 3) The provision of operational support for the administration, management, or provision of medical services.
- c. Entities that employ, contract with, or contract through any individual or entity that is excluded from participation in Medicaid under Section 1128 or 1128A, for the provision (directly or indirectly) of health care, utilization review, medical social work or administrative services. For the services listed, the HMO must refrain from contracting with any entity that employs, contracts with, or contracts through an entity that has been debarred or excluded from participation in Medicaid by the Secretary of Health and Human Services under the authority of Section 1128 or 1128A of the Act.
- d. Foreign Entities

- 1) Pursuant to 42 C.F.R. § 438.602(i), the State is prohibited from contracting with an HMO located outside of the United States. In the event an HMO moves outside of the United States, this contract will be terminated.
- 2) Pursuant to 42 C.F.R. § 438.602(i), no claims paid by an HMO to a network provider, out-of-network provider, subcontractor or financial institution outside of the United States will be considered in the development of actuarially sound capitation rates.

The HMO attests by signing this Contract, that it excludes from participation in the HMO all organizations that could be included in any of the above categories.

2. Contract Representative

The HMO is required to designate a staff person to act as liaison to the Department on all issues that relate to the Contract between the Department and the HMO. The contract representative will be authorized to represent the HMO regarding inquiries pertaining to the Contract, will be available during normal business hours, and will have decision making authority in regard to urgent situations that arise. The Contract representative will be responsible for follow-up on contract inquiries initiated by the Department.

3. Attestation

The HMO's Chief Executive Officer (CEO), the Chief Financial Officer (CFO) or designee must attest to the best of their knowledge to the truthfulness, accuracy, and completeness of all data submitted to the Department. This includes encounter data, ventilator dependent member data, provider and facility network submissions, comprehensive exam reports and health data indicators and any other data regarding claims the HMO paid. The HMO must use the Department's attestation form in Addendum IV, J. The attestation form must be submitted quarterly to the HMO's Managed Care Analyst in DHS (Article XII, K).

4. Affirmative Action (AA) and Equal Opportunity, and Civil Rights Compliance (CRC)

All recipients of federal and/or state funding to administer programs, services and activities through the Wisconsin Department of Health Services must comply with the Department's CRC Plan requirements. Information about these requirements can be found at <http://dhs.wisconsin.gov/civilrights/Index.HTM>.

Certain Recipients and Vendors must also comply with Wis. Stats., s.16.765, and Administrative Code (ADM) 50, which require the filing of an Affirmative Action Plan (AA Plan). The Affirmative Action Plan is NOT part of the CRC Plan.

a. Affirmative Action Plan

- 1) For agreements where the HMO has 50 employees or more and will receive \$50,000 or more, the HMO shall complete the AA plan. The HMO with an annual work force of less than 50 employees or less than \$50,000 may be exempt from submitting the AA plan.

The AA Plan is written in detail and explains the HMO's program. To obtain instructions regarding the AA Plan requirements go to <http://vendornet.state.wi.us/vendornet/contract/contcom.asp>

- 2) The HMO must file its AA plan every 3 years and includes all programs. The plan must be submitted to:

Department of Health Services
Division of Enterprise Services
Bureau of Procurement and Contracting
Affirmative Action Plan/CRC Coordinator
1 West Wilson Street, Room 672
P.O. Box 7850
Madison, WI 53707
dhscontractcompliance@dhs.wisconsin.gov

Compliance with the requirements of the AA Plan will be monitored by the DHS, Office of Affirmative Action and Civil Rights Compliance.

b. Civil Rights Compliance (CRC) Plan

- 1) The HMO receiving federal and/or state funding to administer programs, services and activities through DHS must file a Civil Rights Compliance Letter of Assurance (CRC LOA). All HMOs with fifty (50) or more employees AND who receive over \$50,000 in funding must complete a Civil Rights Compliance Plan (CRC Plan). The CRC Plan is to be kept on file and made available upon request to any representative of the Department of Health Services. The instructions and template to complete the requirements for the

CRC Plan are found at
<http://dhs.wisconsin.gov/civilrights/Index.HTM>.

For technical assistance on all aspects of the Civil Rights Compliance, the HMO is to contact the Department at:

Department of Health Services
Civil Rights Compliance
Attn: Civil Rights Compliance Officer
1 West Wilson Street, Room 651
P.O. Box 7850
Madison, WI 53707-7850
Telephone: (608) 267-4955 (Voice)
711 or 1-800-947-3529 (TTY)
Fax: (608) 267-1434
Email: DHSCRC@dhs.wisconsin.gov

- 2) HMOs subcontracting federal or state funding to other entities must obtain a CRC LOA from their subcontractors. The CRC LOA must be kept on file and produced upon request or at the time that an on-site monitoring visit is conducted. Subcontractors with fifty (50) or more employees AND who receive over \$50,000 in funding must complete a CRC Plan. The CRC Plan is to be kept on file and produced upon request by the DHS AA/CRC Office, a representative of the DHS or at the time the HMO conducts an on-site monitoring visit.
- 3) The HMO agrees to not discriminate in the provision of services or benefits on the basis of age, color, disability, national origin, race, religion or sex/gender. This policy covers enrollment, access to services, facilities, and treatment for all programs and activities. All employees of the HMO are expected to support goals and programmatic activities relating to nondiscrimination in service delivery.
- 4) The HMO agrees not to exclude qualified persons from employment otherwise. The HMO agrees to not discriminate on the basis of the conscience rights of health care providers as established and protected following Federal Health Care Provider Conscience Protection Laws: the Church Amendments; the Public

Health Service Act Section 245; the Weldon Amendment; and the Affordable Care Act.

- 5) The HMO agrees to comply with all of the requirements contained in the Department CRC Plan and to ensure that their subcontractors comply with all CRC requirements during this Contract period. The instructions and template to complete the CRC Plan requirements can be found at <http://dhs.wisconsin.gov/civilrights/Index.HTM>.
- 6) The Department will monitor the Civil Rights and Affirmative Action compliance of the HMO. The Department will conduct reviews to ensure that the HMO is ensuring compliance by its subcontractors or grantees. The HMO agrees to comply with Civil Rights monitoring reviews, including the examination of records and relevant files maintained by the HMO, interview with staff, clients, and applicants for services, subcontractors, grantees, and referral agencies. The reviews will be conducted according to Department procedures. The Department will also conduct reviews to address immediate concerns of complainants.
- 7) The HMO agrees to cooperate with the Department in developing, implementing and monitoring corrective action plans that result from complaint investigations or monitoring efforts.

5. Non-Discrimination in Employment

The HMO must comply with all applicable federal and state laws relating to non-discrimination and equal employment opportunity including Wis. Stats., s.16.765, Federal Civil Rights Act of 1964, regulations issued pursuant to that Act and the provisions of Federal Executive Order 11246 dated September 26, 1985, and ensure physical and program accessibility of all services to persons with physical and sensory disabilities pursuant to Section 504 of the Federal Rehabilitation Act of 1973, as amended (29 U.S.C. 794), all requirements imposed by the applicable Department regulations (45 CFR part 84) and all guidelines and interpretations issued pursuant thereto, and the provisions of the Age Discrimination and Employment Act of 1967 and Age Discrimination Act of 1975.

Wis. Stats., §16.765, requires that in connection with the performance of work under this Contract, the Contractor agrees not to discriminate against any employee or applicant for employment because of age, race, religion, color, handicap, sex, physical condition, developmental disability as defined in s. 51.01(5), sexual

orientation or national origin. This provision shall include, but not be limited to, the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. Except with respect to sexual orientation, the Contractor further agrees to take affirmative action to ensure equal employment opportunities. The Contractor agrees to post in conspicuous places, available for employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of the non-discrimination clause.

Contractor further agrees not to subject qualified persons to discrimination in employment in any manner or term or condition of employment on the basis of arrest record, conviction record, genetic testing, honesty testing, marital status, military service, pregnancy or childbirth, or use of legal products during non-work hours outside of the employer's premises, except as otherwise authorized by applicable statutes.

All HMO employees are expected to support goals and programmatic activities relating to non-discrimination and non-retaliation in employment.

With respect to provider participation, reimbursement, or indemnification, the HMO will not discriminate against any provider who is acting within the scope of the provider's license or certification under applicable state law, solely on the basis of such license or certification. This shall not be construed to require the HMO to contract with providers beyond the number necessary to meet the needs of the BadgerCare Plus and/or Medicaid SSI population. This shall not be construed to prohibit the HMO from using different reimbursement amounts for different specialties or for different practitioners in the same specialty or from establishing any measure designed to maintain quality and control cost consistent with these responsibilities. If the HMO declines to include an individual or group of providers in its network, it must give the affected providers written notice of the reason for its decision.

6. Provision of Services to the HMO Members

The HMO must provide contract services to BadgerCare Plus and/or Medicaid SSI members under this Contract in the same manner as those services are provided to other members of the HMO.

The HMO must provide services in an amount, duration, and scope that is no less than the amount, duration, and scope for the same services furnished to members under Medicaid fee for services as set forth in 42 CFR § 438.210(a)(2) and 42 CFR § 440.230.

Per 42 CFR § 438.210(a)(3), the HMO:

- a. Must ensure that the services are sufficient in amount, duration, or scope to reasonably be expected to achieve the purpose for which the services are furnished to members in Medicaid fee for service.
- b. May not arbitrarily deny or reduce the amount, duration, or scope of a required service solely because of diagnosis, type of illness, or condition of the member.

7. HMO Staffing Level to Support Providers

At the time of contract renewal and at service area expansion request, the HMO must have appropriate staffing levels for the entire service area to support contracted provider participation and timely claim payment, per Art. XIV, D, #2.

The HMO must:

- a. Have adequate customer service and help desk staff to answer inquiries from providers (via phone or email); adequate home office or regional provider representatives to provide training to new and ongoing providers on HMO policy, communication methods, correct claim submission and appeal process.
- b. Clearly communicate to providers the availability of support resources provided through the HMO website or Provider Manual, including but not limited to the methods used by the HMO to communicate policy changes, electronic claim submission, claim reconsideration, internal appeal process, and how to appeal to the Department.

The Department reserves the right to request a staffing plan from the HMO at the time of contract renewal and at service area expansion request to demonstrate the HMO has appropriate staffing levels for its entire service area to support provider participation and timely claim payment.

8. Access to Premises

The HMO must allow duly authorized agents or representatives of the state or federal government access to the HMO's or HMO subcontractor's premises during normal business hours to inspect, audit, monitor or otherwise evaluate the performance of the HMO's or subcontractor's contractual activities and shall produce all records requested as part of such review or audit within a reasonable time, but not more than 10 business days. Upon request for such right of access, the HMO or subcontractor must provide staff to assist in the audit or inspection effort, and adequate space on the premises to reasonably accommodate the state or federal personnel conducting the

audit or inspection effort. All inspections or audits must be conducted in a manner as will not unduly interfere with the performance of HMO's or subcontractor's activities. The HMO will have 30 business days to respond to any findings of an audit before the Department finalizes it. All information obtained will be accorded confidential treatment as provided under applicable laws, rules or regulations.

9. Liability for the Provision of Care

Remain liable for provision of care for that period for which capitation payment has been made in cases where medical status code changes occur subsequent to capitation payment.

10. Subcontracts

The HMO must ensure that all subcontracts are in writing, comply with the provisions of this Contract that are appropriate to the service or activity, and ensure that all subcontracts do not terminate legal liability of the HMO under this Contract. The HMO may subcontract for any function covered by this Contract, subject to the requirements of Article XIV, B.

11. Coordination with Community-Based Health Organizations, Local Health Departments, Division of Milwaukee Child Protective Services, Prenatal Care Coordination Agencies, School-Based Services Providers, Targeted Case Management Agencies, School-based Mental Health Services, Birth to Three Program Providers, and Healthy Wisconsin

Per Art. III, section C, the HMO must have a system in place to coordinate the services it provides to member with services a member receives through community and social support providers.

a. Community-Based Health Organizations

The Department encourages the HMO to contract with community-based health organizations for the provision of care to BadgerCare Plus and/or Medicaid SSI members in order to ensure continuity and culturally appropriate care and services. Community-based organizations can provide HealthCheck outreach and screening, immunizations, family planning services, and other types of services.

The Department encourages the HMO to work closely with community-based health organizations. Community-based health organizations may also provide

services, such as WIC services, that the HMO is required by federal law to coordinate with and refer to, as appropriate.

b. Federally Qualified Health Centers (FQHC)

HMOs must make at least two good faith written and documented efforts to contract at a reasonable market rate with FQHCs located within their service area for the provision of care to BadgerCare Plus and/or Medicaid SSI members.

c. Local Health Departments

The Department encourages the HMO to contract with local health departments for the provision of care to BadgerCare Plus and/or Medicaid SSI members in order to ensure continuity and culturally appropriate care and services. Local health departments can provide HealthCheck outreach and screening, immunizations, blood lead screening services, and services to targeted populations within the community for the prevention, investigation, and control of communicable diseases (e.g., tuberculosis, HIV/AIDS, sexually transmitted diseases, hepatitis and others).

The Department encourages the HMO to work closely with local health departments. Local health departments have a wide variety of resources that could be coordinated with the HMO to produce more efficient and cost-effective care for the HMO members. Examples of such resources are ongoing medical services programs, materials on health education, prevention, and disease states, expertise on outreaching specific sub-populations, communication networks with varieties of medical providers, advocates, community-based health organizations, and social service agencies, and access to ongoing studies of health status and disease trends and patterns.

d. Child Welfare Coordination

HMOs must designate at least one staff member to serve as a contact with county child welfare agencies and the Division of Milwaukee Child Protective Services (DMCPS), in the Wisconsin Department of Children and Families. If the HMO chooses to designate more than one contact person the HMO should identify the service area for which each contact person is responsible. The Department encourages HMOs to designate a staff member with at least two years of experience working in a child welfare agency, or who has attended child welfare training through the Wisconsin Child Welfare Training Partnership.

In Milwaukee County, HMOs must provide all BadgerCare Plus and/or Medicaid SSI covered mental health and substance abuse services to individuals identified as clients of DMCPs. Disputes regarding the medical necessity of services identified in the Family Treatment Plan will be adjudicated using the dispute process, except that the HMO must provide court-ordered services.

Outside of Milwaukee County, HMOs shall coordinate with the appropriate county human services agency for the provision of services to members involved with the county.

e. Prenatal Care Coordination (PNCC) Agencies

The HMO must sign a memorandum of understanding (MOU) with all agencies in the HMO service area that are BadgerCare Plus-enrolled PNCC agencies. The purpose of the MOU is to ensure coordination of care between the HMO that provides medical services, and the PNCC agency that provides care coordination to ensure women are linked to the medical and non-medical services they need to have a healthy pregnancy outcome.

In addition, the HMO must assign an HMO representative to interface with the care coordinator from the PNCC agency. The HMO representative shall work with the care coordinator to identify what BadgerCare Plus covered services, in conjunction with other identified social services, are to be provided to the member. The HMO is not liable for medical services outside of their provider network by the care coordinator unless prior authorized by the HMO. In addition, the HMO is not required to pay for services provided directly to the PNCC provider. The Department pays such services on a FFS basis.

f. School-Based Services (SBS) Providers

The HMO must use its best effort and document attempts to sign a MOU with all SBS providers in the HMO service area to ensure continuity of care and to avoid duplication of services. School based services are paid FFS when provided by a BadgerCare Plus enrolled SBS provider. However, in situations where a member's course of treatment is interrupted due to school breaks, after school hours or during the summer months, the HMO is responsible for providing and paying for all BadgerCare Plus covered services. The HMO must not consider SBS (e.g. physical, occupational, and speech and language

therapy services) as automatically duplicative when it is considering the medical necessity of a requested community based service.

MOUs must be signed every three years as part of certification. If no changes have occurred, then both the school and the HMO must sign off that no changes have occurred and documentation to this effect must be submitted to DHS upon request. HMOs must conduct outreach to schools that do not have a MOU with the health plan, at a minimum, every two years. The HMO must submit evidence that it attempted to obtain a MOU or contract in good faith.

g. Targeted Case Management (TCM) Agencies

The HMO must interface with the case manager from the TCM agency to identify what BadgerCare Plus and/or Medicaid SSI covered services or social services are to be provided to a member. The HMO is not required to pay for medical services directed outside of their provider network by the case manager unless prior authorized by the HMO.

h. School-based Mental Health Services

The Department encourages the HMO to contract with community-based mental health agencies and/or school-based providers for the provision of mental health care to BadgerCare Plus children in the school setting. The HMO is encouraged to assist with the coordination of covered mental health services to its members (including those children with an IEP who may have mental health needs) with the school, mental health provider, and family as appropriate.

i. Birth to Three Program Providers

HMOs must contract with Birth to 3 Program agencies within their service area to authorize and pay claims for their members that are enrolled in the Birth to 3 Program for Medicaid HMO reimbursable physical therapy (PT), occupational therapy (OT), and speech and language pathology (SLP) services provided as Birth to 3 Program services.

Birth to 3 Program services must be provided by PT, OT, and SLP providers who are employed by, or under agreement with, Birth to 3 Program agencies to provide Birth to 3 Program services. A HMO is not providing access and reimbursement for Birth to 3 Program services by authorizing PT, OT, and SLP services by a network provider to a child under age 3 if the child does not

have an assessment and Individualized Family Service Plan (IFSP) and/or the provider is not employed/contracted by the Birth to 3 Program agency.

HMOs must authorize PT, OT, or SLP Birth to 3 Program services if these services are provided in conjunction with the Birth to 3 Program initial evaluation and assessment and the services are identified in the member's (IFSP) and requested at the same frequency, intensity, and duration listed in the IFSP. HMOs should not impose additional medical necessity criteria for Birth to 3 Program services. HMOs are encouraged to follow ForwardHealth policy for prior authorization of Birth to 3 Program services by not requiring Birth to 3 Programs to frequently re-submit authorization requests to the HMO.

HMOs are encouraged to follow the ForwardHealth policy for prior authorization of therapy services provided outside the Birth to 3 Program, and to require receipt of the completed Child Enrollment Status Regarding Birth to 3 Program form prior to authorizing any PT, OT, or SLP for a child under 3. HMOs may impose their standard medical necessity criteria when authorizing therapy services outside the Birth to 3 Program for a child under 3.

In addition to contracting with Birth to 3 Program agencies to authorize and pay claims for Medicaid HMO reimbursable program services (PT, OT, SLP), HMOs are encouraged to develop MOUs with county Birth to Three Program agencies in their service area.

Wisconsin's Birth to 3 Program

(<http://www.dhs.wisconsin.gov/children/birthto3/>) is a federally mandated program with oversight by the U.S. Department of Education, Office of Special Education Programs (OSEP) under Part C of the Individuals with Disabilities Act. The Birth to 3 Program provides early intervention services for children ages birth to 36 months with developmental delays and disabilities and is available in all 72 counties; the Department of Health Services (DHS) contracts with each county to establish and maintain a Birth to 3 Program.

HMOs can find a list of county contacts for Birth to Three programs at: <http://www.dhs.wisconsin.gov/children/birthto3/contacts/countycontacts.asp>.

j. Healthy Wisconsin

The Department encourages HMOs to serve as partners in Healthy Wisconsin, the state's health assessment and health improvement plan. This includes the

HMO working towards objectives that influence the health of the public and long-term goals for the decade. More information on Healthy Wisconsin can be found at:

<https://healthy.wisconsin.gov/content/about-us>.

k. Local WIC Agencies

The HMO is encouraged to use the DMS/DPH agreement template as a guide and enter into an agreement with Local WIC Agencies within the HMO's service area for the purpose of collaboration of care and to ensure referrals between the parties are made. The HMO is required to refer all WIC categorically eligible HMO members to the Local WIC Agency. The WIC Program provides nutrition services, supplemental foods, breast feeding promotion and support, and immunization screening. Some Local WIC Agencies are WI Medicaid enrolled as HealthCheck – Other Services providers and may contract with HMOs for blood lead poisoning screenings performed during the WIC appointment as a Medicaid-billable service.

l. Homeless Assistance Coalition Collaboration

HMOs are required to appoint a staff person to serve as a liaison between the HMO and homeless assistance coalitions that serve the same counties as the HMO. This person can act in a role already established at the HMO.

The liaison will participate in homeless assistance coalition meetings, keep updated information on coordinated entry points of contacts, assist coalition members in connecting people they serve to HMO staff and resources, and provide coalition information to other HMO staff serving people experiencing or at risk for homelessness.

12. Clinical Laboratory Improvement Amendments (CLIA)

The HMO must use only certain laboratories. All laboratory testing sites providing services under this Contract must have a valid CLIA certificate along with a CLIA identification number, and comply with federal CLIA regulations as specified by 42 CFR Part 493, 42 CFR 263a, and Wisconsin Administrative Code, Chapter 105, DHS 105.42(1-2) and DHS 105.46 – Medical Assistance. Those laboratories with certificates must provide only the types of tests permitted under the terms of their certification.

Sanctions in the amount of \$10,000.00 may be imposed for non-compliance with the above compliance requirements.

13. HMO Responsibilities in the Event of a Federal or State Declared Emergency:

HMOs are required to submit an annual plan, to maintain business operations in the event of a state or federal declaration of disaster or State of Emergency by June 30th. The HMO must cooperate with DHS' efforts to ensure minimal disruption to the ForwardHealth program and the members served.

a. Continuity of Operations

i. Business Continuity Plan

The health plan must maintain a business continuity plan which includes a collection of resources, actions, procedures, and information that is developed, tested, and held in readiness for use to continue operations in the event of a major disruption of operations due to a federal or state declared disaster or State of Emergency. Business Continuity Plans shall address, at a minimum, the following:

1. A description of how the health plan will organize and assign the urgency with which activities and processes will need to be resumed in the event of a disruption including:

a. Member's access to services. The health plan must:

- i. Establish provisions to ensure that members are able to see Out-of-Network Providers if the member has a permanent address in the federal or state declared disaster areas and are unable to access In-Network providers.
- ii. Establish provisions to ensure that members are able to use telehealth services if the member has a permanent address in the federal or state declared disaster areas.
- iii. Provide detailed plans it will use to ensure that prior authorizations are extended and transferred without burden to new providers if directed by DHS, and the means by which the health plan will identify the location of members who have been displaced.
- iv. Report status of members and issues regarding member access to covered services as directed by DHS.

2. Claims Payment

a. A description of how the health plan will address the following activities:

- i. Timely provider claims processing and payment consistent with DHS contract requirements and health plan-provider contract policies.
- ii. Establishing provider contract language that addresses relaxed health plan timely filing requirements for provider service claims provided in good faith with reasonable submission delay due to a Federal or State declared disaster or emergency and submit to DHS for review.

- iii. Honoring unauthorized provider claims consistent with ongoing treatment due to demonstrated patient need or urgent patient need occurring during a Federal or State declared disaster or emergency period where health plan authorization communications and processes were delayed or failed.
 - iv. Providing a communication and interim plan for approval by DHS should they experience a disruption that risks the ability to meet the claims processing/payment timeline requirements.
- 3. Inclusion of a business impact analysis and risk assessment. This will address each continuity management strategy both at the corporate and key functional area separately and will identify, quantify and qualify areas that will be used to continue the organization's business impacts of a disruption to determine at what point in time the disruption exceeds the maximum allowable recovery time, activities and processes after an interruption.
- 4. Inclusion of a risk assessment that reviews the probability and impact of various threats to the health plan's operations. This involves stress testing the health plan's business processes and business impact analysis assumptions with various threat scenarios. The results of the risk assessment should assist the health plan in refining its business impact analysis and in developing a business continuity strategy.
- 5. Clearly identified roles and responsibilities within the organization during the implementation of the business continuity plan.
 - a. Health Plans must ensure that proper training is provided for each role under this provision.
- 6. Criteria for executing the business continuity plan, including escalation procedures.
 - a. A detailed communication plan with members, employees, providers, the Department, and other stakeholders including: Coordinating with DHS or any other local, state, or federal agencies as needed during the disaster or emergency response. This coordination may vary based on type of situation; however, anticipated coordination includes, but is not limited to:
 - i. Designating a Point of Contact (POC) for continuity of operations specifically related to disaster preparedness in order to communicate the health plan's response to the DHS emergency preparedness POC.
 - ii. Designating a POC to support members residing in Tribal Lands where applicable.
 - iii. Participating in meetings with DHS or other agencies
 - iv. Assisting with impacted member or provider communications

- v. Facilitate effective communication with members, providers and staff regarding the impact of the disaster as well as a process by which inquiries may be submitted and addressed.
 - vi. Implementing policy, process, or system changes at the direction of DHS, keeping DHS informed on the progress of the implementation
 - vii. Additional communication and/or reporting requirements through the duration of the emergency
 - viii. The health plan must notify DHS of any contract flexibilities or extensions needed during the course of the emergency or disaster. DHS will maintain a health plan emergency/disaster response guide to document any such approved flexibilities or revised deadlines, outside the contract amendment process.
 - ix. Permission from DHS, contingent on approval of content, to do one-time member outreach via text message to those who have not opted into text messaging, to inform members about the disaster or emergency, offer HMO resources or contact information, and instructions on how to opt into text messaging.
7. Business functions and dependent functions that must be maintained and services that must be restored, including key business information that would be required within 24 to 48 hours of a declared disaster or event.
 - a. Including the ability of providers and suppliers to provide ongoing services for maintaining critical operations, and
 - b. The level of ongoing monitoring and oversight provided by the HMO.
 8. Recovery time for each major business function, based on priority.
 9. Business workflow and workaround procedures, including alternate processing methods and performance metrics.
 10. Recording and updating business events information, files, and data, once business processes have been restored.
 11. Documentation of security procedures for protection of data through web-based cloud application.
 12. Verification that back-up copies are stored in a secure off-site location and tests are routinely performed on back-up copies.
 13. A description of an annual testing and evaluation plan.
 14. A description of the health plan familiarity with and involvement in the emergency government plan of the counties in which they are providing services. The health plan will negotiate the role of the health plan and the county roles in emergency response.

- a. Health plans must ensure annually the readiness of the plan by conducting exercises carrying out the plan's provisions, evaluate its performance and make necessary updates. The health plan must coordinate with local emergency management departments, local agencies and DHS prior to an event to understand local emergency management departments or agencies, and identify mechanisms for assistance at the local level.
15. A description of the steps that will be taken to ensure and preserve member safety and wellbeing in the event of a disruption or disaster.
- a. Care Coordination
 - i. The health plan must ensure that care coordination for all members are compliant with the health plan's emergency recovery plan. In particular, care coordination for members whose health or behavioral health condition has been treated by specialty care providers or whose health could be placed in jeopardy if covered service are disrupted or interrupted.
16. Emergency Recovery Plan
- a. The Emergency Recovery Plan shall address, at a minimum, the following recovery aspects related to the management information system and where appropriate, use web-based cloud applications:
 - i. Verification of adequate back-up and recovery systems in compliance with federal and state rules and regulations.
 - ii. Communication plan for critical personnel, key stakeholders and business partners involved in the health plan's management information system.
 - 1. Including the health plan's ability to provide continuous services to members and maintain critical operations in the even employees are unavailable to work remotely for extended periods of time.
 - iii. Periodic back-up which is adequate and secure for all computer software and operating programs; databases; files; and system operations, and user documentation (e.g., electronic, non-electronic, incremental, full).
 - iv. Full and complete back-up copies of all data and software.
 - v. Verification that back-up copies are stored in a secure off-site location and tests are routinely performed on back-up copies.
 - vi. Policies and procedures for purging outdated backup data.

- vii. Plan that supports the immediate restoration and recovery of lost or corrupted data or software resulting from the event of a disaster.

17. Upon DHS request, health plans shall submit an ‘After Emergency Report’ to DHS after the federal or state declared disaster is completed to provide feedback on success and challenges faced during the emergency.

