

## Diagnosis Code-Restricted Physician-Administered Drugs

The following table contains information on diagnosis-restricted physician administered drugs. For each drug, the corresponding HCPCS procedure code and ICD-9 diagnosis code(s) and disease description(s) are listed. When one of the drugs is billed for a disease state listed for the drug, the drug does not require prior authorization (PA). When billing one of these drugs for a disease that is not listed below, PA is required. Peer-reviewed medical literature supporting the efficacy of the drug for the disease state must be submitted with the PA request

The information above only applies to billing of these services on a professional claim.

Note: This table includes Wisconsin Medicaid's most current information and may be updated periodically.
