volume, the Wisconsin Medicaid PI Program calculates the standard deduction in order to assist Eligible Professionals in determining their eligible patient encounters. The standard deduction for Program Year 2021 is 4.47 percent.

“**The standard deduction for Program Year 2021 is 4.47 percent.**”

To calculate eligible patient encounters, Eligible Professionals should multiply the total eligible encounter patient volume by a factor of $(1 - 0.0447)$, which is 0.9553, and then divide that number by the total patient encounter volume. The final number should be rounded to the nearest whole number (that is, 0.01–0.49 should be rounded down to the nearest whole number, and 0.50–0.99 should be rounded up to the nearest whole number).

For examples of how to calculate individual and group patient volume, Eligible Professionals may refer to the [Example of Calculating Individual Patient Volume](#) topic (#12100) and the [Example of Calculating Group Practice Patient Volume](#) topic (#12101) of the ForwardHealth Online Handbook.

Audits and Appeals

As a reminder, Eligible Professionals who receive incentive payments from the Wisconsin Medicaid PI Program may be subject to an audit at any time. A failed audit may result in a recoupment of incentive payments. Eligible Professionals are required to retain all relevant supporting documentation used when completing a Wisconsin Medicaid PI Program application for six years post-attestation and submit it to the Wisconsin Department of Health Services upon request. The [Meaningful Use of Certified EHR Technology](#) chapter of the Online Handbook contains examples of relevant supporting documentation an Eligible Professional must retain for audit purposes.

For information on the appeals process, Eligible Professionals should refer to the [Appeals Process](#) topic (#12137) of the Online Handbook.