14. Interoperability and Access to Health Information – Patient Access Application Programming Interface (API, Provider Directory API, and Payer-to-Payer Data Exchange)

The HMO shall implement requirements from the CMS “Interoperability and Patient Access for Medicare Advantage Organization and Medicaid Managed Care Plans, State Medicaid Agencies, CHIP Agencies and CHIP Managed Care Entities, Issuers of Qualified Health Plans on the Federally-facilitated Exchanges, and Health Care Providers” final rule (85 FR 25510). The HMO shall implement these interoperability requirements in accordance with the applicable specifications of the Office of the National Coordinator’s (ONC’s) “21st Century Cures Act: Interoperability, Information Blocking, and the ONC Health IT Certification Program” companion final rule (85 FR 25642).

The HMO shall implement:

1. Patient Access Application Programming Interface (API): The HMO shall provide members with the ability to access their own personal health information, including structured claims and encounter information, costs, and a defined sub-set of their clinical information as outlined at 42 CFR § 422.119, 42 CFR § 431.60, 42 CFR § 457.730, and 45 CFR § 156.221, specifically for the Patient Access API, and current version of the United States Core Data for Interoperability (USCDI) dataset. The HMO will be responsible for the Patient Access API, including all applicable technology standards, supporting technology infrastructure, and security protocols required to conform with the CMS final rule. This information shall be provided via an HL7 FHIR compliant standards-based API available to third-party applications of the member’s choice.
2. Provider Directory API: The HMO shall make their Member-enrolled HMO provider directory information publicly available via an HL7 FHIR complaint standards-based API per the requirements outlined at 42 CFR § 438.242(b)(6) and 42 CFR § 457.1233(d). At a minimum, the HMO must make the provider names, addresses, phone numbers, and specialties available.
3. Payer-to-Payer Data Exchange: The HMO shall provide members with the ability to exchange certain patient clinical data (specifically the current version of the U.S. Core Data for Interoperability (USCDI) data set). Members shall have the ability to request the transfer of all clinical data from an assigned payer to a future payer to enable health data portability. The HMO is required to conform with 42 CFR 438.62(b)(1)(vi) & (vii) for Medicaid managed care plans (and by extension under § 457.1216 CHIP managed care entities) and implement a process for this data exchange beginning January 1, 2022.

4. HMO shall review the **ONC 21st Century Cures Act Final Rule** to determine its obligation to comply with the final rule. Specifically, HMO shall review the terms “Health Information Exchange” (HIE) and “Health Information Network” (HIN) which are defined in 45 CFR § 171.102, and the exceptions to information blocking as amended by Section 4004 of the Cures Act and as found in 42 USC § 300jj-52, in relation to their contractual and financial relationships. If the HMO meets the definition for an HIE/HIN as it pertains to information blocking, HMO shall comply with all the requirements set forth in the rule.
5. Access to Educational Materials: Pursuant to 42 CFR § 431.60(f) and 42 CFR § 457.730(f), HMO shall develop educational resources regarding privacy and security, including information regarding the possible risk of sharing their data with third-party app and how members can protect the privacy and security of their health information in non-technical, simple and easy-to-understand language. The HMO shall publish these resources on its publicly accessible website.

HMOs must make documentation related to implementation of these requirements as required in the CMS final rule (85 FR 25510) available to Wisconsin Division of Medicaid Services upon request.

D. Confidentiality of Records and HIPAA Requirements

The parties agree that all information, records, and data collected in connection with this Contract will be protected from unauthorized disclosure as provided in Chapter 49, Subchapter IV, Wis. Stats., DHS 108.01, Wis. Adm. Code, 42 CFR Part 431 Subpart F, 42 CFR Part 438 Subpart F and 45 CFR Parts 160, 162, and 164 and any other confidentiality law to the extent that these requirements apply. Except as otherwise required by law, rule or regulation, access to such information shall be limited by the HMO and the Department to persons who, or agencies which, require the information in order to perform their duties related to this Contract, including the U.S. Department of Health and Human Services and such others as may be required by the Department.

1. Duty of Non-Disclosure and Security Precautions

Contractor shall not use Confidential Information for any purpose other than the limited purposes set forth in the Agreement. Contractor shall hold the Confidential Information in confidence, and shall not disclose such Confidential Information to any persons other than those directors, officers, employees, and agents (“Representatives”) who have a business-related need to have access to such Confidential Information in furtherance of the limited purposes of this Agreement and who have been apprised of, and agree to maintain, the confidential nature of such information in accordance with the terms of this Agreement. Contractor shall be responsible for the breach of this Agreement by any of its Representatives.

Contractor shall institute and/or maintain such procedures as are reasonably required to maintain the confidentiality of the Confidential Information, and shall apply the same level of care as it employs to protect its own confidential information of like nature.

Contractor shall ensure that all indications of confidentiality contained on or included in any item of Confidential Information shall be reproduced by Contractor on any reproduction, modification, or translation of such Confidential Information. If requested by the State, Contractor shall make a reasonable effort to add a proprietary notice or indication of confidentiality to any tangible materials within its possession that contain Confidential Information of the State, as directed.

If requested by the State, Contractor shall return or destroy all Individually Identifiable Health Information and Personally Identifiable Information it holds upon termination of this Agreement.

2. Limitations on Obligations

The obligations of confidentiality assumed by Contractor pursuant to this Agreement shall not apply to the extent Contractor can demonstrate that such information:

- is part of the public domain without any breach of this Agreement by Contractor;
- is or becomes generally known on a non-confidential basis, through no wrongful act of Contractor;
- was known by Contractor prior to disclosure hereunder without any obligation to keep it confidential;
- was disclosed to it by a third party which, to the best of Contractor's knowledge, is not required to maintain its confidentiality;
- was independently developed by Contractor; or
- is the subject of a written agreement whereby the State consents to the disclosure of such Confidential Information by Contractor on a non-confidential basis.

3. Legal Disclosure

If Contractor or any of its Representatives shall be under a legal obligation in any administrative, regulatory or judicial circumstance to disclose any Confidential Information, Contractor shall give the State prompt notice thereof (unless it has a legal obligation to the contrary) so that the State may seek a protective order or other appropriate remedy. In the event that such protective order is not obtained, Contractor and its Representatives shall furnish only that portion of the information that is

legally required and shall disclose the Confidential Information in a manner reasonably designed to preserve its confidential nature.

4. Unauthorized Use, Disclosure, or Loss

If Contractor becomes aware of any threatened or actual use or disclosure of any Confidential Information that is not specifically authorized by this Agreement, or if any Confidential Information is lost or cannot be accounted for, Contractor shall notify the State's (Contract Manager/Contact Liaison/Privacy Officer) within the same business day the Contractor becomes aware of such use, disclosure, or loss. Such notice shall include, to the best of the Contractor's knowledge at that time, the persons affected, their identities, and the Confidential Information disclosed.

The Contractor shall take immediate steps to mitigate any harmful effects of the unauthorized use, disclosure, or loss. The Contractor shall reasonably cooperate with the State's efforts to seek appropriate injunctive relief or otherwise prevent or curtail such threatened or actual breach, or to recover its Confidential Information, including complying with a reasonable Corrective Action Plan.

If the unauthorized use, disclosure, or loss is of Personally Identifiable Information, or reasonably could otherwise identify individuals, Contractor shall, at its own cost, take any or all of the following measures that are directed by the State as part of a Corrective Action Plan:

- a. Notify the affected individuals by mail or the method previously used by the State to communicate with the individual. If the Contractor cannot with reasonable diligence determine the mailing address of the affected individual and the State has not previously contacted that individual, the Contractor shall provide notice by a method reasonably calculated to provide actual notice.
 - 1) Notify consumer reporting agencies of the unauthorized release.
 - 2) Offer credit monitoring and identity theft insurance to affected individuals from a company, and under terms, acceptable to the State for one year from the date the individual enrolls in credit monitoring.
 - 3) Provide a customer service or hotline to receive telephone calls and provide assistance and information to affected individuals during hours that meet the needs of the affected individuals, as established by the State.

- 4) Adequately staff customer service telephone lines to assure an actual wait time of less than five (5) minutes for callers.

5. Trading partner requirements under HIPAA

For the purposes of this section Trading Partner means the HMO.

a. Trading Partner Obligations

- 1) Trading Partner must not change any definition, data condition or use of a data element or segment as proscribed in the HHS Transaction Standard Regulation (45 CFR § 162.915(a)).
 - 2) Trading Partner must not add any data elements or segments to the maximum data set as proscribed in the HHS Transaction Standard Regulation (45 CFR § 162.915(b)).
 - 3) Trading Partner must not use any code or data elements that are either marked “not used” in the HHS Transaction Standard’s implementation specifications or are not in the HHS Transaction Standard’s implementation specifications (45 CFR § 162.915(c)).
 - 4) Trading Partner must not change the meaning or intent of any of the HHS Transaction Standard’s implementation specifications (45 CFR § 162.915(d)).
 - 5) Trading Partner must submit a new Trading Partner profile form in writing if any of the information provided as part of the Trading Partner profile form is modified.
- b. Trading Partner understands that there exists the possibility that the Department or others may request an exception from the uses of a standard in the HHS Transaction Standards. If this occurs, Trading Partner must participate in such test modification (45 CFR § 162.940 (a) (4)).
- c. Trading Partners or Trading Partner’s Business Associate have responsibilities to adequately test business rules appropriate to their types and specialties.
- d. Trading Partner or their Business Associate agrees to cure transaction errors or deficiencies identified by the Department.

- e. Trading Partner or Trading Partner's Business Associate understands that from time-to-time HHS may modify and set compliance dates for the HHS Transaction Standards. Trading Partner or Trading Partner's Business associate must incorporate by reference any such modifications or changes (45 CFR § 160.104).
- f. The Department and the Trading Partner agree to keep open code sets being processed or used for at least the current billing period or any appeal period, whichever is longer (45 CFR § 162.925 (c)(2)).
- g. Privacy
 - 1) The Trading Partner or the Trading Partner's Business Associate will comply with all applicable state and federal privacy statutes and regulations concerning the treatment of Protected Health Information (PHI).
 - 2) The Department and the Trading Partner or Trading Partner's Business Associate will promptly notify the other party of any unlawful or unauthorized use or disclosure of PHI that may have an impact on the other party that comes to the party's attention, and will cooperate with the other party in the event that any litigation arises concerning the unlawful or unauthorized disclosure or use of PHI.
 - 3) The Department retains all rights to seek injunctive relief to prevent or stop the unauthorized use or disclosure of PHI by the Trading Partner, Trading Partner's Business Associate, or any agent, contractor or third Party that received PHI from the Trading Partner.
- h. Security
 - 1) The Department and the Trading Partner or Trading Partner's Business Associate must maintain reasonable security procedures to prevent unauthorized access to data, data transmissions, security access codes, envelope, backup files, and source documents. Each party will immediately notify the other party of any unauthorized attempt to obtain access to or otherwise tamper with data, data transmissions security access codes, envelope, backup files, source documents other party's operating system when the attempt may have an impact on the other party.

- 2) The Department and the Trading Partner or Trading Partner's Business associate must develop, implement, and maintain appropriate security measures for its own operating system. The Department and the Trading Partner or Trading Partner's Business Associate must document and keep current its security measures. Each party's security measure will include, at a minimum, the requirements and implementation features set forth in 'site specific HIPAA rule' and all applicable HHS implementation guidelines.

6. Indemnification

In the event of a breach of this Section by the HMO the HMO shall indemnify and hold harmless the State of Wisconsin and any of its officers, employees, or agents from any claims arising from the acts or omissions of the HMO, and its subcontractors, employees and agents, in violation of this Section, including but not limited to costs of monitoring the credit of all persons whose Confidential Information was disclosed, disallowances or penalties from federal oversight agencies, and any court costs, expenses, and reasonable attorney fees, incurred by the State in the enforcement of this Section. In addition, notwithstanding anything to the contrary herein, the HMO shall compensate the State for its actual staff time and other costs associated with the State's response to the unauthorized use or disclosure constituting the breach.

7. Equitable Relief

The HMO acknowledges and agrees that the unauthorized use, disclosure, or loss of Confidential Information may cause immediate and irreparable injury to the individuals whose information is disclosed and to the State, which injury will not be compensable by money damages and for which there is not an adequate remedy available at law. Accordingly, the parties specifically agree that the State, on its own behalf or on behalf of the affected individuals, shall be entitled to obtain injunctive or other equitable relief to prevent or curtail any such breach, threatened or actual, without posting security and without prejudice to such other rights as may be available under this Agreement or under applicable law.

8. Liquidated Damages

The HMO agrees that an unauthorized use or disclosure of Confidential Information may result in damage to the State's reputation and ability to serve the public interest in its administration of programs affected by this Agreement. Such amounts of damages which will be sustained are not calculable with any degree of certainty and thus shall be the amounts set forth herein. Assessment under this provision is in

addition to other remedies under this Agreement and as provided in law or equity. The State shall assess damages as appropriate and notify the HMO in writing of the assessment. The HMO shall automatically deduct the damage assessments from the next appropriate monthly invoice, itemizing the assessment deductions on the invoice.

Liquidated Damages shall be as follows:

- a. \$100 for each individual whose Confidential Information was used or disclosed;
- b. \$100 per day for each day that the HMO fails to substantially comply with the Corrective Action Plan under this Section.
- c. Damages under this Section shall in no event exceed \$50,000 per incident.

9. Compliance Reviews

The State may conduct a compliance review of the HMO's security procedures to protect Confidential Information.

10. Survival

This Section shall survive the termination of the Agreement.
Party in Interest

The HMO agrees to report to the state and, upon request, to the Secretary of the U.S. Department of Health & Human Services (DHHS), the Inspector General of the U.S. DHHS, and the Comptroller General a description of transactions between the HMO and a party in interest (as defined in section 1318(b) of such Act), including the following transactions:

- Any sale or exchange, or leasing of any property between the HMO and such a party.
- Any furnishing for consideration of goods, services (including management services), or facilities between the HMO and such a party, but not including salaries paid to employees for services provided in the normal course of their employment.
- Any lending of money or other extension of credit between the HMO and such a party.

E. Declaration of National or State Emergencies/Disasters:

In the event of a Federal or State declared emergency or disaster, DHS has the ability to modify or waive contractual obligations and regulations on health plans that are necessary to address the emergency or disaster. DHS will maintain documentation of any modifications to or waivers of contract requirements, including effective and end dates for each change. DHS reserves the right to identify flexibilities or waivers of contract requirements for DHS responsibilities, if DHS is impacted by the emergency or disaster. This may include, but is not limited to, extension of deadlines or timeframes for DHS or subcontractor activities.

The health plan must follow all relevant ForwardHealth Updates or other DHS communications issued during a federal or state disaster to ensure members continue to receive all medically necessary services.

ARTICLE XII: REPORTS AND DATA

A. Required Use of the Secure ForwardHealth Portal

The HMO must request a secure ForwardHealth Portal account to access data and reports, maintain information, conduct financial transactions and other business with DHS. When the HMO requests an account, the designated HMO contact will receive a PIN via their email address. The PIN is used to access specific HMO information on the Portal.

The HMO must assign users roles/permissions within the secure ForwardHealth Portal account to ensure only authorized users have access to data and functions provided. The HMO must ensure all users understand and comply with all HIPAA regulations.

Detailed information can be found at:

<https://www.forwardhealth.wi.gov/WIPortal/Account/Setup/tabId/111/Default.aspx>

B. Access to and/or Disclosure of Financial Records

The HMO and any subcontractors must make available to the Department, the Department's authorized agents, and appropriate representatives of the U.S. Department of Health and Human Services any financial records of the HMO or subcontractors that relate to the HMO's capacity to bear the risk of potential financial losses, or to the services performed and amounts paid or payable under this Contract. The HMO must comply with applicable record keeping requirements specified in Wis. Adm. Code ss. DHS 105.02(1)-(7) as amended.

C. Access to and Audit of Contract Records

Throughout the duration of this Contract, and for a period of ten years after termination of this Contract, the HMO must provide duly authorized representatives of the state (including the Office of the Inspector General) or federal government access to all records and material relating to the HMO's provision of and reimbursement for activities contemplated under the Contract. Such access shall include the right to inspect, audit and reproduce all such records and material, including but not limited to computer records system, invoices, and to verify reports furnished in compliance with the provisions of this Contract. All information so obtained will be accorded confidential treatment as provided under applicable laws, rules or regulations. Refusal to provide required materials during an audit may subject the HMO to sanctions in Article XIV, Section C.

D. Encounter Data and Reporting Requirements

The HMO is responsible for complying with the Department's data storage and reporting requirements and must submit compliant encounter data files. HMO staff will participate with the Department in the planning and development of data reporting requirements for

implementation during the term of this contract consistent with all HIPAA and MSIS/TMSIS requirements applicable to the HMO. This participation includes attending technical calls, contract administrator meetings, workgroup meetings, and individual HMO meetings with the Department to address changes in requirements, local applications or databases. The HMO must cooperate with the Department on data submission protocol and testing. The Department or its designees reserves the right to conduct on-site inspections and/or audits prior to awarding the Contract and anytime thereafter. Per 42 CFR 438.602(e), the Department will conduct an independent audit of the accuracy, truthfulness, and completeness of the encounter data submitted by, or on behalf of, each HMO no less frequently than once every three years.

1. Data Management and Maintenance: The HMO must have a system that is capable of processing claims, submitting compliant encounters, monitoring enrollment and disenrollment, and meeting reporting requirements. The required formats and timelines are specified in Article XII, Section K.
 - a. The HMO must participate in HMO encounter technical workgroup meetings scheduled by the Department.
 - b. The HMO must capture and maintain a claim record of each service or item provided to members, using CMS 1500, UB-04, HIPAA transaction code sets, or other claim, or claim formats that are adequate to meet all reporting requirements of this Contract. The original claim submitted by the provider must be stored and retrievable upon request by either the Department or CMS.
 - c. The database must be a complete and accurate representation of all services the HMO provided during the Contract period.
 - d. The HMO is responsible for monitoring the integrity of the database, and facilitating its appropriate use for such required reports as encounter data and targeted performance improvement studies.
 - e. The HMO is responsible for maintaining unique identifiers assigned by the Department or its designee such as the identification number assigned to each submitted encounter. The HMO must maintain all national code sets and Department specific fields as defined in ForwardHealth and the HMO Encounter User Guide.
 - f. The HMO is responsible for updating and testing new versions of national codes sets and/or state specific code set.
 - g. The HMO must submit adjudicated clean claims as encounters no later than 120 days after the date the HMO adjudicates the claim. If an HMO paid encounter is denied within the Department's Medicaid Management Information System (MMIS), the HMO has 90 days to resolve the encounter to priced status within the system. HMOs are not subject to the penalty under

Section E(2) for failure to submit encounter within 120 days after the date the HMO adjudicates the claim.

- h. The HMO shall not alter encounters with dates of service older than two years of the current year. For example, if the current calendar year is 2015, the HMO must not alter encounters with a date of service of 2012 or older.
- 2. Program Integrity and Data Usage: The HMO shall establish written policies, procedures, and standards of conduct that articulate the organization's commitment to comply with all applicable data processing and safeguarding requirements and standards under the contract, and all applicable Federal and state requirements. This documentation must be kept current and be provided to the department upon request.
 - a. This requirement extends to all subcontractors to the extent that the subcontractor is delegated responsibility by the HMO. The HMO is responsible for ensuring that data usage agreements and procedures are in place with providers and contractors that facilitate complete, accurate and timely encounter submissions to the Department.
 - b. The Department retains the right to analyze encounter data and use it for any purpose it deems necessary. The Department will ensure that the analysis does not violate the integrity of the reported data submitted by the HMO.
- 3. Testing and Certification Requirements: The electronic test encounter data files are subject to Department review and approval before production data is accepted by the Department. Production encounters or other documented encounter data must be used for the test data files.
 - a. The HMO must notify the Department of all significant personnel changes and system changes that may impact the integrity of the data, including new claims processing vendors and significant changes in personnel.
 - b. A new HMO must test the encounter data set until the Department is satisfied that the HMO is capable of submitting valid, accurate, and timely encounter data according to the schedule and timetable. A new HMO must become certified to submit compliant encounters within six months of their start date.
 - c. The HMO must provide a three month notice to the Department in advance of transition to a new claims processing system and/or third party administrator. The new system must become certified by the Department or its designee to submit compliant encounters within six months of its start date.
- 4. Data Exchange Requirements: All encounter submissions must be in a HIPAA compliant ASC X12 transaction format.
 - a. The HMO must follow the data specifications defined in the Encounter User Guide and must submit encounters that conform to national standards as well as specific Departmental requirements.

- b. The HMO must enter itself as an other payer on the encounter, identifying the amount and the date the HMO paid its provider.
 - c. The HMO must process all the HMO specific files as defined in the HMO Report Matrix on ForwardHealth. All enrollment, encounters, response, capitation, provider, error reports and special program files must be processed in a timely and accurate manner.
- 5. Performance Requirements: The HMO must submit accurate and complete encounter data that the Department can use for rate-setting, P4P, Federal Reporting, special programs and any other purpose deemed necessary by the Department. The HMO must track metrics used by the Department to confirm that data is accurate and complete. Any deficiencies in the metrics must be reported to the Department within 15 days of the HMO identifying the problem. The HMO must complete a quarterly progress report due on April 30th, July 30th, October 30th and January 30th. The Progress Report and Template is posted to the Managed Care Section in ForwardHealth. The completed progress report and/or any deficiencies in the metrics should be submitted to DHSDMSBRS@dhs.wisconsin.gov.
- 6. The Chief Operating Officer or their designated authority must attest to the following metrics included on the report:
 - a. Encounter Volume — The HMO must submit encounters with a consistent volume from month to month. HMOs provide expected average monthly volume on the quarterly progress report. An inconsistency is defined as a volume that is sustained for more than three months that is greater than 10 percent lower than the expected monthly volume.
 - b. Pricing Percentage — The HMO must achieve and maintain a consistent Pricing Percentage of 95 percent for a 12 month period over all Institutional, Professional and Dental claim types. The HMO must report a deficiency in pricing percent that lasts greater than three months.
 - c. Encounter Completeness for Rate Base Periods — The HMO must provide an estimate of the completeness of their encounter data for the base period. Completeness is defined in the Progress Report and Template. The Department expects the HMO to achieve a level of completeness that the Department and the Department's actuaries agree are credible for rate-setting purposes.
 - d. The HMO must identify any gaps or defects in the data using the Data Exclusions section of the quarterly progress report. The HMO must identify data exclusions in enough detail to allow the Department's actuaries to preserve as much data as possible for rate-setting purposes and exclude only the time period or category or data that is problematic. For example, if there is missing data for a time period, the HMO should provide exact dates of service that should be excluded.

7. Non-Compliance Resolution Process: The Department shall have the right to audit any records of the HMO and to request any additional information. If at any time the Department determines that the HMO has not complied with any requirement in this section, the Department will issue a corrective action to the HMO. The HMO shall comply within the timeframe defined in the corrective action. If the HMO fails to comply, the Department may pursue action against the HMO as provided under Article XIV, Section C.

E. Encounter Data Quality Criteria

HMOs must meet the following encounter data quality criteria on an annual basis.

- The submitted encounter data for the overlapping year in the base period must not exceed a 5% missing data adjustment as determined by the Department's actuary. An example of an overlapping year in the base period is: for the CY2018 rates, the two base periods are CY2015 and CY2016. The overlapping year is CY2015 as it was used in both the CY2017 and CY2018 rates.
- The submitted encounter data for the current year in the base period must not exceed a 10% missing data adjustment as determined by the Department's actuary. An example of a current year in the base period is: for the CY2018 rates, the two base periods are CY2015 and CY2016. The current year is CY2016 as it is the newest base period year.

The encounter data quality criteria will be applied starting with the 2019 rate setting process which will use CY2016 as the overlapping year and CY2017 as the current year. In future years, the Department will communicate annually what the overlapping and current base period years are as part of the rate-setting process. If a HMO is unsure what the over-lapping and current years are for rate setting, it is their responsibility to seek clarification from the department.

The missing data adjustment is calculated by dividing the HMO's financial report template per member per month (PMPM) for each base period by the corresponding year's HMO paid PMPM reported in the encounter data. For the purposes of the quality calculation, the percentage will be rounded up or down to the nearest whole percentage (e.g. 5.4% rounds to 5% and 5.5% rounds to 6%).

The Department will notify each HMO annually as part of the rate setting process what their missing data adjustment is for each of the base periods.

1. Right of Appeal

HMOs will have no more than 45 days from the date they receive their missing data adjustment to submit an appeal letter to the Department.

The appeal letter can be sent to the BRS email box at:
DHSDMSBRS@dhs.wisconsin.gov.

If the Department determines the appeal to be valid, the missing data adjustment will be updated for the rate setting process to reflect the new value. The HMO may also be required to resubmit any of the impacted encounter data or financial template information outlined in the appeal.

2. Failure to Meet the Encounter Data Criteria

HMOs will be subject to financial penalties outlined below for each year in which they fail to meet the encounter data criteria relating to missing data. Penalties will begin with the 2019 rate setting process. In addition to the financial penalties, the HMO will be placed on a corrective action plan (CAP) as a result of the Department finding the HMO out of compliance with encounter data quality standards.

- a. First year: A \$100,000 penalty.
- b. Second year: A \$200,000 penalty.
- c. Third year: A \$500,000 penalty. The department may also elect to end auto-enrollment in addition to the financial penalties above. Or, the department may separately choose to terminate the contract at its discretion.
- d. Fourth year: Contract termination.

A HMO must fail the encounter data criteria in consecutive years in order to progress to the higher level penalties. A HMO meeting all of the encounter data criteria for a year resets the penalties to the beginning year. An example of the progressive penalties is outlined below:

- Example: A HMO fails one of the encounter data criteria for two years in a row. The HMO would be subject to the second year penalty.
- Example: A HMO fails one of the encounter data criteria for two years in a row. In the third year it successfully meets all of the criteria. In the fourth year it fails one of the criteria and will be assessed the first year penalty.

F. Coordination of Benefits (COB), Encounter Record, Member Grievances and Appeals, and Birth Cost Reporting Requirements

The HMO agrees to furnish to the Department and to its authorized agents, within the Department's time frame and format, information that the Department requires to administer this Contract, including but not limited to the following:

1. Encounter Record for Each Member Service

An encounter record for each service provided to members covered under this Contract. The encounter data set must include at least those data elements specified in the Encounter User Guide or elements required by the national standards.

2. Member Grievances and Appeals to the HMO

Copies of all member grievances and appeals and documentation of actions taken on each grievance and appeal.

3. Birth Cost (BadgerCare Plus Only)

As specified in Addendum IV, B.

G. Records Retention

The HMO must retain, preserve and make available upon request all records relating to the performance of its obligations under the Contract, including paper and electronic claim forms, for a period of not less than ten years from the date of termination of this Contract. Records involving matters that are the subject of litigation or audit shall be retained for a period of not less than ten years following the termination of litigation or audit. Copies of the documents contemplated herein may be substituted for the originals with the prior written consent of the Department, if the Department approves the microfilming procedures as reliable and supported by an effective retrieval system.

H. Reporting of Corporate and Other Changes

The HMO must report to the Department through their Managed Care Analyst any change in corporate structure or any other change in information previously reported, such as through the application for certification process. The HMO must report the change upon submission of the Application of Change in Domestic Company Status with the Office of the Commissioner of Insurance. .

1. Any change in information relevant to ineligible organizations.

2. Any change in information relevant to ownership and business transactions of the HMO.

I. Provider and Facility Network Data Submission

1. The HMO that contracts with the Department to provide BadgerCare Plus and/or Medicaid SSI services must submit a detailed provider network and facility file monthly and when the HMO experiences significant change with respect to network adequacy (as defined in Art. V, F.), to the State's SFTP. The file must be submitted using the format specified in the ForwardHealth Encounters and Reporting Provider Network Universe.
2. The provider network and facility file shall include only Medicaid-enrolled providers who are contracted with the HMO to provide contract services to BadgerCare Plus and Medicaid SSI members.
3. HMO must submit complete and accurate provider network and facility data. The Department will provide the HMO with the required file format layout and data fields. The Department retains the right to conduct audits of provider and facility data for completeness and accuracy during the contract period. Incomplete or inaccurate provider and/or facility data may subject the HMO to administrative sanctions outlined in Article XIV, Section C.

