## Changes to Immunization CPT Procedure Codes

This *Wisconsin Medicaid and BadgerCare Update* provides information about additions and changes to the *Current Procedural Terminology* codes for immunizations for HealthCheck providers.

### Procedure Code Changes for Immunizations

This *Wisconsin Medicaid and BadgerCare Update* provides information about additions and changes to *Current Procedural Terminology* (CPT) procedure codes. Refer to the Attachment of this *Update* for a complete list of allowable immunization, laboratory test, and other test procedure codes for HealthCheck providers. The Attachment replaces the Attachment in the December 2003 *Update* (2003-162), titled “Immunization CPT procedure code changes.”

### New Immunization Codes

Wisconsin Medicaid has adopted two new immunization CPT procedure codes. The following codes are effective for dates of service (DOS) on and after September 1, 2005:

- 90714 (Td, preservative free, for 7 and older).
- 90734 (Meningococcal conjugate vaccine, serogroups A, C, Y and W-135 [tetravalent], for intramuscular use).

The revised description for procedure code 90715 (Tetanus, diphtheria toxoids and acellular pertussis vaccine [Tdap], for use in individuals 7 years or older, for intramuscular use) will be effective for DOS on and after September 1, 2005. The Tdap vaccine will be covered by the Vaccines for Children Program effective for DOS on and after October 15, 2005.

### Noncovered Immunization Code

Effective for DOS on and after September 1, 2005, Wisconsin Medicaid will no longer reimburse procedure code 90701 (Diphtheria, tetanus toxoids, and whole cell pertussis vaccine [DTP], for intramuscular use).

### Information Regarding Medicaid HMOs

This *Update* contains Medicaid fee-for-service policy and applies to providers of services to recipients on fee-for-service Medicaid only. For Medicaid HMO or managed care policy, contact the appropriate managed care organization. Wisconsin Medicaid HMOs are required to provide at least the same benefits as those provided under fee-for-service arrangements.

The *Wisconsin Medicaid and BadgerCare Update* is the first source of program policy and billing information for providers.

Although the *Update* refers to Medicaid recipients, all information applies to BadgerCare recipients also.

Wisconsin Medicaid and BadgerCare are administered by the Division of Health Care Financing, Wisconsin Department of Health and Family Services, P.O. Box 309, Madison, WI 53701-0309.

For questions, call Provider Services at (800) 947-9627 or (608) 221-9883 or visit our Web site at [dhfs.wisconsin.gov/medicaid/](http://dhfs.wisconsin.gov/medicaid/).

## Immunization, Laboratory Test, and Other Test Procedure Codes for HealthCheck Providers

The following tables list procedure codes for HealthCheck providers.

