

Expedited Emergency Supply Request Drugs

For drugs listed in the table below, expedited emergency supply requests may be submitted only using the Specialized Transmission Approval Technology-Prior Authorization (STAT-PA) system. Effective for dates of service on and after April 1, 2020, the list has been expanded and modified temporarily during the COVID-19 public health emergency. The expanded list allows pharmacy providers to submit PA requests for an expedited emergency supply for many drugs using the STAT-PA system and then submit a claim for the expedited emergency supply electronically. This eliminates the need to submit claims for expedited emergency supply drugs on paper. Pharmacy providers are required to complete, date, and sign the [Preferred Drug List \(PDL\) Expedited Emergency Supply Request](#) form, F-00401 (01/2021), before a PA request for an expedited emergency supply is submitted.

Effective 07/01/2022