J. Financial Template

1. Annual Reporting

The HMO is required to submit financial templates per the schedule and instructions provided in the financial template.

As instructed in the Annual HMO Financial Audit Guide, the HMO is required to submit a Medicaid supplemental schedule along with the financial template. The Medicaid supplemental schedule will specifically segregate the financial results for the BadgerCare Plus and Medicaid SSI contract from other lines of business for the required audit period and be reported on a GAAP basis. The supplemental schedule must provide assurance that the financial template information submitted to DHS by the HMO is verifiable, complete and ties to the other audited financial statements, and must be submitted in accordance with the instructions stated in the HMO Annual Financial Audit Guide.

The internal audit and subsequent Medicaid supplemental schedule must be certified by an independent auditor.

Additionally, the HMO must provide the department all work papers used to verify that the financial template was accurate per the CMS Citation 438.3(m).

If the auditor is unable to verify the accuracy of the financial template the HMO must notify the department immediately with a plan which will allow them to submit a template which is verifiable per the CMS citation.

The letter and work papers must be submitted to the Department at both DHSDMSBRS@dhs.wisconsin.gov and DHSOIGManagedCare@dhs.wisconsin.gov.

The Financial Template can be found on the ForwardHealth Portal.

If the HMO is unable to deliver any of the required materials by the due date, they must request an extension within five business days by emailing the request to: DHSDMSBRS@dhs.wisconsin.gov. The HMO must provide an alternative due date as part of the request.

The HMO will be responsible for using the most updated version of the guide posted to the website. Questions on the financial reports should be directed by email to: DHSDMSBRS@dhs.wisconsin.gov.

2. Quarterly Reporting

The HMO is required to submit financial information on a quarterly basis to help identify emerging trends in service delivery. A quarterly template will be distributed to the HMO and is to be completed 45 days after the end of each quarter. The HMO will be notified and provided with updated versions as necessary. The HMO is required to submit the quarterly financial report per the schedule and instruction provided in the most recent version of the quarterly financial report template provided by DHS.

3. Financial and Encounter Independent Audit

The Department will conduct an independent audit of the accuracy, truthfulness, and completeness of the financial and encounter data submitted by, or on behalf of, each HMO no less frequently than once every three years.

The HMO must comply timely with all reasonable requests made by the independent auditor. This includes but is not limited to providing them on-site work space and access to materials and staff necessary to perform the audit.

The following costs are excluded from rate setting:

- Advertising and Marketing, unless permissible as part of the HMO and PIHP Communication, Outreach, and Marketing Guide
- Lobbying
- Charitable Contributions and Donations
- Regulatory Fines and Penalties
- Travel Costs beyond those necessary to provide member healthcare services or economical administration of the Wisconsin Medicaid program
- Entertainment

Unallowable costs must be reported in the identified section of the financial reporting template. The department reserves the right to make adjustments to financial submissions for costs deemed unallowable based on Department or auditor review.

K. Contract Specified Reports and Due Dates

WEEKLY REPORTS		
HMO Provider Network	List of all providers in the HMO network. Submit via the SFTP. (See the File Submission Specification Guide)	Article V, F
MONTHLY REPORTS		
Summary Hospital Access Payment Report	Summary of prior month's access payment.	Addendum IV, F
Summary Critical Access Hospital (CAH) Access Payment Report	Summary of prior month's access payment.	Addendum IV, G Article XVI, L, 2
HMO Newborn Report	Listing of births occurring in prior month. Email fiscal agent on SFTP. This report contains PHI and is used for enrollment purposes.	Addendum IV, C Use form in contract
HMO Prior Authorization Data	Send member prior authorization data on a monthly basis via the SFTP. The data should include prior authorizations for the past year.	See Care Coordination Report specs on ForwardHealth (https://www.forwardhealth.wi.gov/WIPortal/content/Managed%20Care%20Organization/Encounters_and_Reporting/Home.htm.spage).
Supplier Diversity Report	Send monthly reports regarding the HMO's subcontracts with DOA certified MBEs and DVBs	Article XII, P
QUARTERLY REPORTS		
1 ST QUARTER: (Jan-March); 2 ND QUARTER: (April – June); 3 RD QUARTER: (July – Sept); 4 TH QUARTER: (Oct – Dec)		
Attestation Form	Send quarterly attestation form to the BRS. Due date schedule is: 1 st Quarter – April 30 2 nd Quarter – July 30 3 rd Quarter – Oct 30 4 th Quarter – Jan 30	Addendum IV, H Forms are located in ForwardHealth.
Encounter Data Coordination of Benefit Report	Send quarterly Coordination of Benefit reports to your DHS managed care analyst, by password protected attached email. Due date is 45 days within end of quarter.	Addendum IV, A Use form in contract

Grievance & HMO Appeal Summary Report	Send quarterly summary grievance and appeal reports to DHS by password protected attached email. Report includes PHI. Due date is within 30 days of end of quarter.	Addendum IV, E Use form in Grievance and Appeal Guide.
Ventilator Dependent Form and Report	Ventilator reports are due 30 days after the end of each quarter. The reports include PHI and should be sent to BRS Ventilator Analyst via SFTP site.	Article XVI, J Use form in contract.
Financial Report	The HMO is required to submit financial information on emerging trends	Article XII.J
Provider Appeals	The HMO is required to submit provider appeal log and data summary	Article VIII.A.6
ANNUAL REPORTS		
Member Communication and Education / Outreach Plan	Send to your DHS managed care analyst via password protected email attachment. Marketing Plan due on second Friday of January.	Article VI, A, 1-4 Article VI, D
Dental Service QI Report	Send to DHS managed care analyst by password protected email attachment. Submit annually on first business day of July.	Article X, H
Performance Improvement Project (PIP) Final Project	Send to your DHS managed care analyst and EQRO contact by password protected email attachment. Report due on the 1 st business day of July for the prior calendar year.	Article X, J
Annual Financial Report	Financial report for the previous calendar year to BRS by SFTP. Report is due on May 30.	Article XII, I
Initial Performance Improvement Project (PIP) aka PIP Proposal	Send to your DHS managed care analyst and EQRO contact by password protected email attachment. Topic Selection on first business day of December for the next calendar year.	Article X, J
OB Medical Home Annual Report	Previous year report due to DHS via DHSOBMH@wi.gov inbox. Due date is the first business Monday of June.	Article IV, D.1,g
Medical Loss Report (MLR)	The HMO must submit the MLR on June 1 of the following year with the annual financial reporting submission in the designated worksheet within the HMO Financial Reporting Template.	Article XII, O
Business Continuity Plan	The HMO must submit a business continuity plan by June 30 th .	Article XI.C.13
SUPPORT Act Compliance Report	The HMO must report on specific tools and/or protocols used by primary care providers when screening children on behavioral health	Article IV.B
Social Drivers of Health Screening	The HMO is required to submit information on screening for social drivers of health.	Article III.B.1.a.3
OTHER REPORTS		
Affirmative Action Plan Submit every 3 years	AA/CRC Office in the format specified on Vendor Net. Send to dhscontractcompliance@dhs.wisconsin.gov	Article XI, C, 4
Civil Rights Compliance Letter of Assurance and Plan	AA/CRC Office in the format specified in Article XI, C.4.b. Send to AA/CRC Coordinator dhscontractcompliance@dhs.wisconsin.gov	Article XI, C.4.b
Encounter Data File in (837I, 837P, 837D) format.	Send to Fiscal agent on SFTP.	Article XII, E

Court Ordered Birth Cost Report.	Send report to your by password protected email attachment. This report contains PHI. Submit on an as needed basis, and return via specified method from DHS Administrative staff.	Addendum IV, B
Communicable Disease Reporting (by HMO providers).	HMO providers must send report to the local health department. Report of human immunodeficiency virus (HIV) will be made directly to the State Epidemiologist. Providers should submit on an as needed basis.	Article XII, L
Fraud, Waste and Abuse Investigations.	The HMO must report allegations of fraud, waste, and abuse (both provider and member) to the Department within 15 days of the suspected activity coming to the attention of the HMO. Submit on an as needed basis.	Article XII, M.2
Abortions, Hysterectomies and Sterilizations.	The HMO must comply with state and federal compliance requirements for abortions, hysterectomies and sterilizations. Submit form with signatures on an as needed basis.	Article IV, F
Privacy and Security Incidents	Send information to your DHS managed care contract monitor the same day an incident occurs. Submit on an as needed basis.	Article XI, D
CMS Drug Utilization Review Report	HMOs are required to submit timely responses to report and survey requests as required by federal and/or state law or program policy.	Article XI, B
Daily EVV Authorization File	HMOs are required to submit a daily file for authorizations for personal care services.	Article IV(A)(12)
Daily EVV Visit File	HMOs are required to utilize a daily file that contains all verified provider network EVV visits.	Article IV(A)(12)
Out-of-Network Utilization Report	The HMO is required to submit an out-of-network utilization log.	Article XII.Q

BRS = Bureau of Rate Setting

Any reports that are due on a weekend or holiday are due the following business day.

The Department electronically produces multiple reports and resources for use by BadgerCare Plus and Medicaid SSI HMOs, which are listed at the following website:

https://www.forwardhealth.wi.gov/WIPortal/Tab/42/icscontent/Managed%20Care%20Organization/reports_data/hmomatrix.htm.spage.

L. Communicable Disease Reporting

As required by Wis. Stats. 252.05, mandated providers affiliated with a BadgerCare Plus and/or Medicaid SSI HMO shall report the appearance, suspicion or diagnosis of a communicable disease or death resulting from a communicable disease to the local health department for any member treated or visited by the provider. Reports of human immunodeficiency virus (HIV) infection shall be made directly to the State Epidemiologist. Such reports shall include the name, sex, age, residence, communicable disease, and any other facts required by the local health department and Wisconsin Division of Public Health. Such reporting shall be made within 24 hours of learning about the communicable disease or death or as specified in Wis. Adm. Code DHS 145. Charts and reporting forms on communicable diseases are available from the local health department. Each laboratory

subcontracted or otherwise affiliated with the HMO shall report to the local health department the identification or suspected identification of any communicable disease listed in Wis. Adm. Code DHS 145. Reports of HIV infections shall be made directly to the State Epidemiologist.

M. Program Integrity

1. Administrative Management Arrangements

The HMO must have documented administrative and management arrangements or procedures, and a mandatory compliance plan, that are designed to guard against fraud, waste and abuse. The HMO's arrangements or procedures must include the following:

- a. Written policies, procedures, and standards of conduct that articulate the HMO's commitment to comply with all applicable federal and state laws and rules.
- b. An organizational chart depicting the designation of a compliance officer and a compliance committee that is accountable to senior management.
- c. The establishment of a Regulatory Compliance Committee on the Board of Directors and at the senior management level charged with overseeing the HMO's compliance program and its compliance with contract requirements.
- d. A schedule of training and education for the Compliance Officer, the HMO's senior management, and the HMO's employees for the federal and state laws, rules and requirements, including program integrity under the contract.
- e. Documented lines of communication between the compliance officer, senior management and the HMO's employees.
- f. Enforcement of program integrity standards through well-publicized disciplinary guidelines.
- g. The establishment and implementation of documented procedures and a system with dedicated staff for:
 - 1) Routine internal monitoring and auditing of compliance risks related to provider network, including both prepayment and post-payment program integrity strategies;
 - 2) Prompt response to compliance issues, both internal and related to the provider network, as they are raised;
 - 3) Timely investigation of potential compliance problems, both internal and related to the provider network, identified in the course of self-evaluation and audits;
 - 4) Correction of such problems promptly and thoroughly to reduce the potential for recurrence;
 - 5) Ongoing compliance with the requirements under the contract.
- h. The identification of dedicated staff responsible for identifying, mitigating and preventing fraud, waste and abuse.
 - 1) The activities and performance of the identified staff are subject to audit/review by the DHS Office of the Inspector General (DHS OIG).

- 2) The HMO is required to respond to any corrective action or performance improvement activities specified in the written report to the HMO within the timeframes specified.
- i. A documented process to ensure a prompt response to detected offenses, and for development of corrective action initiatives relating to the HMO's contract.
- j. A method for verifying, on a quarterly basis, whether services that have been reported for payment have been delivered by network providers and received by the appropriate Medicaid member.
 - 1) The HMO must verify the provision of services with members for a least 100 paid encounters each quarter.
 - 2) The HMO must maintain appropriate records of these verifications.
 - 3) DHS will verify compliance with this requirement.
- k. If the HMO makes or receives annual payments under the contract of at least \$5,000,000, written policies for all employees of the entity, and of any contractor or agent, that provide detailed information about the False Claims Act and other federal and state laws described in section 1902(a)(68) of the Act, including information about right of employees to be protected as whistleblowers.
 - 1) Whistleblowers should report program integrity concerns to the DHS Office of Inspector General. Whistleblowers may make a report through the hotline (877-865-3432) or through the online portal: (<http://www.reprtfraud.wisconsin.gov/rptfrd/default.aspx>). The HMO is responsible for ensuring employees have access to this information.

2. Fraud, Waste and Abuse Investigations

The HMO must cooperate with the Department on fraud, waste and abuse investigations. The HMO must report all potential fraud, waste, and abuse, including any credible allegation of fraud, directly to the DHS OIG within 15 business days of the HMO's identification of the issue. The HMO may make a report through the hotline (877-865-3432) or through the online portal (<https://www.reportfraud.wisconsin.gov/rptfrd/default.aspx>).

- a. Reports of fraud, waste or abuse from an HMO must not be made anonymously, and these reports may be subject to open records laws.
- b. The HMO must collect preliminary information including available data, statements from appropriate parties, and other materials supporting the allegations. The DHS OIG SharePoint site can be utilized as a secure method to upload preliminary information and documentation along with the original referral that was submitted to the online portal or hotline. Following the report of the alleged fraud, waste or abuse, the HMO must continue to investigate the allegations of fraud unless otherwise directed by DHS OIG, Department of Justice Medicaid Fraud Control and Elder Abuse Unit, or other law enforcement or regulatory entity.

- c. If the HMO's investigation finds evidence of fraud, the HMO must collaborate with DHS OIG to complete the credible allegation of fraud referral form (F-02296) and compile appropriate exhibits to the form.
- d. The HMO must report allegations of only Medicaid fraud, waste and abuse to DHS OIG. It is unnecessary to report violations that occurred in the HMO's commercial line of business, or otherwise did not result in the loss of Medicaid funds.
- e. Failure on the part of the HMO to cooperate with these directives or report fraud, waste, or abuse may result in the DHS taking any applicable sanctions under Article XIV, Section D.
- f. Pursuant to 42 CFR 455.23, the authority of determining credible allegations of fraud rests with the Department of Health Services. All reports of potential Medicaid fraud must first be made to the DHS OIG. 1) If an HMO forwards a report of potential Medicaid fraud to any additional state or federal agency, the HMO shall notify the DHS OIG of that referral.

3. Suspension of Provider Payments

- a. The HMO agrees to cooperate with the Affordable Care Act (ACA) suspension of payment requirements. The HMO is prohibited from paying for an item or service furnished by an individual or entity to whom the state has suspended payments during any period when there is a pending investigation of a credible allegation of fraud against the individual or entity, unless the state determines there is good cause not to suspend such payments. The DHS Inspector General must review and authorize any request for a good cause exception.
- b. The HMO must have a documented process outlining the HMO's response to information in the provider file from the Department notifying the HMO of suspension of payment. The provider file sent by the Department to the HMO will have a field that will indicate the outcome of the credible allegation of fraud investigation. They are:
 - 1) A- ACA suspension of payment is currently active. The HMO must suspend payment based on the effective date for the start of the investigation.
 - 2) C – The provider has been cleared of the credible allegation of fraud investigation. There will be an end date for the investigation.
 - 3) T – The provider has been terminated due to the outcome of the credible allegation investigation. The contract's termination date will be listed in the provider file.
- c. The HMO must have a written process documenting its response to email notification of provider payment suspensions from the DHS OIG resulting from credible allegations of fraud, including but not limited to how the payments are suspended in the HMO's claims processing system and any required internal communications.
- d. The HMOs must have clearly defined criteria, policies, and procedures in place for suspending providers within their network independent of payment

suspensions issued by the DHS OIG. These policies and procedures must include notification of DHS within 24 hours of the suspension of payments using the DHSOIGManagedCare@wisconsin.gov email address. HMOs must also record these payment suspensions on the terminations/sanctions/suspensions tab of the Quarterly Program Integrity Report (F-02250).

4. Termination or Exclusion of Provider

The HMO must report providers terminated for cause by the HMO, as well as providers the HMO identifies as excluded, to DHS OIG. The HMO must send an email to DHSOIGManagedCare@wisconsin.gov with “Terminated/Excluded Provider” as the subject line. The body of the email should include the name of the provider, NPI and MA ID numbers, date of termination/exclusion, and reason for termination/exclusion. This information must also be captured on the Termination/Sanctions/Suspension tab in the Quarterly Program Integrity Report (F-02250). DHS OIG may follow up for additional information depending on the reason for termination.

5. Treatment of Recoveries Made by the HMO of Overpayments to Providers*

a. Pursuant to 42 CFR s 438.608(d), the HMO must attempt to recover all overpayments made to network providers, including those overpayments attributed to fraud, waste, and abuse, identified by the HMO. The HMO recovers the payments and retains the funds for all overpayments identified by the HMO, provider or DHS OIG. Any overpayment identified by DHS OIG would be an estimated overpayment based on the max fee schedules. The HMOs would be responsible for determining the actual overpayment amount.

b. The HMO must have a documented process requiring the network providers to return any overpayments they received. The HMO must share the documented process with all providers in the HMO’s network. The HMO must require the network providers to return overpayments within 60 days of the provider receiving written notification of the overpayment or, if self-identified by the provider, within 60 days of the provider’s discovery of the overpayment. The HMO must require the provider to notify the HMO of the reason for the overpayment. The HMO must appropriately reflect the recovery of all overpayments in the HMO’s encounter data and on Tab 3 of the Quarterly Program Integrity Report. Provider agreement language must require network providers to follow the same requirements when they self-identify an overpayment they have received.

6. HMOs must submit a monthly report of any capitation payments or other payments in excess of amounts specified in the contract within sixty (60) calendar days of identification as required by 42 CFR 438.608(c)(3). HMOs must submit the report via DHS OIG’s SharePoint site. The report must contain the following information:

a. The HMO’s name;

- b. The member's Medicaid number;
- c. The member's name;
- d. The month or number of days if partial month;
- e. The rate paid;
- f. The correct rate;
- g. The reason for the overpayment, if known;
- h. The original date the overpayment report to DHS; and
- i. The action taken by the HMO, if any.

*This provision does not apply to any amount of recovery retained under the False Claim Act cases or through other investigations.

7. Network Provider Audits

DHS OIG and DHS OIG's contracted program integrity (PI) vendors will conduct audits of the HMO's network providers. DHS OIG will utilize the fee-for-service max fee tables when assigning value to services provided in the audit. The HMO must collaborate with DHS OIG and DHS OIG's contracted PI vendors on all matters related to these audits including, but not limited to:

- a. Coordinating relative to scope and sample to prevent a duplication of audit efforts between DHS OIG and the HMO;
- b. Sharing claims-level data for program integrity purposes;
- c. Receiving copies of audit related communications between DHS OIG and contract PI vendors and the network providers;
- d. Engaging in audit resolution which may include technical assistance to both the plan and provider, corrective action plans administered by DHS, referrals to MFCEAU or DSPS, termination of a network provider's Medicaid certification, financial sanctions administered by DMS, under Article XIV, Section D, or other means by which the audit findings can be addressed;
- e. Ensuring audit findings are addressed across the HMO'S entire network of providers, not just the provider(s) included in DHS OIG's audit;
- f. Communicating recovery of any overpayments based on DHS OIG's audit findings:
 - 1) DHS OIG will not collect any overpayments based upon its audit but the HMO may choose to use DHS OIG's estimated value of the audit findings and seek recovery of the overpayment from the audited network provider. The HMO is entitled to keep the overpayment. Provider agreement language should be updated to reflect this activity if the HMO elects to identify and pursue overpayments based on DHS OIG's audit findings.
 - 2) The HMO must document the recovery of any overpayments associated with network provider audits conducted by DHS OIG or DHS OIG's contracted PI vendors on Tab 3 of the Quarterly Program Integrity Report by entering "OIG Audit (OIG case number)" in Column F "Reason for Recovery."

- 3) Network providers may appeal overpayments through the process identified in the HMO's provider agreement first, and subsequently follow the process outlined in Article VIII of this contract, if needed.
- g. Ensuring that provider agreements require the HMO's network providers to collaborate with DHS OIG and DHS OIG's contracted PI vendors in the following ways:
 - 1) Network providers must respond to requests for all records in a timely manner as specified in the record request letter.
 - 2) If a network provider would like to submit rebuttal to initial findings for consideration by DHS OIG or DHS OIG's contracted PI vendors, the network provider must submit the rebuttal documentation to DHS OIG or DHS OIG's contracted PI vendors by the date specified in the preliminary findings letter or amended preliminary findings letter.

8. Corrective Action Plans and Sanctions

DHS will issue any formal corrective action plans or sanctions related to non-compliance with this Article in accordance with Article XIV, Section D.

9. Quarterly Program Integrity Reporting Log

- a. The HMO must submit the Quarterly Program Integrity Reporting Log (F-02250) to DHS OIG on a quarterly basis. The log must be completed thoroughly and accurately and is due no later than the last business day of the month following the end of the calendar year quarter (April, July, October, and January). The Quarterly Program Integrity Reporting Log consists of the following four separate reporting categories:
 - 1) Program Integrity Log: Captures complaints regarding fraud, waste, and abuse received by the HMO warranting preliminary investigation.
 - 2) Provider Education Log: Captures education given to network providers related to billing practices, billing errors, or fraud, waste, and abuse. HMO's should differentiate between education that originates from a complaint, training requested by the provider and regular scheduled training opportunities. It is unnecessary to capture education regarding subject matter unrelated to program integrity.
 - 3) Overpayment Recovery Log: Captures pertinent information regarding all overpayment recoveries, not just those recovered due to fraud, waste, and abuse, regardless of which entity identified the overpayment.
 - 4) Termination/Sanctions/Suspension Log: Captures all terminations, sanctions, and payment suspension actions taken by the HMO that impact Medicaid network providers.
- b. The Quarterly Program Integrity report must be submitted to the Department via DHS OIG's SharePoint site. DHS OIG will evaluate the submitted reports and may follow up with the HMO to obtain additional information, provide technical

assistance, or request further action. DHS may impose a corrective action plan or a financial sanction for non-compliance with reporting requirements and deadlines.

10. Records Retention

The HMO must retain records pertaining to all program integrity activities, including but not limited to audits, investigations, review, Quarterly Program Integrity Reports, and complaints as required in Article XII: Reports and Data, Section G: Records Retention in this contract. Article XII: Reports and Data, Section G: Records Retention requires documentation to be retained for a period of not less than ten years from the date of termination of this contract.

11. Annual Fraud, Waste, and Abuse (FWA) Strategic Plan

- a. The HMO is responsible for developing an annual FWA strategic plan which meets the requirements outlined in Addendum VII. The FWA strategic plan must be approved annually by DHS. Failure to submit a plan meeting the requirements outlined in Addendum VII may result in a corrective action plan and/or financial sanction under Article XIV, Section D.
- b. The HMO must document and be prepared to evidence completion of activities on the annual FWA strategic plan during DHS's annual audit of the FWA strategic plan. The HMO must implement their first annual FWA strategic plan on January 1, 2023. DHS will begin auditing HMOs' compliance with their FWA strategic plans in the subsequent year. In addition, DHS will evaluate for the completeness and quality of all activities. HMOs found to be out of compliance with their annual FWA strategic plan or in need of improvement will receive technical assistance following the first review by DHS. DHS may impose corrective action plan and/or financial sanction imposed under Article XIV, Section D for HMOs who fail to engage in technical assistance or in DHS's audit process.
- c. The HMO must communicate any mid-year changes to the annual FWA strategic plan to DHS and submit an updated plan for DHS approval.
- d. HMOs must use the DHS OIG SharePoint site to submit all FWA strategic plans.

N. Non-Disclosure of Trade Secrets and Confidential Competitive Information

1. To the extent that encounter records, medical-loss ratio reports, or other submissions/reports include or have the capacity to reveal amount(s) paid by the HMO to provider(s), the HMO and the Department agree that those records, reports or submissions constitute trade secrets under the Wisconsin Uniform Trade Secrets Act, Wis. Stats., s. 134.90(1)(c), and must remain confidential to protect the competitive market position of the HMO. The Department agrees such records, reports or submissions are thus exempt from disclosure under s. 19.36(5), Wis. Stats. regardless of whether said information is specifically, separately designated as such by the HMO at the time of submission or reporting to the Department.

2. If the Department receives an open records request, subpoena, or similar request involving the information described in Paragraph 1, the Department shall notify the HMO of the request without unreasonable delay. Upon such request, the Department shall take all reasonable steps to prevent the disclosure of such information. In the event that disclosure of information is compelled pursuant to a writ of mandamus or other court order, the Department agrees to redact any otherwise proprietary, confidential, or trade secret information prior to said disclosure, subject to the terms of the order.
3. In the event the designation of the confidentiality of this information is challenged, the HMO agrees to provide legal counsel or other necessary assistance to defend the designation of records, reports, or submissions as a trade secret. The Department shall, without charge to the HMO, reasonably cooperate with such defense, to include providing legal counsel, testimony, and attestations regarding the protection of confidential and proprietary information that qualifies as a trade secret. Notwithstanding the foregoing, the HMO shall have the sole right and discretion to direct the defense to settle, compromise, or otherwise resolve such defense. Should any order or judgment be issued against the Department, the HMO will hold the Department harmless and indemnify the Department for costs and damages assessed against the Department as a result of designating records, reports, or submissions as trade secret(s).

O. Medical Loss Reporting (MLR)

1. MLR Requirement

The HMO is required to calculate and report a Medical Loss Ratio (MLR) each year consistent with MLR standards as specified by the Department and described in 42 C.F.R. § 438.8. The MLR is the ratio of the numerator (as defined in accordance with 42 C.F.R. § 438.8(e)) to the denominator (as defined in accordance with 42 C.F.R. § 438.8(f)). The HMO must submit the MLR on June 1 of the following year with the annual financial reporting submission in the designated worksheet within the HMO Financial Reporting Template. The HMO must attest to the accuracy of the calculation of the MLR in accordance with the MLR standards when submitting MLR reports in the required Financial Statement Certification submitted with the required audit submissions. If the Department makes a retroactive change to the capitation payments for a MLR reporting year where the MLR report has already been submitted to the state, the HMO must recalculate the MLR for all MLR reporting years affected by the change. It must then submit a new MLR report meeting the applicable requirements in the designated worksheet within the HMO Financial Reporting Template in the next scheduled financial reporting submission based on the DHS reporting due dates.

