

ForwardHealth

Covered Active Pharmaceutical Ingredients (APIs) and Excipients

An API is a bulk drug substance, which is defined by the Food and Drug Administration (FDA) as any substance that is represented for use in a drug and that, when used in the manufacturing, processing, or packaging of a drug, becomes an active ingredient of the drug product. Excipients are inactive substances used in compounds.

For BadgerCare Plus Standard Plan, Medicaid, and SeniorCare members, ForwardHealth may cover the products listed below on compound drug claims. Users should also consult the ForwardHealth Online Handbook for current policies and procedures for compound claims.

Effective: 6/5/2020

Active Pharmaceutical Ingredients
