

## Brand Medically Necessary Drugs That Require Prior Authorization

The following table lists brand medically necessary drugs that require prior authorization (PA). This policy was effective April 1, 2005. Effective for dates of service on and after July 1, 2008, when a brand medically necessary prescription is written, prescribers are required to complete the revised Prior Authorization/Brand Medically Necessary Attachment (PA/BMNA) F-11083 (10/08). Please submit the PA/BMNA with the prescription to the pharmacy. The PA/BMNA is found at <https://www.forwardhealth.wi.gov/WIPortal/Content/provider/forms/index.htm.spage>.

*Note:* This table includes BadgerCare Plus's most current information and may be updated periodically. All drugs listed in this table are registered or trademarked by the manufacturer. (Revised 1/09)

\* This drug does not have a signed rebate agreement on file with the Department of Health Services (DHS). Wisconsin SeniorCare will not cover a drug that does not have a signed SeniorCare rebate agreement between the manufacturer and the DHS. Providers should note that drugs without signed rebate agreements for SeniorCare participants in Levels 2b and 3 will not be covered; however, these drugs may be covered for participants in Levels 1 and 2a.

\*\* This drug has a signed rebate agreement with specific manufacturers. Providers may refer to the Pharmacy Data Tables titled "Numeric Listing of Manufacturers That Have Signed Rebate Agreements" for a list of manufacturers that have signed rebate agreements for SeniorCare. Providers may also call Provider Services at (800) 947-9627 for more information.

\*\*\* Refer to the "Prior Authorization for Brand Name Clozaril® " section of the August 2004 Wisconsin Medicaid and BadgerCare Update (2004-62) titled "Pharmacy Information on Prior Authorization Requirements for Brand Medically Necessary Drugs."