2. MLR Reporting Requirements

- a. Each HMO expense must be included under only one type of expense category defined for MLR reporting, unless a proration between expense categories is required to reflect accuracy and a description of the allocation is provided.
- b. Expenditures that benefit multiple contracts or populations, or contracts other than those being reported, must be reported on pro rata basis.
- c. Expense allocation must be based on a generally accepted accounting method that is expected to yield the most accurate results.
- d. Shared expenses, including the expenses under the terms of a management contract, must be apportioned pro rata to the contract incurring the expense.
- e. Expenses that relate solely to the operation of a reporting entity, such as personnel costs associated with adjusting and paying of claims, must be borne solely by the reporting entity and are not to be apportioned to the other entities.
- f. The HMO may add a credibility adjustment, which are published annually by CMS, to a calculated MLR if the MLR reporting year experience is partially credible.
- g. The HMO may not add a credibility adjustment to a calculated MLR if the MLR reporting year experience is fully credible. Any HMO with enrollment greater than the minimum number of member months set by CMS will be determined to be fully credible.
- h. If an HMO's experience is non-credible, it is presumed to meet or exceed the MLR calculation standards.
- i. The HMO will aggregate data for all Medicaid eligibility groups covered under the contract with the Department.
- j. The HMO's MLR report must include the following:
 - 1. Total incurred claims
 - 2. Expenditures on quality improving activities
 - 3. Expenditures related to activities compliant with program integrity requirements
 - 4. Non-claims costs
 - 5. Premium/capitation revenue
 - 6. Taxes
 - 7. Licensing fees
 - 8. Regulatory fees
 - 9. Methodology(ies) for allocation of expenditures
 - 10. Any credibility adjustment applied
 - 11. The calculated MLR
 - 12. Any remittance owed to the state, if applicable
 - 13. A reconciliation of the information reported to the annual financial report
 - 14. A description of the aggregation method used to calculate total incurred claims
 - 15. The number of member months
 - 16. Additional description and guidelines for the MLR report are located in the MLR worksheet within the DHS HMO Financial Reporting Template.

The HMO must require any third party vendor providing claims adjudication activities to provide all underlying data associated with MLR reporting to the HMO within 180 days of the end of the MLR reporting year or within 30 days of being requested by the HMO, whichever comes sooner, regardless of current contractual limitations, in order to calculate and validate the accuracy of MLR reporting to meet the DHS MLR reporting due date.

P. Supplier Diversity Reporting

Minority-Owned Business Enterprises (MBE) and Disabled Veteran-Owned Businesses (DVB) are certified by the Wisconsin Department of Administration (DOA). This program can be found at: <https://doa.wi.gov/Pages/DoingBusiness/SupplierDiversity.aspx>

The State of Wisconsin is committed to the promotion of MBEs and DVBs in the State's purchasing program. The HMO is strongly urged to use due diligence to further this policy by awarding Subcontracts to MBEs and DVBs or by using such enterprises to provide goods and services incidental to this Agreement.

The HMO shall furnish appropriate monthly information about its efforts to subcontract with MBEs and DVBs, including the identities of such businesses certified by the Wisconsin Supplier Diversity Program, their contract amount, and spend for each period to DHS. A listing of certified MBEs and DVBs, as well as the services and goods they provide, is available at: <https://wisdp.wi.gov/Search.aspx>

In accordance with WI Stats. Ch. 16.75 (3m), after completion of this contract, the HMO shall report to DHS any amount of this contract that was subcontracted to DOA certified MBEs and DVBs.

DHS shall have the right to request any information regarding the use of subcontractors including, but not limited to, MBEs and DVBs. The HMO shall provide any such information as requested by DHS and within a time period that is specified by DHS.

The HMO shall submit monthly reports of efforts to subcontract with MBEs, DVBs, and other diverse entities/suppliers to DHS. A link to the Supplier Diversity PowerForm for submitting these reports can be found on the DHS Compliance Documentation page found here: <https://www.dhs.wisconsin.gov/business/compliance.htm>

For the duration of this Agreement, the HMO shall provide monthly reporting of efforts to subcontract with MBEs and DVBs no later than the 15th of the following month.

For questions about reporting, please contact DHS Contract Compliance at DHSContractCompliance@dhs.wisconsin.gov

Q. Out-of-Network Utilization Report

HMOs shall submit to the Department an Out-of-Network Utilization Report. The log with summary will include the following elements

- a. Provider
- b. Provider type
- c. Type of service
- d. County

- e. Number of claims tied to the provider
- f. Number of members tied to the claims

ARTICLE XIII: FUNCTIONS AND DUTIES OF THE DEPARTMENT

A. Utilization Review and Control

The Department will waive, to the extent allowed by law, any present Department requirements for prior authorization, second opinions, , or other BadgerCare Plus and/or Medicaid SSI restrictions for the provision of contract services provided by the HMO to members, except as may be required by the terms of this contract.

B. Department Audit Schedule

The HMO will be notified approximately 30 days prior to regularly scheduled, routine audits being conducted via a letter from the Department.

C. HMO Review of Study or Audit Results

The Department will submit to the HMO for a 30 business day review/comment period, any BadgerCare Plus and/or Medicaid SSI and HMO audits, HMO report card, HMO Member Satisfaction Reports, or any other BadgerCare Plus and/or Medicaid SSI HMO studies the Department releases to the public that identifies the HMO by name. The HMO may request an extension and the Department will exercise reasonable discretion in making the determination to waive the 30 business day review/comment requirement.

D. Vaccines for Children (BadgerCare Plus Only)

The Department will assure that HMO providers participate in the Vaccines for Children (VFC) program for administration of immunizations to BadgerCare Plus HMO members according to the policies and procedures in the Wisconsin Health Care Programs Online Handbook. The Department will reimburse the HMO for the cost of new vaccines that are newly approved during the contract year and not yet part of the Vaccine for Children program. The reimbursement of the vaccine shall be the same as the Department reimburses FFS providers during the period of VFC availability. The HMO retains liability for the cost of administering the vaccines.

E. Fraud and Abuse Training

The Department will provide fraud, waste and abuse detection training to the HMO annually. The Department will provide training for HMOs on implementation of suspension of payments to providers with a credible allegation of fraud.

F. Provision of Data to the HMO

The Department will provide to the HMO immunization information from the Wisconsin Immunization Registry, to the extent available.

G. Conflict of Interest

The Department will maintain state employee conflict of interest safeguards at least equal to federal safeguards (41 USC 423).

ARTICLE XIV: CONTRACTUAL RELATIONSHIP

A. Delegations of Authority

The HMO shall oversee and remain accountable for any functions and responsibilities that it delegates to any subcontractor. For all major or minor delegation of function or authority:

1. There shall be a written agreement that specifies the delegated activities and reporting responsibilities of the subcontractor and provides for revocation of the delegation or imposition of other sanctions if the subcontractor's performance is inadequate, or out of compliance with HIPAA privacy or security requirements.
2. Before any delegation, the HMO shall evaluate the prospective subcontractor's ability to perform the activities to be delegated.
3. The HMO shall monitor the subcontractor's performance on an ongoing basis and subject the subcontractor to formal review at least once per contract period.
4. If the HMO identifies deficiencies or areas for improvement, the HMO and the subcontractor shall take corrective action.
5. If the HMO delegates selection of providers to another entity, the HMO retains the right to approve, suspend, or terminate any provider selected by that entity.

B. Subcontracts

This Article does not apply to subcontracts between the Department and the HMO. The Department shall have sole authority to determine the conditions and terms of such subcontracts. Subcontractor (hereinafter identified as subcontractor) agrees to abide by all applicable provisions of the HMO's contract with the Department of Health Services, hereinafter referred to as the BadgerCare Plus and Medicaid SSI HMO Contract. Subcontract compliance with the BadgerCare Plus and Medicaid SSI HMO Contract specifically includes but is not limited to the requirements specified below.

1. Subcontract Standard Language

The HMO must ensure that all subcontracts are in writing and include the following standard language when applicable:

- a. Subcontractor uses only BadgerCare Plus and/or Medicaid SSI-enrolled providers in accordance with this Contract.

- b. No terms of this subcontract are valid which terminate legal liability of the HMO.
- c. Subcontractor agrees to participate in and contribute required data to HMO Quality Assessment/Performance Improvement programs.
- d. Subcontractor agrees to abide by the terms of this Contract for the timely provision of emergency and urgent care. Where applicable, subcontractor agrees to follow those procedures for handling urgent and emergency care cases stipulated in any required hospital/emergency room MOUs signed by the HMO in accordance with this Contract.
- e. Subcontractor agrees to submit HMO encounter data in the format specified by the HMO, so that the HMO can meet the Department specifications required by this Contract. The HMO will evaluate the credibility of data obtained from subcontracted vendors' external databases to ensure that any patient-reported information has been adequately verified.
- f. Subcontractor agrees to comply with all non-discrimination requirements.
- g. Per 42 CFR 438.3(k), subcontractor agrees to comply with all audit and record retention and inspection requirements of 42 CFR 438.230(c)(3)(i-iv) and, where applicable, the special compliance requirements on abortions, sterilizations, hysterectomies, and HealthCheck reporting requirements. Specifically, the State (including the Office of Inspector General), CMS, the HHS Inspector General, the Comptroller General, or their designees have the right to audit, evaluate, and inspect any books, records, contracts, computer or other electronic systems of the subcontractor, or of the subcontractor's contractor, that pertain to any aspect of services and activities performed, or determination of amounts payable under the HMO's contract with the State. This right to audit will exist through 10 years from the final date of the contract period or from the date of completion of any audit, whichever is later.
- h. Any HMO or its subcontractor that enters into a contract with an entity outside the U.S. must clearly indicate Wisconsin law as jurisdiction for any breach of contract and ensure compliance with state and federal laws allowing for such contracts.
- i. Per 42 CFR 438.230, subcontractor agrees to provide representatives of the HMO, as well as duly authorized agents or representatives of the Department (including the Office of the Inspector General) and the federal Department of Health and Human Services, access to its premises and its contracts, medical

records, billing (including contractual rates agreed upon between the HMO and the subcontractor), and administrative records. If the State (including the Office of the Inspector General), CMS, or the HHS Inspector General determines that there is a reasonable possibility of fraud or similar risk, the State, CMS, or the HHS Inspector General may inspect, evaluate, and audit the subcontractor at any time. Refusal will result in sanctions or penalties in Article XIV, Section C against the HMO for failure of its subcontractor to permit access to a Department or federal DHHS representative. Subcontractor agrees otherwise to preserve the full confidentiality of medical records in accordance with this Contract.

- j. Subcontractor agrees to the requirements for maintenance and transfer of medical records stipulated in this Contract.
- k. Subcontractor agrees to ensure confidentiality of family planning services.
- l. Subcontractor agrees not to create barriers to access to care by imposing requirements on members that are inconsistent with the provision of medically necessary and covered BadgerCare Plus and/or Medicaid SSI benefits (e.g., COB recovery procedures that delay or prevent care).
- m. Subcontractor agrees to clearly specify referral approval requirements to its providers and in any sub-subcontracts.
- n. Subcontractor agrees not to bill BadgerCare Plus and/or Medicaid SSI members for medically necessary services covered under this Contract and provided during the members' period of HMO enrollment. Subcontractor also agrees not to bill members for any missed appointments while the members are eligible under the BadgerCare Plus and/or Medicaid SSI Programs. This provision will remain in effect even if the HMO becomes insolvent. However, if a member agrees in writing to pay for a non-covered service, then the HMO, HMO provider, or HMO subcontractor can bill.

The standard release form signed by the member at the time of services does not relieve the HMO and its providers and subcontractors from the prohibition against billing a BadgerCare Plus or Medicaid SSI member in the absence of a knowing assumption of liability for a non-covered service. The form or other type of acknowledgment relevant to BadgerCare Plus or Medicaid SSI member liability must specifically state the admissions, services, or procedures that are not covered by BadgerCare Plus or Medicaid SSI.

- o. Within 15 business days of the HMO's request subcontractors must forward medical records pursuant to grievances or appeals to the HMO. If the subcontractor does not meet the 15 business day requirement, the subcontractor must explain why and indicate when the medical records will be provided.
- p. Subcontractor agrees to abide by the terms regarding appeals to the HMO and to the Department regarding the HMO's nonpayment for services providers render to members.
- q. Subcontractor agrees to abide by the HMO marketing/informing requirements. Subcontractor will forward to the HMO for prior approval all flyers, brochures, letters and pamphlets the subcontractor intends to distribute to its members concerning its HMO affiliation(s), or changes in affiliation, or relating directly to the BadgerCare Plus and/or Medicaid SSI population. Subcontractor will not distribute any "marketing" or member informing materials without the consent of the HMO and the Department.
- r. Subcontractor agrees to abide by the HMO's restraint policy, which must be provided by the HMO. Members have the right to be free from any form of restraint or seclusion used as a means of force, control, ease or reprisal.
- s. HMOs shall not prohibit providers outside the parent healthcare system from contracting with another HMO entity.

2. Subcontract Submission Requirements

a. Changes in Established Subcontracts

- 1) The HMO must submit changes in previously approved subcontracts to the Department for review and approval before they take effect. This review requirement applies to changes that affect the amount, duration, scope, location, or quality of services.
 - a) Technical changes do not have to be approved.
 - b) Changes in rates paid do not have to be approved, with the exception of changes in the amounts paid to HMO management services subcontractors.
- 2) The Department will review the subcontract changes and respond to the HMO within 15 business days.

b. New Subcontracts

The HMO must submit new subcontracts to the Department for review and approval before they take effect.

3. Review and Approval of Subcontracts

The Department may approve, approve with modification, or deny subcontracts under this Contract at its sole discretion. The Department may, at its sole discretion and without the need to demonstrate cause, impose such conditions or limitations on its approval of a subcontract as it deems appropriate. The Department may consider such factors as it deems appropriate to protect the interests of the state and BadgerCare Plus and/or Medicaid SSI members, including but not limited to the proposed subcontractor's past performance. The Department will:

a. Give the HMO:

- 1) 120 days to implement a change that requires the HMO to find a new subcontractor, and
- 2) 60 days to implement any other change required by the Department.

b. Acknowledge the approval or disapproval of a subcontract within 15 business days after its receipt from the HMO.

c. Review and approve or disapprove each new subcontract before the Contract takes effect. Any disapproval of subcontracts may result in the application by the Department of remedies pursuant to this Contract.

d. Ensure that the HMO has included the standard subcontract language as specified in Section B, 1 of this Article (except for specific provisions that are inapplicable in specific HMO management subcontract).

4. Transition Plan

The HMO may be required to submit transition plans when a primary care provider(s), mental health provider(s), gatekeeper or dental clinic terminates their contractual relationship with the HMO. The transition plan will address continuity of care issues, member notification and any other information required by the Department to ensure adequate member access. The Department will approve, deny,

or modify the transition plan within 15 business days of receipt or prior to the effective date of the subcontract change.

5. Notification Requirements Regarding Subcontract Additions or Terminations

The HMO must:

a. Notify the Department of Additions or Terminations

The HMO must notify the Department within 10 days of subcontract additions or terminations when those changes are substantial and impact member access. Those notifications could involve:

- 1) A clinic or group of physicians, mental health providers, or dentists,
- 2) An individual physician,
- 3) An individual mental health provider and/or clinic,
- 4) An individual dental provider and/or clinic.

This Department notification must be through the submission of an updated provider network to the SFTP server.

b. Notify the Department of a Termination or Modification that Involves Reducing Access to Care

The HMO must notify the Department within 7 days of any notice by the HMO to a subcontractor, or any notice to the HMO from a subcontractor, of a subcontract termination, a pending subcontract termination, or a pending modification in subcontract terms, that could substantially reduce member access to care. This Department notification must be to both the HMO's Contract Monitor and through the submission of an updated provider network to the SFTP server.

If the Department determines that a pending subcontract termination or pending modification in subcontract terms will jeopardize member access to care, then the Department may invoke the remedies pursuant to this Contract. These remedies include contract termination (notice to the HMO and opportunity to correct are provided for), suspension of new enrollment, and giving members an opportunity to enroll in a different HMO.

In addition to the monthly submission, the HMO must submit an updated provider and facility file when there has been a significant change with respect

to network adequacy, as defined by the Department, in the HMO's operations that would affect adequate capacity and services.

c. Notify Members of Provider Terminations

Not less than 15 days prior to the effective date of the in-network provider or gatekeeper termination, the HMO must send written notification to the provider or gatekeeper's members. The HMO must use a template letter for this notification and obtain the Department's approval of the template before it is sent to members. Any subsequent proposed changes to the template must be approved by the Department.

6. Management Subcontracts

The Department will review HMO management subcontracts to ensure that:

- a. Rates are reasonable.
- b. They clearly describe the services to be provided and the compensation to be paid.
- c. Any potential bonus, profit-sharing, or other compensation, not directly related to the cost of providing goods and services to the HMO, is identified and clearly defined in terms of potential magnitude and expected magnitude during this Contract period. Any such bonus or profit-sharing must be reasonable compared to the services performed. The HMO must document reasonableness. A maximum dollar amount for such bonus or profit-sharing shall be specified for the Contract period.

The requirements addressed in a. through c. are not required for non-BadgerCare Plus and/or Medicaid SSI members if the HMO wishes to have separate arrangements for the non-members.

C. Memorandum of Understanding/Agreement

HMOs are required to enter into or make every attempt to enter into an MOU with certain entities. HMOs may include a provision within the MOU that will automatically renew MOUs with these entities. The MOU must include an opt out provision from the automatic renewal.

D. Sanctions, Financial Penalties and Remedial Actions for Violation, Breach, or Non-Performance of Contract

Section 1903(m)(5)(B)(ii) of the Social Security Act vests the Secretary of the Department of Health and Human Services with the authority to deny BadgerCare Plus and/or Medicaid SSI payments to the HMO for members who enroll after the date on which the HMO has been found to have committed one of the violations identified in the federal law. State payment for members of the contracting organization is automatically denied whenever, and for as long as, federal payment for such members has been denied as a result of the commission of such violations. The state may impose sanctions if the HMO has violated any of the other applicable requirements of sections 1903(m) or 1932 of the Act and any implementing regulations.

In addition, the Department may pursue all sanctions and remedial actions with the HMO that is taken with FFS providers if it determines, based on findings from onsite surveys, enrollee or other complaints, financial status, or any other source, that an HMO acts or fails to act as follows pursuant to 42 CFR § 438.700:

1. Fails substantially to provide medically necessary services that the HMO is required to provide, under law or under this contract, to an enrollee covered under the contract.
2. Imposes on enrollees premiums or charges that are in excess of the premiums or charges permitted under the Medicaid program.
3. Acts to discriminate among enrollees on the basis of their health status or need for health care services. This includes termination of enrollment or refusal to enroll a member, except as permitted under the Medicaid program, or any practice that would reasonably be expected to discourage enrollment by beneficiaries whose medical condition or history indicates probable need for substantial future medical services.
4. Misrepresents or falsifies information that it furnishes to CMS or to the Department.
5. Misrepresents or falsifies information that it furnishes to an enrollee, potential enrollee, or health care provider.
6. Fails to comply with the requirements for physician incentive plans.
7. Distributes directly or indirectly through any agent or independent contractor, marketing materials that have not been approved by the Department or that contain false or materially misleading information.
8. Violates any of the other applicable requirements of sections 1932 or 1905(t)(3) of the Act, or any implementing regulations.

Per 42 CFR 438.724, the State must give CMS written notice whenever it imposes or lifts a sanction for one of the violations listed above. This notice must be given no later than 30 days after the State imposes or lifts a sanction and must specify the affected HMO, the kind of sanction, and the reason for the State's decision to impose or lift a sanction.

1. Corrective Action Plan

In addition to imposing sanctions or financial penalties, if the Department determines that the HMO is not in compliance with one or more requirements of this contract, the Department can require the HMO to complete a Corrective Action Plan (CAP). The CAP will outline the area(s) of non-compliance, follow-up recommendations/requirements, time frames for remedial action by the HMO, and any other actions the Department deems necessary to remedy the non-compliance. The HMO shall comply with all recommendations/requirements made in writing by the Department within the time frames specified by the CAP.

Upon receipt of the CAP from the Department, the HMO shall submit a written response to the Department detailing steps for compliance, including a timeframe(s) specified by the Department.

The Department may deny or postpone a service area expansion request from an HMO on an active CAP.

The HMO shall be responsible for ensuring corrective action when a subcontractor or provider is not in compliance with the contract.

2. Financial Penalties

The Department may pursue all financial penalties with the HMO that are taken with FFS providers including any civil monetary penalties in the following specified amounts:

- a. A maximum of \$25,000 for each determination of failure to provide services; misrepresentation or false statements to members, potential members or health care providers; failure to comply with physician incentive plan requirements; or marketing violations.
- b. A maximum of \$100,000 for each determination of discrimination; or misrepresentation or false statements to CMS or the state.
- c. A maximum of \$15,000 for each member the State determines was not enrolled because of a discriminatory practice (subject to the \$100,000 overall limit above).
- d. A maximum of \$25,000 or double the amount of the excess charges (whichever is greater), for charging premiums or charges in excess of the amounts permitted under the Medicaid program. The state must deduct from the penalty the amount of overcharge and return it to the affected member(s).
- e. If the HMO fails to comply with state and federal compliance requirements for abortions, hysterectomies and sterilizations, the Department may impose

liquidated damages in the amount of \$10,000. For additional details, see Article IV, Section F of the contract.

- f. There will be a flat assessment of \$10,000 for any HMO missing the 80% HealthCheck target. This penalty is not part of the other HMO P4P measures and withhold. For additional details, see Article IV, Section C. (2)(a) of the contract
- g. If the HMO fails to comply with federal CLIA regulations as specified by 42 CFR Part 493, 42 CFR 263a, and Wisconsin Administrative Code, Chapter 105, DHS 105.42(1-2) and DHS 105.46 , sanctions in the amount of \$10,000.00 may be imposed. For additional details, see Article XI, Section C (11) of the contract.

The Department will provide written notice of all financial penalties that explains the basis and nature of the penalties and any due process protections the state elects to provide.

3. Suspension and Reduction of Enrollment

a. Suspension of New Enrollment

Whenever the Department determines that the HMO is out of compliance with this Contract, the Department may suspend the HMO's right to receive new enrollment under this Contract. When exercising this option, the Department, must notify the HMO in writing of its intent to suspend new enrollment at least 30 days prior to the beginning of the suspension period. The suspension will take effect if the non-compliance remains uncorrected at the end of this period. The Department may suspend new enrollment sooner than the time period specified in this paragraph if the Department finds that the member's health or welfare is jeopardized. The suspension period may be for any length of time specified by the Department, or may be indefinite. The suspension period may extend up to the expiration of the Contract. The Department may also notify members of the HMO's non-compliance and provide an opportunity to enroll in another HMO.

b. Department-Initiated Enrollment Reductions

The Department may reduce the maximum enrollment level and/or number of current members whenever it determines that the HMO has failed to provide one or more of the Contract services required under the Contract or the HMO has failed to maintain or make available any records or reports required under this Contract that the Department needs to determine whether the HMO is providing contract services as required. The HMO will have at least 30 days to correct the non-compliance prior to the Department taking any action set forth in this paragraph. The Department may

reduce enrollment sooner than the time period specified in this paragraph if the Department finds that the member's health or welfare is jeopardized.

c. Other Enrollment Reductions

The Department may also suspend new enrollment or disenroll members in anticipation of the HMO not being able to comply with federal or state law at its current enrollment level. Such suspension shall not be subject to the 30 day notification requirement.

4. Withholding of Capitation Payments and Orders to Provide Services

In any case under this Contract where the Department has the authority to withhold capitation payments, the Department also has the authority to use all other legal processes for the recovery of damages.

Notwithstanding the provisions of this Contract, the Department may withhold portions of capitation payments as liquidated damages or otherwise recover damages from the HMO on the following grounds:

a. Medically Necessary Covered Services

Whenever the Department determines that the HMO has failed to provide one or more of the medically necessary covered services required under the Contract, the Department may either order the HMO to provide such service, or withhold a portion of the HMO's capitation payments for the following month or subsequent months, such portion withheld to be equal to the amount of money the Department must pay to provide such services.

If the Department orders the HMO to provide services under this section and the HMO fails to provide the services within the timeline specified by the Department, the Department may withhold from the HMO's capitation payments an amount up to 150% of the Fee for Service amount for such services.

When it withholds payments under this section, the Department must submit to the HMO a list of the participants for whom payments are being withheld, the nature of the service(s) denied, and payments the Department must make to provide medically necessary services.

If the Department acts under this section and subsequently determines that the services in question were not covered services:

- 1) If the Department withheld payments, it will restore to the HMO the full capitation payment; or
- 2) If the Department ordered the HMO to provide services under this section, it will pay the HMO the actual documented cost of providing the services.

b. Payment Denials for New Members

Payments provided for under the contract will be denied for new members when, and for so long as, payment for those members is denied by CMS in accordance with the requirements in 42 CFR § 438.730.

Specifically, the State may recommend that CMS impose the denial of payment for new members to an HMO that has a contract to provide BadgerCare Plus and/or Medicaid SSI services if the State determines that the HMO acts or fails to act pursuant to 42 CFR § 438.700. The State's determination becomes CMS' determination for purposes of Section 1903(m)(5)(A) of the Act unless CMS reverses or modifies it within 15 days. When the State decides to recommend imposing the sanctions described in 42 CFR § 438.730(e), this recommendation becomes CMS' decision, for purposes of section 1903(m)(5)(B)(ii) of the Act, unless CMS rejects this recommendation within 15 days. If the State's determination becomes CMS' determination, the State will take the following options: (1) Give the HMO written notice of the nature and basis of the proposed sanction; (2) Allow the HMO 15 days from the date it receives the notice to provide evidence that it has not acted or failed to act in the manner that is the basis for the recommended sanction; (3) May extend the initial 15-day period for an additional 15 days if: (i) The HMO submits a written request that includes a credible explanation of why it needs additional time; (ii) The request is received by CMS before the end of the initial period; (iii) CMS has not determined that the HMO's conduct poses a threat to an enrollee's health or safety.

If the HMO submits a timely response to the notice of sanction, the State: (i) Conducts an informal reconsideration that includes review of the evidence by a State agency official who did not participate in the original recommendation; (ii) Gives the HMO a concise written decision setting forth the factual and legal basis for the decision; (iii) Forwards the decision to CMS. The State's decision will become CMS' decision unless CMS reverses or modifies the decision within 15 days from date of receipt by CMS. If CMS reverses or modifies the State decision, the agency sends the HMO a copy of CMS' decision.

c. Required Reports and Data Submissions

- 1) Encounter Data

If the HMO fails to submit required data and/or information to the Department or the Department's authorized agents, or fails to submit such data or information in the required form or format, by the deadline specified by the Department, the Department may immediately impose liquidated damages in the amount of \$1,500 per day for each day beyond the deadline that the HMO fails to submit the data or fails to submit the data in the required form or format, such liquidated damages to be deducted from the HMO's capitation payments.

Additionally, if it is found that the HMO failed to submit accurate and complete encounter data prior to the submission deadlines, the Department will be considered damaged. The HMO may be held responsible for reimbursing the Department for the staffing and out-of-pocket costs incurred by the Department and its contractors associated with reviewing the delayed data submission, and developing and publishing revised rates.

The HMO must meet the Department's aggregate standards for submitting encounter data as outlined in Article XII(D) or liquidated damages may apply based on "erred" data.

The term "erred encounter record" means an encounter record that failed an edit when a correction is expected by the Department, unless the record is otherwise priced and included in the HMO encounter data. This does not apply to records for out-of-state emergency services that are not moved from the erred table due to the inability to match to the provider file. If the HMO fails to correct an error to the encounter record within the time frame specified, the Department may assess liquidated damages of \$5 per erred encounter record per month until the error has been corrected or the issue has been resolved to the Department's satisfaction. The liquidated damage amount will be deducted from the HMO's capitation payment. When applied, these liquidated damages will be calculated and assessed on a monthly basis. If upon audit or review, the Department finds that the HMO has removed an erred encounter record without the Department's approval, the Department may assess liquidated damages for each day from the date of original error notification until the date of correction.

- a) The Department may assess \$5 per record per month until the encounter record has been fixed, for each encounter record found to be different from the provider claim for the procedure code, units of service, diagnosis code, modifier code, charge field, and TPL paid amount.

At a minimum, HMOs must submit a consistent volume of encounters each month based on a calendar year average.

