

## Diagnosis Code-Restricted Physician-Administered Drugs

The following table contains diagnosis-restricted physician-administered drugs and the corresponding diagnosis code and disease descriptions. When a physician-administered drug claim is submitted with a diagnosis listed in this attachment, prior authorization (PA) is not required. For uses outside the listed diagnosis, PA is required. Submission of peer-reviewed medical literature from scientific medical or pharmaceutical publications in which original manuscripts are rejected or published only after having been reviewed by unbiased independent experts to support the proven efficacy of the requested use of the drug is also required to be submitted with the PA request.

*Note:* This table includes Wisconsin Medicaid's most current information and may be updated periodically.

**Effective: November 1, 2011**

| HCPCSCode*   | Drug Name                                      | Diagnosis Code                       | Disease Description   |
|--------------|--|--------------------------------------|---|
| J0205        | Alglucerase (Ceredase)                         | 2727                                 | Gaucher's Disease   |
| J0585        | Botulinum Toxin Type A (Botox)                 | 3336                                 | Idiopathic dystonia   |
