

ForwardHealth Pharmacy Data Table

Diagnosis Restrictions

Note: Prescribers are required to indicate the diagnosis code or description on prescriptions for diagnosis-restricted drugs. If a diagnosis code is not indicated on the prescription, pharmacy providers should contact the prescriber to obtain the diagnosis code or description. *It is not acceptable for pharmacy providers to obtain the diagnosis code or description from the member.* Please refer to the Wisconsin Medicaid and BadgerCare Plus 2007-64

All diagnosis codes indicated on claims (and PA requests when applicable).

Preferred Diagnosis-Restricted Drugs

Pharmacy providers should submit the most specific ICD-9-CM diagnosis code on claims for preferred drugs.

Non-preferred Diagnosis-Restricted Drugs

Prescribers should indicate the most specific ICD-9-CM diagnosis code for non-preferred drugs on the Prior Authorization/Preferred Drug List (PA/PDL) Exemption Request.

Diagnosis Outside the Allowed Diagnoses

BadgerCare Plus Standard Plan, Medicaid, and Senior Care

If the prescriber writes a prescription with a diagnosis outside the allowed diagnoses for a drug, the pharmacy provider is required to submit a paper prior authorization (PA) request to Forward Health. The prescriber is required to complete the Prior Authorization/Drug Attachment (PA/DGA), F 11049 (10/08), and attach peer-reviewed medical literature to support the proven efficacy of the requested use of the drug. The prescriber should send the PA/DGA and supporting documentation to the pharmacy where the member intends to fill the prescription. The pharmacy provider then completes the Prior Authorization/Request Form (PA/RF), F 11018 (10/08), and submits the forms and supporting documentation to Forward Health.