- b) If it is found that an HMO submitted inaccurate or incomplete encounter data that was used in the development of the current rates, the Department may assess damages associated with the reporting error and data that the HMO failed to submit. The damages will be up to the priced amount of the inaccurate encounter records and the estimated amount or actuarial adjustment for the amount that HMO failed to submit.

Failure to successfully report usable data using the ASC X12 837 HIPAA Compliant Transaction or the Financial Report information may result in a 1% withhold to the HMO's administration rate. The amount will be withheld from the capitation payment until the HMO is able to submit usable data.

If the HMO is unable to submit usable data by the period of time defined by the Department when withholding the payment, the amount withheld will be forfeited.

If either party terminates the contract during the period that payment is withheld, the amount will be automatically forfeited.

Data is determined usable if it can be used in the rate-setting process in its entirety for the encounter data base years used to establish the rates.

Whenever the Department determines that the HMO has failed to perform the administrative functions, the Department may withhold a portion of future capitation payments sufficient to directly compensate the Department for the program's costs of providing health care services and items to individuals insured by said insurers and/or the insurers/employers represented by said third party administrators.

2) Provider and Facility Network Data Submission

Incomplete or inaccurate provider and/or facility data will subject the HMO to sanctions outlined in Article XIV, Section C.

3) Dental Claims

Per Article IV (A)(8)(c), the Department will conduct validity and completeness audits of dental claims. Upon request, the HMO must submit paid claims to the Department along with any other records the Department deems necessary for the completion of the audit. Payment of incomplete or inaccurate claims will subject the HMO to sanctions.

4) Fraud, Waste and Abuse

Per Article XII(M)(2), failure on the part of the HMO to cooperate or report fraud, waste and/or abuse may result in any applicable sanctions.

d. Procedures for Withholding Capitation Payments

Notwithstanding the provisions of this subsection, in any case where the Department deducts a portion of capitation payments under the Contract, the following procedures will be used:

- 1) The Department will notify the HMO's contract administrator no later than the second business day after the Department's deadline that the HMO has failed to submit the required data or the required data cannot be processed.
- 2) Beginning on the second business day after the Department's deadline, the HMO will be subject without further notification to liquidated damages per data file or report.
- 3) If the HMO submits encounter data late but submits it within five business days from the deadline, the Department will rescind liquidated damages if the data can be processed according to the criteria published in the HMO Encounter Data User Manual. The Department will not edit the data until the process period in the subsequent month.
- 4) If the HMO submits any other required data or report in the required format within five business days from the deadlines, the Department will rescind liquidated damages and immediately process the data or report.
- 5) If the HMO repeatedly fails to submit required data or reports, or submits data that cannot be processed, the Department will require the HMO to develop a CAP to comply with the Contract requirements that must meet Department approval.
- 6) After the corrective action plan has been implemented, if the HMO continues to submit data beyond the deadline, or continues to submit data that cannot be processed, the Department will invoke the remedies under Section C, 3.a (Suspension of New Enrollment), or under Section C, 3.b (Department-Initiated Enrollment Reductions) of this Article, or both, in addition to liquidated damages that may have been imposed for a current violation.
- 7) If the HMO notifies the Department that it will discontinue contracting with the Department at the end of a contract period, but reports or data are due for a contract period, the Department retains the right to withhold up to two months of capitation payments otherwise due the HMO that will not be released to the HMO until all required reports or data are submitted and accepted after expiration of the Contract. Upon determination by the Department that the reports and data are accepted, the Department will release the monies withheld.

e. Inappropriate Payment Denials

The HMO that inappropriately fails to provide or deny payments for services may be subject to suspension of new enrollments, withholding, in full or in part, of capitation payments, contract termination, or refusal to contract in a future time period, as determined by the Department. The Department will select among these sanctions based upon the nature of the services in question, whether the failure of denial was an isolated instance or a repeated pattern or practice, and whether the health of a member was injured, threatened or jeopardized by the failure or denial. These sanctions apply not only to cases where the Department has ordered payment after appeal, but also to cases where no appeal was made (i.e., the Department knows about the documented abuse from other sources).

f. Temporary Management

The state will impose temporary management, as provided in 42 CFR § 438.706, when there is continued egregious behavior by the HMO, including, but not limited to behavior that is described in 42 CFR § 438.700, or that is contrary to any requirements of sections 1903(m) and 1932 of the Act; or

- 1) There is substantial risk to members' health; or
- 2) The sanction is necessary to ensure the health of the HMO's members while improvements are made to remedy violations under 438.700 or until there is an orderly termination or reorganization of the HMO.

The state must impose temporary management (regardless of any other sanction that may be imposed) if it finds that an HMO has repeatedly failed to meet substantive requirements in sections 1903(m) or 1932 of the Act, or this section of the contract. The state must also grant enrollees the right to terminate enrollment.

The state may not delay imposition of temporary management to provide a hearing before imposing this sanction.

The state may not terminate temporary management until it determines that the HMO can ensure that the sanctioned behavior will not recur.

g. HMO Subcontractors

Per Article XIV (B)(1)(i), subcontractor agrees to provide representatives of the HMO, as well as duly authorized agents or representatives of the Department and the federal Department of Health and Human Services, access to its premises and its contracts, medical records, billing (including contractual rates agreed upon between the HMO and the subcontractor), and administrative records. Refusal will result in sanctions and/or financial penalties in Article XIII, Section C against the HMO for failure of its subcontractor to permit access to a Department or federal DHHS

representative. Subcontractor agrees otherwise to preserve the full confidentiality of medical records in accordance with this Contract.

E. Modification and Termination of Contract

1. Modification

a. Mutual Consent:

This Contract may be modified at any time by mutual written agreement of both the HMO and the Department.

b. Unilateral Modification by the Department:

This contract will be modified by the Department if changes in federal or state laws, rules, regulations or amendments to Wisconsin's CMS approved waivers or the state plan require modification to the contract. In the event of such change, the Department will notify the HMO in writing. If the change materially affects the HMO's rights or responsibilities under the contract and the HMO does not agree to the modification, the HMO may provide the Department with written notice of termination at least ninety (90) days prior to the proposed date of termination. (See Article XIV.E.2.e.2).

2. Termination

a. Mutual Consent:

This Contract may be terminated at any time by mutual written agreement of both the HMO and the Department.

b. Unilateral Modification by Department:

1) Authority to Terminate Contract

The Department has the authority to terminate an HMO's contract and enroll that entity's members in other HMOs of the member's choosing, or provide their Medicaid benefits through other options included in the State plan, if the Department determines that the HMO has failed to do either of the following:

a) Carry out the substantive terms of this Contract; or

b) Meet applicable requirements in sections 1932, 1903(m), and 1905(t) of the Social Security Act.

2) Notice and Pre-Termination Hearing:

Before the Department terminates an HMO contract for failing to carry out substantive terms of the contract or to meet applicable requirements in section 1932, 1903(m), or 1905(t) of the Social Security Act, the Department must provide the HMO a pre-termination hearing. The Department will give the HMO written notice of its intent to terminate, the reason for termination, and the time and place of the hearing.

3) Member Disenrollment During Termination Hearing Process:

Per 42 CFR §438.722, the Department may provide the HMO's members with written notice of its intent to terminate the contract and allow members to disenroll from the HMO immediately without cause.

a) The HMO shall provide assistance to any member electing to terminate his or her enrollment, by making appropriate referrals and providing the individual's member record to new providers and/or a member's new HMO.

b) The Department shall ensure that a member who is disenrolled receives appropriate choice counseling and is permitted to enroll in a new HMO of the member's choosing.

4) Post-Hearing Notice:

After the hearing, the State will give the HMO written notice of the decision affirming or reversing the proposed termination of the contract and, for an affirming decision, the effective date of termination. For an affirming decision, the Department will give members of the HMO notice of the termination and information, consistent with 42 CFR § 438.10, on their options for receiving Medicaid services following the effective date of termination.

c. Foreign Entity:

Pursuant to 42 C.F.R. § 438.602(i), the Department is prohibited from contracting with an HMO located outside of the United States. In the event an HMO moves outside of the United States, this contract will be terminated.

d. Unilateral Termination by the HMO

1) Changes to Capitation Rates:

This contract may be terminated by the HMO due to dissatisfaction with the final capitation rates. The HMO must notify the Department within 30 days of notice of the final rates if the HMO intends to terminate its contract with the Department. The HMO must also notify the Department

within 30 days if it intends to decrease its service area due to the final capitation rates. To assure the smooth transition of members, the termination of the Contract or the decrease in service area will be effective no less than 90 days, and no more than 120 days, after HMO notification to DHS of the intent to terminate the Contract or decrease the HMO's service area.

2) Changes in Reporting Requirements:

If the Department changes the reporting requirements as specified in Article XII, Section K during the Contract period, the HMO shall have 180 days to comply with such changes or to initiate termination of the Contract.

e. Terminated by either:

1) For Cause

Either party may terminate this Contract at any time if it determines that the other party has substantially failed to perform any of its functions or duties under this Contract. The party exercising this option must notify the other party in writing of its intent to terminate this Contract and give the other party 30 days to correct the identified violation, breach or non-performance of Contract. If such violation, breach or non-performance of Contract is not satisfactorily addressed within this time period, the exercising party may terminate this Contract. The termination date shall always be the last day of a month. The Contract may be terminated by the Department sooner than the time period specified in this paragraph if the Department finds that member health or welfare is jeopardized by continued enrollment in the HMO.

2a) Changes Mandated by Federal or State Law:

Either party may terminate this Contract at any time, due to modifications to the contract mandated by changes in federal or state laws, rules or regulations that materially affect either party's rights or responsibilities under this Contract (see Article XIV.E.1.b). At least 90 days prior to the proposed date of termination, the party initiating the termination must notify the other party in writing of its intent to terminate this Contract.

3) Loss of Federal or State Funding:

a) Permanent Loss of Funding

Either party may terminate this Contract if federal or state funding of contractual services rendered by the HMO becomes or will become permanently unavailable and such lack of funding would preclude reimbursement for the performance of the HMO's obligations. In the event it becomes evident state or federal funding of claims payments or contractual services rendered by the HMO will become unavailable, the Department shall immediately notify the HMO, in writing, identifying the basis for the anticipated unavailability of funding and the date on which the funding will end.

b) Temporary Loss of Funding

In the event funding will become temporarily suspended or unavailable, the Department or the HMO may suspend performance of any or all of the HMO's obligations under this Contract if the suspension or unavailability of funding will preclude reimbursement for performance of those obligations. The Department or HMO shall attempt to give notice of suspension of performance of any or all of the HMO's obligations by 60 days prior to said suspension, if this is possible; otherwise, such notice of suspension should be made as soon as possible. Once the funding is reinstated, the HMO will resume the suspended services within 30 days from the date the funds are reinstated. The contract will not terminate under a temporary loss of funding.

f. Obligations of Contracting Parties Upon Non-Renewal or Termination

1) Transition Plan:

The HMO shall submit a written plan that receives the Department's approval, to ensure uninterrupted delivery of services to HMO members and their successful transition to other applicable programs (e.g., Medicaid fee-for-service). The plan will include provisions for the transfer of all member related information held by the HMO or its providers and not also held by the Department. Additional elements of the transition plan may include, but are not limited to, a communication plan; additional data-sharing reports for transitioning members; and timelines for outstanding financial reconciliation.

a) Submission of the Transition Plan

The HMO shall submit the plan at one of the following times, depending on which applies: no less than ninety (90) calendar days prior to the contract's expiration when the HMO decides to not renew the contract; within ten (10) business days of notice of termination by the Department; or along with the HMO's notice of termination.

b) Management of the Transition

The HMO shall designate a person responsible for coordinating the transition plan and will assign staff as the Department determines is necessary to assist in the transition. Status meetings including staff from all parties involved in the transition will be held as frequently as the Department determines is necessary.

c) Continuation of Services

If the HMO has been unable to successfully transition all members to applicable programs by the time specified in the approved transition plan, the HMO shall continue operating as an HMO under this contract until all members are successfully transitioned. The Department will determine when all members have been successfully transitioned to applicable programs.

If the Department determines it necessary to do so, the HMO will agree to extend this contract, in order to continue providing services to members until they are successfully transitioned to applicable programs. During this period the HMO remains responsible, and shall provide, the services in the benefit package, and all terms and conditions of the contract will apply during this period.

d) Costs of Transition Plan

The HMO will be responsible for all expenses related to the transition plan, including, but not limited to costs associated with the Department's enrollment of the HMO's members into other HMOs or the provision of MA benefits to the HMO's members through other options in the event of a unilateral termination by the Department under Article XIV.E.2.b.

2) Notice to Members and Providers

- a) The Department will be responsible for developing the format for notifying all members of the date of non-renewal or termination and process by which the members will continue to receive contract services.

b) The Department will be responsible for the provision of any other necessary notifications to impacted members and providers. Such notifications may include, but are not limited to, mailed notices, ForwardHealth Member and/or Provider Updates and/or phone outreach.

c) Costs of Notice to Members and Providers

The HMO will be responsible for all expenses related to notifications under a) and b).

3) Pay for Performance Withhold Reconciliation:

If a HMO terminates the contract before sufficient time has elapsed for relevant HEDIS measures to be calculated for that year (e.g., before 11 months of continuous enrollment are completed), the HMO is not eligible for any performance bonuses for the Measurement Year, and is subject to the P4P withhold for the months the HMO had enrollment during the Measurement Year. The Department reserves the right to calculate the HMO's performance against the Measurement Year's benchmarks to determine if the HMO will earn back the withhold by:

a) Applying the HMO's previous measurement year's P4P results to the termination year's performance benchmarks; or

b) If a HMO does not have data that applies under the first and second bullets above, DHS will review P4P calculations on an individual basis.

4) Return of Advanced Payments:

a) Any payments advanced to the HMO for coverage of members for periods after the date of termination will be returned to the Department within the period of time specified by the Department.

b) Transfer of Information: The HMO will supply all information necessary for the reimbursement of any outstanding BadgerCare Plus and/or Medicaid SSI claims within the period of time specified by the Department.

c) Recoupments: If a contract is terminated, recoupments will be handled through a payment by the HMO to the Department within 90 days of contract termination.

k. HMO Mergers

For the purpose of this section, a merger or acquisition means a change in controlling interest of an HMO, including an asset or stock purchase.

This contract between the HMO and the State of Wisconsin and the monies which may become due may not be assigned, transferred, pledged or hypothecated in any way by the HMO, including by way of an asset or stock purchase by the HMO, without the express prior written approval of the Department.

In the event that the merger or acquisition of an HMO is approved by the Office of the Commissioner of Insurance (OCI), the Department shall allow the surviving HMO to participate in the Medicaid program unless it would be detrimental to Medicaid members or the Medicaid program, as determined by the Department through its certification standards. In order to participate in the Medicaid program, the surviving HMO must meet OCI standards, accept the terms and rates of the current HMO contract, and meet DHS certification requirements.

The Department retains the authority to determine what will occur with the non-surviving HMO's Medicaid enrollees. These determinations will be made on an individualized basis based on what is in the best interests of the membership.

HMOs must notify the Department of any proposed merger or acquisition immediately, but no fewer than 180 days prior to the proposed date of merger or acquisition, unless the Department waives the 180 day requirement at its discretion.

F. Interpretation of Contract Language

When disputes arise, the Department has the right to final interpretation and/or application of the Contract language. The HMO will abide by the interpretation and/or application.

ARTICLE XV: FISCAL COMPONENTS/PROVISIONS

A. Billing Members

For BadgerCare Plus and Medicaid SSI, any provider who knowingly and willfully bills a BadgerCare Plus or Medicaid SSI member for a covered service shall be guilty of a felony and upon conviction shall be fined, imprisoned, or both, as defined in Section 1128B.(d)(1) [42 U.S.C. 1320a-7b] of the Social Security Act and Wis. Stats. s. 49.49(3p). This provision shall continue to be in effect even if the HMO becomes insolvent.

However, if a member agrees in advance in writing to pay for a service not covered by BadgerCare Plus and/or Medicaid SSI, then the HMO, HMO provider, or HMO subcontractor may bill the member. The standard release form signed by the member at the time of services does not relieve the HMO and its providers and subcontractors from the prohibition against billing a member in the absence of a knowing assumption of liability for a non-BadgerCare Plus and/or Medicaid SSI covered service. The form or other type of acknowledgment relevant to a member's liability must specifically state the admissions, services, or procedures that are not covered by BadgerCare Plus and/or Medicaid SSI.

The HMO and its providers and subcontractors must not bill a BadgerCare Plus or Medicaid SSI member for medically necessary covered services provided to the member, for which the State does not pay the HMO; or the State or the HMO does not pay the individual or health care provider that furnished the services under contract, referral, or other arrangement; during the member's period of HMO enrollment, except for allowable copayments and premiums established by the Department for covered services provided during the member's period of enrollment in BadgerCare Plus. In addition, the HMO must ensure that its Medicaid members are not held liable for payments for medically necessary covered services furnished under a contract, referral, or other arrangement, to the extent that those payments are in excess of the amount the member would owe if the HMO covered the services directly. This contract limits a member's liability for cost sharing to the amounts listed in the ForwardHealth online handbook.

BadgerCare Plus and Medicaid SSI HMOs must comply with ForwardHealth policy regarding the 5% cost share cap for enrolled members, as required under Sections 1916A(a)(2)(B), 1916A(b)(1)(B)(ii), and 1916A(b)(2)(A) of the Social Security Act, as implemented in 42 CFR § 447.56(f). If the HMO elects to charge copays to members, they must provide at least a 6 month notice to DHS and submit a member communication plan for approval before implementation.

B. Physician Incentive Plans

A physician incentive plan is any compensation arrangement between the HMO and a physician or physician group that may directly or indirectly have the effect of reducing or limiting services provided with respect to individuals enrolled with the HMO.

The HMO shall fully comply with the physician incentive plan requirements specified in 42 CFR s. 417.479(d) through (g) and the requirements relating to subcontracts set forth in 42 CFR s. 417.479(i), as those provisions may be amended from time to time. HMO contracts must provide for compliance with the requirements set forth in s. 422.208 and s. 422.210.

The HMO may operate a physician incentive plan only if no specific payment can be made directly or indirectly under such a plan to a physician or physician group as an inducement to reduce or limit medically necessary services furnished to an individual.

If physician/group put at substantial financial risk for services not provided by physician/group, the HMO must ensure adequate stop-loss protection to individual physicians and conduct annual enrollee surveys.

The HMO must provide adequate and timely information on its physician incentive plan to any member upon request.

If required to conduct a member survey, survey results must be disclosed to the State and, upon request, disclosed to members.

The disclosure to the State includes the following, and will be reported in a format determined by the Department:

1. The HMO must report whether services not furnished by a physician/group are covered by incentive plan. No further disclosure required if the PIP does not cover services not furnished by physician/group.
2. The HMO must report type of incentive arrangement, e.g. withhold, bonus, capitation.
3. The HMO must report percent of withhold or bonus (if applicable).
4. The HMO must report panel size, and if patients are pooled, the approved method used.

If the physician/group is at substantial financial risk, the HMO must report proof the physician/group has adequate stop loss coverage, including amount and type of stop-loss.

C. Enhanced Physician Reimbursement for Medical Home Practice Design

The HMO may provide enhanced reimbursement to primary care provider practices that function as a medical home. If the HMO plans to implement enhanced physician reimbursement, please submit the following strategies:

1. Whether the HMO provides such a reimbursement and if so identify which provider practices are recipients.
2. The criteria the HMO uses to identify practices that function as a medical home and are eligible for this reimbursement.
3. The HMO's process for evaluating practices annually as to whether they meet the criteria.
4. How this reimbursement process is implemented.
5. Evidence that they are supplying their in-network providers with materials that explain in detail what their medical home criteria are, and how a clinic would be reimbursed for functioning as a medical home.

D. Payment Requirements/Procedures

The HMO is responsible for the payment of all contract services provided to members listed as ADDs or CONTINUEs on either the Initial or Final Enrollment Rosters generated for the coverage period.

The HMO is also responsible for the provision, or authorizing the provision of, services to members with valid ForwardHealth ID cards indicating HMO enrollment (via Electronic Voice Response or WiCall), without regard to disputes about enrollment status and without regard to any other identification requirements. Any discrepancies between the cards and the enrollment rosters must be reported to VEDSHMOSupport@wisconsin.gov for resolution. The HMO must continue to provide and authorize provision of all contract services until the discrepancy is resolved, including members who were PENDING on the Initial Roster and held a valid ForwardHealth ID card indicating HMO enrollment for the coverage period (via Electronic Voice Response or WiCall), but did not appear as a CONTINUE on the Final Roster.

If a member shows on the Initial enrollment roster as PENDING and later shows on the Final roster as a DISENROLL, the HMO will not be liable for services after the date the disenrollment is effective.

1. Claims Retrieval

The HMO must maintain a claim processing system that can upon request identify date of receipt of the claim as indicated by its date stamp, adjudication action on all claims types (i.e., paid, denied, suspended, etc.), and date of adjudication. In addition, the claim processing system must identify, within the individual claim, the services provided and the diagnoses of the members using nationally accepted coding systems as specified in the Encounter User Guide. Finally, the claim processing system must be capable of identifying the provider of services National Provider Identifier (NPI), or atypical identifier if applicable, and their associated taxonomy numbers and CLIA numbers.

2. Thirty Day Payment Requirement

The HMO must pay at least 90% of adjudicated clean claims from subcontractors/providers for covered medically necessary services within 30 days of receipt of a clean claim, 99% within 90 days and 100% within 180 days of receipt, except to the extent subcontractors/providers have agreed to later payment.

HMO agrees not to delay payment to a subcontractor/provider pending subcontractor/provider collection of third party liability unless the HMO has an agreement with the subcontractor/provider to collect third party liability.

If the HMO is currently experiencing a delay or anticipates a delay with timely claims processing and payment to providers, the HMO must notify DHS via an email to DHSDMSBRS@dhs.wisconsin.gov and the HMO's managed care analyst.

3. Payment to a Non-HMO contracted provider for Services Provided to a Disabled Member Less than Three or for Services Ordered by the Courts (BadgerCare Plus Only)

The HMO must pay for covered services provided by a non-HMO contracted provider to a disabled member less than three years of age, or to any member pursuant to a court order (for treatment), effective with the receipt of a written request for referral from the non-HMO contracted provider, and extending until the HMO issues a written denial or referral. This requirement does not apply if the HMO issues a written denial of referral within seven days of receiving the request for referral.

4. Payment of HMO Referrals to Non-Affiliated Providers

For HMO approved referrals to non-affiliated providers, the HMO must either establish payment arrangements in advance, or the HMO is liable for payment only to the extent that BadgerCare Plus and/or Medicaid SSI pays, including Medicare deductibles, or would pay, its FFS providers for services excluding Hospital Access Payments, Hospital P4P Withhold, and Ambulatory Surgery Center Access Payments. Refer to Article VIII for policy on Provider Appeals.

- a. For Non-Affiliated Providers, the Department will adjudicate Provider Appeals according to FFS benefit policy and reimbursement, including PA requirements, emergency and post stabilization definition and other contract provisions. Refer to Article VIII, Provider Appeals.
- b. Should there be an appeal resolution determined by the Department to be in the Provider's favor, the HMO must waive standard timely filing guidelines and allow the provider 60 days to rebill for services.

5. Health Professional Shortage Area (HPSA) Payment Provision

The following provision refers to payments made by the HMO. HMO covered primary care and emergency care services provided to a member living in a Health Professional Shortage Area (HPSA) or by a provider practicing in a HPSA must be paid at the HPSA enhanced rates as outlined under Medicaid FFS policy or the equivalent. Specified HMO-covered obstetric or gynecological services (see Wisconsin Health Care Programs Online Handbooks) provided to a member living in a HPSA or by a provider practicing in a HPSA must also be paid at the HPSA enhanced rates as outlined under Medicaid FFS policy or the equivalent. The specified enhanced payment amounts are available in the references made below.

However, this does not require the HMO to pay more than the enhanced FFS rate or the actual amount billed for these services. The HMO shall ensure that the money for HPSA payments is paid to the physicians and is not used to supplant funds that previously were used for payment to the physicians. The HMO must develop written policies and procedures to ensure compliance with this provision. These policies must be available for review by the Department, upon request.

The specified enhanced payment amounts are available in the Monthly HMO Max Fee Extract for the relevant HPSA procedure codes (BAF codes beginning with H). The procedure codes that qualify for the HPSA incentive are available on ForwardHealth.

6. Federally Qualified Health Centers (FQHC) and Rural Health Clinics (RHC)

If the HMO contracts with a Medicaid enrolled FQHC or RHC for the provision of services to its members, the HMO must pay at a minimum the Medicaid FFS rate or the equivalent aggregate FFS rate by provider. The HMO must retain records demonstrating that they are meeting this requirement. The records must be available within 30 days of the Department's request for information and be made available to CMS upon request.

The HMO must pay at least 90% of adjudicated clean claims from FQHC or RHC providers for covered medically necessary services within 30 days of receipt of a clean claim, 99% within 90 days and 100% within 180 days of receipt, except to the extent that providers have agreed to later payment.

7. Hospitalization at the Time of Enrollment or Disenrollment

The HMO will not assume financial responsibility for members who are hospitalized at the time of enrollment in the HMO (effective date of coverage) until date of the hospital discharge. The Department is responsible for paying on a FFS basis all BadgerCare Plus and/or Medicaid SSI covered services for such hospitalized members during hospitalization.

Hospitalization in this section is defined as an inpatient stay at a Medicaid-enrolled hospital as defined in Wis. Adm. Code DHS 101.03(76). Discharge from one hospital and admission to another within 24 hours for continued treatment shall not be considered a discharge under this section. Discharge is defined here as it is in the UB-04 Manual.

Members, including newborn members, who are hospitalized at the time of disenrollment from the HMO, shall remain the financial responsibility of the HMO. The financial liability of the HMO shall encompass all contract services. The HMO's financial liability shall continue for the duration of the hospitalization, except where:

- a. Loss of BadgerCare Plus or Medicaid SSI eligibility occurs.
- b. Disenrollment occurs because there is a voluntary Disenrollment from the HMO as a result of one of the conditions in Article II, B(1) in which case the HMO's liability shall terminate upon disenrollment being effective.
- c. Disenrollment is due to a medical status code change which includes:
 - 1) SSI for BadgerCare Plus members only.

- 2) 503 case (503 cases are SSI cases that continue Medicaid SSI eligibility when Social Security cost of living increases cause an SSI member to lose SSI eligibility).
- 3) Institutionalized enrollment.
- 4) Foster Care Medicaid enrollment.

In these four exceptions, the HMO's liability shall not exceed the period for which it is capitated. When calculating the HMO liability for the member, the HMO should take the total stay allowed divided by the total number of days hospitalized to determine a daily rate. The daily rate would then be multiplied by the number of days the member was enrolled in the HMO.

8. Members Living in a Public Institution (BadgerCare Plus, and Medicaid SSI Plans)

The HMO is liable for the cost of providing all medically necessary services to members who are living in a public institution during the month in which they first enter the public institution. Members who remain in public institution after the last day of the month are no longer eligible for BadgerCare Plus or Medicaid SSI and the HMO is not liable for providing care after the end of the first month.

Members who are living in a public institution and go directly from the public institution to a medical facility, court ordered or voluntarily, are no longer living in a public institution and remain eligible for BadgerCare Plus or Medicaid SSI. The HMO shall be liable for the provision of medically necessary treatment if treatment is at the HMO's contracted facilities, or if unable to itself provide for such treatment.

9. Payment to Provider Pending Credentialing Approval

The HMO must pay a Medicaid-enrolled provider for services provided to a member of the HMO while the provider's complete application for credentialing is pending approval by the HMO. If the provider's application is ultimately denied by the HMO, the HMO is not liable for the services provided. This provision does not apply to HMOs who are NCQA-accredited.

10. Calculation of Non-listed Max Fee Rate

When a rate is not listed on the FFS max fee schedule, the HMO may determine their own payment methodology for determining the rate for affiliated and non-affiliated providers. The Department may request documentation of methodology if a provider appeal is submitted based on this derived payment amount.

