Revised Hearing Aid Contract Models and Pricing Effective September 2015

Effective for hearing aids dispensed on and after September 1, 2015, ForwardHealth has implemented annual manufacturer revisions on the volume purchase contracts for hearing aids. This ForwardHealth Update provides information about the hearing aid models and purchase rates now available through the volume purchase contract.

Effective for hearing aids dispensed on and after September 1, 2015, ForwardHealth has implemented manufacturer revisions on the volume purchase contracts for hearing aids. The volume purchase contracts for hearing aids are part of the volume purchase program for durable medical equipment. Some models and purchase rates have changed under the volume purchase contract, but policies and procedures for hearing aids have not changed.

Note: There is a five-year life expectancy on hearing aids for adults and a three-year life expectancy on hearing aids for children ages 17 and younger.

Hearing Aid Manufacturers

Providers may only purchase hearing aids from the manufacturers who have entered a contract with ForwardHealth. Refer to Attachment 1 of this *ForwardHealth Update* for manufacturers who have signed a volume purchase contract and have at least one model available through this contract.

Hearing Aid Models and Purchase Rates Available

Refer to Attachment 2 for an updated list of procedure codes, procedure code descriptions, manufacturers, hearing aid models, purchase rates, and repair rates covered by the volume purchase contract. Purchase rates were established by the manufacturers for the hearing aid models available through the volume purchase contract. Providers are reminded that the contracted purchase rate for the hearing aids listed in Attachment 2 (not their usual and customary charge) is required to be indicated on claims and prior authorization (PA) requests. Prior authorization is required for the purchase of any hearing aid.
