

Comprehensive Examination Requirement Procedure Codes for BadgerCare Plus Core Plan

The following table list *Current Procedural Terminology* (CPT) procedure codes that satisfy the comprehensive examination requirement under the BadgerCare Plus Core Plan for dates of service on and after January 1, 2009.

Procedure Code	Description
99203	Office or other outpatient visit: evaluation and management of new patient: Detailed history/examination and medical decision making of low complexity (30 min)
99204	Office or other outpatient visit for the evaluation and management of a new patient: Comprehensive history/examination and medical decision making of moderate complexity (45 min)
99205	Office or other outpatient visit for the evaluation and management of a new patient: Comprehensive history/examination and medical decision making of high complexity (60 min)
99214	Office or other outpatient visit for the evaluation and management of an established patient: Requires two of the following three: Detailed history, detailed examination, and medical decision making of moderate complexity (25 min)
99215	Office or other outpatient visit for the evaluation and management of an established patient: Requires two of the following three: Comprehensive history, comprehensive examination, and medical decision making of high complexity (40 min)
99218	Initial observation care, per day, for the evaluation and management of a patient: Requires these 3 key components: a detailed or comprehensive history, a detailed or comprehensive examination, and medical decision making that is straightforward or of low complexity. Usually, the problem(s) requiring admission to "observation status" are of low severity.
99219	Initial observation care, per day, for the evaluation and management of a patient: Requires these 3 key components: a comprehensive history, a comprehensive examination, and medical decision making of moderate complexity. Usually, the problem(s) requiring admission to "observation status" are of moderate severity.
99220	Initial observation care, per day, for the evaluation and management of a patient: Requires these 3 key components: a comprehensive history, a comprehensive examination, and medical decision making of high complexity. Usually, the problem(s) requiring admission to "observation status" are of high severity.
99221	Initial hospital care, per day, for the evaluation and management of a patient: Detailed or comprehensive history/examination and medical decision making that is straightforward or of low complexity (30 min)
99222	Initial hospital care, per day, for the evaluation and management of a patient: Comprehensive history/examination and medical decision making of moderate complexity (50 min)

Procedure Code	Description
99223	Initial hospital care, per day, for the evaluation and management of a patient: Comprehensive history/examination and medical decision making of a high complexity (70 min)
99234	Observation or inpatient hospital care for the evaluation and management of a patient: Detailed or comprehensive history/examination and medical decision making that is straightforward or of low complexity
99235	Observation or inpatient hospital care for the evaluation and management of a patient: Comprehensive history/examination and medical decision making of moderate complexity
99236	Observation or inpatient hospital care for the evaluation and management of a patient: Comprehensive history/examination and medical decision making of a high complexity.
99243	Office consultation for a new or established patient: Detailed history/examination and medical decision making of low complexity (40 min)
99244	Office consultation for a new or established patient: Comprehensive history/examination and medical decision making of moderate complexity (60 min)
99245	Office consultation for a new or established patient: Comprehensive history/examination and medical decision making of high complexity (80 min)
99253	Inpatient consultation for a new or established patient: Detailed history/examination and medical decision making of low complexity (55 min)
99254	Inpatient consultation for a new or established patient: Comprehensive history/examination and medical decision making of moderate complexity (80 min)
99255	Inpatient consultation for a new or established patient: Comprehensive history/examination and medical decision making of high complexity (110 min)
99284	Emergency department visit for the evaluation and management of a patient: Requires these 3 key components: a detailed history, a detailed examination, and medical decision making of moderate complexity.
99285	Emergency department visit for the evaluation and management of a patient: Requires these 3 key components within the constraints imposed by the urgency of the patient's clinical condition and/or mental status: a comprehensive history, a comprehensive examination, and medical decision making of high complexity. Usually, the presenting problem(s) are of high severity and pose an immediate significant threat to life or physiologic function.
99326	Domiciliary or rest home visit for the evaluation and management of a new patient: Requires these 3 key components: a detailed history, a detailed examination, and medical decision making of moderate complexity (45 min).
99327	Domiciliary or rest home visit for the evaluation and management of a new patient: Requires these 3 key components: a comprehensive history, a comprehensive examination, and medical decision making of moderate complexity (60 min).
99328	Domiciliary or rest home visit for the evaluation and management of a new patient: Requires these 3 key components: a comprehensive history, comprehensive examination, and medical decision making of high complexity (75 min).

Procedure Code	Description
99336	Domiciliary or rest home visit for the evaluation and management of an established patient: Requires at least two of the following three key components: detailed interval history, detailed examination, and medical decision making of moderate complexity (40 min).
99337	Domiciliary or rest home visit for the evaluation and management of an established patient: Requires two of the following three key components: comprehensive interval history, comprehensive examination, and medical decision making of moderate to high complexity (60 min)
99343	Home visit for the evaluation and management of a new patient: Detailed history/examination, medical decision making of moderate complexity (45 min)
99344	Home visit for the evaluation and management of a new patient: Comprehensive history/examination, medical decision making of moderate complexity (60 min)
99345	Home visit for the evaluation and management of a new patient: Comprehensive history/examination, medical decision making of high complexity (75 min)
99349	Home visit for the evaluation and management of an established patient: Requires two of the following three key components: Detailed interval history, detailed examination, and medical decision making of moderate complexity (40 min)
99350	Home visit for the evaluation and management of an established patient: Requires two of the following three key components: Comprehensive interval history, comprehensive examination, and medical decision making of moderate to high complexity (60 min)
99385	Initial comprehensive preventive medicine: evaluation and management of an individual including an age and gender appropriate history, examination, counseling/anticipatory guidance/risk factor reduction interventions, and the ordering of laboratory/diagnostic procedures, new patient; 18-39 years
99386	40-64 years
99395	Periodic comprehensive preventive medicine: reevaluation and management of an individual including an age and gender appropriate history, examination, counseling/anticipatory guidance/risk factor reduction interventions, and the ordering of laboratory/diagnostic procedures, established patient; 18-39 years
99396	40-64 years