11. The HMO is prohibited from making payment to a provider for provider-preventable conditions (42 CFR 438.6(f)(2)(i)).

All provider-preventable conditions associated with claims for payment or member treatments for which payment would otherwise be made must be reported by all providers to the HMO per 42 CFR 438.6(f)(2)(ii).

Refer to Article X, B.3 for a comprehensive listing of provider-preventable conditions.

12. 2022 American Rescue Plan Rate Increase

The 2022 American Rescue Plan Rate Increase is subject to the Wisconsin Legislature Joint Finance Committee approval.

- a. For purposes of this section, “ARPA eligible service provider” are providers of:
- alcohol and other drug abuse (AODA) services,
 - AODA Day Treatment,
 - home health services,
 - housing counseling,
 - mental health day treatment,
 - mental health services,
 - nursing provided in the home,
 - occupational therapy provided in the home,
 - personal care,
 - physical therapy provided in the home,
 - respiratory care,
 - respite,
 - skilled nursing services (RN/LPN) ,
 - speech and language pathology services provided in the home, and
 - transportation as defined in Wis. Admin. Code DHS § 107.23, excluding ambulance.
- b. Providers of services not listed, including but not limited to retail providers, nursing homes and common carrier transportation providers are not ARPA eligible service providers under this section. HMOs are also not eligible service providers.
- c. HMOs are required to provide a unit rate increase to all eligible providers equal to 5% of each eligible provider’s rates for the services identified in a. effective January 1, 2022.
- d. HMOs are required to complete issuing payments for this increase by April 1, 2022.

ARTICLE XVI: PAYMENTS TO THE HMO

A. Actuarial Basis

The capitation rates and non-capitated rates, where appropriate, are calculated on an actuarial basis set forth in 42 CFR § 438.6. Rates are based on public or private payment rates for comparable services for comparable populations, consistent with actuarially sound principles as defined at 42 CFR § 457.10.

Payment shall not be made with respect to any amount expended for which funds may not be used under the Assisted Suicide Funding Restriction Act of 1997.

Payment shall not be made with respect to any amount expended for roads, bridges, stadiums, or any other item or service not covered under a State plan under this title; except for “in lieu of” services outlined in this contract.

B. Annual Negotiation of HMO Payments

The monthly payment rates, where appropriate, are recalculated on an annual basis.

1. The HMO will have 30 days from the date of the written notification to accept the new payment rates in writing or to initiate termination or non-renewal of the Contract.
2. A non-response after 30 days constitutes acceptance of the rates.
3. The payment rates are not subject to renegotiation by the HMO once they have been accepted.
4. The Department may elect to renegotiate rates as required by changes in federal or state laws, rules or regulations.
5. The Department may adjust payment rates to reflect the implementation of material provider rate changes. The rate adjustment would be certified as actuarially sound and approved by CMS in the form of a contract amendment.

C. Capitation Rates

The Department agrees to pay the HMO a monthly prospective payment based on the capitation rates provided that the HMO is in full compliance with all contract requirements. See Article IV(A) for specific services that are included and excluded from the capitated rates. The capitation rates shall be prospective and based on an actuarially sound methodology as required by federal regulations.

The capitation rate shall not include any amount for recoupment of losses incurred by the HMO under previous contracts. Nor does it include services that are not covered under the State Plan with the exception of in lieu of services which currently include non-acute

residential mental health services and alternative mental health services, substituted for acute mental health services for members aged 21 - 64.

The Reimbursement Schedule provides more information about the specific payments and adjustment process can be found on the ForwardHealth Portal in the Managed Care Organization section: <https://www.forwardhealth.wi.gov/WIPortal/Default.aspx>.

No payment shall be made to a network provider other than by the HMO for services covered under this contract, except when these payments are specifically required by the State in Title XIX of the Act, in 42 CFR chapter IV, or when the State makes direct payments to network providers for graduate medical education costs approved under the State plan.

D. Recoupments

The Department will recoup the HMO payments as described below:

1. The Department will recoup HMO current capitation payments for the following situations where a member's HMO status has changed before the first day of a month for which a capitation payment had been made:
 - a. Member moves out of the HMO's service area.
 - b. Member enters a public institution.
 - c. Member dies.
 - d. Correction of a computer or human error.
2. The Department will recoup the HMO capitation payments for the following situations where the Department initiates a change in a member's HMO status on a retroactive basis, reflecting the fact that the HMO was not able to provide services. In these situations, recoupments for multiple months' capitation payments are more likely.
 - a. Correction of a computer or human error, where the person was never really enrolled in the HMO.
 - b. Disenrollments of members for continuity of care reasons, or as specified in Article II, B.
3. If membership is disputed between two HMOs, the Department will be the final arbitrator of HMO membership and reserve the right to recoup an inappropriate capitation payment.
4. If the HMO member moves out of the HMO's service area, the member will be disenrolled from the HMO on the date the member moved as verified by the eligibility worker. If the eligibility worker is unable to verify the member's move, the HMO may mail a "certified return receipt requested" letter to the member to verify the move. The member must sign for the letter. A copy of the letter and the signed return receipt must be sent to the Department or its designee within 20 days of the

member's signature date. If the criteria are met, the effective date of the disenrollment is the first of the month in which the certified returned receipt requested letter was sent. Documentation that fails to meet the 20 day criteria will result in disenrollment the first day of the month that the HMO supplied information to the Department or its designee. This policy does not apply to extended service area requests that have been approved by the HMO unless the member moves out of the extended service area or the HMO's service area. Any capitation payment made for periods of time after disenrollment will be recouped.

5. The Department will recoup HMO non-capitated payments for the following situations:
 - a. Correction of a computer or human error.
 - b. A reconciliation process.
 - c. Per the instructions from a reimbursement guide.

E. Risk adjustment payments or recoupments

Risk adjustment payments or recoupments will be made to the HMO based on chronicity adjustments during the rate development process. The risk adjustment scores will be applied to the rate prospectively and an annual reconciliation will be calculated based on actual enrollment. This may result in additional payments to or recoupments from the HMO.

F. Reinsurance

The HMO may obtain a risk-sharing arrangement from an insurer other than the Department for coverage of members under this Contract, provided that the HMO remains substantially at risk for providing services under this Contract.

G. Coordination of Benefits (COB), Third Party Liability (TPL) and Subrogation

The HMO must actively pursue, collect and retain all monies from all available resources for services to members covered under this Contract except where the amount of reimbursement the HMO can reasonably expect to receive is less than the estimated cost of recovery (this exception does not apply to collections for ventilator dependent patients). For purposes of both COB and TPL, and pursuant to the federal Deficit Reduction Act (P.L. 109-171, Sec. 6035), the HMO shall use cost avoidance when possible, except as otherwise permitted herein. Specifically, HMOs are prohibited from referring enrollees to publicly supported health care resources in order to avoid costs. While the HMO cannot recoup payment pending third party liability recovery, it may request additional information from a provider or member prior to payment in order to determine whether there is a payer that is primary to Medicaid.

1. Cost effectiveness of recovery is determined by, but not limited to time, effort, and capital outlay required to perform the activity. Upon the request of the Department, the HMO must be able to specify the threshold amount or other guidelines used in determining whether to seek reimbursement from a liable third party, or describe the process by which the HMO determines seeking reimbursement would not be cost effective. Recovery activities include COB, TPL and pursuit of the HMO's subrogation rights under the Ch. 49 of the WI Statutes. Pursuant to Ch. 49 and Wis. Adm. Code DHS 106, the HMO shall have the same COB and collection rights as the Department, and may require providers to code claims for liability in order to assist with recovery efforts.
2. The HMO must also seek to coordinate benefits with other available resources before claiming reimbursement from the Department for all services meeting the cost effectiveness threshold:
 - a. Other available resources for benefit coordination and recovery may include, but are not limited to, all other state or federal medical care programs that are primary to BadgerCare Plus and/or Medicaid SSI, group or individual health insurance, ERISAs, service benefit plans, disability insurance policy, the insurance of absent parents who may have insurance to pay medical care for spouses or minor members, subrogation/worker's compensation collections, and any other available medical payments coverage that is issued without regard to liability (even if contained within a liability insurance policy). To the extent medical payments coverage has been issued directly to a member instead of the HMO or provider for reimbursement of specific claims, the HMO may require such claims to be paid by the member out of these funds.
 - b. Subrogation collections are any recoverable amounts arising out of the settlement or other resolution of personal injury, medical malpractice, product liability, or Worker's Compensation. State subrogation rights have been extended to the HMO under Act 31, Laws of 1989, s. 49.89(9). After attorneys' fees and expenses have been paid, the HMO will collect the full amount paid on behalf of the member (subject to applicable law). Similarly, the HMO shall have the right to require a full accounting of claims already paid by a liability insurer under medical payments coverage prior to its payment to verify that the HMO is not issuing payment on a claim that has already been paid by an alternate funding source. To the extent a claim is undisputed (for example, worker's compensation or personal injury) and the third party insurer is covering related medical expenses, such insurance shall be considered primary to Medicaid for such claims and should make payment on any related claim(s) prior to payment by the HMO.

- c. In accordance with federal law, preventive pediatric services may only be recovered through post-payment billing (pay and chase). Post-payment billing will also be done in situations where the third party liability (TPL) is derived from a parent whose obligation to pay is being enforced by the State Child Support Enforcement Agency and the provider has not received payment within 30 days after the date of service.
3. Section 1912(b) of the Social Security Act must be construed in a beneficiary-specific manner. The purpose of the distribution provision is to permit the beneficiary to retain TPL benefits to which he or she is entitled except to the extent that BadgerCare Plus and/or Medicaid SSI (or the HMO on behalf of BadgerCare Plus and/or Medicaid SSI) is reimbursed for its costs. The HMO is free, within the constraints of state law and this Contract, to make whatever case it can to recover the costs it incurred on behalf of its member. It can use the max fee schedule, an estimate of what a capitated physician would charge on a FFS basis, the value of the care provided in the market place, or some other acceptable proxy as the basis of recovery. However, any excess recovery, over and above the cost of care (however the HMO chooses to define that cost), must be returned to the beneficiary. The HMO may not collect from amounts allotted to the beneficiary in a judgment or court-approved settlement, except those related to past medical expenses paid by the HMO. In the event any judgment or settlement is not itemized, the HMO shall be free, subject to applicable law, to work with the member, other insurance, and/or attorneys to resolve the Medicaid lien in a fair and equitable manner.
4. To ensure compliance, the HMO must maintain records of all COB collections and report them to the Department on a quarterly basis. The COB report must be submitted in the format specified in this Contract (Addendum 4, A). The HMO must be able to demonstrate that appropriate collection efforts and appropriate recovery actions were pursued. The Department has the right to review all billing histories and other data related to COB activities for members. The HMO must seek third party coverage information from all available resources.
5. The HMO must seek third party coverage information from all available resources. This includes accessing and reviewing member's TPL/COB information in the ForwardHealth portal. The HMO is required to submit TPL discrepancies to the Department in the format and manner prescribed by the Department.
6. COB and TPL collections are the responsibility of the HMO or its subcontractors. Subcontractors must report COB information to the HMO. The HMO and its subcontractors must not pursue collection from the member, but directly from the

third party payer. Access to medical services must not be restricted due to COB collection.

7. The following requirement applies if the Contractor (or the Contractor's parent firm and/or any subdivision or subsidiary of either the Contractor's parent firm or of the Contractor) is a health care insurer (including, but not limited to, a group health insurer and/or health maintenance organization) licensed by the Wisconsin Office of the Commissioner of Insurance and/or a third-party administrator for a group or individual health insurer(s), health maintenance organization(s), and/or employer self-insurer health plan(s):
 - a. Throughout the Contract term, these insurers and third-party administrators must comply in full with the provision of Wis. Stats., Subsection 49.475. Such compliance must include the routine provision of information to the Department in a manner and electronic format prescribed by the Department and based on a monthly schedule established by the Department. The type of information provided must be consistent with the Department's written specifications.
 - b. Throughout the Contract term, these insurers and third-party administrators must also accept and properly process post payment billings from the Department's fiscal agent for health care services and items received by BadgerCare Plus and Medicaid SSI members.
8. If at any time during the Contract term any of the insurers or third party administrators fail, in whole or in part, to collect from third party payers, except as otherwise permitted herein, the Department may take the remedial measures specified in this Contract.
9. In accordance with 42 CFR § 438.3(t), the HMO must enter into a Coordination of Benefits Agreement (COBA) with Medicare, participate in the automated claims crossover process, and execute all deliverables in the agreement.

H. Ventilator Dependent Members

To qualify for a ventilator dependent payment, a member must require equipment that provides total respiratory support or the member must have died while on total respiratory support. This equipment may be a volume ventilator, negative pressure ventilator, continuous positive airway pressure (CPAP) system, or a Bi (inspiratory and expiratory) PAP. The member may need a combination of these systems. Any equipment used only for the treatment of sleep apnea does not qualify as total respiratory support.

1. BadgerCare Plus Criteria

The BC+ enrolled member must be inpatient and have total respiratory support for at least 30 days. Total respiratory support must be required for a total of six or more hours per 24 hour period. The total respiratory support does not need to be continuous during that period. Day one is the day that the member is placed on the ventilator. If the member is on the ventilator for less than six hours on the first day, the use must continue into the next day and be more than six total hours. Each day that the member is on the ventilator for part of any day, as long as it is part of the six total hours per 24 hours, it counts as a day for enhanced funding.

If a member is removed from the ventilator to be transferred to home or a hospice/skilled nursing facility prior to the 30 day ventilator requirement and he/she dies within 48 hours of the transfer, the Department will pay all Medicaid covered services to the end of the month or the member's date of death, whichever comes first. This applies to a member being removed from the ventilator in 2016 or after.

The need for total respiratory support must be supported by either:

- a. appropriate medical documentation that include:
 - 1) a copy of the member's admission history and physical exam,
 - 2) discharge summary,
 - 3) physician and nurse's notes that pertain to the member's ventilator use.
- b. a signed statement from the physician that includes:
 - 1) member's name, date of birth, Medicaid ID# and the primary diagnosis,
 - 2) The name of the hospital with the admit/discharge dates,
 - 3) Dates the member was on a ventilator or CPAP,
 - 4) Statement must specify whether the member was on a ventilator or CPAP.

If the member is transferred to home or a hospice/skilled nursing facility the Department will need medical documentation that includes the member's date of death and the date of the transfer. Documentation must be submitted at the same time as the quarterly reports as specified in Article XII, K.

2. Medicaid SSI Criteria

The member had an inpatient stay for a minimum of four days or an inpatient stay less than four days length if the member died while on total respiratory support. The SSI member must have one of the following qualifying LTC or APR-DRG codes. APR DRG codes require a supporting ICD- Procedure Codes:

MS-DRG	Description	APR DRG	ICD PROC	Description
870	Septicemia or Severe Sepsis w MV 96+ Hours	720	5A1955Z	Septicemia & Disseminated Infections and; Respiratory Ventilation, Greater than 96 Consecutive Hours
927	Extensive third degree burn with skin graft with; 5A1955Z (Respiratory ventilation, Greater than 96 consecutive hours)	841	5A1955Z	Extensive 3rd degree burns w skin graft; Respiratory Ventilation, Greater than 96 Consecutive Hours
933	Extensive third degree burn without skin graft with; 5A1955Z (Respiratory ventilation, Greater than 96 Consecutive hours)	843	5A1955Z	Extensive 3rd degree or full thickness burns w/o skin graft Respiratory Ventilation, Greater than 96 Consecutive Hours
003	Tracheostomy with mechanical ventilation 96+ hours or principle diagnosis except face, neck, and mouth diagnosis with major OR procedure	004	N/A	Tracheostomy w MV 96+ hours w extensive procedure or ECMO
004	Tracheostomy with mechanical ventilation 96+ hours or principle diagnosis except face, neck, and mouth diagnosis without major OR procedure	005	N/A	Tracheostomy w MV 96+ hours w/o extensive procedure
207	Respiratory system diagnosis with ventilator support 96+ hours.	130	N/A	Respiratory system diagnosis w ventilator support 96+ hours

If an SSI member is removed from the ventilator to be transferred to home or a hospice/skilled nursing facility prior to the four day ventilator requirement and he/she dies within 48 hours of the transfer, the Department will pay all Medicaid covered services to the end of the month or the member's date of death, whichever comes first. This applies to a member being removed from the ventilator in 2016 or after.

The need for total respiratory support must be documented by a copy of the UB-04 or a copy equivalent to the UB-04 with at least one of the LTC or APR-DRG codes (with the designated ICD-10-PCS procedure code) listed above or a copy of the member's admission history and physical exam, discharge summary, physician and nurse's notes that pertain to the member's ventilator use. If a member is transferred to home or a hospice/skilled nursing facility the Department will need medical documentation that includes the member's date of death and the date of the transfer. Documentation must be submitted at the same time as the quarterly reports as specified in Article XII, K.

The Department may approve additional LTC or APR DRGs if the medical records and ICD procedure code documents that the member was on continuous mechanical ventilation for 96 or more continuous hours and had an inpatient stay for a minimum of four days or lesser length if the member died while on total respiratory support.

3. Reporting Requirements

The HMO must submit detailed claims in an Excel file via the SFTP site. Supporting documentation such as medical records, attestation form and the ventilator cost summary should be submitted via the SFTP site. The reports must be submitted to the Department's Bureau of Rate Setting on a quarterly basis as specified in Article XII, K and contain all the data elements specified below. Ventilator reports are due 30 days after the end of each quarter. The reports include PHI and should be sent to the attention of the BRS Ventilator Analyst.

	Data Elements
1.	HMO Name
2.	HMO Provider Payee Number
3.	Eligibility Code: V-Vent
4.	Member BadgerCare Plus or Medicaid SSI MA Number
5.	Member Last Name
6.	Member First Name
7.	Member's Date of Birth: mmddyy
8.	Member's Gender: F (female) or M (male)
9.	BadgerCare Plus or Medicaid SSI Provider Last Name
10.	BadgerCare Plus or Medicaid SSI Provider First Name
11.	Date of Services: From Date (mmddyy) (In ascending order not by provider.)
12.	Date of Service: To Date (mmddyy)
13.	Primary Diagnosis Code 1: ICD-10-PCS or APR DRG
14.	ICD PROC: required for SSI Members with APR DRG Codes only
15.	Quantity: Do not zero fill
16.	Procedure: CPT, ICD-10-PCS, HCPCS, DRG
17.	Procedure Description: CPT, ICD-10-PCS, HCPCS, DRG
18.	Amount Billed: Include decimal (do not zero fill)
19.	Amount Paid: Include decimal (do not zero fill)
20.	Total Amount Billed for Each Individual Member: Include decimal (do not zero fill)
21.	Total Amount Paid for Each Individual Member: Include decimal (do not zero fill)
22.	Hospital Admit Date
23.	Hospital Discharge Date

If the HMO is contracted to serve both BadgerCare Plus and Medicaid SSI members the reports must be submitted separately and include a completed Attestation form (Addendum IV, G).

Per Wis. Adm. Code § DHS 106.03 payment data or adjustment data must be received within 365 days after the date of the service. The HMO is required to submit their ventilator claim(s) to the Department on a quarterly basis; the HMO will be given an

additional three months plus 10 days to file their claim(s) or payment data adjustment(s). If the last date of service for an inpatient hospital facility stay occurs within the same timeline specified (365 days plus three months plus 10 days) the Department will reimburse the HMO for the facility charges that entire stay. If the HMO cannot meet these requirements, the HMO must provide documentation that substantiates the delay. The Department will make the final determination to pay or deny the services. The Department will exercise reasonable discretion in making the determination to waive the 365 day filing requirements.

4. Payment Requirements

As specified in 42 C.F.R. § 447.362, the HMO's Medicaid reimbursement will not exceed Medicaid fee-for-service costs of providing BadgerCare Plus and/or Medicaid SSI covered services to BadgerCare Plus and Medicaid SSI HMO members who meet the ventilator dependent criteria. Reimbursement will only be for Medicaid covered services paid by the HMO. Other associated costs, such as administration or interest, will not be reimbursed.

a. Enhanced Funding

1) Newborns (BadgerCare Plus Only)

The period of enhanced funding for newborns who are on total respiratory support at birth, will begin with the newborn's date of birth and will end on the last day of the month of the qualifying hospital stay. If the newborn dies while on total respiratory support the enhanced funding will end on the date of death. The newborn may be removed from the ventilator to spend time with family and friends prior to his/her date of death.

2) All Other Members

The period of enhanced funding for all other members who meet the ventilator dependency criteria will begin on the first day of the month the member was hospitalized and will end on the last day of the month of the qualifying hospital stay. If the member dies while on total respiratory support the enhanced funding will end on the date of death. The member may be removed from the ventilator to spend time with family and friends prior to his/her date of death.

b. Payment Adjustments

Adjustments that will be made to the HMO's final payment include, but are not limited to:

- 1) Reimbursement(s) already paid to the HMO in the form of capitation payments for members who qualify as being ventilator dependent will be deducted from the HMO's quarterly payment.
- 2) Costs for medical services provided to ventilator dependent members who are retroactively disenrolled are not payable. The HMO must back out the cost of care that was provided during the period the member was retroactively disenrolled from their reports. If services are submitted for payment they will be denied and the costs will be deducted from the HMO's quarterly payment.
- 3) Costs for services provided after the enrollee's date of death are not covered by the Medicaid program. If services are submitted for payment they will be denied and the costs will be deducted from the HMO's quarterly payment.

c. Payment Dispute Resolution

Disputes regarding the Department's payment or nonpayment of ventilator dependent BadgerCare Plus and/or Medicaid SSI services as well as any adjustments made by the HMO (e.g., adjustments to provider payments or adjustments due to amounts recovered from third parties) must be submitted in the next report period.

d. Ventilator Cost Summary Report Format

Category of Service	Amount Billed	Amount Paid
Inpatient		
Outpatient		
Physician		
Pharmacy		
All Other		
Total		

I. Hospital Access Payment for Non-Critical Access Hospitals

The Department will pay the HMO a monthly hospital inpatient access payment and a monthly hospital outpatient access payment within the limits of the budgeted allocation from the hospital assessment fund. The Department's monthly hospital access payments to the HMOs are made as prospective "per member per month" payments, unadjusted for risk adjustment.

The HMO shall make payments to eligible hospitals based on the number of qualifying inpatient discharges and outpatient claims in the previous month. Payments must be sent to hospitals within 15 calendar days after the HMO receives the monthly amounts from the Department. These payments are in addition to any amount the HMO is required by agreement to pay the hospital for provision of services to HMO members.

An "eligible hospital" means a Medicaid-enrolled Wisconsin hospital that is not a critical access hospital, an institution for mental disease, or a general psychiatric hospital for which the Department has issued a certificate of approval that applies only to the psychiatric hospital and that is not a satellite of an acute care hospital. A list of qualifying hospitals is available from the Department upon request.

"Qualifying inpatient discharges and outpatient claims" are inpatient discharges and outpatient claims for which the HMO made payments to eligible providers in the month preceding the Department's monthly access payment to the HMO for services to the HMO's Medicaid and BadgerCare Plus members, other than Childless Adult (CLA) Plan members or members who are eligible for both Medicaid and Medicare. The HMO shall exclude all members who are dually-eligible and all dual-eligible claims. If a third party pays the claim in full, and the HMO does not make a payment, the claim shall not count as a qualifying claim for the hospital access payment. If the HMO pays any part of the claim, even if there is a third party payer, the claim will be counted as a qualifying claim for the hospital access payment.

1. Method of payment to hospitals

- a. Payments must be sent to eligible hospitals within 15 days of the HMO receiving the hospital access payments from the Department. The HMO shall pay out the full amounts of hospital access payments. The HMO will base its hospital payments upon the number of qualifying inpatient discharges and outpatient claims regardless of the amount of the base claims payment for those inpatient discharges and outpatient claims. The HMO shall pay each eligible hospital based upon its percentage of the total number of qualifying inpatient discharges and outpatient claims for all eligible hospitals. If the HMO has no qualifying claims for a specific category:

- 1) A specific category is denied as the separate payment provided by the Department for either BadgerCare Plus or Medicaid SSI and either Inpatient or Outpatient. An example of a Hospital Access Payment specific category for Non-Critical Access Hospital is BadgerCare Plus/Inpatient.
- 2) The HMO shall return payment within 15 calendar days after payment is due to providers or within 30 calendar days after the HMO receives the monthly amount from the Department.
- 3) The return payment will include details of the associated Department check or EFT number, its purpose, specific category, and the month the Department payment was received.
- 4) The HMO will submit notice of returned payment to DHSDMSBRS@dhs.wisconsin.gov with subject: HMO Access Payment Return.

b. An example of the payment methodology is as follows:

HMO A receives \$1 million for inpatient access payments and \$500,000 for outpatient access payments in the month of June. HMO A distributes inpatient and outpatient access payments to eligible hospitals received from the Department in June according to the following formula:

- 1) Inpatient: HMO A counts 1,000 inpatient qualifying discharges paid in May (excluding Medicare crossover claims and claims paid for Childless Adult (CLA) Plan members) to three eligible hospitals.

Hospital X was paid for 300 discharges by HMO A in the month of May, and therefore, will receive 30% of the total inpatient access payment HMO A received from the Department in June.

- 2) Outpatient: HMO A counts 2,000 outpatient qualifying claims paid in May (excluding Medicare crossover claims and claims paid for Childless Adult (CLA) Plan members) to five eligible hospitals.

Hospital X was paid for 400 claims by HMO A in the month of May, and therefore, will receive 20% of the total outpatient access payment HMO A received from the Department in June.

2. Monthly reporting requirements

- a. The HMO shall send a report along with its monthly payment to each eligible hospital that contains the following information:
 - 1) The amount of the hospital access payments received from the Department for inpatient discharges;
 - 2) The amount of the hospital access payments received from the Department for outpatient claims;
 - 3) That hospital's number of qualifying inpatient discharges;
 - 4) That hospital's number of qualifying outpatient claims;
 - 5) The total number of qualifying inpatient discharges for all qualifying hospitals;
 - 6) The total number of qualifying outpatient claims;
 - 7) Access payment amount per qualifying inpatient discharge;
 - 8) Access payment amount per qualifying outpatient claims;
 - 9) The amount of the total payment to that hospital.
- b. The HMO shall use the Access Payment Portal to report all access payments to providers to the Department. The link to the Access Payment Portal is: <https://wihmo.pcgus.com/>.
- c. The HMO must complete the payment information within the Access Payment Portal within 15 calendar days of receipt of payment from the Department.
- d. If the Access Payment Portal is unavailable for a period of time greater than 48 hours, the HMO must contact the Department immediately upon discovery and submit payment information using approved methodologies by the Department as described below.
- e. The HMO is no longer required to submit the report in Addendum F and H unless instructed by the Department due to the unavailability of the Access Payment Portal. In these situations the HMO will submit the reports in Addendum F and H within 15 calendar days of receipt of payment from the Department. These submissions will use the rounding methodology as described:
 - 1) Initially calculate payment to the fourth decimal.
 - 2) Round down the payment to the nearest hundredth or send decimal point.
 - 3) Take the difference between the Departments payment and the total of the rounded down payment.

- 4) Distribute this difference one penny at a time in descending order from highest to lowest in utilization (NOTE: Only include providers with at least one utilization.)
- 5) If providers have the same utilization amount, then distribute it alphabetically in ascending order.

3. Noncompliance

The Department shall have the right to audit any records of the HMO to determine if the HMO has complied with the requirements in this section J. If at any time the Department determines that the HMO has not complied with any requirement in this section L, the Department will issue an order to the HMO that it comply and the HMO shall comply within 15 calendar days after the Department's determination of noncompliance. If the HMO fails to comply after an order, the Department may terminate the contract as provided under Article XIV, C.9.

Upon request, the HMO must submit a list of paid inpatient and outpatient claims to the Department and any other records the Department deems necessary to determine compliance.

