Revised DMS Index

HCPCS changes effective April 1, 1998

The following code description changes result from the 1998 HCPCS (HCFA Common Procedure Coding System) update:

- A5113, leg strap; latex, replacement only, per set.
- A5114, leg strap; foam or fabric, replacement only, per set.
- A6261, wound filler, gel/paste, per fluid ounce, not elsewhere classified.
- A6262, wound filler, dry form, per gram, not elsewhere classified.

Other changes effective April 1, 1998

- A4402, Lubricant per ounce. The quantity allowed is increased to 8 ounces per month.
- 97007-8471-30, Syringe Insulin Lo Dose, is deleted. (Use 97007-0300-00, syringe insulin all sizes.)
- 96000-9503-01, Syringe Luer Tip, is deleted since it duplicates other codes.
- 97007-0100-50, Syringe 50CC Disp, is deleted. (Use 91000-0003-48, Syringe 50/60CC.)
- 00169-1852-60, Novopen 1.5 Insulin Device, is new, added to replace an obsolete code, 00003-1875-35, Novolinpen, which is deleted.

Maximum allowable fees increase

The biennial budget (1997 Wisconsin Act 27) authorized a 2 percent increase in maximum allowable fees for durable medical supplies (DMS) effective July 1, 1997. (See *Medicaid Update 97-40*, dated December 3, 1997.) This increase is reflected in the attached DMS Index. In the next few months, Wisconsin Medicaid will automatically adjust claims already paid.

Copayment changes

Except for urine and blood glucose test strips, the biennial budget changed copayments for DMS effective January 1, 1998. (See *Medicaid Update 97-36*, dated November 12, 1997.) Wisconsin Medicaid bases copayments for each procedure code on its maximum allowable fee:

<u>Maximum Fee</u>	<u>Copayment</u>
• Up to \$10.00	\$0.50
• From \$10.01 to \$25.00	\$1.00
• From \$25.01 to \$50.00	\$2.00
• Over \$50.00	\$3.00

The copayment amount for urine and blood glucose test strips remains 50 cents.