<b>Immunizations</b>	
<b>Code</b>	<b>Description</b>
90632 <sup>1</sup>	Hepatitis A vaccine, adult dosage, for intramuscular use
90633 <sup>1</sup>	Hepatitis A vaccine, pediatric/adolescent dosage-2 dose schedule, for intramuscular use
90634 <sup>1</sup>	Hepatitis A vaccine, pediatric/adolescent dosage-3 dose schedule, for intramuscular use
90636 <sup>1</sup>	Hepatitis A and hepatitis B vaccine (HepA-HepB), adult dosage, for intramuscular use
90645 <sup>1</sup>	Hemophilus influenza B vaccine (Hib), HbOC conjugate (4 dose schedule), for intramuscular use
90646 <sup>1</sup>	Hemophilus influenza B vaccine (Hib), PRP-D conjugate, for booster use only, intramuscular use
90647 <sup>1</sup>	Hemophilus influenza B vaccine (Hib), PRP-OMP conjugate (3 dose schedule), for intramuscular use
90648 <sup>1</sup>	Hemophilus influenza B vaccine (Hib), PRP-T conjugate (4 dose schedule), for intramuscular use
90655 <sup>1</sup>	Influenza virus vaccine, split virus, preservative free, for children 6-35 months of age, for intramuscular use
90656 <sup>1</sup>	Influenza virus vaccine, split virus, preservative free, for use in individuals 3 years and above, for intramuscular use
90657 <sup>1</sup>	Influenza virus vaccine, split virus, for children 6-35 months of age, for intramuscular use
90658 <sup>1</sup>	Influenza virus vaccine, split virus, for use in individuals 3 years of age and above, for intramuscular use
90660	Influenza virus vaccine, live, for intranasal use
90669 <sup>1</sup>	Pneumococcal conjugate vaccine, polyvalent, for children under 5 years, for intramuscular use
90698 <sup>1</sup>	Diphtheria, tetanus toxoids, acellular pertussis vaccine, haemophilus influenza Type B, and poliovirus vaccine, inactivated (DTaP – Hib – IPV), for intramuscular use
90700 <sup>1</sup>	Diphtheria, tetanus toxoids, and acellular pertussis vaccine (DTaP), for use in individuals younger than 7 years, for intramuscular use
90702 <sup>1</sup>	Diphtheria and tetanus toxoids (DT) adsorbed for use in individuals younger than 7 years, for intramuscular use
90707 <sup>1</sup>	Measles, mumps and rubella virus vaccine (MMR), live, for subcutaneous use
90713 <sup>1</sup>	Poliovirus vaccine, inactivated, (IPV), for subcutaneous use
90714 <sup>1</sup>	Td, preservative free, for 7 and older
90715 <sup>4</sup>	Tetanus, diphtheria toxoids and acellular pertussis vaccine [Tdap], for use in individuals 7 years or older, for intramuscular use
90716 <sup>1</sup>	Varicella virus vaccine, live, for subcutaneous use
90718 <sup>1</sup>	Tetanus and diphtheria toxoids (Td) adsorbed for use in individuals 7 years or older, for intramuscular use
90732 <sup>1</sup>	Pneumococcal polysaccharide vaccine, 23-valent, adult or immunosuppressed patient dosage, for use in individuals 2 years or older, for subcutaneous or intramuscular use
90734 <sup>1</sup>	Meningococcal conjugate vaccine, serogroups A, C, Y and W-135 (tetraivalent), for intramuscular use
90740 <sup>1</sup>	Hepatitis B vaccine, dialysis or immunosuppressed patient dosage (3 dose schedule), for intramuscular use
90743	Hepatitis B vaccine, adolescent (2 dose schedule), for intramuscular use
90744 <sup>1</sup>	Hepatitis B vaccine, pediatric/adolescent dosage (3 dose schedule), for intramuscular use
90746 <sup>1</sup>	Hepatitis B vaccine, adult dosage, for intramuscular use
90747 <sup>1</sup>	Hepatitis B vaccine, dialysis or immunosuppressed patient dosage (4 dose schedule), for intramuscular use
90748 <sup>1</sup>	Hepatitis B and Hemophilus influenza B vaccine (HepB-Hib), for intramuscular use
90749	Unlisted vaccine/toxoid

Laboratory Tests	
Code	Description
81002 <sup>2</sup>	Urinalysis, by dip stick or tablet reagent for bilirubin, glucose, hemoglobin, ketones, leukocytes, nitrite, pH, protein, specific gravity, urobilinogen, any number of these constituents; non-automated, without microscopy
82465 <sup>3</sup>	Cholesterol, serum or whole blood, total
82947 <sup>3</sup>	Glucose; quantitative, blood, (except reagent strip)
85013 <sup>2</sup>	Blood count; spun microhematocrit
85018 <sup>2</sup>	hemoglobin (Hgb)
99000	Handling and/or conveyance of specimen for transfer from the physician's office to a laboratory

Other Tests	
Code	Description
86580	Skin test; tuberculosis, intradermal

<sup>1</sup>Vaccine is provided through the Vaccines for Children (VFC) Program. Refer to the HealthCheck Screening Services Handbook for information on the VFC Program.

<sup>2</sup>Service may be performed by HealthCheck agencies with an approved Clinical Laboratory Improvement Amendment (CLIA) waiver.

<sup>3</sup>Service may only be performed for high-risk children and requires appropriate follow-up.

<sup>4</sup>The Tdap vaccine will be covered by the VFC Program effective for dates of service on and after October 15, 2005.

The following table lists the allowable place of service codes for HealthCheck providers.

Place of Service Code	Description
05	Indian Health Service Free-Standing Facility
06	Indian Health Service Provider-Based Facility
07	Tribal 638 Free-Standing Facility
08	Tribal 638 Provider-Based Facility
11	Office
12	Home
50	Federally Qualified Health Center
71	State or Local Public Health Clinic
72	Rural Health Clinic
99	Other Place of Service