If the HMO fails to send payment to the hospital within 15 calendar days of receiving the hospital access payment from the Department, the HMO will pay an assessment to the Department equal to three percent of the delayed payment.

4. Payment disputes

If the HMO or the hospital dispute the monthly amount that the HMO is required to pay the hospital, either party may request that the Department determine the amount of the payment if the request is filed within six months after the first day of the month in which the payment is due. The Department will determine the amount of the payment within 60 days after the request for a determination is made. The HMO or hospital may request a contested case hearing under Ch. 227 on the Department's determination.

5. Resolution of Reporting Errors

The HMO shall adjust prior hospital access payments that were based on an inaccurate counting of qualifying inpatient discharges or outpatient claims. If an error is discovered, the Bureau of Rate Setting must be contacted in writing within 15 calendar days of the discovery. Corrections will be adjusted on a prospective basis. Corrections will be adjusted using the Portal functionality. HMOs will be responsible

for making these adjustments. If the Portal function is unavailable then the HMO will submit a Department-approved plan to address the error.

J. Critical Access Hospital (CAH) Access Payment

Within the limits of the budgeted allocation from the Critical Access Hospital (CAH) assessment fund, the Department will pay the HMO a monthly CAH inpatient access payment and a monthly CAH outpatient access payment. The Department's monthly CAH access payments to the HMOs are made as prospective "per member per month" payments, unadjusted for risk adjustment.

The HMO shall make payments to eligible CAHs based on the number of qualifying inpatient discharges and outpatient claims in the previous month. Payments must be sent to the CAH within 15 calendar days after the HMO receives the monthly amounts from the Department. These payments are in addition to any amount the HMO is required by agreement to pay the CAH for provision of services to HMO members.

An "eligible CAH" means a Medicaid-enrolled Wisconsin CAH that is not an acute care hospital, an institution for mental disease, a rehabilitation hospital, or a general psychiatric hospital for which the Department has issued a certificate of approval that applies only to the psychiatric hospital and that is not a satellite of an acute care hospital. A list of qualifying CAH is available from the Department upon request.

"Qualifying discharges and claims" are inpatient discharges and outpatient claims for which the HMO made payments to eligible providers in the month preceding the Department's monthly access payment to the HMO for services to the HMO's Medicaid and BadgerCare Plus members, other than Childless Adult (CLA) Plan members or members who are eligible for both Medicaid and Medicare. HMOs shall exclude all members who are dually-eligible and all dual-eligible claims. If a third party pays the claim in full, and the HMO does not make a payment, the claim shall not count as a qualifying claim for the CAH access payment. If the HMO pays any part of the claim, even if there is a third party payer, the claim will be counted as a qualifying claim for the CAH access payment.

1. Method of payment to hospitals

- a. Payments must be sent to eligible CAH(s) within 15 days of the HMO receiving the CAH access payments from the Department. The HMO shall pay out the full amounts of CAH access payments. The HMO will base its CAH payments upon the number of qualifying inpatient discharges and the number of qualifying outpatient claims regardless of the amount of the base claims payment for those discharges and claims. The HMO shall pay each eligible CAH based upon its percentage of the total number of qualifying

claims for all eligible CAH(s). If the HMO has no qualifying claims for a specific category:

- 1) A specific category is denied as the separate payment provided by the Department for either BadgerCare Plus or Medicaid SSI and either Inpatient or Outpatient. An example of a Hospital Access Payment specific category for Non-Critical Access Hospital is BadgerCare Plus/Inpatient.
- 2) The HMO shall return payment within 15 calendar days after payment is due to providers or within 30 calendar days after the HMO receives the monthly amount from the Department.
- 3) The return payment will include details of the associated Department check or EFT number, its purpose, specific category, and month Department payment was received.
- 4) The HMO will submit notice of returned payment to DHSDMSBRS@dhs.wisconsin.gov with subject: HMO Access Payment Return.

b. An example of the payment methodology is as follows:

HMO A receives \$1 million for inpatient access payments and \$500,000 for outpatient access payments in the month of June. HMO A distributes inpatient and outpatient access payments to eligible CAH(s) received from the Department in June according to the following formula:

- 1) Inpatient: HMO A counts 1,000 inpatient qualifying discharges paid in May (excluding Medicare crossover claims and claims paid for Childless Adult (CLA) Plan members) to three eligible CAH(s).

CAH X was paid for 300 discharges by HMO A in the month of May, and therefore, will receive 30% of the total inpatient access payment HMO A received from the Department in June.

- 2) Outpatient: HMO A counts 2,000 outpatient qualifying claims paid in May (excluding Medicare crossover claims and claims paid for Childless Adult (CLA) Plan members) to five eligible CAH(s).

CAH X was paid for 400 claims by HMO A in the month of May, and therefore, will receive 20% of the total outpatient access payment HMO A received from the Department in June.

2. Monthly reporting requirements

- a. The HMO shall send a report along with its monthly payment to each eligible CAH that contains the following information:
 - 1) The amount of the CAH access payment received from the Department for inpatient discharges;
 - 2) The amount of the CAH access payments received from the Department for outpatient claims;
 - 3) That CAH's number of qualifying inpatient discharges;
 - 4) That CAH's number of qualifying outpatient claims;
 - 5) The total number of qualifying inpatient discharges for all qualifying CAH(s);
 - 6) The total number of qualifying outpatient claims;
 - 7) Access payment amount per qualifying inpatient discharge;
 - 8) Access payment amount per qualifying outpatient claim;
 - 9) The amount of the total payment to that CAH.
- b. The HMO shall use the Access Payment Portal to report all access payments to providers to the Department. The link to the Access Payment Portal is: <https://wihmo.pcgus.com/>.
- c. The HMO must complete the payment information within the Access Payment Portal within 15 calendar days of receipt of payment from the Department.
- d. If the Access Payment Portal is unavailable for a period of time greater than 48 hours, the HMO must contact the Department immediately upon discovery and submit payment information using approved methodologies by the Department as described below.
- e. The HMO is no longer required to submit the report in Addendum G and H unless instructed by the Department due to the unavailability of the Access Payment Portal. In these situations the HMO will submit the reports in Addendum F and H within 15 calendar days of receipt of payment from the Department. These submissions will use the rounding methodology as described:
 - 1) Initially calculate payment to the fourth decimal.
 - 2) Round down the payment to the nearest hundredth or send decimal point.
 - 3) Take the difference between the Departments payment and the total of the rounded down payment.
 - 4) Distribute this difference one penny at a time in descending order from highest to lowest in utilization (NOTE: Only include providers with at least one utilization.)
 - 5) If providers have the same utilization amount, then distribute it alphabetically in ascending order.

3. Noncompliance

The Department shall have the right to audit any records of the HMO to determine if the HMO has complied with the requirements in this section L. If at any time the Department determines that the HMO has not complied with any requirement in this section L, the Department will issue an order to the HMO that it comply and the HMO shall comply within 15 calendar days after the Department's determination of noncompliance. If the HMO fails to comply after an order, the Department may terminate the contract as provided under Article XIV, C.9.

Upon request, the HMO must submit a list of paid inpatient and outpatient claims to the Department and any other records the Department deems necessary to determine compliance.

If the HMO fails to send payment to the CAH within 15 days of receiving CAH access payment from the Department, the HMO will pay an assessment to the Department equal to three percent of the delayed payment.

4. Payment disputes

If the HMO or the CAH dispute the monthly amount that the HMO is required to pay the CAH, either party may request that the Department determine the amount of the payment if the request is filed within six months after the first day of the month in which the payment is due. The Department will determine the amount of the payment within 60 days after the request for a determination is made. The HMO or CAH may request a contested case hearing under CH. 227 on the Department's determination.

5. Resolution of Reporting Errors

The HMO shall adjust prior CAH access payments that were based on an inaccurate counting of qualifying inpatient discharges or outpatient claims. If an error is discovered, the Bureau of Rate Setting must be contacted in writing within 15 days of the discovery. Corrections will be adjusted using the Portal functionality. HMOs will be responsible for making these adjustments. If the Portal function is unavailable then the HMO will submit a Department-approved plan to address the error.

K. Unauthorized Programs or Activities

Should any part of the scope of work under this contract relate to a state program that is no longer authorized by law (e.g., which has been vacated by a court of law, or for which CMS has withdrawn federal authority, or which is the subject of a legislative repeal), the HMO must do no work on that part after the effective date of the loss of program authority. The state must adjust capitation rates to remove costs that are specific to any program or activity

that is no longer authorized by law. If the HMO works on a program or activity no longer authorized by law after the date the legal authority for the work ends, the HMO will not be paid for that work. If the state paid the HMO in advance to work on a no-longer-authorized program or activity and under the terms of this contract the work was to be performed after the date the legal authority ended, the payment for that work should be returned to the state. However, if the HMO worked on a program or activity prior to the date legal authority ended for that program or activity, and the state included the cost of performing that work in its payments to the HMO, the HMO may keep the payment for that work even if the payment was made after the date the program or activity lost legal authority.

L. Payment Method

All payments, recoupments, and debit adjustments for payments made in error, distributed by the Department to the HMO, will be made via Electronic Funds Transfer (EFT) via enrollment through the secure ForwardHealth Portal account.

HMOs are responsible for maintaining complete and accurate EFT information in order to receive payment. If a HMO fails to maintain complete and accurate information and DHS makes a payment to an incorrect account, the Department will be held harmless and will not reissue a payment.

All arrangements between the financial institution specified for EFT and the HMO must be in compliance with all applicable federal and Automated Clearing House (ACH) regulations and instructions.

EFT information provided by the HMOs via their secure ForwardHealth Portal account constitute a statement or representation of a material fact knowingly and willfully made or caused to be made for use in determining rights to payment within the meaning of s.49.49(1) and (4m), Wis. Stats., and if any such information is false, criminal or other penalties may be imposed under these laws.

The requirements and obligations for EFT are in addition to any and all other requirements and obligations applicable to HMO in connection with their contract and their participation in any program that is part of ForwardHealth, including but not limited to requirements and obligations set forth in federal and state statutes and rules and applicable handbooks and updates.

M. Risk Corridor

The Department will utilize a risk corridor mechanism to mitigate the significant uncertainty outside of the HMO control related to ongoing COVID-19 pandemic. The risk corridor will address variances in costs for all benefit services. The risk corridor will not address variances in administrative costs.

1. Capitation Rate Target Risk Corridor Loss Ratio
 - a. The target Risk Corridor Loss Ratio percentage will be developed by dividing the benefit service component of the rate, by the entire capitation rate including maternity kick payments, gross of pay for performance withholds and net of hospital access payments.
 - b. The capitation rate used as the denominator in 1.a. will be calculated specific to the rate cell mix and pricing assumptions for each HMO.
2. Settlement Methodology

The following methodology will be used to determine risk corridor settlement results:

 - a. The numerator for calculating the HMO's actual Risk Corridor Loss Ratio for the rate year will equal total claim costs for benefit services based on HMO financial data reporting.
 - b. The denominator for calculating the HMO's actual Risk Corridor Loss Ratio for the rate year will equal all capitation revenue including maternity kick payments, gross of pay for performance withholds, net of hospital access payments, and all retrospective adjustments attributed to the rate year.
 - c. The numerator from 2.a will be divided by the denominator in 2.b to calculate the actual Risk Corridor Loss Ratio.
 - d. The actual Risk Corridor Loss Ratio will be subtracted from the Capitation Rate Target Risk Corridor Loss Ratio calculated in 2.c. to determine the Risk Corridor Loss Ratio gain or loss.
 - e. The Department will recoup the Department's share of the HMO's gains and pay out the Department's share of the HMO's losses as a percentage of the HMO's capitation revenue, according to the following schedule:

Gain	HMO Share	Department Share
<= 2.0%	100%	0%
>2.0% to 6.0%	50%	50%
> 6.0%	0%	100%

Loss	HMO Share	Department Share
<= 2.0%	100%	0%
>2.0% to 6.0%	50%	50%
> 6.0%	0%	100%

- f. The Department may adjust the risk corridor numerator calculation if, upon review of encounters, financials, or other information associated with such payments, that the HMO's benefit services reimbursements are not at market-based levels and do not incent efficient and high quality care.
- g. An interim risk corridor settlement based on 4 months of claims runout will be completed no earlier than 6 months after the rate year has ended.
- h. The Department may elect to pay or recoup only a portion for the interim risk corridor settlement.

- i. The final risk corridor settlement based on 16 months of claims runout will be completed no earlier than 18 months after the rate year has ended.

ARTICLE XVII: HMO SPECIFIC CONTRACT TERMS

A. Documents Constituting Contract

1. Current Documents

In addition to this base agreement, the Contract between the Department and the HMO includes, existing BadgerCare Plus and/or Medicaid SSI provider publications addressed to the HMO, the terms of the most recent HMO certification application issued by this Department prior to HMO contracts, any questions and answers released pursuant to said HMO certification application by the Department, DHS issued guides and the HMO's signed application. In the event of any conflict in provisions among these documents, the terms of this base agreement will prevail. The provisions in any question and answer document will prevail over the HMO certification application. The HMO certification application terms shall prevail over any conflict with the HMO's actual signed application.

2. Future Documents

The HMO is required by this Contract to comply with all future Wisconsin Health Care Programs Online Handbooks and Contract Interpretation Bulletins issued pursuant to this Contract. The documents listed in this section constitute the entire Contract between the parties. No other oral or written expression constitutes any part of this Contract.

B. Disclosure Statement(s) of Ownership or Controlling Interest in an HMO and Business Transactions

1. Ownership or Controlling Interest Disclosure Statement(s)

- a. Pursuant to 42 CFR § 455.104 HMO's, and subcontracted disclosing entities and fiscal agents, must provide the following disclosures to the Department:
 - 1) The name and address of any person (individual or corporation) with an ownership or controlling interest in the disclosing entity, fiscal agent, or managed care entity. The address for corporate entities must include as applicable primary business address, every business location, and P.O. Box.
 - 2) Date of birth and Social Security number (in the case of an individual).
 - 3) Other tax identification number (in the case of a corporation) with ownership or control interest in the disclosing entity (or fiscal or managed care entity) or in any subcontractor in which the disclosing entity (or fiscal agent or managed care entity) has a 5% or more interest.

Calculation of 5% Ownership or Control is as follows:

- a) The percentage of direct ownership or control is the percentage interest in the capital, stock or profits.
 - b) The percentage of indirect ownership or control is calculated by multiplying the percentages of ownership in each organization. Thus, if a person owns 10% of the stock in a corporation that owns 80% of the stock of the HMO, the person owns 8% of the HMO.
 - c) The percentage of ownership or control through an interest in a mortgage, deed or trust, note or other obligation is calculated by multiplying the percent of interest that a person owns in that obligation by the percent of the HMO's assets used to secure the obligation. Thus, if a person owns 10% of a note secured by 60% of the HMO's assets, the person owns 6% of the HMO.
- 4) Whether the person (individual or corporation) with an ownership or control interest in the disclosing entity is related to another person with ownership or control interest in the disclosing entity is a spouse, parent, child, or sibling; or whether the person with an ownership or control interest in any subcontractor in which the disclosing entity has a 5% or more interest is related to another person with ownership or control interest in the disclosing entity as a spouse, parent, child, or sibling.
 - 5) The name of any other disclosing entity (or fiscal agent or managed care entity) in which an owner of the disclosing entity (or fiscal agent or managed care entity) has an ownership or control interest.
 - 6) The name, address, date of birth, and Social Security number of any managing employee of the disclosing entity (or fiscal agent or managed care entity).
- b. Disclosure from any provider or disclosing entity is due at any of the following times:
- 1) Upon the provider or disclosing entity submitting the provider application.
 - 2) Upon the provider or disclosing entity executing the provider agreement.
 - 3) Upon request of the department during the re-validation of the enrollment process.
 - 4) Within 35 days after any changes in ownership of the disclosing entity.

- c. Disclosure from fiscal agents are due at any of the following times:
 - 1) Upon the fiscal agent executing the contract with the Department.
 - 2) Upon renewal or extension of the contract.
 - 3) Within 35 days after any changes in ownership of the fiscal agent.
- d. Disclosure from HMO's are due at any of the following times:
 - 1) Upon the HMO executing the contract with the Department.
 - 2) Upon renewal or extension of the contract.
 - 3) Within 35 days after any change in ownership of the managed care entity.

HMOs must disclose all ownership and controlling interest to the Department upon request or as federally required. The HMO may supply this information on a separate report or submit reports filed with the state's insurance or health regulators as long as these reports provide the necessary information for the prior 12 month period.

As directed by the CMS Regional Office (RO), the Department must provide documentation of this disclosure information as part of the prior approval process for contracts. This documentation must be submitted to the Department and the RO prior to each contract period. If the HMO has not supplied this information, a contract with the HMO is not considered approved for this period of time and no FFP is available for the period of time preceding the disclosure.

A managed care entity may not knowingly have as a director, officer, partner, or person with beneficial ownership of more than 5% of the entity's a person who is debarred, suspended, or otherwise excluded from participating in procurement or non-procurement activities under the Federal Acquisition Regulation or who has an employment, consulting, or other agreement for the provision of items and services that are significant and material to the entity's obligations under its contract with the state.

If the Department finds that the HMO has a prohibited relationship with a person or entity who is debarred, suspended, or excluded from participation in federal healthcare programs, the Department:

- a. Must notify the Secretary of noncompliance.
- b. May continue an existing agreement with the HMO unless the Secretary directs otherwise.
- c. May not renew or otherwise extend the duration of an existing agreement with the HMO unless the Secretary provides to the Department and to Congress a written statement describing compelling reasons that exist for renewing or extending the agreement.

2. Business Transaction Disclosures

The HMO must report to the Department information related to business transactions in accordance with 42 CFR § 455.105. The HMO must be able to submit this information within 35 days of the date of written request from the Department.

- a. The ownership of any subcontractors with whom the provider has had business transactions totaling more than \$25,000 during the 12-month period ending on the date of the request; and
- b. Any significant business transactions between the provider and any wholly owned supplier, or between the provider and any subcontractor, during the 5-year period ending on the date of the request.

If the BadgerCare Plus and Medicaid SSI HMO Contract is being renewed or extended, the HMO must disclose information on those business transactions that occurred during the prior contract period. If the Contract is an initial contract with BadgerCare Plus and/or Medicaid SSI, but the HMO has operated previously in the commercial or Medicare markets, information on business transactions for the entire year proceeding the initial contract period must be disclosed. The business transactions which must be reported are not limited to transactions related to serving BadgerCare Plus and/or Medicaid SSI enrollment. All of these HMO business transactions must be reported.

3. Disclosure by providers: information on persons convicted of crimes

In accordance with 42 CFR § 455.106:

- a. The HMO must disclose to the Department the identity of any person who:
 - 1) Has ownership or control interest in the provider, or is an agent or managing employee of the provider, and
 - 2) Has been convicted of a criminal offense related to that person's involvement in any program under Medicare, Medicaid, or title XX service program since the inception of those programs.
- b. The HMO shall report to the Department within 20 working days of receipt of the following:
 - 1) Any information regarding excluded or convicted individuals or entities, including those in paragraph (C)(a) above;
 - 2) Any occurrence of an excluded, convicted, or unlicensed entity or individual who applies to participate as a provider.
- c. Denial or termination or provider participation
 - 1) The Department may refuse to enter into or renew an agreement with a provider if any person who has an ownership or control interest in the provider, or who is an agent or managing employee of the provider, has been convicted of a criminal offense related to that person's

involvement in any program established under Medicare, Medicaid, or the title XX service Program.

- 2) The Department may refuse to enter into or may terminate a provider agreement if it determines that the provider did not fully and accurately make any disclosure required under paragraph (C)(a) of this section.

C. Miscellaneous

1. Indemnification

The HMO agrees to defend, indemnify and hold the Department harmless with respect to any and all claims, costs, damages and expenses, including reasonable attorney's fees that are related to or arise out of:

- a. Any failure, inability, or refusal of the HMO or any of its subcontractors to provide contract services.
- b. The negligent provision of contract services by the HMO or any of its subcontractors.
- c. Any failure, inability or refusal of the HMO to pay any of its subcontractors for contract services.

2. Independent Capacity of Contractor

The Department and the HMO agree that the HMO and any agents or employees of the HMO, in the performance of this Contract, will act in an independent capacity, and not as officers or employees of Department.

3. Omissions

In the event either party hereto discovers any material omission in the provisions of this Contract that is essential to the successful performance of this Contract, said party may so inform the other party in writing. The parties hereto will thereafter promptly negotiate the issues in good faith in order to make all reasonable adjustments necessary to perform the objectives of this Contract.

4. Choice of Law

This Contract is governed by and construed in accordance with the laws of the State of Wisconsin. The HMO shall be required to bring all legal proceedings against the Department in Wisconsin state courts.

5. Waiver

No delay or failure by either party hereto to exercise any right or power accruing upon noncompliance or default by the other party with respect to any of the terms of this Contract will impair that right or power or be construed as a waiver thereof. A waiver by either of the parties hereto of a breach of any of the covenants, conditions, or agreements to be performed by the other will not be construed as a waiver of any succeeding breach thereof or of any other covenant, condition, or agreement contained herein.

6. Severability

If any provision of this Contract is declared or found to be illegal, unenforceable, invalid or void, then both parties will be relieved of all obligations arising under such provision. If such provision does not relate to payments or services to members and if the remainder of this Contract is not affected then each provision not so affected will be enforced to the fullest extent permitted by law.

7. Survival

The terms and conditions contained in this Contract that by their sense and context are intended to survive the completion of performance shall so survive the completion, expiration or termination of the Contract. This specifically includes, but is not limited to recoupments and confidentiality provisions.

8. Force Majeure

Both parties shall be excused from performance hereunder for any period that they are prevented from meeting the terms of this Contract as a result of a catastrophic occurrence or natural disaster including but not limited to an act of war, and excluding labor disputes.

9. Headings

The article and section headings used herein are for reference and convenience only and do not affect its interpretation.

10. Assignability

Except as allowed under subcontracting, the Contract is not assignable by the HMO either in whole or in part, without the prior written consent of the Department.

11. Right to Publish

The HMO must obtain prior written approval from the Department before publishing any material on subjects addressed by this Contract.

12. Media Contacts

The HMO agrees to forward to the Department all media contacts regarding BadgerCare Plus and/or Medicaid SSI programs or members.

D. HMO Specific Contract Terms

1. Initial Contract Period

The respective rights and obligations of the parties as set forth in this Contract shall commence on January 1, 2022, and unless earlier terminated, shall remain in full force effective through December 31, 2023. The specific terms for enrollment, rates, risk-sharing, dental and chiropractic coverage are as specified in the Contract.

2. Renewals

By mutual written agreement of the parties, there may be one one-year renewal of the term of the Contract. An agreement to renew must be effected at least 30 days prior to the expiration date of any contract term. The terms and conditions of the Contract shall remain in full force and effect throughout any renewal period, unless modified under the provision of the Contract.

3. Specific Terms of the Contract

- a. The specific terms in the HMO's completed application for certification are incorporated into this Contract, including whether dental services and chiropractic services will be provided by the HMO.
- b. For each rate period in this Contract, the HMO agrees, at minimum, to maintain the service area that was in effect at the time the HMO accepted the rates. This provision does not prevent the HMO from expanding to new service areas as approved by the Department.
- c. The HMO's service area and maximum enrollment are specified in its certification application.

- d. Rates are determined for county(ies) in which enrollment is accepted.
- e. Adjusted rates - Rates may be changed to reflect legislative changes in BadgerCare Plus and/or Medicaid SSI reimbursement or changes in approved services. Rate changes may occur during the rate year or in rare instances, retroactively.
- f. The Department shall calculate chronicity or risk adjustment scores as part of the rate development methodology depending on the availability of data. The risk adjustment scores will be applied prospectively to the rate schedule in the rate exhibits provided by the Department. The Department may adjust the HMO prospective risk score if a significant variance in chronicity occurs from the risk adjustment score that was used to adjust the base rates. Any such adjustment will take effect no sooner than 45 days after calculating the variance. Any risk score changes applied to a given HMO will also impact other HMO risk scores due to budget neutrality requirements.
- g. An annual risk adjustment reconciliation will be calculated based on actual enrollment. This may result in additional payments to or recoupments from the HMO. The adjustments will be budget neutral to the Department.

E. Noncompliance

The Department shall have the right to audit any records of the HMO and to request any information to determine if the HMO has complied with the requirements in this section. If at any time the Department determines that the HMO has not complied with any requirement in this article, the Department will issue an order to the HMO to comply. The HMO shall comply within 15 calendar days after receipt of the order. If the HMO fails to comply after an order, the Department may pursue action against the HMO as provided under Article XIV. Additionally, the HMO may be required to forfeit the reimbursement.

F. Payment Disputes

The Department shall have the right to adjust the reimbursement outside the information provided by the HMO in the guide or template.

The HMO may dispute the reimbursement amount by sending a letter to the Department no later than 30 days after receipt of payment. After 30 days, the HMO waives the right to dispute the reimbursement amount.

G. Resolution of Reporting Errors

If the HMO discovers a reporting error, the Department's Bureau of Rate Setting in the Division of Medicaid Services must be contacted in writing within 15 days of the discovery.

Errors discovered after the retroactive capitation rate amendment is issued will be applied to the following year's reimbursement.

H. Contracted Populations

We agree to provide services for the following Medicaid populations (check appropriate line(s)):

_____ BadgerCare Plus New Contract for Certified Service Areas

_____ Medicaid SSI New Contract for Certified Service Areas

_____ Other HMO-Specific Agreement: _____

In WITNESS WHEREOF, the State of Wisconsin has executed this agreement:

HMO Name	State of Wisconsin
Official Signature	Official Signature
Printed Name	Printed Name
Title	Title
Date	Date

ADDENDUM I: MEMORANDA OF UNDERSTANDING

A. MOU Submission Requirements

The HMO must submit to the Department copies of new MOUs, or changes in existing MOUs for review and approval before they take effect. This requirement will be considered met if the Department has not responded within 15 business days after receipt of the MOU.

The HMO shall submit MOUs referred to in this Contract and this Addendum to the Department upon the Department's request and during the certification process if required by the Department.

B. Emergency Services MOU or Contract

The HMO may have a contract or an MOU with hospitals or urgent care centers within the HMO's service area(s) to ensure prompt and appropriate payment for emergency services.

1. The MOU Shall Provide For:

- a. The process for determining whether an emergency exists.
- b. The requirements and procedures for contacting the HMO before the provision of urgent or routine care.
- c. Agreements, if any, between the HMO and the provider regarding indemnification, hold harmless or any other deviation from malpractice or other legal liability which would attach to the HMO or provider in the absence of such an agreement.
- d. Payments for an appropriate medical screening examination to determine whether or not an emergency medical condition exists.
- e. Assurance of timely and appropriate provision of and payment for emergency services.

2. The HMO's Liability for Emergency Situations

Unless a contract or MOU specifies otherwise, the HMO is liable to the extent that FFS would have been liable for the emergency situation. The Department reserves the right to resolve disputes between the HMO, hospitals and urgent care centers regarding emergency situations based on FFS criteria.

C. County and Other Human Service Agencies MOU or Contract Requirements for Services Ordered by the Courts

The HMO must make a good faith attempt to negotiate either an MOU or a contract with the county(ies) in their service area. The MOU, contract, or written documentation of a good faith attempt must be available when requested by the Department. Failure of the HMO to have an MOU, contract or a demonstrated good faith effort, as specified, by the Department, may result in the application by the Department of remedies, specified under this Contract. For guidance on expectations for coordination with counties and Institutes for Mental Disease (IMDs), please see DCTS/DHCAA Memo Series 2009-02, February 20, 2009, available on the Department's website.

1. MOU Requirement with Boards Created Under Wis. Stats., §. 51.42, 51.437 or 46.23.

At a minimum the MOU must specify the conditions under which the HMO will either reimburse the Board(s) or another contract provider, or directly cover medical services, including, but not limited to, examinations ordered by a court, specified by the Board's designated assessment agency in a member's driver safety plan as provided under DHS 62. It is the responsibility of both the HMO and the Board to ensure that courts order the use of the HMO's providers. If the court orders a non-HMO source to provide the treatment or evaluation, the HMO is liable for the cost up to the full BadgerCare Plus and/or Medicaid SSI rate if the HMO could not have provided the service through its own provider arrangements. If the service was such that the HMO could reasonably have been expected to provide it through its own provider arrangements, the HMO is not liable. Reasonable arrangements, in this situation, are Medicaid-enrolled providers with facilities and services to safely meet the medical and psychiatric needs of the member within a prompt and reasonable time frame. The MOU shall further specify reimbursement arrangements between the HMO and the Board's provider for assessments performed by the Board's designated assessment agency under DHS 62, Intoxicated Driver Program rules. The MOU shall also specify other reporting and referral relationships if required by the Board or the HMO.

2. MOU Requirement with the Department of Social Services (DSS) Created Under Wis. Stats., s. 46.21 or 46.22, or the Human Service Department Created Under Wis. Stats., s. 46.23.

At a minimum the MOU must specify that the HMO will reimburse the DSS or its provider if the HMO cannot provide the treatment, or will directly cover medical services including examinations and treatment which are ordered by a court. It is the responsibility of both the HMO and the DSS to ensure that courts order the use of the HMO's providers. If the court orders a non-HMO source to provide the treatment or

evaluation, the HMO is liable for the cost up to the full BadgerCare Plus and/or Medicaid SSI rate if the HMO could not have provided the service through its own provider arrangements. If the service was such that the HMO could reasonably have been expected to provide it through its own provider arrangements, the HMO is not liable. The MOU will also specify the reporting and referral relationships for suspected cases of child abuse or neglect pursuant to Wis. Stats., s. 48.981. The MOU shall also specify a referral agreement for HMO members who are physically disabled and who may be in need of supportive home care or other programming provided or purchased by the county agency. The MOU may specify that evaluations for substitute care will be provided by a provider acceptable to both parties; the DSS may require in the MOU that the HMO specify expert providers acceptable to the DSS and the HMO in dealing with court-related children's services, victims of child abuse and neglect, and domestic abuse.

The HMO and the counties may develop alternative MOU language, if both parties agree. However, all elements defined above must be addressed in the MOU. As an alternative to an MOU, the HMO may enter into contracts with the counties. Any contracts the HMO enters into with the counties must be in compliance with Part A of this Addendum and would supersede any MOU requirements.

ADDENDUM II: HMO Standard Member Handbook

The HMO Standard Member Handbook is located in the HMO and PIHP Communication, Outreach and Marketing Guide, Updated January 1, 2020.

ADDENDUM III: GUIDELINES FOR THE COORDINATION OF SERVICES BETWEEN THE HMO, TARGETED CASE MANAGEMENT (TCM) AGENCIES AND CHILD WELFARE AGENCIES

HMO Rights and Responsibilities

1. The HMO must designate at least one individual to serve as a contact person for case management providers. If the HMO chooses to designate more than one contact person, the HMO should identify the target populations for which each contact person is responsible.
2. The HMO may make referrals to case management agencies when they identify a member from an eligible target population who could benefit from case management services.
3. If the member or case manager requests the HMO to conduct an assessment, the HMO will determine whether there are signs and symptoms indicating the need for an assessment. In the mental health/substance abuse benefit area, a request for an assessment must be accepted in all situations. If the HMO finds that assessment is needed, the HMO will determine the most appropriate level for an assessment to be conducted (e.g., primary care physician, specialist, etc.). If the HMO determines that no assessment is needed, the HMO will document the rationale for this decision.
4. The HMO must determine the need for medical treatment of those services covered under the HMO Contract based on the results of the assessment and the medical necessity of the treatment recommended.
5. The HMO case management liaison, or other appropriate staff as designated by the HMO, must participate in case planning with the case management agency, unless no services provided through the HMO are required.
 - a. The case planning may be done through telephone contact or means of communication other than attending a formal case planning meeting. If the member requests the HMO case management liaison to attend a case planning meeting, the HMO needs to make every effort to honor this request.
 - b. The HMO must informally discuss differences in opinion regarding the HMO's determination of treatment needs if requested by the member or case manager.
 - c. The HMO case management liaison and the case manager must discuss who will be responsible for ensuring that the member receives the services authorized by and provided through the HMO.

- d. The HMO's role in the case planning may be limited to a confirmation of the services the HMO will authorize if the member and case manager find these acceptable.

ADDENDUM IV: REPORT FORMS AND WORKSHEETS

A. Coordination of Benefits Quarterly Report Form and Instructions for Completing the Form

In order to comply with CMS reporting requirements, the HMO must submit a Coordination of Benefits (COB) report regarding their BadgerCare Plus and/or Medicaid SSI members. For the purposes of this report, the HMO member is any BadgerCare Plus and Medicaid SSI member listed as an ADD or CONTINUE on the monthly HMO enrollment report(s) that are generated by the Department's Fiscal Agent.

THIRD PARTY LIABILITY (TPL)

Third Party Liability (TPL) – The legal obligation of a third party (other than Medicaid) to pay for part or all of a claim. Since Medicaid is legally the “payer of last resort,” the identification of other payer obligations is a major requirement in the adjudication of claims.

Coordination of Benefits (COB) – Industry term applied to agreements among payers to assign liability and to perform the end-to-end payment reconciliation process. This term applies mostly to the electronic data interchanges associated with Health Insurance Portability and Accountability Act (HIPAA) transactions.

1. In Medicaid, there are two primary functions related to detecting TPL obligations:
 - a. Cost-avoidance – Determining the presence of TPL obligations before the claim is paid.
 - b. Pay-and-chase – Identifying TPL obligations after the claim is paid.
2. The following definitions apply to TPL:
 - a. Coinsurance – A portion or percentage of the cost for a specific service or item for which the individual is responsible when the service or item is delivered.
 - b. Cost Avoidance – A method of preventing inappropriate payments under Medicaid and reducing improper Medicaid expenditures. Whenever the Medicaid agency is billed first and a potentially liable third party exists, the Medicaid agency rejects the claim and returns it to the provider to be billed to the primary payer to determine the third party's liability (42 CFR 433.139(b)).
 - c. Deductible – A fixed dollar amount that an individual must pay before the costs of services are covered by an insurance plan.
 - d. Estate – Property (real or personal) in which one has a right or interest at time of death.
 - e. Health Insurer – Includes a group health plan, as defined in §607(1) of the Employee Retirement Income Security Act (ERISA) of 1974, a service benefit plan, and a Managed Care Organization (MCO). (The inclusions are explanatory and not mutually exclusive.)
 - f. Insurer – Any private insurer or public insurer

- g. Post Payment Recovery (Pay and Chase) – A method used where Medicaid pays the member’s medical bills and then attempts to recover from liable third parties. Pay and Chase waivers are based on specific services as determined by procedure code or type of service.
- h. Third Party – Any individual, entity, insurer, or program that is, or may be, liable to furnish health care services or to pay for all or part of the costs of medical assistance covered under a Medicaid State plan. Medicaid is generally the payer of last resort. Examples of a third party are employment-related health insurance, medical child support from non-custodial parents, and Medicare. Every Medicaid jurisdiction is required by §1902(a)(25) of the Act to take reasonable measures to determine the legal liability of third party payers.

Birth costs or delivery costs (e.g., routine delivery and associated hospital charges) are not to be included in the report.

The report is to be for the HMO’s entire service area, aggregating separate service areas if the HMO has more than one service area. HMOs are not required to report BadgerCare Plus and SSI COB separately. The report must be completed on a calendar quarterly basis and submitted to the Department’s fiscal agent within 45 calendar days of the end of the quarter being reported.

STATE OF WISCONSIN
BADGERCARE PLUS AND MEDICAID SSI
HMO REPORT ON COORDINATION OF BENEFITS

Name of HMO
Office Telephone
Provider Number

Mailing Address

Please designate below the quarter period for which information is given in this report.
_____, 20____ through _____, 20____

A. Cost Avoidance – The amount reported should be the amount paid by TPL for “Dates of Payment” in the quarter covered by this report. Coinsurance and deductible amounts associated with the BadgerCare Plus and/or SSI program should not be reported.

Amount Cost Avoided: _____

B. Recoveries (Post-Pay Billing/Pay and Chase) – The amount reported should be the amount paid by TPL for “Dates of Recovery” in the quarter covered by this report. Coinsurance and deductible amounts associated with the BadgerCare Plus and/or SSI program should not be reported.

Subrogation/Workers’ Compensation Amount: _____
(e.g., a recovery associated with physical injury).

Other Recoveries Amount: _____
(e.g., All other Third Party Liability (TPL) not specifically noted above.)

I HEREBY CERTIFY that to the best of my knowledge and belief, the information contained in this report is a correct and complete statement prepared from the records of the HMO, except as noted on the report.

Date Signed:

B. Court Ordered Birth Cost Requests

County Child Support Agencies (CSA) obtain court orders requiring fathers to repay birth costs that have been paid by FFS as well as the HMO. In some counties, judges will not assign birth costs to the father based upon average costs. Upon request of the Fiscal Agent Contract Monitor, the HMO must provide actual charges less any payments made by a third party payer for the use by the court in setting actual birth and related costs to be paid by the father. Birth cost information must be submitted to the DHS within 14 days from the date the request was received by the HMO.

The birth cost report forms follows this page.

C. HMO Newborn Report (BadgerCare Plus Only)

This report should be completed for infants born to mothers who are BadgerCare Plus eligible and enrolled in the HMO at the time of birth of the infant.

The requirements for the Newborn Report are included in the ForwardHealth online handbook. The handbook includes links to the form and submission instructions.

D. HealthCheck Worksheet

HEALTHCHECK WORKSHEET

DHS will use the HealthCheck worksheet below to measure compliance with the 80% target of HealthCheck comprehensive visits for MY2021. Detailed explanations of various cells in the worksheet are described in the HMO Quality Guide.

HMO:

			Age Groups					
		Calculation	< 1	1 – 2	3 – 5	6 – 14	15 – 20	Total
1	# of eligible months for members under age 21	Entered (Total is sum across all age groups)						
2	# of unduplicated members under age 21	Entered						
3	# of recommended screens per age group	Per CMS specifications	5	1.5	1	0.5	0.5	
4	Average period of eligibility in years	Line 1 ÷ Line 2 ÷ 12						
5	Adjusted # of recommended screens per age group	Line 3 x Line 4						
6	Expected # of screens (100% of required screens for ages and months of eligibility)	Line 2 x Line 5 (Total is sum of age groups)						
7	# of screens required to meet the 80% goal	Line 6 x 0.80						
8	Actual # of screens completed	Entered						
9	Did the HMO meet the goal?	Line 8 – Line 7 (If negative, goal was not met)						
10	Penalty	\$10,000 if “Total” for line 9 is negative						

E. Member Grievance and Appeal Reporting Template

The Member Grievance and Appeal report template can be found in Section 12.3 of the *Member Grievances and Appeals Guide*.

F. Summary Hospital Access Payment Report to Department of Health Services

This report will be provided to the HMO electronically in the current HMO contract for completion. Hospital Access Payments must be sent to the hospitals within 15 calendar days after the HMO receives the monthly amounts from the Department. HMOs must submit to the Department the following information for each paid hospital within 15 calendar days of receipt of payment from the Department:

Hospital Access Payment

HMO Name	
Month, Year payment was received from the Department	
Month, Year from which hospital discharge and claims data is being reported (i.e. previous month)	
Date the last hospital access payment was sent	
* Grand Total Payment	

* Total payments made to all hospitals should be equal to the total amount the HMO received from the Department. The distribution of these funds by the HMO to hospitals shall be based on eligible discharges and claims in the prior month paid by the HMO to eligible hospitals.

10	1	2	3	4	5	6	7	8	9	
		11	12	13						

I hereby attest and affirm that the information being submitted is complete, factual and correct to the best of my knowledge. I furthermore attest and affirm that no material facts have been omitted from this form. I understand that payment and satisfaction of this/these claim(s) will be from federal and state public funds and that I may be prosecuted under applicable federal and state laws for any false claims, statements, or documents, or concealment of a material fact. I furthermore understand that state or federal authorities may inspect all claims, records or documents pertaining to the provision of these services.

G. Summary Critical Access Hospital (CAH) Access Payment Report to Department of Health Services

This report will be provided to the HMO electronically in the current HMO contract for completion. Payments must be sent to the hospitals within 15 calendar days after the HMO receives the monthly amounts from the Department. HMOs must submit to the Department the following information for each paid CAH:

Critical Access Hospital (CAH) Access Payment

HMO Name	
Month, Year payment was received from the Department	
Month, Year from which CAH discharge and claims data is being reported (i.e. previous month)	
Date the last CAH access payment was sent	
* Grand Total Payment	

* Total payments made to all CAH(s) should be equal to the total amount the HMO received from the Department. The distribution of these funds by the HMO to CAH(s) shall be based on eligible discharges and claims in the prior month paid by the HMO to eligible CAH(s):

1	2	3	4	5	6	7	8	9	10	11	12	13
MA ID	NPI	Hospital Name	Inpatient Funding Received from DHS	Number of CAH Qualifying Inpatient Discharges Paid to the Individual CAH	Number of Total Inpatient Discharges Paid by HMO to All Eligible CAHs	Percent of the CAH's Total Inpatient Discharges Paid by the HMO (Column 5/ Column 6)	Payment to CAH for Inpatient Discharges (Column 4 x Column 7)	Outpatient Funding Received from DHS	Number of CAH Qualifying Outpatient Claims Paid to the Individual CAH	Number of Total Outpatient Claims Paid by HMO to All Eligible CAH(s)	Percent of the CAH's Total Outpatient Claims Paid by HMO (Column 10 / Column 11)	Payment to CAH for Outpatient Claims (Column 9 x Column 12)
		Total:										

I hereby attest and affirm that the information being submitted is complete, factual and correct to the best of my knowledge. I furthermore attest and affirm that no material facts have been omitted from this form. I understand that payment and satisfaction of this/these claim(s) will be from federal and state public funds and that I may be prosecuted under applicable federal and state laws for any false claims, statements, or documents, or concealment of a material fact. I furthermore understand that state or federal authorities may inspect all claims, records or documents pertaining to the provision of these services.

H. ATTESTATION

I _____, have reviewed the following data:

(Name and Title)

- ☐ Encounter Data for (quarter) _____ (year) 20__.
- ☐ Vent Report for (quarter) _____ for (year) 20__.
- ☐ HMO Network Submission (submitted monthly) for (quarter) _____ (year) 20__.
- ☐ Maternity Kick Payment Newborn Report for (quarter) _____ (year) 20__.
- ☐ Encounter Based Payment Return Report (quarter) _____ (year) 20__.
- ☐ Other _____ (Specify Report)

After conducting a reasonably diligent review of the data, documentation and information, I attest that it is accurate, complete and truthful. I understand that whoever knowingly and willfully makes or causes to be made a false statement or representation on the reports may be prosecuted under the applicable state laws. In addition, knowingly and willfully failing to fully and accurately disclose the information requested may result in denial of a request to participate, or where the entity already participates, a termination of a Plan's agreement or contract with the Wisconsin Department of Human Services (DHS). This form must be signed by the HMO CEO, CFO, or their designated authority in order to be considered a valid signature.

ADDENDUM V: Benefits and Cost Sharing Information

A. Benefits and Cost Sharing Information

For current information about Wisconsin Medicaid covered services and allowable cost-sharing, please refer to ForwardHealth Online Handbooks, Provider Updates, and interchange. A summary of covered services for member audiences is available in Appendix B of the ForwardHealth Enrollment and Benefits Handbook (available at <https://www.dhs.wisconsin.gov/library/p-00079.htm>).

ADDENDUM VI: Emergency Department Care Coordination Program

A. Emergency Department Care Coordination Program

HMOs shall coordinate with participating hospitals in the Intensive Care Coordination Pilot Program by sharing member information, collaborating on care coordination and case management efforts, and passing payments to the hospitals no later than 30 calendar days after receiving the payments from the Department.

The Intensive Care Coordination Pilot Program is authorized by the following Wisconsin Statutes: 49.45 (26g), 946.91 (3) (c) 3 and 946.93 (5) (c) 3. The Department is funding selected hospitals to provide care coordination services to Medical Assistance recipients that use the emergency department frequently, in an effort to reduce their emergency department utilization. This initiative is funded with state general purpose revenue (GPR) and the Department will not be claiming federal financial participation for payments related to this initiative.

HMOs shall pass the payments to the participating hospitals no later than 30 calendar days after receiving the payment from the Department. These payments include \$250 per enrollee for each six month enrollment period. Additional payments include shared savings and \$250 per enrollee at the end of each six month enrollment period that are dependent on hospital performance outcomes. An HMO that fails to comply with the terms of this addendum shall be required to reimburse the Department in an amount equal to the payments not properly passed through to participating hospitals.

HMO shall coordinate care coordination and case management efforts with participating hospitals as identified in Article III.

ADDENDUM VII: Fraud, Waste and Abuse Strategic Plans

A. Fraud, Waste, and Abuse (FWA) Strategic Plans

HMOs are required to submit and receive approval of their annual FWA strategic plan prior to December 31. HMOs must submit their annual FWA strategic plans to the DHS Office of Inspector General (OIG) for review by November 15 using the DHS OIG SharePoint site. HMOs must ensure that DHS OIG's feedback, including any requested corrections or revisions, are incorporated into their strategic plans by December 31. HMOs may consult with their DHS OIG representative throughout the calendar year while developing their annual FWA strategic plan to ensure a successful approval process.

B. FWA Strategic Plan Structure

The strategic plan must be structured as follows:

1. Part One: Overview of the data analysis completed to inform priorities for the FWA strategic plan.
2. Part Two: Identification of a minimum of three program integrity initiatives to be completed during the next calendar year. This section must be broken out by quarter and describe:
 - a. The program integrity issue the HMO is attempting to address with each initiative;
 - b. The objective(s) of each initiative, including the expected results of the initiative; and
 - c. The strategies that will be used to achieve the objective(s) of each initiative, including:
 - 1) The HMO's intended course of action, scheduled out across all 4 quarters, for completing each initiative;
 - 2) The anticipated completion date of the initiative;
 - 3) The personnel responsible for the completion of the initiative;
 - 4) The method by which the HMO will measure compliance or return on investment on the initiative.

C. FWA Strategic Plan Elements

The FWA strategic plan must include the below listed elements. These elements may be used as strategies within an initiative or they may be their own initiatives.

1. Prepayment activities.
2. Post-payment activities.
3. Verification of the provision of services to members:
 - a. Includes the planned number of verifications. Must be equal to or greater than 100 verifications;
 - b. Includes methodology for verifying services – explanation of benefits, phone calls, etc;
 - c. Includes methodology for tracking related reports of fraud and subsequent overpayment recoveries.

4. Plan to increase the quantity of credible allegations of fraud identified.
5. Planned provider education related to fraud, waste, and abuse.

D. FWA Strategic Plan Approval Process

DHS OIG and the HMOs will engage in the following process to review and approve the annual FWA strategic plans:

1. HMOs will draft their annual FWA strategic plans in accordance with the requirements of this addendum.
2. HMOs must submit their annual FWA strategic plan through the DHS OIG SharePoint site no later than November 15.
3. DHS OIG will use the rubric below to evaluate compliance with the requirements of this addendum.
4. DHS OIG will either approve the FWA strategic plan or return the plan to the HMO for changes based on DHS OIG feedback from the rubric assessment. DHS OIG will provide due dates for returning the draft for the next review as part of the feedback to ensure the plan receives approval by December 31.
5. The HMOs will incorporate DHS OIG's feedback and resubmit the FWA strategic plan by the required due date.
6. Steps 3-5 are repeated until DHS OIG approves the FWA strategic plan.
7. Each HMO must have an FWA strategic plan approved by DHS OIG by December 31.

STRUCTURE				
	Exceeds Criteria	Meets Criteria	Requires Additional Work	
Structure – Overview of Data Analysis	HMO documented a thorough data analysis which clearly demonstrates the thought process behind the selected initiatives, objectives, and strategies.	HMO documented a basic data analysis which clearly demonstrates the thought process behind the selected initiatives, objectives, and strategies.	HMO documented a review of data that does not have a clear connection to the selected initiatives, objectives, and strategies. <i>Resubmit plan with a more thorough analysis and clear connections.</i>	HMO did not include any information related to data analysis. <i>Resubmit with data analysis that clearly demonstrates the thought process behind the selected initiatives, objectives, and strategies.</i>
Structure – Number of Initiatives	FWA strategic plan includes more than three initiatives.	FWA strategic plan includes three initiatives	FWA strategic plan includes 1-2 initiatives. <i>Resubmit plan with at least three initiatives.</i>	FWA strategic plan includes zero initiatives. <i>Resubmit plan with at least three initiatives.</i>

Structure – Quality of Initiatives	FWA strategic plan articulates thoughtful, well-structured, and innovative initiatives.	FWA strategic plan articulates acceptable initiatives.	FWA strategic plan does not articulate initiatives clearly or does not articulate relevant initiatives. <i>Resubmit with clearly identified initiatives that will likely be impactful to the HMO's PI oversight.</i>	FWA strategic plan does not contain initiatives. <i>Resubmit with clearly identified initiatives that will likely be impactful to the HMO's PI oversight.</i>
Structure – Quality of Objectives	FWA strategic plan clearly articulates measurable objectives that align with the initiative that demonstrate an anticipated high impact to the HMO's PI oversight.	FWA strategic plan clearly articulates measurable objectives that align with the initiative.	FWA strategic plan contains objectives but they either are not measurable or do not align with the initiative. <i>Resubmit with clearly identified objectives that are measurable and align with the corresponding initiative.</i>	FWA strategic plan does not contain objectives. <i>Resubmit with clearly identified objectives that are measurable and align with the corresponding initiative.</i>
Structure – Quality of Strategies	Strategies are innovative and articulate a clear plan to achieve the objectives and initiatives with an anticipated high impact to the HMO's PI oversight.	Strategies articulate a clear plan to achieve the objectives and initiatives.	Strategies are unclear or do not appear as though they will result in the HMO achieving the objective or initiative. <i>Resubmit with more detail or improved alignment.</i>	FWA strategic plan does not contain strategies. <i>Resubmit plan with clearly defined strategies that align with the objectives and initiatives.</i>
Structure – Quarterly Breakout	Initiatives, objectives, and strategies are broken out by quarter in a manner that is visually appealing and easy for the reader to follow.	Initiatives, objectives, and strategies are broken out by quarter.	Initiatives, objectives, and strategies are not broken out by quarter. <i>Resubmit plan with initiatives, objectives, and strategies broken out by quarter.</i>	
Structure – Date of Completion	Strategies include anticipated dates of completion	Strategies include anticipated	One or more strategies do not include anticipated dates of completion. <i>Resubmit</i>	None of the strategies include anticipated dates of completion. <i>Resubmit plan with</i>

	that demonstrate a dynamic yet attainable pace.	dates of completion.	<i>plan with anticipated dates of completion for all strategies.</i>	<i>anticipated dates of completion for all strategies.</i>
Structure – Responsible Personnel	Identifies responsible personnel and supporting personnel assigned to each strategy.	Identifies person responsible for completion of each strategy.	One or more strategies do not identify the person responsible. <i>Resubmit plan with the responsible personnel identified.</i>	None of the strategies identify the person responsible. <i>Resubmit plan with the responsible personnel identified.</i>
Structure – Measuring Compliance and ROI	Identifies methods of measuring compliance or return on investment that are innovative, impactful, and easy to monitor.	Identifies method of measuring compliance or return on investment for each strategy that is able to be monitored and aligns with the strategy.	One or more strategies are missing the identified methodology or the provided methodology does not align with the strategy. <i>Resubmit plan with the method of measuring compliance or return on investment identified.</i>	None of the strategies identify the method of measuring compliance or return on investment. <i>Resubmit plan with the method of measuring compliance or return on investment identified.</i>

ELEMENTS				
	Exceeds Criteria	Meets Criteria	Requires Additional Work	
Elements – Prepayment Activities	FWA strategic plan details innovative and robust use of prepayment activities that appear likely to be impactful to the HMO's PI oversight.	FWA strategic plan details use of prepayment activities that effectively support the HMO's corresponding initiative(s).	FWA strategic plan mentions use of prepayment activities but they don't align with an initiative, objective, or strategy in a way that appears as though it be effective. <i>Resubmit plan with improved alignment.</i>	This element is not captured in the FWA strategic plan. <i>Resubmit plan with a description of intended prepayment activities.</i>
Elements – Post-payment Activities	FWA strategic plan details innovative and robust use of post-payment activities that appear likely to be impactful to the HMO's PI oversight.	FWA strategic plan details use of post-payment activities that effectively support the HMO's corresponding initiative(s).	FWA strategic plan mentions use of post-payment activities but they don't align with an initiative, objective, or strategy in a way that appears as though it be effective. <i>Resubmit plan with improved alignment.</i>	This element is not captured in the FWA strategic plan. <i>Resubmit plan with a description of intended post-payment activities.</i>

Elements – Verification of services	FWA strategic plan details an innovative and robust method of verifying services are delivered to members that exceeds requirements outlined in the contract.	FWA strategic plan details a method of verifying services are delivered to members that meets the requirements outlined in the contract.	Methodology is unclear or details a plan that does not meet the requirements in the contract. <i>Resubmit plan with improved plan of how the HMO intends to verify services are received by members.</i>	This element is not captured in the FWA strategic plan. <i>Resubmit plan with a description of how the HMO meets the contractual requirements to verify services are received by members.</i>
Elements – Increasing Credible Allegation of Fraud (CAF) Referrals	FWA strategic plan details innovative and robust plan to increase the identification of potential credible allegations of fraud including the submission of CAF reports.	FWA strategic plan details a plan to increase the identification of potential credible allegations of fraud including the submission of CAF reports that inspires confidence.	FWA strategic plan mentions increasing CAF referrals but does not contain a detailed plan that inspires confidence. <i>Resubmit plan with improved plan for increasing the number of CAF referrals.</i>	This element is not captured in the FWA strategic plan. <i>Resubmit plan including a detailed plan for increasing the number of CAF referrals that inspires confidence.</i>
Elements – Planned Provider FWA Education	FWA strategic plan details innovative and robust plans for provider education relative to fraud, waste, and abuse that appears likely to be impactful to the HMO's PI oversight.	FWA strategic plan details plans for provider education relative to fraud, waste, and abuse effectively support the HMO's corresponding initiative(s).	FWA strategic plan mentions use of provider education but it doesn't align with an initiative, objective, or strategy in a way that appears as though it will be effective. <i>Resubmit plan with improved alignment.</i>	This element is not captured in the FWA strategic plan. <i>Resubmit plan with a description of planned provider education relative to fraud, waste, and abuse.</i>

E. FWA Strategic Plan Implementation Process

HMOs will implement their approved FWA strategic plan on January 1. DHS OIG will monitor the Quarterly Program Integrity Report and other methods the HMOs indicate that they will be measuring their compliance with their FWA strategic plan. DHS OIG representative will contact HMOs periodically during the year to check in and answer any

questions and to ensure the HMO is on track with their FWA strategic plan. If an updated FWA strategic plan is needed, DHS OIG can assist the HMO in making the needed updates.

F. DHS OIG Audit of HMO Compliance with the FWA Strategic Plan

DHS OIG will audit the HMOs' compliance with their approved FWA strategic plan. DHS OIG will use technical assistance, corrective action plans, and financial sanctions as remedies for audit findings. DHS OIG will request financial sanctions when:

1. An HMO has refused to engage in technical assistance provided by DHS OIG in response to a determination that the HMO is out of compliance with their FWA strategic plan; or
2. An HMO has refused to engage in the audit process.
